### You, *Too,* Can Learn to Boss This Job

"Electrical Experts" Earn \$12 to \$30 a Day What's Your Future?

To-day you are probably earning \$3 or the same six days as an "Electrical Expert" you can make from \$70 to \$200 a week, and make it easier—not work half

Why, then, work all your life for barely nothing when you can fit yourself for a

#### Be an "Electrical Expert."

Even the ordinary electrican—the "screw-driver kind" — is making money — big money. But it's the "trained man"—the man who knows the whys and wherefores of Electricity—the "Electrical Expert"—who is picked out to "boss" ordinary electricians—to "boss" the big jobs—the jobs that pay Big Money.

### I Will Train You at Home.

As Chief Engineer of the Chicago Engineering Works, I know exactly the kind of training you need to succeed as an "Electrical Expert"—and I will give you that training in your spare time at home.

### Make \$3,500 to \$10,000 a Year.

You don't have to work for less. My You don't have to work for less. My simple, thorough and successful Home Study Course in Electricity offers every man, regardless of age, education and previous experience, the chance to become an Electrical Expert in a very short time—and Electrical Experts make \$3,500 to \$10,000 a year.

#### Earn as You Learn.

Don't let money matters worry you. My terms are easy—and with me you Earn as you Learn—and have money to spare. Some of my students are averaging as much as \$25 a week doing spare time electrical work.

#### Money Back Guarantee.

Under bond, I absolutely guarantee to return every penny paid me if you are not entirely satisfied with my instruction. Back of me, in my guarantee stands the Chicago Engineering Works, Inc., a Million Dollar Institution.

#### FREE-Electrical Outfit-FREE.

After the first few lessons you start right in to WORK AT YOUR PROFESSION in a practical way. For this you need apparatus and I give it to you AB-SOLUTELY FREE.

#### Start Now-TO-DAY.

this OPPORTUNITY into real Turn this OPPORTUNITY into real money. You can't fail if you start. Write to-day for my big FREE book "How to Become an Electrical Expert," Don't hesitate—WRITE ME TO-DAY.

#### L. L. Cooke, Chief Engineer,

Chicago Engineering Works, Inc., Dept. 1660, 2154 Lawrence Ave., Chicago.

The Cooke Irained Man is the Big Pay Man

Whether it is purchased as a gift—for the bride, for the sweetheart or for the graduate—or as a safety vault for the family woolens, the Cedar Chest must meet certain requirements.

To withstand a lifetime of use, it must be stanch; to be effective, it must be closely constructed and dust-proof; to be worthy of a place in the home, it must be attractive—pleasingly designed and well finished.

Roos Chests do more than meet these requirements. They were created to match the finest of furniture, not only in design and construction, but in finish. It is possible to procure a Roos Chest in almost any period design; in genuine mahogany and walnut, and with a cedar interior.

THE CHICAGO ELEVATED RAILROADS have established a record for the safe transportation of passengers that stands without a parallel among transportation companies.

In 1916 the American Museum of Safety awarded the Chicago Elevated Railroads "Honorable Mention" for the work done in the way of accident prevention.

Nineteen committees working under the direction of a Safety Engineer and numbering 115 persons in the aggregate hold regular semi-monthly meetings to act on suggestions for the protection of the employes and the traveling public.

One hundred and twenty-five First Aid Stations are located along the elevated lines, so that minor injuries to employes may receive immediate attention.

First Aid teams, composed of employes who have received a course in medical training, are organized on each road to apply first aid methods in case of accident.

Safety first and always is the watchword of the Elevated management. Civic pride alone, aside from individual interest, should induce Elevated patrons to co-operate with the management in the prevention of accidents.

Twelve hundred tons of steel were used in the construction of the plant, which is re-enforced with concrete.

### REGISTER YOUR PROPERTY

UNDER THE

### TORRENS SYSTEM

By JOSEPH F. HAAS, Registrar of Titles of Cook County

What is the Torrens System in Cook County? It is a system of registering the title of land, with a guarantee by the people of Cook County that the title as registered is correct.

It's the modern, up-to-date method of holding and transferring title to real estate.

#### **BECAUSE**

- 1. Cook County guarantees each Torrens title with three billion dollars of taxable assets.
- 2. The Indemnity Fund of over fifty thousand dollars insures the immediate cash payment of any damages sustained.
- 3. Protection is given owners against judgments rendered against people of the same or similar name.
- 4. Special protection is afforded against tax sales and tax deeds.
- 5. Owners are protected against fraudulent signatures on deeds or other instruments.
- 6. Adverse possession does not run against land registered under the Torrens System.
- 7. A Torrens Certificate of Title is conclusive evidence of good and valid title.
- 8. Defects in title are wiped out forever by initial registration.
- 9. Transfers may be made in one-third the time required under other systems.
- 10. The transfer fee is only \$3.00 no matter what the value may be of the property transferred.
- 11. The Circuit Court of Cook County retains a continuing jurisdiction for the purpose of protecting the title to Torrens property.
- 12. No statute of limitations runs against the guarantee of a Torrens Certificate.

# LOOK UNDER THE LID!

### Tunnel Your Goods and Save Money

Look under the lid of Chicago's Loop—"the busiest square mile in the world"—and see what is going on forty feet below. The business traffic of the city is not all on the surface.

### **Busy Beavers**

A veritable army of busy beavers are at work down under the Loop's lid—and many of them work both day and night. In the form of steel freight cars they are busily plowing their way over the 60-mile network of tunnel tracks constituting the transportation facilities of the

### Chicago Tunnel Company

Quietly, efficiently, rapidly and safely these tireless carriers haul 2,400 tons or more of freight daily from the freight terminals of the railroads to the city's warehouses and office buildings. They will carry for a customer a single package or a carload or a whole trainload. They carry as willingly a lady's hat as a ton of coal. And they help to beautify the city by being the silent arteries through which flows the debris of razed buildings, excavations and other unsightly impedimenta.

There are four Public Receiving stations, all conveniently reached from the Loop, and there are hundreds of connecting stations within the Loop itself.

This system for freight traffic keeps 6,000 or more trucks off the already congested Loop streets during every business day.

### Save Time—Save Money

This method of transportation is a saving to the shipper, for the railroads literally "pay the freight." Save your money and your time. Tunnel your goods and pull down your overhead.

### Speeding the Spoken Word

Giving telephone service to the people of Illinois is a big and complicated job. The Illinois Bell Telephone Company handles more than 4.000,000 local calls per day as well as more than 70,000 long distance calls. To give this service requires a force of 21,000 persons engaged in answering calls, maintaining the lines in working order and extending the system to meet the demands of business and domestic uses. The annual payroll of the Illinois Bell Telephone Company exceeds \$24,000,000. The company owns and operates 875,000 telephones in its territory and connects with 350,000 telephones operated by smaller companies, which thereby obtain connection with the Bell long distance system, making a total of 1,225,000 telephones or one to every five persons.

Chicago alone has more than 625,000 telephones in use. This is more telephones than there are on the continents of Asia, Africa and South America taken together; more than there are in France, Italy, Spain, Greece, Portugal and Norway combined.

\* \* \* \*

If the calls made in Chicago in one day were formed into one continuous call, it would consume 6,250,000 minutes or twelve years. It is estimated that in Chicago the use of the telephone saves 30,000,000,000 minutes daily.

The company has within the limits of Chicago more than 2,000,000 miles of wire, sufficient to encompass the earth at the equator 76 times.

The company operates 229 central offices. It has 2,500,000 miles of wire in its state system, mostly in underground cables, which guard against delays caused by storms and other unforeseen happenings.

In the last ten years the growth has been three times that of the preceding thirty years and so tremendous is Chicago's expansion that the existing plant, in the opinion of engineers, must be doubled in the next ten years if the company maintains its present service for the city.

Chicago, with a population of slightly less than 3,000,000, has one telephone to every five persons. Paris, France, with approximately the same population, has one telephone to each twenty-four persons. London has one telephone to each twenty-three persons. Chicago has more telephones in proportion to population than any large city in the world.

The company has about 16,000 employees in Chicago, including 9,000 operators who handle the city and suburban calls, which vary from about 1,000 per hour after midnight to more than 260,000 per hour during the busy periods of the day. The total number of calls made in Chicago averages 2,750,000 daily. There are nearly 8,000 subscribers' private branch exchange switchboards in use, through which telephone service of the large business concerns of the city is handled. These concerns employ more than 10,000 operators.

A small army of experts is employed by the telephone company to keep the lines and equipment in good working condition. These experts are prepared at a moment's notice, night or day, to meet emergencies.

To facilitate the use of the telephone in Chicago, 1,300,000 directories are distributed annually. If placed end to end, they would reach from Chicago to Toledo, Ohio.

\* \* \* \*

The first telephone was installed in Chicago in 1877, a year after Alexander Graham Bell exhibited his telephone at the Centennial Exposition and only three months after the first telephone had been constructed. The first telephone exchange was located on the top

floor of the building at 11 South LaSalle Street and the wires were strung over the tops of buildings. On December 21, 1878, the Bell Telephone Company of Illinois was chartered with an authorized capital stock of \$80,000. In January, 1881, the Chicago Telephone Company was incorporated with a capital of \$500,000. The property of the American District Telegraph Company and the Bell Telephone Company of Illinois was bought and the two systems unified.

At the end of 1882 the company had 2,610 telephones in Chicago and 392 in the suburbs. For several years growth was slow and it was not until 1896 that the great period of expansion began. Since that time the growth has been very rapid.

Throughout its entire career the company has endeavored to give the highest possible quality of service to the public and to keep pace with the tremendous demands for service which the rapid growth of the city and state has produced. This policy will be adhered to throughout the years to come.

Illinois Bell Telephone Company

## Every Department

in this bank is organized and maintained to give our customers that help and constructive advice which is natural to expect from a solid banking connection.

COMMERCIAL This department handles check-BANKING ing accounts, makes commercial loans and issues certificates of deposit. Pays interest on satisfactory balances. Consult any officer on these matters.

SAVINGS Receives savings deposits of \$1.00 or more and pays 3 per cent interest. Loans "Home" banks to depositors. Open Mondays all day until 8 p. m.

BONDS Buys and sells U.S.Government, foreign government, corporation and building bonds. Current list of investments on application.

TRUSTS Assumes the management of property in all trust capacities and acts as Transfer Agent, Registrar or Fiscal Agent for corporations. This department is equipped to render trust service of the highest character.

MORTGAGES Deals in highgrade real estate bonds and mortgages, netting 7 per cent. Makes mortgage loans on improved Chicago property. Building loans a specialty. Write for latest circular.

FOREIGN TRADE Handles foreign exchange and all kinds of foreign business.

SAFETY VAULTS Rents boxes from \$3.00 a

year upwards. Storage room for trunks, Your inspection cordially invited.

Capital and Surplus \$7,000,000

## MOMENTOUS NEWS IN BOOKS

News is that which is new. The most important news in the world is often found in books—the news of ideas that affect the world's destiny.

Books advancing new ideas are being published continually. There are Einstein's theory of relativity and Freud's principles of psychanalysis, to cite two recent and important examples.

To keep pace with the new idea books—the important works of fiction, art, poetry, history and technology—would keep one ordinarily busy, allowing not much time for breadwinning, if one had to read all the new books one's self and sift the good from the worthless.

However, this necessity is happily discharged by the editors and reviewers of The Wednesday Book Page of The Chicago Daily News, whose pleasant duty it is to survey the whole world of books from week to week, and inform their readers as to just what books are of unusual importance or interest.

Read The Book Page regularly and you may be sure that you will not miss any important or worth-while book. Besides book news and book reviews, it contains delightful gossip about books and bookish people.

## ALMANAC AND YEAR-BOOK FOR 1923

[Astronomical calculations for 1923 by B. Hart Wright, DeLand, Fla.]

All the calculations in this Almanac and Year-Book are based upon mean or clock time unless otherwise stated. The sun's rising and setting are for the upper limb, corrected for parallax and refraction; with the moon these are of an opposite nature and just balance each other. The figures given, therefore, are for the moon's center on a true horizon such as the ocean affords.

The calculations in each of the geographical divisions of each calendar page will apply with sufficient accuracy to all places in contiguous zones indicated by the heading of the divisions.

Daylight Saving—Advance one hour in May, June, July, August and September to convert into the "daylight saving time" where same is used locally.

#### BEGINNING AND LENGTH OF SEASONS.

#### ERAS OF TIME.

Gregorian year 1923 corresponds to which the days of the week occur on the same the following eras:

The latter part of the 147th and the beginning of the 148th years of the independence of the United States.

The year 1341-42 of the Mohammedan era; the year 1342 begins Aug. 13.

The year 1342 begins Aug. 13.

the year 1342 begins Aug. 13.

The year 4620 (nearly) of the Chinese era, beginning now. Jan. 1.

The year 2335 of the Grecian era.

The year 5683-84 of the Jewish era; the year 5684 begins at sunset Sept. 10.

The year 7432 of the Byzantine era, begins Sept. 1.

The year 2582 of the Byzantine era, begins

The year 2583 of the Japanese era.

The year 6636 of the Julian period, and Jan. 1 is the 2.423.421st day since the beginning of the Julian period.

#### CHRONOLOGICAL CYCLES.

Dominical or Sunday letter
Epact of moon's age, Jan. 1 13
Lunar cycle or golden number
Solar cycle 28
Roman indiction
Dyonysian period
Jewish lunar cycle
Julian period
Explanation.

Dominical Letters-The first seven letters of Dominical Letters—Ine first seven letters of the alphabet are used to show the days of the year on which Sunday falls. Thus in 1923 G, seventh of the Dominical letters, indicates that the seventh day of the year is Sunday, G being the seventh letter of the alphabet; two letters are used for leap years.

Epact—The moon's age on Jan. 1.
Golden Number—The year's place in the lunar cycle.

Solar Cycle—A period of 28 years, during

day of the month as during the previous cycle, Lunar Cycle—A period of 19 years, during which the phases of the moon occur on the same day of the year as during the previous cycle.

Roman Indiction—A period of 15 years, used first by the Romans for taxing provinces.

Julian Period-This period begins when the indiction, solar cycle, and lunar cycle all begin together.

CIVIL AND ASTRONOMICAL DAY. The civil day begins at midnight and comprises 24 hours the hours being counted from 0 to 12 in two series, the first marked a. m. running from midnight to noon and the second marked p. m. running from noon to midnight.

marked p. m. running from noon to midnight. The astronomical day begins at noon on the civil day of the same date, the 24 hours being counted from 0 to 24, running from noon of one day to noon of the next following day. Astronomical time as well as civil time may be either apparent or mean, the first being used mainly in connection with sundials, noon marks or meridians, to which the amount of sun fast or slow must be applied for conversion into clock time. For "summer time." May to September, inclusive, add 1 hour to all standard divisions standard divisions.

The civil day begins twelve hours before the The civil day begins twelve hours before the astronomical day; therefore the first half of the civil day coincides with the last half of the preceding astronomical day, and the last half of the civil day coincides with the first half of the astronomical day of the same day. Therefore the hours less than 12 of the astronomical day equal p. m. of the same civil day and those more than 12, after deducting 12, are a. m. of the next civil day.

\*The Eastern Greek church celebrates Easter March 26, old style, and Good Friday the 24th, and Great Lent on Monday after Quinquagesima.

# THE PLANETS.

Morning stars—Mercury, Feb. 20-25 and Oct. 10-15; Venus, until Sept. 10; Mars, after Aug. 8; Jupiter, until Feb. 7 and after Nov. 22; Saturn, until Jan. 11 and after Oct. 17. Evening stars—Mercury, Jan. 10-15, Sept. 1-5 and Dec. 25-30; Venus, after Sept. 10; Mars until Aug. 8; Jupiter from Feb. 7 to Nov 22; Saturn, from Jan. 11 to Oct. 17. Brightest or best seen—Mercury, within the time limits given above when an evening or morning star, and then only for a brief time about one hour and fifteen minutes before sunrise or at the same interval after sunset and

rise or at the same interval after sunset and near that point of the horizon where the sun

will rise or set, when he may be seen shining with a steady dullish red light, quite unlike that of a first magnitude star or any other planet; Venus, at the first of the year; Mars, at the first and last of the year; Jupiter, May 1-10: Saturn, April 2-12; Uranus, Sept. 1-15, and Neptune, Feb. 1-15.

Invisible or very dim—Mercury, always except as noted above; Venus, July, August and October; Mars, June to September; Jupiter, November and December; Saturn, September to December; Uranus and Neptune, always.

All-night stars-Jupiter in May and Saturn

in April.

#### ECLIPSES IN 1923.

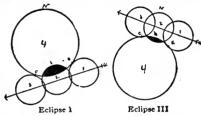

There will be four eclipses in 1923, as fol-

lows:
I. Partial of the moon March 2, on the moon's northern limb as shown in the annexed where the arrow indicates the direction of the moon from west to east in passing through the earth's shadow.

The first contact or beginning will take place at a at 8:28 p. m.; middle or greatest clipse at b at 9:32 p. m., when .37 of her diameter will be in the shadow, and the end or last contact at c at 10:36 p. m. in central standard time.

II. Annular of the sun March 16-17, visible in South Africa and South America,
III. Partial of the moon Aug. 26. Size .17

of the entire diameter, as shown by the annexed cut at b. Beginning at a at 3:52

a. m., middle at b, 4:40 a. m., close to the time of the setting of the moon, central stand-

The arrows indicate the direction and paths of the moon through the dark shadows (umbra) of the earth (4). I being the beginning, with the first point of contact at a, 2 the middle or greatest eclipse, and 3 the last point of contact at c.

IV. 10. Total of the sun in the afternoon of Sept. 10. As shown by the maps annexed the total phase will be visible in southwestern California and northern Mexico. Times of beginning, middle or greatest size and end for all places in United States may be approximately known by inspection of annexed maps.

ECLIPSE OF SUN SEPT. 10. Appearance of the sun with eclipsed. See chart C.

eclipsed. See chart C.
Examples: Savannah, Ga., begins 2:40 p.
m. central time or 3:40 p. m. eastern time;
ends 4:45 p. m. central time—5:45 p. m.
eastern time; greatest size 7. The time of
greatest eclipse may be found very nearly
by ascertaining the duration of the eclipse,
dividing it by two and adding to time of
beginning, which in this instance is 4:42 p. m.
Framples of use of charts: Required the

Examples of use of charts: Required standard time of the beginning, middle Required the greatest eclipse, ending and size at: (1) New Orleans. By chart A the beginning takes place at 2:30, the end, by chart B, at 4:45, and middle or greatest eclipse, which by chart C is 78, or about three-fourths of the south 2:18, 3:19 and 4:20, size .64, and Salt Lake City 1:40, 2:55 and 4:10, size .80, and from this last example must be subtracted 1 hour for mountain time. Throughout the United States the eclipse will be upon the southern limb of the sun (see the illustrations). Thus

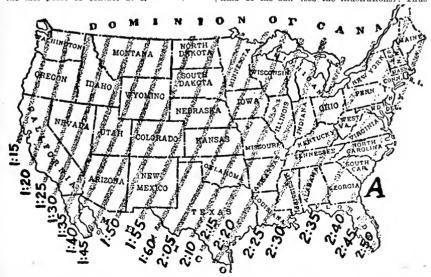

CHART A. BEGINNING OF TOTAL ECLIPSE OF THE SUN SEPT. 10, 1923, IN CENTRAL STANDARD TIME.

(Subtract 1 hr. for mountain and 2 hrs. for Pacific time and add 1 hr. for eastern time.)

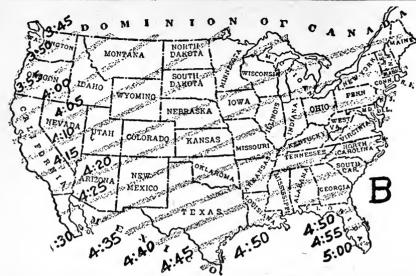

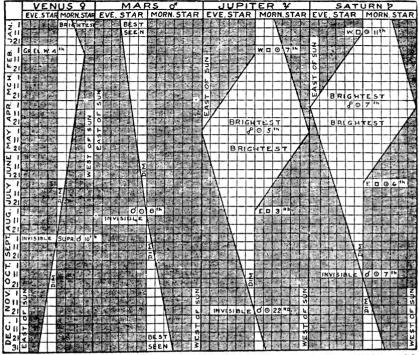

CHART B. ENDING OF TOTAL ECLIPSE OF THE SUN SEPT. 40, 1923, IN CENTRAL STANDARD TIME.

CHART C. SIZE OF THE PARTIAL PHASES OF THE TOTAL ECLIPSE OF THE SUN SEPT. 10, 1923.

any one having in a general way a knowledge of his geographical location can from these charts obtain the full approximate local data of time other than central, for which the charts are made. New York city begins 3:36, ends 5:25, middle 4:30, to which must be added 1 hour addition or subtraction of 1 hour for any

## VISIBILITY OF THE PRINCIPAL PLANETS, 1923.

Explanation—The small perpendicular spaces represent 1 h. or 15° each and the distance from the central line of each division indicates the approximate distance of that planet from the sun, in time or space. Thus Venus will be sun, in time or space. Thus Venus will be 2 h, or 30° east of the sun Dec. 31, sets with the sun on Sept. 10 and will be 3 h, or 45° west of the sun Feb. 4. Being an inferior planet—inside the orbit of the earth—she can

not, like the superior planets, get 180° or 6 h. from the sun, as do Jupiter and Saturn in April and May. At such time the superior planets will be at their brightest, rising at planets will be at their brightest, rising at sunset and shining all night. A superior planet is considered a morning star from conjunction to western quadrature, when 90° west of the sun, when rising at midnight and passing the meridian at 6 a.m.

# CHURCH CALENDAR FOR 1923.

Jan. 1-New Year's day (Circumcision). cumcision).
Jan. 6-Epiphany (12th day).
Jan. 25-Epiphany (12th day).
Jan. 25-Conversion of St. Paul.
Jan. 28-Septuagesima Sunday.
Feb. 2-Purification B. V. M.
Feb. 4-Sexagesima Sunday.
Feb. 13-Shrove Tuesday.
Feb. 14-Ash Wednesday. Lent begins. Feb. 14-St. Valentine's day. Feb. 18-First Sunday in Lent. Feb. 24-St. Mathias. March 1-St. David's day.
March 11-Mid-Lent Sunday.
March 17-St. Patrick's day.
March 25-Annunciation (Lady day).
March 25—Palm Sunday.
March 30—Good Friday.

April 8-Low Sunday.
April 25-St. Mark.
May 1-Philip and James.
May 6-Rogation Sunday.
May 10-Ascension.
May 20-Whitsunday (Pentecost).
May 27—Trinity Sunday.
May 31—Corpus Christi.
June 11—St. Barnabas.
June 24—Nativity of St. John the Baptist. June 29-Peter and Paul, Chief Apostles. Chner Apostles.
July 15-St. Swithin's day.
July 22-Mary Magdalen.
July 25-St. James.
Aug. 15-Assumption B. V. M.
Aug. 24-St. Bartholomew.
Aug. 29-John the Baptist beheaded.

Sept. 8-Nativity of Mary Sept. 14-Exaltation of Holy Cross. Sept. 29-St. Michael and All

Angels.

Simon and Jude.

Dec. 28-Holy Innocents.

Wednesday. Friday and Saturday

April 1-Easter Sunday.

EMBER DAYS. Pentecost.
Sept. 14
Dec. 13.

Explanation: The chart of the heavens shows all the bright stars and groups visible in the United States, Canada, Cuba and Hawaii. Stars of the third magnitude are sometimes shown in order to complete a figure.

If a bright, uncharted body be seen near the "ecliptic circle" it must be a planet. To locate the planets or moon refer to the monthly calendar pages in this almanac, find the proper signs on the chart in the "ecliptic circle" and an inspection of that part of the heavens comparing with the chart will serve to identify the planet and all surrounding objects. (See note with table, page 37.)

Because of the earth's motion from west to east (opposite to the direction of the arrow in the chart), the stars rise 4 m. earlier each day or 30 m. per week or 2 hrs. a month. The chart shows the position at 9 p. m. Then

if the position for any other hour be desired, as for 7 p. m., count ahead one month, or back one month for 11 p. m., and so on for any hour of the night, holding the month desired in front as the face looks either to the north or south with name down.

A circle described from the zenith on the "zenith circle" for the desired latitude with a radius of 90 degrees (see graduated meridian) will show what stars are above the horizon. Thus Capella is near the overhead (zenith) point on latitude 40 degrees north Jan. 15, 9 p. m., as will be "big dipper" at 3 a. m. Then from Capella or two stars all the surrounding visible groups can be identified. The "pointers," being 5 degrees apart and always in sight, may be used as a convenient unit of measure: also when visible, the "belt of Orion." 3 degrees, or the sides of the "square of Pegasus."

# EXPLANATION OF THE SIGNS.

- Aries. Taurus. Gemini. Cancer.
- Ω Leo.

  p Virgo.

  Libra. m Scorpio.
- ≯ Sagittarius.

  Շ Capricornus Aquarius. x Pisces.
- The place indicated is for the constellation in which the planet named is situated on the lst. 2d, 3d, 4th and 5th Sundays of the month, in the order of the planets named. The

sign is one constellation back—thus,  $\tau$  is the first sign, but x is the first constellation.

#### HUNTER'S AND HARVEST MOON.

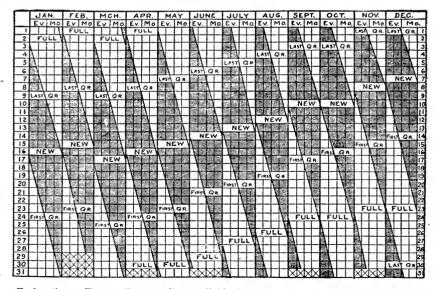

The full moon nearest to Sept. 21 is popularly known as the "harvest moon." This is This is larly known as the "narvest moon." This is because the moon then rises for several consecutive evenings at nearly the same hour, giving an unusual number of moonlight evenings. This is the most noticeable in the higher latitudes and quite disappears at the equator. The "hunter's moon" is the first full

## LIGHT AND DARK OF THE MOON IN 1923.

Explanation: The small perpendicular divisions are of 3 hours each, and the light pontions show the relative amount and place or time of moonlight in the 12 hours from 6 p. m. to 6 a. m. Of course allowance should be made for the increase of daylight in summer and the decrease in winter.

in December the moon will shine only after in December the moon will same only after midnight on the 1st, after 3 a. m. on the 4th, not at all on the 7th, 8th, until 9 p. m. on the 11th, until midnight of the 15th, all night on the 23d, after 9 p. m. on the 27th and after midnight of the 30th.

Explanation: By the absolute scale of magnitudes stars brighter than Aldebaran and Altair are indicated by fractional or negative quantities: thus Vega 0.2 and Sirius —1.4. As the magnitudes increase the brilliancy decreases, each increase of a unit being equal to a decrease of about two and one-half in brightness.

To ascertain when any star or constellation will be on the upper meridian add the number opposite in the column "For Meridian Passage" to the figures in the table on the previous page,

"Sidereal Noon," taking note whether such figures be "Morn," or "Eve." If "Morn," and the sum is more than 12h, the result will be Eve. of same day; if "Eve." and the sum is more than 12h, the result will be Morn, of the next day. Having found the time of meridian passage, for the rising subtract and for the setting add the numbers opposite the star in the column headed "For Rising and Setting" and observe the directions as to Morn, and Eve, given for the meridian passage. Those marked ...... in the last columns are directions as columns are directions as the sum of the meridian passage.

cumpolar. Stars having an asterisk (\*) in the last columns are to be seen only in the far south and then when near the meridian as the vapors of the horizon will prevent seeing them when they rise or set. To tell how high up from the nearest point of the horizon a star will be at its meridian passage, subtract the star's declination from  $90^\circ$  and if the place of the observer that star will neither rise nor of the observer that star will neither rise nor of the observer that star will neither rise nor set, but is circumpolar, and the difference be-tween that result and the latitude shows the star's altitude above the north point of the horizon or below the southern horizon. Or (90°—dec.)—lat.=alt. or elevation of the star above the nearest point of the horizon at meridian passage for stars of a southern declination. Examples:

Sidereal noon, Oct. 30, 9:27 Fomalhaut "In Merid." col., 22:48 9:27 p.m.

Subtract,  $\frac{32:15}{24:00}$ 

8:15 p. m. of 31st, time of meridian passage.

Fomalhaut, dec. 30° S. 90° — 30° = 60°, — 40° = 20°, altitude of Fomalhaut in latitude 40° at its meridian passage. To measure celestial distances with the eye keep in mind that one-third of the distance from the zenith to the horizon is 30°. For smaller measurements use the belt of Orion, 3° long, or the sides of the square of Pegasus; the "pointers" in the "big dipper," which are nearly 5° apart—a convenient celestial yardstick because always to be seen. In the case of a star whose dec. is such as to bring it nearer to the zenith than to a horizon at meridian passage. whose dec. is such as to pring it neares to me zenith than to a horizon at meridian passage, it will be more convenient to use its zenith distance as a means of locating it. The difdistance as a means of locating it. The dif-ference between the latitude and dec. is this zenith distance. If the dec. is greater than the latitude then such distance is to be counted northward, otherwise southward from the zenith.

## SIGNS AND CONSTELLATIONS OF THE ZODIAC.

Until recently it was taken for granted that the present relationship between signs and constellations of the zodiac was generally under-stood, as all astronomical textbooks mention stood, as all astronomical textbooks me their diagreement and explain the cause. meir magreement and explain the cause. The numerous letters of inquiry concerning differ-ences between the data in this almanac and certain others show the necessity for this note of explanation. (Both sign and constellation now given.)

Thousands of years ago when the zodiac, that belt of the heavens about 16° in width within which move the moon and planets, was formed and divided into twelve parts or seaformed and divided into twelve parts or seasons called signs, each containing certain star groups called constellations, each was given the name of an object or animal which never did bear any relationship to the configuration of the stars in that group or division, but which did or is supposed to have reference to certain astronomical or other facts. Thus Libra e, the scales or balance, comes at the autumnal equinox when there is an equipart or balance between the length of day and night the world over. Aquarius e, the water bearer, whose sign is the Egyptian sign for running water, comes at the season of greatest rains in Egypt, and so on.

Since the time when these divisions were made and named, owing to the precession of the equinoxes, resulting from the differing polar and equatorial diameters of the earth, the signs have moved back west nearly a whole division or constellation and where was the first. X now is. Hence, though the sun now enters the sign T March 20, it is a month later when he enters the constellation.

T. It must be apparent, therefore, that any supposed influence or relationship which early astrologers attributed to the position of the sun, moon or planets when in certain of these sun, moon or planets when in certain of these divisions can no longer exist, as the sign now only represents that space or division of the zodiac where the controlling constellation was 2,000 or more years ago, but is not now. Nevertheless, some almanacs still give the signs for the moon's place, which is very missing for the moon's place, which is very missions for the moon's place, which is very missions for the moon's place, which is very missions for the moon's place. signs for the moon's place, which is very mis-leading to those who attempt to follow her in her course among the stars. Hence, this almanac gives both and discards the ancient picture of the disemboweled man as a relic of the age of superstition. The sign is re-tained for sun's place in connection with the seasons and sun's path through the zodiac each month because of its relationship to the couinoxes and solstices. cquinoxes and solstices.

## FACTS ABOUT THE SUN AND PLANETS.

The sun's surface is 12,000 and its volume The sun's surface is 12,000 and its volume 1,300,000 times that of the earth, but the mass is only 332,000 times as great and its density about one-quarter that of the earth. The force of gravity at the surface of the sun is twenty-seven times greater than that at the surface of the earth. The sun rotates at the surface of the earth. The sun rotates on its axis once in 25.3 days at the equator, but the time is longer in the higher latitudes, from which fact it is presumed that the sun is not solid, at least as to its surface. THE EARTH AND THE MOON.

is 7.926.5 miles and the polar diameter 7.899.5 miles; equatorial circumference, 25,000. The linear velocity of the rotation of the earth on its axis at the equator is 24,840 miles a day, or 1,440 feet a second; its velocity in its orbit around the sun is approximately nineteen miles

Earth-The equatorial diameter of the earth around the sun is approximately inheteen fines a second, the length of the orbit being about 560,000,000 miles. The superficial area of the earth, according to Encke, the astronomer, is 197,108,580 square miles, of which two-thirds is water and one-third land. The planetary mass is about 256,000.000 cubic miles.

Moon—The moon has a diameter of 2,162 miles, a circumference of about 6,800 miles and a surface area of 14,685,000 square miles. and a surface area of 14,685,000 square miles. Her mean distance from the earth is 238,840 miles. The volume of the moon is about 1.49th that of the earth and the density about 3% that of water. The time from new moon to new moon is 29 days 12 hours 44.05 minutes. The moon has no atmosphere and no utes. The moon has no atmosphere and no water and is a dead world.

Light travels at the rate of 186,300 miles per second. It requires 8 minutes and 8 seconds for light to come from the sun to the earth.

		Diameter,	Dist. from	Period of

#### STORY OF OUR WORLD FAMILY FOR 1923.

THE SUN—Though the ruler of our family the sun is a mere pigmy among other suns, as recently shown by a device for measuring the size of bright stars or suns, as mentioned in our story for 1922. This revelation of the wonderful magnitude of some of the twinkling stars, and the also accepted and verified theory of the materiality of light as shown by the deflection of star rays by the gravitational action of the sun, and the Einstein theory of relativity still hold first place in scientific discussions. By the last, time and space are limited and things are at rest or in motion only relatively.

The total eclipse of the sun (see eclipses) of Sept. 10 will afford a most excellent opportunity to again verify the methods already perfected by which the deflection of star light by the sun may be observed in the clear skies of southern California, northern Mexico and Central America. These observations will confirm or disprove the results of the recently discovered method of screening out the sun's light for the same purpose.

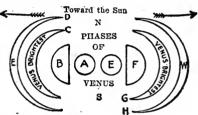

MERCURY — On the occasions mentioned under "Planets Brightest" watch for Mercury about one hour and fifteen minutes before sunrise when a morning star and about the same time after sunset when an evening star and always near that point of the horizon where the sun rises or sets, and as no other planets or bright stars will be near him there at these times no mistake need be made.

VENUS—During the first four months of the year Venus will be very attractive as morning star in eastern Libra, rising about 4 o'clock. At the first of the year she will show the large crescent phase as in C in the annexed cut. She enters Scorpio Jan. 4 and on the 12th will be in conjunction with the noted red star Antares @ decrees south of noted red star Antares, 9 degrees south of her. Jan. 13 she will be occulted by the moon; the identical phases of the moon and Venus will always interest the amateur telescopic observer, especially as both will be in the field of a low power glass. Thus early risers will see a very pretty grouping of celestial objects from 4 a. m. to light, Feb. 4 she will attain her greatest angular distance west of the sun-47°, as shown in the chart west of the sun—47, as shown in the chart of the planets, and enters Sagittarius Feb. 7, passing just north of the "milkmaid's dipper" (upside down in the milky way) the per" (upside down in the milky way) the last of the month; enters Capricornus March 10 and Aquarius April 1 and on April 14 only one-third of one degree south of Uranus. 10 and Aquarius April 1 and on April 14 only one-third of one degree south of Uranus. May 1 she crosses the prime meridian of the heavens and enters the constellation Fisces (sign Aries), when the great square of Pegasus will be about 10 degrees north of herisnters Aries June 1 and on the 11th will be just north of the Pleiades or seven stars in Taurus; 4 degrees north of Aldebaran June 23; 6 degrees south of El Nath July 3 and in line with that star and Capella 11 degrees farther north; 16 degrees north of the giant Betelgeuse July 7-8; enters Gemini July 10: 6 degrees south of Pollux July 28 and quite dim, rising about 3:40 a.m. During August she will be invisible, passing to the east of the sun Sept. 10, becoming an evening star. She will be coming into fair visibility when on Oct. 8 she passes 3 degrees north of Spica; enters Libra Oct. 14 and Oct. 17-18 will be 31 degrees south of Arcturus; 45 minutes south of Jupiter Nov. 4, enters Scorpio Nov. 10, setting at 5:30 p. m. Four degrees north of Antares again Nov. 14, completing a cycle of the heavens since her conjunction with this star Jan. 12; enters Sagittarius Dec. 2, and on

the 8th to 14th passes along north of the "milkmaid's dipper," setting about 6 p. m.; Dec. 21, 30 degrees south of Altair in the Eagle, entering Capricornus the last of the year, setting at 6:45 p. m. She will be in conjunction with the moon on the following dates: Jan. 13 (occulted), Feb. 11, 2 degrees south, March 13, 2 degrees 47 minutes south, April 12, 1 degree 43 minutes south, May 13 (occulted). June 12, 3 degrees north; omitting here such as take place when she is very dim or invisible, the remaining one is Dec. 9, 5 degrees south.

She passes close to Saturn Oct. 9 and to Jupiter Nov. 4, but it is doubtful about these conjunctions being visible in the strong evening twilight.

## TELESCOPIC APPEARANCE OF VENUS

As seen in the Morn. As seen in the Eve. West of Sun. East of Sun.

## EXPLANATION:

A-Fifteen days before superior conjunction with the sun Aug. 25, 1923.

B-At greatest elongation west of the sun about February, 1923.

C—When brightest as a morning star, Jan. 1-5, 1923.

D-Just after inferior conjunction with the sun, Dec. 1, 1922.
E-Fifteen days after superior conjunction with the sun, Sept. 25, 1923.

F—At greatest elongation east of the sun, about Sept. 15, 1922.

G—When brightest as an evening star, not

in 1923.

H-Just before interior conjunction with the sun, Nov. 20, 1922.

MARS—As shown by the chart "Visibility of the Principal Planets" Mars will not attain his maximum degree of brilliancy within the year, in fact will not even be very bright, but will be best seen at the beginning and end of the year as an evening and morning star respectively, being in conjunction with the sun Aug. 8, when he passes from the east to the west of the sun. For some weeks before and after that time he will be invisible and dim for a considerable period.

At the beginning of the year he will be in the constellation Aquarius between the Y and Markab, the bright star in the southwest corner of the square of Pegasus; crosses into Pisces Feb. 1; enters Aries March 10, close to the Pleiades April 11 and about 5 degrees north of Aldebaran May 1, when quite near the sun and consequently dim in the evening twilight. He will not be easily seen again until September when in Leo; enters Virgo Oct. 20 and passes Spica. 20 degrees to the south, Sept. 14: 1½ degrees south of Saturn Dec. 2; enters Libra Dec. 10, in which constellation he will still be at the end of the year, rising at 3:30 a. m.

He will be occulted by the moon Jan. 22, latitudes; other conjunctions or near approaches to the moon are: Feb. 21, March 21, April 19, May 18, Oct. 8, Nov. 6 and Dec. 2.

Dec. 2.

JUPITER—At the first of the year Jupiter will be a morning star in Libra, rising about 3 a. m. He will become an evening star 3 a. m. He will become an evening star Feb. 7, rapidly increasing in brilliancy for three months, reaching his maximum in May as an all night star; remains an evening star until Nov. 22 when in conjunction with the until Nov. 22 when in conjunction with the sun and he then passes to the west of the sun, becoming a morning star again, but will be invisible or very dim the remainder of the year, being only % of a degree north of Venus Nov. 14.

It is quite possible that this, the giant of our family, has acquired a new member of his retinue of captured comets in the Pons-Winneck comet which was scheduled to either willness comet which was seneutied to either collide with the earth or hit us with its tail, yielding star showers or a storm of meteors, but which failed to come up to schedule and is apparently lost.

His conjunctions with the moon will be as follows: Jan. 11, Feb. 8, March 7, April 3, May 1 and 28, June 24, July 21, Aug. 18, Sept. 14, Oct. 12, Nov. 9 and Dec. 7, in all of which he will be from 3 degrees to 5 de-

grees south of the moon,

grees south of the moon.

SATURN—The ringed planet still maintains close companionship with his giant brother, Jupiter, being about 30 degrees farther west and 10 degrees farther north. The more northern declination throws him in the path of the moon, which will occult him or pass between the earth and Saturn at each of her revolutions as long as he is visible, or until October, when he will pass to the west of the sun on the 17th and therefore become a morning star, rising about 2 a, m, at the end of the year, being always in the constellation Virgo, and 4 degrees north of Spica Sept. 28 and a close companion to that sun for the entire year and 1½ degrees north of Mars Dec. 2.

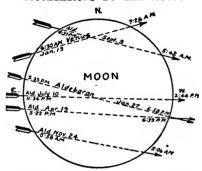

The occultations mentioned will not be

The occultations mentioned will not be visible here, but at each of the conjunctions he will be very close to the moon when they are visible on the following dates: Jan. 9, Feb. 6, March 5, April 1 and 29, May 26, June 22, July 20, Aug. 16 and Sept. 12.

12 degrees to 16 degrees north of their illuminated sides. They were invisible in 1921 when edgewise to the earth and will not be easily visible again until 1925 or 1926 or at their best in 1928. URANUS—Venus will be very close (½ degree) to and south of Uranus April 14, when small glasses may find him, though far from his brightest. He will be occulted by the moon at each lunation after April. These which occur on the following dates will the moon at each lunation after April. These which occur on the following dates will be the most favorable for seeing him with slight optical aid: May 10, June 6, July 3, Nov. 17 and Dec. 14. In each case Uranus will be close to and south of the moon. He will be at his brightest in September so that either the July or November date will be the most favorable.

NEPTUNE—Always invisible without the aid of good glasses; will be most favorably located in February.

# OCCULTATIONS BY THE MOON.

Central Time Begins Ende 13. 5:30 a. m. 3, 3:37 a. m. 27. 4:35 p. m. 10, 12:36 p. m. 19, 4:22 p. m. 6:26 a. m. -Venus, Jan. -Aldebaran, Sept. 4:42 a. m. 5:58 p. m. Jan. .. July 1:44 p. m. 5:39 p. m. .. Apr. 19, 4:22 p.m. 23, 11:58 p.m. Oct. 1:06 a. m.

The above cut shows the apparent June 22, July 20, Aug. 16 and Sept. 12.

His rings are slowly coming into better position for visibility, the earth being from given and in central standard time.

#### SUN SPOTS, NORTHERN LIGHTS AND THE WEATHER,

The northern hemisphere was favored with | one of the greatest displays of northern lights or Aurora Borealis in recent times on March 22, 1921. Newspaper prints were read by its light and the wonderful and rapidly shifting coruscations and cracking sounds were awe-inspiring, filling those ignorant of its true nature with fear.

The old belief that these displays portend great and widespread changes in terrestrial meteorological conditions seems to have been verified in this instance, as in many others, as there was a marked shifting of storm centers and corresponding changes in their general movements, rainfall and temperature.

It is quite possible and more than probable in the light of the additional facts herewith mentioned that similar and greater epochs in our earth history may have brought about the changes which transformed the once fertile, well watered and inhabited desert of Sahara into its present state and also changed the once tropical arctic regions into their

present frigidity and coincidentally given other parts of the world their vast forest areas.

Solar electrical outbursts are responsible for these phenomena, as proved by the coincidence of the maxima of sun-spots and great auroral displays for the last century. It has been also shown that the growth of vegetation is increased under artificial electrification and that a maximum growth results during periods of time coinciding with the sun-spot maxima. sun-spot maxima.

The electrical character of these auroral displays is proved by the fact that at such times all electrical machinery is put out of commission and dispatches over long distances have been sent without the aid of batteries. This and the eracking sounds and actual measurements show nearness of the forces within our atmosphere limit, and therefore the possibility of making solar conditions, when better understood, the basis of a more perfect and long range system of weather forecasting.

#### TIME AND STANDARDS OF TIME.

Various kinds of time are in use in this country:

1. Astronomical Time or Mean Solar Time—This is reckoned from noon through the twenty-four hours of the day and is used mainly by astronomical observatories and in official astronomical publications. It is the legal time of the dominion of Canada, though "standard" and "mean" time are in general use there as in this country.

2. Mean Local Time—This is the kind that was in almost universal use prior to the introduction of standard time. This time was based upon the time when the mean sun crosses the meridian, and the day begins at midnight. When divided into civil divisions—years, months, weeks, days, etc.—it is sometimes called civil time.

Owing to the eccentricity of the earth's orbit and the inclination of the equator to the

then included all territory between the Atlantic coast and an irregular line drawn from Buffalo to Savannah, Ga., the latter city being its southernmost point. The second or central section included all the territory between this eastern line and another irregular line extending from Bismarck, N.D., to the mouth of the Rio Grande. The third or mountain section included all the territory between the last named line and nearly the western borders of Idaho. Nevada and Arizona. The fourth or Pacific section included all the territory of the United States between the boundary of the mountain section and the Pacific coast. Inside of each of these sections standard time was uniform and the time of each section differed from that next to it by exactly one hour.

TIME ZONES ESTABLISHED IN 1918. In March, 1918, the congress of the United States, in passing the "daylight saving" law,

STANDARD TIME ZONES AS FIXED BY INTERSTATE COMMERCE COMMISSION.

ecliptic, the apparent motion of the sun is retarded or accelerated according to the earth's place in its orbit. Hence, to take the actual sun as a guide would necessitate years, days and their subdivisions of unequal length. Therefore an imaginary or "mean sun" was invented. The difference between apparent and mean time is called the "equation of time" and may amount to a quarter of an hour in twenty-four hours. It is the difference between the figures in "Sun at noon mark" column in calendar and twelve hours. The figures on a correct sun dial give the apparent time.

3. Standard Time—For the convenience of the railroads and business in general a standard of time was established by mutual agreement in 1883 and by this calculation trains were run and local time was regulated. By this system the United States, extending from 65° to 125° west longitude, was divided into four time sections, each of 15° of longitude, exactly equivalent to one hour (7½° or 30m, on each side of a meridian), commencing with the 75th meridian. The first or eastern section

divided the territory of continental United States into five zones. The standard time of the first four zones was based on the same degrees of longitude as under the old railroad agreement. The firth zone established included only Alaska, and its standard time was based on the 150th degree of longitude. In August, 1919, the section of the law providing for "daylight saving" was repealed, but the part giving the interstate commerce commission power to fix the limits of the time zones was left intact,

The new time zones as defined by the interstate commerce commission became effective Jan. 1, 1919. They have been slightly modified since then and are subject to further modifications from time to time. Standard time by law governs the movements of railroads and other common carriers engaged in interstate commerce. In all statutes, orders, rules and regulations relating to the time of performance of any act by any officer or department of the United States, whether in the legislative, executive or judicial branch of the government, or relating to the time within

which any rights shall accrue or determine, or within which any act shall or shall not be performed by any person subject to the juris-diction of the United States, it shall be under-stood and intended that the time shall be the United States standard time of the zone within which the act is to be performed.

EASTERN-CENTRAL BOUNDARY LINE.

EASTERN-CENTRAL BOUNDARY LINE.
The boundary line between the eastern and central time zones as fixed by the commission runs from east of Port Huron, Mich., along the international boundary line through the St. Clair river, Lake St. Clair, Detroit river and then runs in a southerly direction to Sandusky, Bellevue, Monroeville, Willard, Shelby Junction, Mansfield and Columbus, O.; Huntington, Kenova and Williamson, W. Va.; Duncannon, Va.; Bristol, Va.-Tenn.; Telford, Tenn.; Asheville and Franklin, N. C.; Atlanta, McDonough, Macon, Perry, Americus, Albany and Thomasville, Ga.; the north boundary of and Thomasville, Ga.; the north boundary of Florida to River Junction and the Apalachicola river to the Gulf of Mexico.

The following named municipalities located upon the boundary line between the eastern upon the boundary line between the eastern and central time zones are considered as within the United States standard eastern zone; Fremont, Clyde, Bellevue, Monroeville, Willard, Shelby, Shelby Junction, Galion, Lancaster, Dundas, and Gallipolis, O.; Duncannon, Va.; Bristol, Va.-Tenn.; Asheville and Franklin, N. C.; points on Southern railway, McDonough, Ga., to Macon, Ga., Perry, Albany and Thomasville, Ga.; Apalachicola, Fla.

All other municipalities located upon the boundary line between the eastern and central time zones not specifically named are con-

time zones not specifically named are considered as within the United States standard central time zone.

CENTRAL-MOUNTAIN BOUNDARY LINE. CENTRAL-MOUNTAIN BOUNDARY LINE.
Between central and mountain time the line
begins at the Canadian boundary, Portal, N.
D., running through Minot and Goodall, N. D.;
and following the Missouri river to Pierre,
S. D., then through Murdo Mackenzie, S. D.;
Long Pine, North Platte, McCook and Republican Junction, Neb.; Phillipsburg, Plainville,
Ellis, Dodge City and Liberal, Ras.; along
northern Oklahoma boundary to New Mexico;
along eastern boundary to New Mexico; along eastern boundary to southeastern corner of New Mexico, and thence along the southern boundary of that state to the Rio Grande at El Paso, Text

at El Paso. Tex.

The following named municipalities located upon the boundary line between the central and mountain time zones are considered as described as a considered as a considered as the constant and mountain time zones. within the United States standard central time

zone: Portal, Flaxton and Minot, N. D.; Murdo Mackenzie, S. D.; Phillipsburg, Stock-ton, Plainville, Ellis and Liberal, Kas.; El Paso, Tex. other

municipalities located upon boundary line between the central and mountain time zones not specifically named are considered as within United States standard moun-

tain time zone.

MOUNTAIN-PACIFIC BOUNDARY LINE.

Between mountain and Pacific time zones the line is fixed following the western boundary of Montana to meridian 114 west and then south and east to Pocatello, Idaho, and the Oregon Short Line to Ogden and Salt Lake City. Utah; thence the Los Angeles & Salt Lake railroad and the west and south boundaries to the 113th meridian; thence to Seligman and Parker, Ariz., and along the Colorado river to the Mexican boundary.

All municipalities on the boundary between mountain and Pacific time zones will use standard mountain time.

All of Alaska is within a single time zone. Between mountain and Pacific time zones the

All of Alaska is within a single time zone.

# TABLE OF TIME CORRECTIONS.

It is obvious that to express the time of rising and setting of the sun and moon in standard time would limit the usefulness of such data to the single point or place for which they were computed, while in mean time which they were computed, while in mean time it is practically correct for places as widely separated as the width of the continent. In the calendar pages of the almanacs the rising and setting of the sun and moon are given in mean local time and to obtain the standard in mean local time and to obtain the standard time of these and other astromonical events at any given place it is necessary to subtract or add a certain number of minutes according to the distance the place in question is east or west of the meridian, the time of which governs the zone in which the place is located. Thus in Chicago, which is approximately two and a half degrees east of the 90th meridian, which governs the time of the central zone. and a nail degrees east of the soon mendian, which governs the time of the central zone, the sun and moon rise and set about ten minutes earlier than the time shown in the almanacs; in other words, ten minutes must be subtracted to get the actual standard time as shown by the clock.

The corrections to be applied to mean clock time for conversion are shown in the following table. The abbreviations are E. for following table. The abbreviations are E. for eastern, C. for central, M. for mountain and P. for Pacific time. Add or subtract as indicated by the sign - (minus) or + (plus):

## THE SMITHSONIAN INSTITUTION IN WASHINGTON.

The Smithsonian institution was established The Smithsonian institution was established by statute in 1846, under the terms of the will of James Smithson, who bequeathed his fortune in 1826 to the United States for the 'increase and diffusion of knowledge among men.' From the income of the fund a building, known as the Smithsonian building, was erected in Washington, D. C., on land given by the United States. The institution is levelly an actablishment having as its the United States. The ins is legally an establishment having as its members the president and vice-president of the United States, the chief justice and the the United States, the chief justice and the president's cabinet. It is governed by a board of regents consisting of the vice-president, the chief justice, three members of the United States senate, three members of the house of representatives and six citizens appointed by interpretations of congress. It is under the It is under the joint resolution of congress.

immediate direction of the secretary of the Smithsonian institution, who is the executive officer of the board and the director of the institution's activities. The institution aids institutions activities. The institution and investigators by making grants for research and exploration, providing for lectures, initiating scientific projects and publishing scientific papers. It has administrative charge of the national museum, the national gallery of art, the international exchange service, the national zoological park, the astrophysical observatory and the regional bureau for the international catalogue of scientific literature. The institution's original endowment of \$541,-000 has been increased by gifts and accumulated interest. The secretary of the institution is Charles D. Walcott.

# FRANCIS SCOTT KEY BRIDGE.

The Francis Scott Key bridge completed in same was given by Newton D. Baker, former 1922, at a total cost of \$2,100,000, is a fine concrete structure over the Potomac river between Georgetown, D. C., and Russell, Va. Its length with approaches is 2,700 feet. The Georgetown bridge.

# WEATHER FORECASTS AND SIGNALS.

The operations of the weather bureau of the ! department of agriculture are based on ob-servations of the weather taken at about 200 observatories throughout the United States at observatories throughout the officer States at the same moment of time and telegraphed daily to Washington, D. C., and to other im-portant cities. These observations, comprising barometric pressure, temperature, precipita-tion, winds and clouds, are entered upon outprecipitaline charts of the United States by means of symbols, forming the "daily weather map," from which the forecasts are made. These forecasts are issued every day for every state

in the union, and whenever necessary special warnings are sent out of storms, frosts, cold waves, heavy snows and floods. In addition to the main office in Washington there are subordinate forecast centers in Ghicago, New Orleans, Denver, San Francisco and Portland, Ore Weather forecasts Ore. Weather forecasts for a week in advance are now sent out from Washington.

The forecasts are first telegraphed to the principal distributing points, whence they are further disseminated by telegraph, telephone and through the mail by means of forecast cards, rural free delivery slips and newspapers.

## FAST RAILROAD RUNS.

Eastbound express train No. 4, of the New York Central, on Sunday, May 14, 1919, being more than an hour behind time, traversed the similar from Elkhart, Ind., to Toledo, O. division from Elkhart, Ind., to Toledo, O., 133.01 miles, in 1 hour 54 minutes, or at the rate of 70 miles an hour. From Millersburg, Ind., eighteen miles east of Elkhart, to Nasby tower, about four miles short of Toledo, a distance of 111.31 miles, the time was 1 hour 27 minutes, equal to 76.76 miles an hour. The train consisted of seven steel cars, weigh-

ing about 940,900 lbs.

Equally good time was made over this division, westbound, by the Twentieth Century lim-

ited. on May 25, 1903, but that train had only four cars. On June 8, 1905, a train of the Pennsylvania lines, western division. No. 18, eastbound, second section, three cars, was run fifty miles at 79 miles an hour; 100 miles at 77.2 miles an hour; and 200 miles, including two stops, at 71.3 miles an hour. On Oct. 24 of the same year a Pennsylvania special train of four cars, westbound, weighing 260 tons, was run from Crestline, O., to Clarke Junction, Ind., 257.4 miles, at 74.55 miles an hour. In this run a distance of 131 miles was covered at 77.81 miles an hour.

#### CONSTITUTION OF THE UNITED STATES.

September 17, 1787.

PREAMBLE. We, the people of the United States, in order to form a more perfect union, establish justice, insure domestic tranquillity, provide for the common defense, promote the general welfare and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this constitution for the United States of America:

#### ARTICLE I.

Section I. All legislative powers herein granted shall be vested in a congress of the United States, which shall consist of a senate and house of representatives.

Sec. II. 1. The house of representatives shall be composed of members chosen every second be composed of members chosen every second year by the people of the several states, and the electors in each state shall have the qual-ifications requisite for electors of the most numerous branch of the state legislature.

2. No person shall be a representative who shall not have attained to the age of 25 years and been seven years a citizen of the United States, and who shall not, when elected, be an inhabitant of that state in which he shall be

chosen

- 3. Representatives and direct taxes shall be apportioned among the several states which may be included within this union, according to their respective numbers, which shall be determined by adding to the whole number of free persons, including those bound to service for a term of years, and excluding Indians not taxed, three-fifths of all other persons. The actual enumeration shall be made within three years after the first meeting of the congress of the United States, and within every subsequent term of ten years, in such manner as they shall by law direct. The number of representatives shall not exceed one for every 30,000, but each state shall have at least one representative, and until such enumeration shall be made the state of New Hampshire shall be entitled to choose three; Massachusetts, eight; Rhode Island and Providence Plantations, one; Connecticut, five; New York, six; New Jersey, four; Pennsylvania, eight: Delaware, one; Maryland, six; Virginia, ten; North Carolina, five; South Carolina, five, and Georgia, three. 3. Representatives and direct taxes shall be gia, three.
- 4. When vacancies happen in the representation from any state the executive authority thereof shall issue writs of election to fill such

The house of representatives shall choose their speaker and other officers and shall have the sole power of impeachment.

Sec. III. 1. The senate of the United States shall be composed of two senators from each state, chosen by the legislature thereof, for six years, and each senator shall have one vote.

- 2. Immediately after they shall be assembled in consequence of the first election they shall be divided, as equally as may be, into three classes. The seats of the senators of the first class shall be vacated at the expiration of the second year; of the second class, at the exsecond year: of the second class, at the expiration of the fourth year, and of the third class at the expiration of the sixth year, so class at the expiration of the sixth year, so that one-third may be chosen every second year, and if vacancies happen by resignation or otherwise, during the recess of the legislature of any state, the executive thereof may make temporary appointments until the next meet-ing of the legislature, which shall then fill such vacancies.
- 3. No person shall be a senator who shall not have attained the age of 30 years and been nine years a citizen of the United States, and who shall not when elected, be an inhabitant of that state for which he shall be who shall not. when elected, be an inhab-of that state for which he shall be n
  The vice-president of the United States

  but the senate may propose or concur with amendments, as on other bills.

  2. Every bill which shall have passed the house of representatives and the senate shall. chosen

shall be president of the senate, but shall have no vote unless they be equally divided.

5. The senate shall choose their other officers and also a president pro tempore in the absence of the vice-president or when he shall exercise the office of president of the United States.

6. The senate shall have the sole power to y all impeachments. When sitting for that try all impeachments. purpose they shall be on oath or affirmation. When the president of the United States is tried the chief justice shall preside, and no person shall be convicted without the concurrence of two-thirds of the members present.

7. Judgment, in cases of impeachment, shall not extend further than to removal from office and disqualification to hold and enjoy any office of honor, trust or profit under the United States, but the party convicted shall, nevertheless, be liable and subject to indictment, trial, judgment and punishment according to law.

Sec. IV. 1. The times, places and manner of holding elections for senators and representatives shall be prescribed in each state by the any time, by law, make or alter such regula-tions, except as to the places of choosing senators.

2. The congress shall assemble at least once in every year, and such meeting shall be on the first Monday in December, unless they shall, by law, appoint a different day. Sec. V. 1. Each house shall be the judge

of the elections, returns and qualifications of its own members, and a majority of each shall constitute a quorum to do business, but a smaller number may adjourn from day to day, and may be authorized to compel the attendance of absent members, in such manner and under such penalties as each house may pro-

2. Each house may determine the rules of its proceedings, punish its members for disorderly behavior, and, with the concurrence of two-thirds, expel a member,

3. Each house shall keep a journal of its proceedings, and from time to time publish the same, excepting such parts as may, in their judgment, require secrecy; and the yeas and nays of the members of either house, any question, shall, at the desire of one-fifth

any question, shall, at the desire of one-fifth of those present, be entered on the journal.

4. Neither house, during the session of congress, shall, without the consent of the other, adjourn for more than three days, nor to any other place than that in which the two houses shall be sitting.

Sec. VI. 1. The senators and representatives shall receive a compensation for their services, to be ascertained by law and paid out of the treasury of the United States. They shall, ices, to be ascertained by law and paid out of the treasury of the United States. They shall, in all cases, except treason, felony and breach of the peace, be privileged from arrest during their attendance at the session of their respec-tive houses and in going to or returning from the same, and for any speech or debate in either house they shall not be questioned in

either house they shall not be questioned in any other place.

2. No senator or representative shall, during the time for which he was elected, be appointed to any civil office under the authority of the United States which shall have been created, or the emoluments whereof shall have been increased, during such time, and no person holding any office under the United States shall be a member of either house during his shall be a member of either house during his

sec. VII. 1, All bills for raising a revenue shall originate in the house of representatives,

before it becomes a law, be presented to the president of the United States; if he approve, he shall sign it, but if not, he shall return it, with his objections, to that house in which it shall have originated, who shall enter the objections at large on their journal and proceed to reconsider it. If, after such reconsideration, two-thirds of that house shall agree to pass the kill it shall he sent together with the two-thirds of that house shall agree to pass the bill. it shall be sent, together with the objections, to the other house, by which it shall likewise be reconsidered, and if approved by two-thirds of that house it shall become a law. But in all such cases the votes of both houses shall be determined by yeas and anys, and the approve of the approxy with a formal of the property with the state of the property with houses snail be determined by year and have, and the names of the persons voting for and against the bill shall be entered on the journal of each house respectively. If any bill shall not be returned by the president within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law, in like manner as if his had signed it. unless the congress, by their adjournment, prevent its return, in which case it shall not be a law.

3. Every order, resolution or vote to which the concurrence of the senate and house of representatives may be necessary (except on a question of adjournment) shall be presented question of adjournment) shall be presented to the president of the United States, and before the same shall take effect shall be approved by him, or, being disapproved by him, shall be repassed by two-thirds of the senate and house of representatives, according to the ritles and limitations prescribed in case of a bill.

Sec, VIII. The congress shall have power—
1. To lay and collect taxes, duties, imposts and excises, to pay the debts and provide for the common defense and general welfare of the United States, but all duties, imposts and excises shall be uniform throughout the United States.

2. To borrow money on the credit of the United States.

3. To regulate commerce with foreign nations and among the several states and with the Indian tribes.

4. To establish a uniform rule of naturalization and uniform laws on the subject of bankruptcies throughout the United States.

5. To coin money, regulate the value thereof and of foreign coin, and fix the standard of weights and measures.

To provide for the punishment of counterfeiting the securities and current coin of the United States.

7. To establish postoffices and postroads.

To promote the progress of science and useful arts by securing for limited times to authors and inventors the exclusive right to their respective writings and discoveries.

9. To constitute tribunals inferior to the Supreme court. To define and puich paragraph and felonies committed on the high seas and offenses against the law of nations.

10. To declare war, grant letters of marque and reprisal and make rules concerning captures on land and water.

11. To raise and support armies, but no ap-

propriation of money to that use shall be for a longer term than two years.

12. To provide and maintain a navy.

13. To make rules for the government and regulation of the land and naval forces. 14. To provide for calling forth the militia to execute the laws of the union, suppress insurrections and repel invasions.

15. To provide for organizing, arming and disciplining the militia and for governing such part of them as may be employed in the service of the United States, reserving to the states respectively the appointment of the officers and the authority of training the militia according to the discipline prescribed by congress.

16. To exercise exclusive legislation in all

cases whatsoever over such district (not excases whatsoever over such district (not exceeding ten miles square) as may, by cession of particular states and the acceptance of congress, become the seat of government of the United States, and to exercise like authority over all places purchased, by the consent of the legislature of the state in which the same shall be, for the erection of forts, magazines, arsenals, dockyards and all other needful buildings; and ings: and.

17. To make all laws which shall be necessary and proper for carrying into execution the sary and proper for carrying into execution the foregoing powers and all other powers vested by this constitution in the government of the United States or in any department or officer

thereof.

Sec. IX, 1. The migration or importation of such persons as any of the states now existing shall think proper to admit shall not be prohibited by the congress prior to the year one thousand eight hundred and eight, but 3 tax or duty may be imposed on such importation, not exceeding \$10 for each person.

2. The privilege of the writ of habeas corpus shall not be suspended, unless when, in cases of rebellion or invasion, the public safety

may require it.

No bill of attainder or ex post facto law shall be passed.

4. No capitation or other direct tax shall be laid, unless in proportion to the census or enumeration hereinbefore directed to be taken. 5. No tax or duty shall be laid on articles exported from any state. No preference shall be given, by any regulation of commerce or revenue, to the ports of one state over those of another; nor shall vessels bound to or from one state be obliged to enter, clear or pay

one state be obliged to enter, clear or pay duties in another.

6. No money shall be drawn from the treasury but in consequence of appropriations made by law, and a regular statement and account of receipts and expenditures of all public money shall be published from time to time.

7. No title of nobility shall be granted by the United States, and no person holding any effice of profit or trust under them shall, with-

office of profit or trust under them shall, without the consent of congress, accept of any present, emolument, office or title of any kind whatever from any king, prince or foreign state.

Sec. X. 1. No state shall enter into any treaty, alliance or confederation; grant letters of marque and reprisal; coin money; emit bills of credit; make anything but gold and silver of creat; make anything but gold and saver coin a tender in payment of debts; pass any bill of attainder, ex post facto law, or law impairing the obligation of contracts, or grant

any title of nobility.

2. No state shall, without the consent of the congress, lay any imposts or duties on the congress, lay any imposts or duties on imports or exports except what may be absolutely necessary for executing its inspection laws, and the net produce of all duties and imposts laid by any state on imports or exports shall be for the use of the treasury of the United States, and all such laws shall be subject to the revision and control of the congress. No state shall, without the consent of congress lay any duty of tonnage, keep congress. No state shall, without the consent of congress, lay any duty of tonnage, keep troops or ships of war in time of peace, enter into any agreement or compact with another state or with a foreign power or engage in war, unless actually invaded or in such imminent danger as will not admit of delay.

#### ARTICLE II.

Section I. 1. The executive power shall be ested in a president of the United States of merica. He shall hold his office during the vested in a term of four years, and together with the vicepresident, chosen for the same term, be elected as follows:

2. Each state shall appoint, in such manner as the legislature thereof may direct, a number of of electors, equal to the whole number of

senators and representatives to which the state may be entitled in the congress, but no senator or representative or person holding an office of trust or profit under the United States shall be

appointed an elector.

3. The electors shall meet in their respective states and vote by ballot for two persons, of whom one at least shall not be an inhabitant of the same state with themselves. And they shall make a list of all the persons youed for and of the number of votes for each, which and of the number of votes for each, which list they shall sign and certify and transmit sealed to the seat of government of the United States, directed to the president of the senate, The president of the senate shall, in the presence of the senate and house of representatives, open all the certificates and the votes shall then be counted. The person having the presentation where of the present the property residents. shall then be counted. The person having the greatest number of votes shall be the breadent, if such number be a majority of the whole number of electors appointed, and if there be more than one who have such majority and have an equal number of votes, then the house of representatives shall immediately the house of representatives shall immediately choose, by ballot, one of them for president; and if no person have a majority, then from the five highest on the list the said house shall, in like manner, choose the president. But in choosing the president the votes shall be taken by states, the representation from each state having one vote; a quorum for this purpose shall consist of a member or members from two-thirds of the states and a majority of all the states shall be necessary to a choice of all the states shall be necessary to a choice. In every case after the choice of the president the person having the greatest number of votes of the electors shall be the vice-president. But if there should remain two or more who have equal votes the senate shall choose from them. by ballot, the vice-president. [The fore-going provisions were changed by the 12th amendment.]

4. The congress may determine the time of choosing the electors and the day on which they shall give their votes, which day shall be the same throughout the United States.

5. No person except a natural-born citizen or a citizen of the United States at the time of the adoption of this constitution shall be eligible to the office of president; neither shall any person be eligible to that office who shall not have attained to the age of 35 years and been fourteen years a resident within the United States.

6. In case of the removal of the president from office or of his death, resignation or infrom office or of his death, resignation or anability to discharge the powers and duties of the said office, the same shall devolve on the vice-president; and the congress may, by law, provide for the case of removal, death, resignation or inability both of the president and vice-president, declaring what officer shall then act as president, and such officer shall act accordingly, until the disability be removed or a president shall be elected.

7. The president shall, at stated times, receive for his services a compensation which shall neither be increased nor diminished during the period for which he shall have been elected, and he shall not receive within that period any other emolument from the United

States or any of them.

8. Before he enters on the execution of his office he shall take the following oath or

affirmation:

affirmation:
I do solemnly swear (or affirm) that I will faithfully execute the office of president of the United States, and will, to the best of my ability, preserve, protect and defend the constitution of the United States.

Sec. II. 1. The president shall be commander in chief of the army and navy of the United States.

States and of the militia of the several states when called into the actual service of the United States. He may require the opinion, in writing, of the principal officer in each of the by law have directed.

executive departments upon any subject relating to the duties of their respective offices, and he shall have the power to grant reprieves and pardons for offenses against the United States except in cases of impeachment. 2. He shall have power, by and with the advice and consent of the senate, to make treaties, provided two-thirds of the senators present concur, and he shall nominate, and, by and with the advice and consent of the senate, shall appoint ambassadors, other public ministers and consuls, judges of the Su lic ministers and consuls, judges of the Su-preme court and all other officers of the United states whose appointments are not herein otherwise provided for and which shall be established by law. But the congress may, by law, vest the appointment of such inferior officers as they shall think proper in the president alone, in the courts of law or in the heads of departments.

3. The president shall be a such that the proper in the president shall be a such as a such

The president shall have power to fill up all vacancies that may happen during the re-cess of the senate by granting commissions, which shall expire at the end of their next

session. Sec. III. Sec. III. He shall, from time to time, give to the congress information of the state of the union and recommend to their considera-tion such measures as he shall judge necessary tion such measures as he shall judge necessary and expedient. He may, on extraordinary occasions, convene both houses or either of them, and in case of disagreement between them, with respect to the time of adjournment, he may adjourn them to such time as he shall think proper. He shall receive ambassadors and other public ministers. He shall take care

and other public ministers. He shall take care that the laws be faithfully executed, and shall commission all officers of the United States. Sec. IV. The president, vice-president and all civil officers of the United States shall be removed from office on impeachment for an conviction of treason, bribery or other high

crimes and misdemeanors.

#### ARTICLE III.

Section I. The judicial power of the United States shall be vested in one Supreme court and in such inferior courts as the congress and in such interior courts as the congress way, from time to time, ordain and establish. The judges, both of the Supreme and inferior courts, shall hold their offices during good behavior, and shall, at stated times, receive for their services a compensation which shall not diminished during their continuance in office.

The judicial power shall extend Sec. II. 1. The judicial power shall extend to all cases, in law and equity, arising under this constitution, the laws of the United States this constitution, the laws of the United States and treaties made or which shall be made, under their authority; to all cases affecting ambassadors, other public ministers and consuls; to all cases of admiralty and maritime funited States shall be a party; to controversies between two or more states; between a state and citizens of another state; between ditizens of different states; between ditizens of different states; between citizens of the same state claiming lands under grants of different states, and between a state or the citizens thereof and foreign states, citizens or subjects. subjects.

In all cases affecting ambassadors, other public ministers and consuls and those in which a state shall be a party the Supreme court shall have original jurisdiction. In all the other cases before mentioned the Supreme court shall have appellate jurisdiction, both as to law and fact, with such exceptions and under such regulations as the congress shall

make.
3. The trial of all crimes, except in cases of impeachment, shall be by Jury, and such trials shall be held in the state where the said crimes shall have been committed, but when be at such place or places as the congress may Sec. III. 1. Treason against the United States shall consist only in levying war against them or in adhering to their enemies, giving them aid and comfort. No person shall be convicted of treason unless on the testimony of two witnesses to the same overt act or on confession in open court.

2. The congress shall have power to de-clare the punishment of treason, but no at-tainder of treason shall work corruption of blood or forfeiture except during the life of

the person attainted.

#### ARTICLE IV.

Section I. Full faith and credit shall be given in each state to the public acts, records and judicial proceedings of every other state. And the congress may, by general laws, prescribe the manner in which such acts, records and proceedings shall be proved and the effect thereof.

Sec. II. 1. The citizens of each state shall be entitled to all privileges and immunities of citizens in the several states.

2. A person charged in any state with treason, felony or other crime, who shall flee from justice and be found in another state, shall, on demand of the executive authority of the state from which he fled, be delivered up, to be removed to the state having jurisdiction of the crime.

3. No person held to service or labor in one state under the laws thereof, escaping into another, shall, in consequence of any law or regulation therein, be discharged from such service or labor, but shall be delivered up on claim of the party to whom such service or labor may be due.

Sec. III. 1. New states may be admitted by the congress of this union, but no new state shall be formed or erected within the jurisdiction of any other state, nor any state be formed by the junction of two or more states or parts of states, without the consent of the legislatures of the states concerned as well

as of the congress.

2. The congress shall have power to dispose of and make all needful rules and regpuse of and make an needling rules and regulations respecting the territory or other property belonging to the United States, and nothing in this constitution shall be so construed as to prejudice any claims of the United States

or of any particular state. Sec. IV. The United States shall guarantee Sec. IV. The United States shall guarantee to every state in this union a republican form of government, and shall protect each of them against invasion, and on application of the legislature or of the executive (when the legislature cannot be convened) against domestic

#### ARTICLE V.

The congress, whenever two-thirds of both houses shall deem it necessary, shall propose amendments to this constitution, or, on the application of the legislatures of two-thirds of the several states shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes as part of this constitution when ratified by the legislatures of three-fourths of the several part of this constitution when rathed by the legislatures of three-fourths of the several states or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the congress; provided, that no amendment which may be made prior to the year one thousand eight hundred and eight shall in any manner affect the first and fourth clauses in the ninth section of the first article, and that no state, without its con-sent, shall be deprived of its equal suffrage in the senate.

# ARTICLE VI.

Section I. 1. All debts contracted and engagements entered into before the adoption of this constitution shall be as valid against the United States under this constitution as under the confederation.

2. This constitution and the laws of the United States which shall be made in pursuance thereof, and all treaties made or which shall be made under authority of the United States, shall be the supreme law of the land, and the judges in every state shall be bound thereby, anything in the constitution or laws of any state to the contrary notwithstanding.

3. The senators and representatives before 3. The senators and representatives before mentioned and the members of the several state legislatures and all executive and indicial officers, both of the United States and of the several states, shall be bound, by oath or affirmation, to support this constitution, but no religious test shall ever be required as a qualification to any office or public trust under the United States.

## ARTICLE VII.

The ratification of the conventions of nine states shall be sufficient for the establishment of this constitution between the states so rati-

fying the same.

Done in convention, by the unanimous consent of the states present, the seventeenth day of September, in the year of our Lord one thousand seven hundred and eighty-seven, and of the independence of the United States of America the twelfth.

## AMENDMENTS TO THE CONSTITUTION.

Proposed by congress and ratified by the legislatures of the several states, pursuant to article V. of the original constitution. The dates given are those showing when each amendment went into effect or was proclaimed.

I. Congress shall make no law respecting an establishment of religion or prohibiting the free exercise thereof, or abridging the freedom of speech or of the press, or the right of the people peaceably to assemble and to petition the government for a redress of grievances. (Dec. 15, 1791.)

II. A well regulated militia being necessary to the security of a free state, the right of the people to keep and bear arms shall not be infringed. (Dec. 15, 1791.)

III. No soldier shall, in time of peace, be quartered in any house without the consent of the owner; nor in wartime but in a manner to be prescribed by law. (Dec. 15, 1791.)

IV. The right of the people to be secure

IV. The right of the people to be secure in their persons, houses, papers and effects against unreasonable searches and seizures shall not be violated, and no warrants shall issue but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched and the persons or things to be seized. (Dec. 15, 1791.)

V. No person shall be held to answer for a capital or otherwise infamous crime unless on a presentment or indictment of a grand jury, except in cases arising in the land or naval forces or in the militia, when in actual service, in time of war or public danger; nor shall any person be subject for the same offense ice, in time of war or public danger; nor shall any person be subject for the same offense to be twice put in jeopardy of life or limb; nor shall he be compelled in any criminal case to be a witness against himself, nor be deprived of life, liberty or property without due process of law; nor shall private property be taken for public use without just compensation. (Dec. 15, 1791.)

VI. In all criminal prosecutions the accused shall enjoy the right to a speedy and public trial by an impartial jury of the state and district wherein the crime shall have been committed, which district shall have been precommitted, which district shall have been previously ascertained by law, and to be informed of the nature and cause of the accusation; to be confronted with the witnesses against him; to have compulsory process for obtaining witnesses in his favor, and to have the assistance of counsel for his defense. (Dec. 15, 1791.) VII. In suits at common law, where the value in controversy shall exceed \$20, the right of trial by jury shall be preserved, and no fact tried by a jury shall be otherwise reexamined in any court of the United States than according to the rules of the common law. (Dec. 15, 1791.)

VIII. Excessive bail shall not be required. nor excessive fines imposed, nor cruel and

usual punishments inflicted. (Dec. 15, 1791.)

IX The enumeration in the constitution of certain rights shall not be construed to deny disparage others retained by the people. (Dec. 15, 1791.)

X. The powers not delegated to the United States by the constitution nor prohibited by it to the states are preserved to the states re-pectively or to the people. (Dec. 15, 1791.)

pectively or to the people. (Dec. 15, 1791.)

XI. The judicial power of the United States shall not be construed to extend to any suit in law or equity commenced or prosecuted against one of the United States by citizens of another state or by citizens or subjects of any foreign state. (Jan. 8, 1798.)

XII. Section 1. The electors shall meet in their respective states and vote by ballot for president and vice-president, one of whom at least shall not be an inhabitant of the same state with themselves; they shall name in their ballots the person voted for as president, and in distinct ballots the person voted for as vice-president, and they shall make distinct and in distinct ballots the person voted for as vice-president, and they shall make distinct lists of all persons voted for as president and of all persons voted for as vice-president, and of the number of votes for each, which list they shall sign and certify and transmit sealed to the seat of the government of the United States, directed to the president of the senate; States, directed to the president of the senate; the president of the senate shall, in the presence of the senate and house of representatives, open all the certificates and the votes shall then be counted; the person having the greatest number of votes for president shall be the president, if such number be a majority of the whole number of electors appointed, and if we arreen have such majority than and if no person have such majority, then from the persons having the highest numbers, not exceeding three, on the list of those voted for as president, the house of representatives shall choose immediately, by ballot, for president. But in choosing the president the votes shall be taken by states, the representation from each state having one vote; a quorum for this purpose shall consist of a member or for this purpose shall consist of a member or members from two-thirds of the states, and a majority of all the states shall be necessary to a choice. And if the house of representatives shall not choose a president whenever the right of choice shall devolve upon them before the fourth day of March next following, then the vice-president shall act as president, as in the case of the death or other constitutional disability of the president.

Sec. 2. The person having the greatest number of votes as vice-president shall be the vicepresident, if such number be a majority of the whole number of electors appointed, and if no person have a majority, then from the two highest numbers on the list the senate shall choose a vice-president. A quorum for the purpose shall consist of two-thirds of the whole number of senators and a majority of the whole number shall be necessary to a

the choice.

choice.
Sec. 3. But no person constitutionally ineligible to the office of president shall be eligible to that of vice-president of the United States. (Sept. 28, 1804.)
XIII. Section 1. Neither slavery nor involuntary servitude, except as a punishment for crime, whereof the party shall have been duly convicted, shall exist within the United States or any place subject to their jurisdiction.
Sec. 2. Congress shall have the power to enforce this article by appropriate legislation, (Dec. 18, 1865.)
XIV. Section 1. All persons born or natural-

ized in the United States and subject to the jurisdiction thereof are citizens of the United States and of the state wherein they reside. No state shall make or enforce any law which so state shall abridge the privileges or immunities of citizens of the United States, nor shall any state deprive any person of life, liberty or property without due process of law, nor deny to any person, within its jurisdiction the equal protection of the laws.

Sec. 2. Representatives shall be apportioned among the several states according to their respective numbers, counting the whole numspective numbers, containing the whole number of persons in each state, excluding Indians not taxed. But when the right to vote at any election for the choice of electors for president and vice-president of the United States, dent and vice-president of the United States, representatives in congress, the executive and judicial officers of a state or the members of the legislature thereof is denied to any of the male inhabitants of such state, being 21 years of age and citizens of the United States, or in any way abridged, except for participation in rebellion or other crime, the basis of representation therein shall be reduced in the preresentation therein shall be reduced in the proportion which the number of such male citizens shall bear to the whole number of male

citizens 21 years of age in such state.
Sec. 3. No person shall be a senator or rep-Sec. 3. No person snall be a senator or representative in congress or elector of president and vice-president, or hold any office, civil or military, under the United States, or under any state, who, having previously taken the oath as a member of congress or as an officer of the United States, or as a member of any contributions. or the United States, or as a memoer of any state legislature, or as an executive or judicial officer of any state, to support the constitution of the United States, shall have engaged in insurrection or rebellion against the same or given aid or comfort to the enemies thereof. But congress may, by a vote of two-thirds of each house, remove such disability. Sec. 4. The yalidity of the public debt of

thirds of each house, remove such disability. Sec. 4. The validity of the public debt of the United States, authorized by law, including debts incurred for payment of pensions and bounties for services in suppressing insurrection or rebellion, shall not be questioned. But neither the United States nor any state shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the United States or any claim for the loss or emancipation of any slave, but all such debts, obligations and claims shall be held illegal and void.

Sec. 5. The congress shall have the power

Sec. 5. The congress shall have the power

Sec. 5. The congress shall have the power to enforce by appropriate legislation the provisions of this article. (July 28, 1868.)
XV. Section 1. The right of citizens of the United States to vote shall not be denied or abridged by the United States or any state on account of race, color or previous condition servitude.

of servitude.
Sec. 2. The congress shall have power to enforce this article by appropriate legislation. (March 30, 1870.)
XVI. The congress shall have power to lay and collect taxes on incomes, from whatever source derived, without apportionment among the several states, and without regard to any census or enumeration. (Feb. 25, 1913.)
XVII. Section 1. The senate of the United States shall be composed of two senators from each state. elected by the people thereof, for

states shall be composed of two senators from six years; and each senator shall have one yote. The electors in each state shall have vote. the qualifications requisite for electors of the most numerous branch of the state legislature.

most numerous branch of the state legislature, Sec. 2. When vacancies happen in the representation of any state in the senate, the executive authority of such state shall issue writs of election to fill such vacancies; provided, that the legislature of any state may empower the executive thereof to make temporary appointment until the people fill the vacancies by election as the legislature may

direct.
Sec. 3. This amendment shall not be so con-

strued as to affect the election or term of any

strued as to affect the election or term of any senator chosen before it becomes valid as part of the constitution. (May 31, 1913.)

XVIII. Section 1. After one year from the ratification of this article, the manufacture, sale or transportation of intoxicating liquors within, the importation thereof into, or the exportation thereof from the United States and all territory subject to the jurisdiction thereof for beverage purposes is hereby prohibited.

Sec. 2. The concress and the several states

Sec. 2. The congress and the several states shall have concurrent power to enforce this article by appropriate legislation.

Sec. 3. This article shall be inoperative unless it shall have been ratified as an amendment to the constitution by the legislatures of the several states, as provided in the constitution, within seven years from the date of the submission hereof to the states by congress. (Jan. 16, 1919.)

XIX. The right of citizens of the United States to vote shall not be abridged by the United States or by any state on account of sex.

Congress shall have power to enforce this article by appropriate legislation. (Aug. 26. 1920.)

## THE AMERICAN DECLARATION OF INDEPENDENCE.

The unanimous declaration of the thirteen United States of America, in congress, July 4.

The unanimous declaration of the thirteen United States of America, in congress, July 4. 1776.

When, in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume among the powers of the earth the separate and equal station to which the laws of nature and of nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation. We hold these truths to be self-evident: That all men are created equal: that they are endowed by their Creator with certain inalienable rights; that among these are life, liberty and the pursuit of happiness. That, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that, whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute a new government. Leying its foundation on such principles, and organic ing its powers in such form, as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and accordingly all experience hath shown that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government and to provide new guards for their future security. Such has been the patient suffering of these colonies, and such is now the necessity which constrains them to alter their former systems of government. The history of the present king of Great Britain is a history of repeated injuries and usurpations, all having in direct object, the same and necessary for the

timable to them and formidable to tyrants only.

He has called together legislative bodies, at places unusual, uncomfortable and distant from the repository of their public records, for the sole purpose of fatiguing them into compliance with his measures.

He has dissolved representative houses repeatedly for opposing with manly firmness his invasions on the rights of the people.

He has refused for a long time after such dissolutions to cause others to be elected; whereby the legislative powers, incapable of annihilation, have returned to the people at large for their exercise; the state remaining.

in the meantime, exposed to all the dangers of invasion from without and convulsions within.

He has endeavored to prevent the popula-tion of these states; for that purpose ob-structing the laws for naturalization of for-eigners; refusing to pass others to encourage their migration hither, and raising the con-ditions of new appropriations of lands.

He has obstructed the administration of jus-

He has obstructed the administration of justice by refusing his assent to laws for establishing his judiciary powers.

He has made judges dependent on his will alone for the tenure of their offices and the amount and payment of their salaries.

He has erected a multitude of new offices and sent hither swarms of officers to harass our people and eat out their substance.

He has kept among us, in times of peace, standing armies without the consent of our legislatures.

legislatures.

regislatures.

He has affected to render the military independent of and superior to the civil power.

He has combined with others to subject us to a jurisdiction foreign to our constitutions and unacknowledged by our laws, giving his assent to their acts of pretended legislation;

For quartering large bodies of armed troops

among us:

For protection For protecting them by a mock trial from punishment for any murders which they should commit on the inhabitants of these states; For cutting off our trade with all parts of

the world:
For imposing taxes on us without our con-

sent:
For depriving us in many cases of the benefits of trial by jury;
For transporting us beyond seas to be tried for pretended offenses;
For abolishing the free system of English laws in a neighboring province, establishing therein an arbitrary government, and enlarging its boundaries so as to render it at once an example and fit instrument for introducing the same absolute rule into these colonies;
For taking away our charters abolishing

the same absolute rule into these colonies;
For taking away our charters, abolishing our most valuable laws and altering fundamentally the forms of our governments;
For suspending our own legislatures and declaring themselves invested with power to legislate for us in all cases whatsoever.
He has abdicated government here by declaring us out of his protection and waging war against us.
He has plundered our cost a support of the protection and waging war against us.

war against us.

He has plundered our seas, ravaged our coasts, burnt our towns and destroyed the lives of our people.

He is at this time transporting large armies of foreign m-recenaries to complete the work of death, desolation and tyranny already begun, with circumstances of cruelty and perfuly scarcely paralleled in the most barbarous ages and totally unworthy the head of a civilized nation.

fidy scarcety parameter in the head of a civilized nation.

He has constrained our fellow citizens taken captive upon the high seas to bear arms against their country. to become the executioners of their friends and brethren or to fall themselves by their hands.

He has excited domestic insurrection amongst was and has endeavored to bring on the in-

habitants of our frontiers the merciless Indian savages, whose known rule of warfare is an undistinguished destruction of all ages, sexes and conditions.

an undistinguish d destruction of all ages, sexes and conditions.

In every stage of these oppressions we have recitioned for redress, in the most humble terms; our repeated petitions have been answered only by repeated injury. A prince whose character is thus marked by every act which may define a tyrant is unfit to be the ruler of a free people.

Nor have we been wanting in attention to our British bretheren, We have warned them, from time to time of attempts by their legislature to extend an unwarrantable jurisdiction over us. We have reminded them of the circumstances of our emigration and settlement when the word of the disavow these usurpations, which would inevitably interrupt our common kindred, to disavow these usurpations, which would inevitably interrupt our connections and correspondence. They, too, have been deaf to the voice of instice and consanguinity. We must, therefore, acquiesce in the necessity which denounces our separation, and hold them, as we hold the rest of mankind, enemies in war; in peace, friends.

We, therefore, the representatives of the United States of America, in general congress assembled, appealing to the Supreme Judge of the World for the rectitude of our intentions, do, in the name and by the authority of the good people of these colonies, solemnly pub-

do. in the name and by the authority of the good people of these colonies, solemnly publish and declare that these united colonies are and of right ought to be, free and independent and of right to use the states; that they are absolved from all allegiance to the British crown, and that all political connection between them and the state of Great Britain is, and ought to be, totally dissolved; and that as free and independent states they have full power to levy war, conclude peace, contract alliances, establish commerce and to do all other acts and things

which independent states may of right do. And for the support of this declaration, with a firm reliance on the protection of Divine Providence, we mutually pledge to each other our lives, our fortunes and our sacred honor.

Signed by order and in behalf of the congress.

## WASHINGTON'S FAREWELL ADDRESS.

To the people of the United States:

To the people of the United States:
Friends and Fellow Citizens: The period
for a new election of a citizen to administer
the executive government of the United States
being not far distant, and the time actually
arrived when your thoughts must be employed in designating the person who is to
be clothed with that important trust, it
appears to me proper, especially as it may
conduce to a more distinct expression of the
public voice, that I should now apprise you
of the resolution I have formed, to decline
being considered among the number of those

of the resolution I have formed to decline being considered among the number of those out of whom a choice is to be made.

I beg you, at the same time, to do me he justice to be assured that this resolution has not been taken without a strict regard to all the considerations appertaining to the relation which binds a dutiful citizen to his country; and that, in withdrawing the teader of service which silence in my situation might imply. I am influenced by no diminution of zeal for your future interest; no deficiency of grateful respect for your past kindness; but am supported by a full conviction that the step is compatible with both.

both.

The acceptance of and continuance hitherto in the office to which your suffrages have twice called me have been a uniform sacrifice twice called me have been a uniform sacrifice of inclination to the opinion of duty and to a deference for what appeared to be your desire. I constantly hoped that it would have been much earlier in my power, consistently with the motives which I was not at liberty to disregard, to return to that retirement from which I had been reluctantly drawn. The strength of my inclination to do this previous to the last election had even led to the preparation of an address to declare it to you; but mature reflection on

the then perplexed and critical posture our affairs with foreign nations and the unanimous advice of persons entitled to my confidence impelled me to abandon the idea.

our antairs with loreign hations and the unanimous advice of persons entitled to my confidence impelled me to abandon the idea. I rejoice that the state of your concerns, external as well as internal, no longer render the pursuit of inclination incompatible with the sentiment of duty or propriety; and am persuaded, whatever partiality may be realined for my services, that in the present circumstances of our country you will not disapprove my determination to retire.

The impressions with which I first undertook the arduous trust were explained on the proper occasion. In the discharge of this trust I will only say that I have, with good intentions, contributed towards the organization and administration of the government the best exertions of which a very fallible judgment was capable. Not unconscious in the outset of the inferiority of my qualifications, experience, in my own eyes, perhaps still more in the eyes of others, has strengthened the motives to diffidence of myself; and every day, the increasing weight of years admonishes me more and more that the shade of retirement is as necessary to me as it will be welcome. Satisfied that if any circumstances have given peculiar value to my services they were temporary. I have the consolation to believe that, while choice and prudence invite me to quit the political scene, patriotism does not forbid it.

In looking forward to the moment which is to terminate the career of my political life my feelings do not permit me to suspend the deep acknowledgment of that debt of gratitude which I owe to my beloved country, for the many honors it has conferred upon me; still more for the steadfast confidence with which it has supported me; and

for the opportunities I have thence enjoyed of manifesting my inviolable attachment, by services faithful and persevering, though in usefulness unequal to my zeal. If benefits have resulted to our country from these services, let it always be remembered to your praise, and as an instructive example in our annals, that under circumstances in which the passions, agitated in every direction, were liable to mislead amidst appearances sometimes dubious, vicissitudes of fortune often discouraging—in situations in which not unfrequently want of success has countenanced the spirit of criticism—the constancy of your support was the essential prop of the efforts, and a guarantee of the plans, by which they were effected. Profoundly pentrated with this idea, I shall carry it with me to my grave as a strong incitement to unceasing vows that heaven may continue to you the choicest tokens of its beneficence—that your union and brotherly affection may be perpetual—that the free constitution, which is the work of your hands may be sacredly maintained—that its administration in every department may be stamped with wisdom and virtue—that, in fine, the happiness of the people of these states, under the auspices of liberty, may be made complete by so careful a preservation and so prudent a use of this blessing as will acquire to them the glory of recommending it to the applause, the affection and adoption of every nation which is yet a stranger to it.

Here, perhaps, I ought to stop. But a solicitude for your welfare, which cannot end but with my life, and the apprehension of danger, natural to that solicitude, urge me, on an occasion like the present, to offer to your solemn confemplation and to recommend to your frequent review some sentiments which are the result of much reflection, of no inconsiderable observation, and which appear to me all important to the permanency of your felicity as a people. These will be offered to you with the more freedom, as you can only see in them the disinterested warnings of a parting friend, who can possibly have no personal motive to bias his counsel. Nor can I forget as an encouragement to it your indulgent reception of my sentiments on a former and not dissimilar occasion.

Interwoven as is the love of liberty with every ligament of your hearts, no recommendation of mine is necessary to fortify or con-

firm the attachment.

The unity of government which constitutes you one people is also now dear to you. It is justly so, for it is a main pillar in the edifice of your real independence; the support of your tranquillity at home, your peace abroad: of your safety: of your prosperity: of that very liberty which you so highly prize. But, as it is easy to foresee that from different quarters much pains will be taken, many artifices employed, to weaken in your minds the conviction of this truth: as this is the point in your political fortress against which the batteries of internal and external enemies will be most constantly and actively (though often covertly and insidiously) directed, it is of infinite moment that you should properly estimate the immense value of your national union to your collective and individual happiness: that you should cherish a cordial, habitual and immovable attachment to it; accustoming yourselves to think and speak of it as of the palladium of your political safety and prosperity; watching for its preservation with jealous anxiety; discountenancing whatever may suggest even a suspicion that it can, in any event, be abandoned; and indignantly froming upon the first dawning of every attempt to alienate any portion of our country

from the rest or to enfeeble the sacred ties which now link together the various parts.

For this you have every inducement of sympathy and interest. Citizens by birth, or choice, of a common country, that country has a right to concentrate your affections. The name of American, which belongs to you in your national capacity, must always exalt the just pride of patriotism more than any appellation derived from local discriminations. With slight shades of difference, you have the same religion, manners, habits and political principles. You have, in a common cause, fought and triumphed together; the independence and liberty you possess are the work of joint counsels and joint efforts, of common dangers, sufferings and successes.

But these considerations, however powerfully they address themselves to your sensibility, are greatly outweighed by those which apply more immediately to your interest. Here every portion of our country finds the most commanding motives for carefully guarding and preserving the union of the whole.

The north, in an unrestrained intercourse with the south, protected by the equal laws of a common government, finds in the productions of the latter great additional resources of maritime and commercial enterprise, and precious materials of manufacturing industry. The south, in the same intercourse benefiting by the same agency of the north, sees its agriculture grow and its commerce expend. Turning partly into its own chancels the seamen of the north, it finds its particular navigation invigorated; and while it contributes, in different ways, to nourish and increase the general mass of the national navigation, it looks forward to the protection of a maritime strength, to which itself is unequally adapted. The east, in a like intercourse with the west, already finds, and in the progressive improvement of interior communications by land and water, will more and more find a valuable vent for the commodities which it brings from abroad or manufactures at home. The west derives from he east supplies requisite to its growth and comfort—and, what is perhaps of still greater consequence, it must of necessity owe the secure enjoyment of indispensable outlets for its own productions to the weight, influence and the future maritime strength of the secure enjoyment of indispensable outlets for its own productions to the weight, influence and the future maritime strength of the secure of the tripular of the secure of the union, directed by an indissoluble community of interest as one nation. Any other tenure by which the west can hold this essential advantage, whether derived from its own separate strength or from an apostate and unnatural connection with any foreign power, must be intrinsically precarious.

While then every part of our country thus feels an immediate and particular interest in union, all the parts combined cannot fail to find in the united mass of means and efforts greater strength, greater resources, proportionably greater security from external danger, a less frequent interruption of their peace by foreign nations; and, what is of inestimable value, they must derive from union an exemption from those broils and wars between themselves, which so frequently afflict neighboring countries not tied together by the same government, which their own relationship would be sufficient to produce, but which opposite foreign alliances, attachments and intrigues would stimulate and encourage. Hence, likewise, they will avoid the necessity of those overgrown military establishment, which, under any form of government, are inauspicious to liberty, and which are to be particularly hostile to republican liberty. In this sense it is that your union ought to be considered as the main prop of your liberty,

and that the love of the one ought to endear

and that the love of the one ought to endear to you the preservation of the other. These considerations speak a persuasive language to every reflecting and virtuous mind, and exhibit the continuance of the union as a primary object of patriotic desire. Is there a doubt whether a common government can embrace so large a sphere? Let experience solve it. To listen to mere speculation in such a case were criminal. We are authorized to hope that a proper organization of the whole, with the auxiliary agency of governments for the respective subdivisions, will afford a happy issue to the experiment. It is well worth a fair and full experiment. With such powerful and obvious motives to union affecting all parts of our country, while experience shall not have demonstrated its impracticability, there always will be reason to distrust the patriotism of those who in any quarter may endeavor to weaken its hands.

In contemplating the causes which may

In contemplating the causes which may disturb our union, it occurs as a matter of serious concern that any ground should have been furnished for characterizing parties by geographical considerations—northern and control of the contemplation southern, Atlantic and western—whence designing men may endeavor to excite a belief that there is a real difference of local interests and views. One of the expedients of party to acquire influence within particular districts is to misrepresent the cpinions and aims of other districts. You cannot shield yourselves too much against the jealousies and hostburning within particular than the control of the yourselves too much against the jealousies and heartburnings which spring from these misrepresentations; they tend to render alien to each other those who ought to be bound together by fraternal affection. The inhabitants of our western country have lately had a useful lesson on this head. They have seen in the negotiation by the executive and the unanimous ratification by the senate of the treaty with Spain, and in the universal satisfaction at the event throughout the United States, a decisive proof how unfounded were the susnicions propagated among them United States, a decisive proof how unfounded were the suspicions propagated among them of a policy in the general government and in the Atlantic states unfriendly to their interests in regard to the Mississippi. They have been witnesses to the formation of two treaties—that with Great Britain and that with Spain—which secure to them everything they could desire in respect to our foreign relations toward confirming their prosperity. Will it not be their wisdom to rely for the preservation of these advantages on the union by which they were secured? Will they not henceforth be deaf to those advisers, if such they are, who would sever them from their brethren and connect them with aliens?

To the efficacy and permanency of your

To the efficacy and permanency of your union a government for the whole is indispensable. No alliances, however strict, between the parts can be an adequate substitute. They must inevitably experience the infractions and interruptions which all alliances in all times have experienced. Sensible of this momentous truth, you have improved upon your first essay by the adoption of a constitution of government better calculated than your former for an intimate lated than your former for an intimate union and for the efficacious management of your common concerns. This government, the offspring of your own choice, uninfluenced and unawed, adopted upon full investigation and mature deliberation, completely free in its principles, in the distribution of its powers, uniting security with energy, and containing within itself a provision for its own amendment, has a just claim to your confidence and your support. Respect for its authority, compliance with its laws, acquiescence in its measures, are duties enjoined

by the fundamental maxims of true liberty. The basis of our political systems is the right The basis of our pointers systems is the right of the people to make and alter their constitutions of government. But the constitution which at any time exists, until changed by an explicit and authentic act of the whole people, is sacredly obligatory upon all. The very idea is sacredly obligatory upon all. The very idea of the power and the right of the people to establish government presupposes the duty of every individual to obey the established government.

All obstructions to the executions of the laws, all combinations and associations, under whatever plausible character, with the real design to direct, control, counteract, or awe the regular deliberations and action of the constituted authorities, are destructive of this fundamental principle and of fatal tendency. fundamental principle and of fatal tendency. They serve to organize faction; to give it an artificial and extraordinary force; to put in the place of the delegated will of the nation the will of a party, often a small but artful and enterprising minority of the community and, according to the alternate triumphs of the different parties, to make the public administration the mirror of the ill concerted and incongruous projects of faction rather than the organ of consistent and wholesome plans, digested by common counsels and modiplans, digested by common counsels and modified by mutual interests.

However combinations or associations of the above description may now and then answer popular ends, they are likely in the course of time and things to become potent engines by which cunning, ambitious and unprincipled which cunning, ambitious and unprincipled men will be enabled to subvert the will of the people, to usurp for themselves the reins of government, destroying afterwards the very engines which have lifted them to unjust dominion.

Toward the preservation of your government and the permanency of your present happy state it is requisite not only that you steadily discountenance irregular opposition to steadily discountenance irregular opposition to its acknowledged authority, but also that you resist with care the spirit of innovation upon its principles, however specious the pretext. One method of assault may be to effect, in the forms of the constitution, alterations which will impair the energy of the system; and thus to undermine what capacity be directly will impair the energy of the system; and thus to undermine what cannot be directly overthrown. In all the changes to which you may be invited, remember that time and habit are at least as necessary to fix the true character of governments as of other human institutions—that experience is the surest standard by which to test the real tendency of the existing constitution of accountry—that faciliard by which to test the real tendency of the existing constitution of a country—that facility in changes, upon the credit of mere hypothesis and opinion, exposes to perpetual change from the endless variety of hypothesis and opinion; and remember, especially, that for the efficient management of your comment for the efficient management of your common for the efficient management of your common interests in a country so extensive as ours a government of as much vigor as is consistent with the perfect security of liberty is indispensable. Liberty itself will find in such a government, with powers properly distributed and adjusted, its surest grardian. It is, indeed, little else than a name where the government is too feeble to withstand the enterprises of faction, to confine each member of the society within the limits prescribed by the the society within the limits prescribed by the laws, and to maintain all in the secure and tranquil enjoyment of the rights of person and property.

I have already intimated to you the danger of parties in the state, with particular references to the founding them on geographical discrimination. Let me now take a more comprehensive view, and warn you in the most solemn manner against the baneful effects of the spirit of particular geographic. the spirit of party generally.
This spirit, unfortunately,

This spirit, unfortunately, is inseparable from our nature, having its root in the

strongest passions of the human mind. It exists under different shapes in all governments, ists under different snapes in all governments, more or less stifled, controlled or repressed; but in those of the popular form it is seen in its greatest rankness, and it is truly their

worst enemy.

The alternate domination of one faction over another, sharpened by the spirit of revenge natural to party dissension, which in different ages and countries has perpetrated the most ages and countries has perpetrated the most horrid enormities, is itself a frightful despot-ism. But this leads at length to a more formal and permanent despotism. The disorders and miseries which result gradually in-cline the minds of men to seek security and cinne the minus of men to seek security and repose in the absolute power of an individual; and, sooner or later, the chief of some pre-vailing faction, more able or more fortunate than his competitors, turns this disposition to the purpose of his own elevation on the ruins

the purpose of his own elevation on the ruins of public liberty.
Without looking forward to an extremity of this kind (which, nevertheless, ought not to entirely out of sight), the common and continual mischiefs of the spirit of party are sufficient to make it the interest and duty of a wise people to discourage and restrain it.
It serves always to distract the public coun-

a wise people to discourage and restrain it.

It serves always to distract the public councils and enfeeble the public administration.

It agitates the community with ill-founded is always of one part against another; foments occasional riot and insurrection. It opens the door to foreign influence and corruption, which finds a facilitated access to the sovernment itself through the channels of party passions. Thus the policy and the will of one country are subjected to the policy and will of another.

of another.

There is an opinion that parties in free coun-There is an opinion that parties in free countries are useful checks upon the administration of the government, and serve to keep alive the spirit of liberty. This within certain limits is probably true; and in governments of a monarchial cast, patriotism may look with indulgence, if not with favor, upon the spirit of party. But in those of the popular phareter in governments are aliverable cleating. lar character, in governments purely elective, it is a spirit not to be encouraged. From their natural tendency it is certain there will always be enough of that spirit for every salutary purpose. And there being constant danger of excess, the effort ought to be, by force of public opinion, to mitigate and assuage it. A fire not to be quenched, it demands a uniform vigilance to prevent it bursting into a flame, lest, instead of warming, it should con-

sume.

It is important likewise that the habits of thinking in a free country should inspire caution in those intrusted with its administration to confine themselves within their respective constitutional spheres, avoiding in the exercise of the powers of one department to encroach upon another. The spirit of encroachment tends to consolidate the powers of all the departments in one, and thus to create, whatever the form of government, a real despotism. A just estimate of that love of power whatever the form of government, a real despotism. A just estimate of that love of power and proneness to abuse it which predominate in the human heart is sufficient to satisfy us of the truth of this position. The necessity of reciprocal checks in the exercise of political router by dividing and distribution in the control of the course by dividing and distribution. reciprocal checks in the exercise of political power, by dividing and distributing it into different depositories, and constituting each the guardian of the public weal against invasions of the others, has been evinced by experiments ancient and modern; some of them in our country and under our own eyes. To preserve them must be as necessary as to institute them. If, in the opinion of the people, the distribution or modification of the constitutions or modification of the constitutions. distribution or modification of the constitu-tional powers be in any particular wrong, let it be corrected by an amendment in the way which the constitution designates. But let there be no change by usurpation; for though this, in one instance, may be the instrument of good, it is the customary weapon by which free governments are destroyed. The precedent must always greatly overbalance in per-manent evil any partial or transient benefit which the use can at any time yield.

Of all the dispositions and habits which lead to political prosperity, religion and morality to political prosperity, religion and morality are indispensable supports. In vain would that man claim the tribute of patriotism who should labor to subvert these great pillars of human happiness, these firmest props of the duties of men and citizens. The mere politician, equally with the plous man, ought to respect and to cherish them. A volume could not trace all their connections with private and public felicity. Let it simply be asked, where is the security for property, for reputation, for life, if the sense of religious obligation desert the oaths which are the instruments of investigation in courts of justice? And let us with caution indulge the the instruments of investigation in courts of justice? And let us with caution indulge the supposition that morality can be maintained without religion. Whatever may be conceded to the influence of refined education on minds of peculiar structure, reason and experience both forbid us to expect that national morality can prevail in exclusion of religious principle.

It is substantially true that virtue or morality is a necessary spring of popular government. The rule, indeed, extends with more or less force to every species of free government. Who that is a sincere friend to it can look with indifference upon attempts to shake the foundation of the fabric?

Promote, then, as an object of primary importance, institutions for the general diffusion of knowledge. In proportion as the structure of a government gives force to public opinion it should be enlightened.

lic opinion it should be enlightened.

As a very important source of strength and security, cherish public credit. One method of preserving it is to use it as sparingly as possible, avoiding occasions of expense by cultivating peace, but remembering, also, that timely disbursements, to prepare for danger, frequently prevent much greater disbursements to repel it; avoiding likewise the accumulation of debt, not only by shunning occasions of expense, but by vigorous exertions, in time of peace, to discharge the debts which unavoidable wars may have occasioned, out ungenerously throwing upon posterity the not ungenerously throwing upon posterity the burden which we ourselves ought to bear. The execution of these maxims belongs to your representatives, but it is necessary that public opinion should co-operate. To facilitate to them the performance of their duty, it is essential that you should practically bear in mind, that toward the payment of debts there must be revenue; that to have revenue there must be taxes; that no taxes can be devised which are not more or less inconvenient and unpleasant; that the intrinsic embarrassment inseparable from the not ungenerously throwing upon posterity the

inconvenient and unpleasant; that the intrinsic embarrassment inseparable from the selection of the proper object (which is always a choice of difficulties), ought to be a decisive motive for a candid construction of the conduct of the government in making it, and for a spirit of acquiescence in the measures for obtaining revenue which the public exigencies may at any time dictate.

Observe good faith and justice toward all nations. Cultivate peace and harmony with all. Religion and morality enjoin this conduct. And can it be that good policy does not equally enjoin it? It will be worthy of a free, enlightened, and at no distant period great nation to give to mankind the magnanimous and too novel example of a people always guided by an exalted justice and benevolence. Who can doubt that in the course of time and things the fruits of such a plan

would richly repay any temporary advantages which might be lost by a steady adherence to it? Can it be that Providence has not connected the permanent felicity of a nation with its virtue? The experiment, at least, is recommended by every sentiment which ennobles human nature. Alas! is it rendered impossible by its vices?

In the execution of such a plan nothing is more essential than that permanent, inveterate antipathies against particular nations and passionate attachments for others should be excluded, and that in place of them just and amicable feelings toward all should be cultivated. The nation which indulges toward another an habitual hatred or an habitual fondto its animosity or to its affection, either of which is sufficient to lead it astray from its duty and its interest. Antipathy in one nation against another disposes each more readily to offer insult and injury, to lay hold of slight causes of umbrage, and to be haughty and intractable when accidental or trifling occasions of dispute occur.

Hence frequent collisions, venomed and blood Hence frequent collisions, obstinate, envenomed and bloody contests. The nation prompted by ill will and resentment sometimes The nation impels to war the government contrary to the best calculations of policy. The government best calculations of policy. The government sometimes participates in the national propensity, and adopts through passion what reason would reject. At other times it makes the animosity of the nation subservient to projects of hostility, instigated by pride, ambition and other sinister and pernicious motives. The peace often, sometimes perhaps the liberty, of nations has been the victim.

So, likewise, a passionate attachment of one nation for another produces a variety of evils. Sympathy for the favorite nation. facilitating the illusion of an imaginary common interest in cases where no real common interest exists and infusing into one the enmities of the other, betrays the former into a participation in the quarrels and wars of the latter without adequate inducement or justification. It leads also to concession to the favority nevities of wireleases to the favorite nation of privileges denied to others, which is apt doubly to injure the nation making the concessions by unnecessarily parting with what tught to have been re-tained, and by exciting jealousy, ill will, and a disposition to retallate in the parties from whom equal privileges are withheld; and it gives to ambitious, corrupted or deluded citi-zens (who devote themselves to the favorite zens (who devote themselves to the rayorite nation) facility to betray or sacrifice the interests of their own country without odium, sometimes even with popularity, gilding with the appearances of a virtuous sense of obligation a commendable deference for public opinion or a laudable zeal for public good, the base or foolish compliances of ambition, computing or instantional computers or instantional comments. corruption or infatuation.

foreign influence in innuavenues to merable ways, such attachments are particularly alarming to the truly enlightened and independent patriot. How many opportunities do they afford to tamper with domestic factions, to practice the arts of seduction, to mislead public opinion, to influence or awe the public councils! Such an attachment of a small or councils! Such an attachment of a small or weak toward a great and powerful nation dooms the former to be the satellite of the latter. Against the insidious wiles of foreign influence (I conjure you to believe me, fellow citizens) the jealousy of a free people ought to be constantly awake, since history and experience prove that foreign influence is one of the most baneful foes of republican government. But that jealousy, to be useful, must be impartial, else it becomes the instrument of the very influence to be avoided, instead of a defense against it. Excessive partiality for one foreign nation and excessive distiality for one foreign nation and excessive dis-

like of another cause those whom they actuate to see danger only on one side, and serve to veil and even second the arts of influence on the other. Real patriots who may resist the intrigues of the favorite are liable to be-come suspected and odious, while its tools and dupes usurp the applause and confidence of the people to surrender their interests.

The great rule of conduct for us in regard to foreign nations is in extending our commercial relations to have with them as little political connection as possible. So far as we have already formed engagements let them be fulfilled with perfect good faith. Here let us

stop.

Europe has a set of primary interests which to us have none or a very remote relation. Hence she must be engaged in frequent con-troversies, the causes of which are essentially foreign to our concerns. Hence, therefore, it foreign to our concerns. Hence, therefore, it must be unwise in us to implicate ourselves by artificial ties in the ordinary vicisitudes of her politics or the ordinary combinations and collisions of her friendships or enmities.

Our detached and distant situation invites Our detached and distant situation invites and enables us to pursue a different course. If we remain one people, under an efficient government, the period is not far off when we may defy material injury from external annoyance; when we may take such an attitude as will cause the neutrality we may at any time resolve upon to be scrupulously respected; when belligerent nations, under the impossibilwhen beingerent nations, under the impossion ity of making acquisitions upon us, will not lightly hazard the giving us provocation; when we may choose peace or war, as our interest, guided by justice, shall counsel.

Why forego the advantages of so peculiar a situation? Why quit our own to stand upon foreign ground? Why, by interweaving our destiny with that of any part of Europe, entangle our peace and prosperity in the toils of European ambition, rivalship, interest, humor or caprice?

or caprice?

It is our true policy to steer clear of permanent alliances with any portion of the foreign world, so far, I mean, as we are now at liberty to do it; for let me not be understood as capable of patronizing infidelity to existing engagements. I hold the maxim no less applicable to public than to private affairs that honesty is always the best policy. I repeat, therefore, let those engagements be observed in their genuine sense. But in my opinion it is unnecessary and would be unwise to extend them

Taking care always to keep ourselves by suitable establishments on a respectable defensive posture, we may safely trust to temporary alliances for extraordinary emergencies.

Harmony, liberal intercourse with all nations are recommended by policy, humanity and interest. But even our commercial policy should hold an equal and impartial hand, neither seeking nor granting exclusive favors or preferences: consulting the natural course of things; diffusing and diversifying by gentle means the streams of commerce, but forcing in order to give trade a stable course, to define the rights of our merchants, and to enable the government to support them, conventional rules of intercourse, the best that present circumstances and mutual opinion will permit but temporary and liable to be from time to time abandoned or varied as experience and circumstances shall dictate; constantly keeping in view that it is folly in one nation to look for disinterested favors from another; that it must pay with a portion of its independence for whatever it may accept under that character; that by such acceptance it may place itself in the condition of having given equivalents for nominal favors, and yet of being rethe government to support them, conventional lents for nominal favors, and yet of being re-proached with ingratitude for not giving more. There can be no greater error than to expect

or calculate upon real favors from nation to nation. It is an illusion which experience must cure, which a just pride ought to discard

In offering to you, my countrymen, these counsels of an old and affectionate friend. I dare not hope they will make the strong and lasting impression I could wish—that they will centrol the usual current of the passions or prevent our nation from running the course prevent our nation from running the course which has hitherto marked the destiny of nations. But if I may even flatter myself that they may be productive of some partial benefit, some occasional good—that they may now and then recur to moderate the fury of party spirit, to warn against the mischiefs of foreign intrigue, to guard against the impostures of pretended patriotism—this hope will be a full recompense for the solicitude for your welfare by which they have been dictated.

How far in the discharge of my official duties I have been guided by the principles which have been delineated the public records and other evidences of my conduct must witness to you and to the world. To myself, the assurance of my own conscience is that I have at least believed myself to be guided by them.

In relation to the still subsisting war in Europe my proclamation of the 22d of April, 1793, is the index to my plan. Sanctioned by your approving voice and by that of your representatives in both houses of congress, the spirit of that measure has continually governed me, uninfluenced by any attempts to deter or divert me from it.

deter or divert me from it.

After deliberate examination, with the aid of the best lights I could obtain, I was well satisfied that our country, under all the circumstances of the case, had a right to take and was bound in duty and interest to take a neutral position. Having taken it, I determined as far as should depend upon me to a standard it with moderation, perseverance and framewers. firmness.

The considerations which respect the right to hold this conduct it is not necessary on this occasion to detail. I will only observe that, according to my understanding of the

matter, that right, so far from being denied by any of the belligerent powers, has been vir-tually admitted by all.

The duty of holding a neutral conduct may e inferred, without anything more from the be inferred, without anything more, from the obligation which justice and humanity impose on every nation, in cases in which it is free to act, to maintain involate the relations of peace and amity toward other nations.

peace and amity toward other nations.

The inducements of interest for observing that conduct will best be referred to your own reflections and experience. With me a predominant motive has been to endeavor to gain time to our country to settle and mature its yet recent institutions, and to progress without interruption to that degree of strength and consistency which is necessary to give it, humanly speaking, the command of its own fortunes. fortunes.

Though in reviewing the incidents of my administration, I am unconscious of intentional error, I am nevertheless too sensible of my error. I am nevertheless too sensible of my defects not to think it probable that I may have committed many errors. Whatever they may be, I fervently beseech the Almighty to avert or mitigate the evils to which they may tend. I shall also carry with me the hope that my country will never cease to view them with indulgence; and that, after forty-five years of my life dedicated to its service, with an upright zeal, the faults of incompetent abilities will be consigned to oblivion, as myself must soon be to the mansions of rest. Relying on its kindness in this as in other things, and actuated by that fervent love to-

things, and actuated by that fervent love to-wards it which is so natural to a man who views in it the native soil of himself and his progenitors for several generations, I antici-pate with pleasing expectation that retreat in which I promise myself to realize, without alloy, the sweet enjoyment of partaking, in the midst of my fellow citizens, the benign influence of good laws under a free government—the ever favorite object of my heart, and the benny reward as I trust of our my. and the happy reward, as I trust, of our mutual cares, labors and dangers,
GEO. WASHINGTON.

United States, 17th September, 1796.

## LINCOLN'S GETTYSBURG SPEECH.

Address at the dedication of Gettysburg cemetery, Nov. 19, 1863.

Fourscore and seven years ago our fathers brought forth on this continent a new nation, conceived in liberty and dedicated to the

non, conceived in neerty and dedicated to the proposition that all men are created edual. Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure, we met on a great battle field of that war. We have come to dedicate a portion of who here gave their lives that that nation might live. It is altogether fitting and proper might live. It is altogether fitting and proper that we should do this.

But, in a larger sense, we cannot dedicate might live.

we cannot consecrate—we cannot hallow—this ground. The brave men, living and dead, who struggled here have consecrated it, far

above our poor power to add or detract. The world will little note nor long remember what we say here, but it can never forcet what they did here. It is for us the living, rather, to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us—that from these honored dead we take increased devotion to that cause for which they gray the last full measure of devotion. take increased devotion to that cause for which they gave the last full measure of devotion— that we here highly resolve that these dead shall not have died in vain—that this nation, under God, shall have a new birth of freedom— and that government of the people, by the people, for the people shall not perish from the earth.

## MEMORIAL TO ABRAHAM LINCOLN IN NATIONAL CAPITAL.

MARBLE SHRINE IN WASHINGTON DEDI-CATED MAY 30, 1922.

The beautiful Lincoln memorial erected by the American nation on the banks of the Potomac was formally dedicated May 30. 1922. The completed structure was presented by Chief Justice Taft, chairman of the memorial commission, and was accepted on behalf of the government by President Warren G. Harding. The invocation and benediction were delivered by the Rev. Wallace Radcliffe pastor of the New York Avenue Presbyterian church, Washington, where Lincoln worshiped. Dr. Robert R. Moton of the Tuskegee institute paid a tribute to the emancipator of the negroace and Edwin Markham read his poem "Lin-The beautiful Lincoln memorial erected by paid a tribute to the emancipator of the negroace and Edwin Markham read his poem "Lincoln the Man of the People." Among those who attended the dedication were Robert T. Lincoln, the martyred president's son, and Mrs. Lincoln; Henry R. Bacon, architect of the memorial; Daniel Chester French, sculptor of the heroic scated figure of Lincoln placed in the center of the memorial, and Jules Guerin, designer of the allegorical frescoes. Others present were members of the Supreme court, foreign ambassadors and ministers and members of congress. Grand Army men. led members of congress. Grand Army men, led by Lewis S. Pileer, commander in chief, pre-sented the colors and laid symbols of the army and navy at the foot of the structure. A number of gray-clad Confederate veterans were seated along the colonade.

President Harding in his address laid stress on the fact that union and not emancipation was the supreme goal of Abraham Lincoln. "His faith was inspiring, his resolution commanding, his sympathy reassuring, his simulations of the supremental sympathy his simulation." manding, his sympathy reassuring, his simplicity enlisting, his patience unfailing. He was faith, patience and courage, with his head above the clouds, unmoved by the storms which raged about his feet."

Chief Justice Taft in his speech gave a history of the building of the memorial and described some of the features of the shrine. Between the lines of his address was given an impression of the feat of the designers in planting the company of the lines of the shrine. ning a \$3,000,000 memorial to Lincoln that is

# AMERICAN HALL OF FAME.

"The Hall of Fame for Great Americans" is the name of a building on University Heights in New York city, in which are inscribed on bronze tablets the names of famous American men and women. Nominations for the honor men and women. Nominations for the honor are made by the public and are submitted to a committee of 100 eminent citizens. In the case of men fifty-one votes are required and in the case of women forty-seven. The first balloting took place in October, 1900, when the following were chosen: George Washington.

Abraham Lincoln. Daniel Webster Benjamin Franklin. Ulysses S. Grant. John Marshall. Thomas Jefferson. Ralph W. Emerson. H. W. Longfellow. Robert Fulton. Horace Mann. Henry W. Beecher.

James Kent. Joseph Story. John Adams. Washington Irving. Jonathan Edwards. Samuel F. B. Morse. David G. Farragut. Henry Clay. Nathaniel Hawthorne. George Peabody. Robert E. Lee. Peter Cooper.

Eli Whitney. John J. Audubon. William E. Channing. Gilbert Stuart. Asa Gray.

Chosen in 1905. John Quincy Adams.
Jomes Russell Lowell.
William T. Sherman.
James Madison. John G. Whittier. Alexander Hamilton. Louis Agassiz. Mary Lyon. Emma Willard. Maria Mitchell. Chosen in 1910.

Harriet Beecher Stowe. Oliver Wendell Holmes. Edgar Allan Poe. James Fenimore Cooper. Phillips Brooks.

William Cullen Bryant. Frances E. Willard. Andrew Jackson. George Bancroft. John Lothrop Motley.

Chosen in 1915. Francis Parkman. Mark Hopkins. Elias Howe. Joseph Henry. Rufus Choate. Daniel Boone. Charlotte Cushman.

Chosen in 1920. Samuel L. Clemens (Mark Twain). Augustus St. Gaudens. James Buchanan Eads. Patrick Henry.
William T. G. Morton.
Roger Williams.
Alice Freeman Palmer.

## FLAG OF THE UNITED STATES. Executive order of May 29, 1916,

It is hereby ordered that national flags and only) the blue field should be at the right as union jacks for all departments of the government, with the exception noted under (a), shall conform to the following proportions:

conform to the following proportions:

Hoist (width) of flag, 1.9.

Fly (length) of flag, 1.9.

Hoist (width) of union, 7-13,

Fly (length) of union, 7-6,

Width of each stripe, 1-13,

(a) Exception: The colors carried by troops and camp colors shall be the sizes prescribed for the military service (army and navy).

Limitation of the number of sizes: With the exception of colors under note (a) the sizes of

exception of colors under note (a) the sizes of flags manufactured or purchased for the government departments will be limited to those

enument departments will be limited to those with the following hoists:

(1) 20 feet: (2) 19 feet (standard); (3) 14.35 feet; (4) 12.19 feet; (5) 10 feet; (6) 8.94 feet; (7) 5.14 feet; (8) 5 feet; (9) 3.52 feet; (10) 2.90 feet; (11) 2.37 feet; (12) 1.31 feet

(12) 1.31 feet. Union jacks: The size of the jack shall be the size of the union of the national flag with which it is flown.

The national flag of the United States now consists of thirteen alternate red and white stripes, representing the original thirteen states. and a blue field on which are forty-eight white stars arranged in six rows of eight stars each, representing the forty-eight states now consti-tuting the union. The last two stars were added in 1912 when New Mexico and Arizona were officially admitted as states.

Laws are in force in some of the states for-bidding the desecration or mutilation of the flag or its use in any way for advertising pur-poses. A federal law forbids the use of the national flag on trade-marks. The national flag was officially adopted by congress June 14, 1777. Accordingly June 14 is now generally observed as Flag day.

# WHEN AND HOW TO USE THE FLAG.

[By E. B. Wicklander.] The flag should not be raised before sunrise and should be lowered at sunset, but may fly at all times during war if intended for patriotic and not advertising purposes. In stormy weather it is considered unkind to permit the flag to fly except in battle, where it may wave night and day without regard for weather. for weather.

for weather.

The flag in times of peace is not permitted by correct usage to float all night except at the grave of Francis Scott Key, author of "The Star Spangled Banner."

Displaying the Flag—The flag, out of doors, should be flown from a pole whenever possible, or a wire or rope. In the United States army all flags are suspended from poles and in no other way. The blue field is The blue field is no other way. and in no other way. The blue field is placed farthest from the house displaying it. except when facing a parade, with the flag suspended across the street with the stripes perpendicular, in which case the blue field goes in the upper left hand corner as viewed by the parade. and in

by the parade.

While raising or lowering the flag, it must not touch the ground; care for it tenderly and respectfully.

Driving nails in the flag to hold it in place is considered wrong. Preferably it should be tied with red, white or blue cord, or tricelered cord. colored cord.

Colers on Parade—When the colors are passing on parade or in review the spectator should, if walking, halt; if sitting, are stand at attention and uncover; men to reshould, if waiting, fait; if sitting, arise, stand at attention and uncover; men to remove their hats and women to bow their heads. All military men are required to heads. All m stand at salute.

in Decoration-When the flag is hung vertically (so it can be viewed from one side a fine of \$100.

only) the blue field should be at the right as one faces it. When hung horizontally the field should be at the left. The flag should never be placed below a person sitting.

Desceration of the Flag—No advertisement or lettering of any sort should ever be placed upon the flag, or any object, especially merchandise for sele, placed upon it; nor should it ever be used as a trade-mark. It should not be worn as the whole or part of a costume, and when worn as a badge it should be small and pinned over the left breast or to the left collar lapel.

When worn as an emblem on the coat or other garment, no other token should be worn above it.

above it.

The flag in any form should never appear on towels, handkerchiefs, aprons or other utilitarian clothes of any kind, nor used as a table

When Portrayed—The flag when portrayed by an illustrative process should always have the staff so placed that it is at the left of the picture, the fabric floating to the right. In crossing the flag with that of another na-tion, the United States flag should be at the

right.
Used as a Banner—When the flag is used as a banner, the blue field should fly to the north in streets running east and west, and

north in streets running east and west, and to the east in streets running north and south. Half-Mast or Used on a Bier-Before placing the flag at half-mast on Memorial day or when officially required as a symbol of mourning, it must have been raised to the top of pole or staff and then lowered at or near the center of the staff.

When the flag is placed over a bier or casket, the blue field should be at the head. On Memorial day, May 30—The national flag should be displayed at half-mast until noon, then hoisted to the top of the staff, where it

should be displayed at half-mast until noon, then hoisted to the top of the staff, where it remains until sunset.

Days When the Flag Should Be Flown-Washington's birthday, Feb. 22; Lincoln's birthday, Feb. 12; Lincoln's birthday, Feb. 12; Mothers' day, second Sunday in May; Memorial day, May 30; Flag day, June 14; Independence day, July 4; also many local patriotic anniversaries.

## FLAG DISPLAY DAYS IN CHICAGO.

In accordance with an order issued May 8, 1915, the American flag should be hoisted on the buildings of Chicago under the jurisdiction of the city government on all election days and on the following anniversaries:
Feb. 12—Lincoln's birthday,
Feb. 15—Sinking of the Maine,
Feb. 22—Washington's birthday,
April 19—Battle of Lexington,
May 30—Memorial day

June 14—Flag day.
June 17—Battle of Bunker Hill.
July 4—Independence day.
Oct. 9—Chicago day.

Oct. 12—Columbus day, Oct. 12—Columbus day, Oct. 17—Battle of Saratoga. Oct. 19—Surrender of Yorktown. Nov. 25—Evacuation of Yorktown.

On all the foregoing dates the flag should be hoisted at full mast, with the exception of Memorial day and the anniversary of the sinking of the Maine, when it should be at halfmast. The hours of displaying the flag are from sunrise to sunset.

from sunrise to sunset.

By an ordinance passed Feb. 5, 1917, by the Chicago city council, the playing of the "Star Spangled Banner" in public places in any way except as an entire and separate composition and without embellishments of national or other melodies is prohibited. The playing of the air as dance music or for an exit march is also prohibited. Violation of the ordinance by proprietors or performers is punishable by a fine of \$100

### THERMOMETERS COMPARED.

There are three kinds of thermometers, with varying scales, in general use throughout the world—the Fahrenheit, Reaumur and centitheir scales compare as follows:
Thermometer.
Freezing pt.
Boiling pt.

212 degrees 80 degrees 100 degrees Fahrenheit ......32 degrees Reaumur .....zero entigrade .....zero 100 degrees
In the adjoining column is a cut showing Centigrade

at a glance how the scales compare with each other. The Reaumur (R) scale is in the middle with the Fahrenheit (F) and the centigrade (C) scales on either side.

FORMULAS FOR EQUIVALENTS. The degrees on one scale are reduced to their equivalent on another by these formulas: Fahrenheit to Reaumur—Subtract 32, multi-

ply by four-ninths.
Fahrenheit to Centigrade—Subtract 32, mul-

rancement to centifrace—Subtract 32, multiply by five-ninths.

Reaumur to Fahrenheit—Multiply by nine-fourths, add 32.

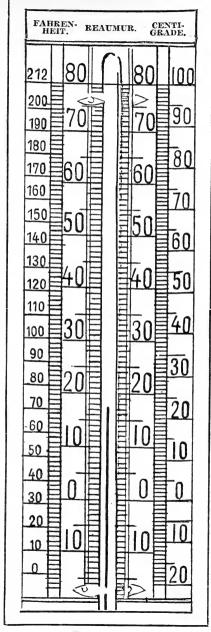

Reaumur to Centigrade - Multiply by fivefourths. Centigrade to Fahrenheit-Multiply by nine-

fifths, add 32 Centigrade to Reaumur-Multiply by fourfifths.

WEDDING ANNIVERSARIES.

First—Cotton. Second—Paper. Third—Leather. Fifth—Wooden. Seventh-Woolen. Tenth-Tin Twelfth-Silk and fine linen.

Fifteenth—Crystal. Twentieth—China. Twenty-fifth-Silver. Thirtieth-Pearl. Fortieth—Ruby. Fiftieth—Golden Seventy-fifth—Diamond

TABLE OF YEARLY WAGES.

### SIMPLE INTEREST TABLE.

Note—To find the amount of interest at 2½ per cent on any given sum, divide the amount given for the same sum in the table at 5 per cent by 2; at 3½ per cent divide the amount at 7 per cent by 2, etc.

WEIGHTS AND MEASURES USED IN THE UNITED STATES.
                                       LONG MEASURE.
                                                                                                                                                                                CLOTH MEASURE.
12 inches
                                  = 1 foot.
                                                                                                                                          2 ¼ inches = 1 nail.
                                                                                                                                                                                                         |4 nails
                                                                                                                                                                                                                                            = 1 quarter.
                                = 1 root.
= 1 yard
= 1 rod
= 1 furlong
                                                                                                                                                                           4 quarters = 1 yard.
   3 feet
                                                                          = 36 inches.
                                                                        = 16½ feet.
= 660 feet.
   5½ yards
                                                                                                                                                                                  MISCELLANEOUS.
                                                                                                                                              3 \text{ inches} = 1 \text{ palm.}

4 \text{ inches} = 1 \text{ hand.}
                                                                                                                                                                                                           \begin{bmatrix} 6 \text{ inches} = 1 \text{ span.} \\ 18 \text{ inches} = 1 \text{ cubit.} \end{bmatrix}
40 rods
   8 \text{ furlongs} = \overline{1} \text{ mile}
                                                                          = 5.280 feet.
                               MARINERS' MEASURE.
                                                                                                                                                                        21.8 inches = 1 Bible cubit.
2½ feet = 1 military pace.
120 fathoms = 1 fathom.

7 ½ cable lengths = 1 cable length.

5.280 feet = 1 mile.
                                                                                                                                                                                           COUNTING.
                                                                                                                                          12 things = 1 dozen.
                                                                                                                                                                                                           | 12 gross = 1 great gr.
| 20 things = 1 score.
                                                                                                                                          12 dozen = 1 gross.
            0 feet = 1 nautical mile.
3 marine miles = 1 marine league.

Hungary—Metric system.

Iasly—Metric system.

Japan—Kin, 1,323 lbs.; kwan, 8,267 lbs.; sun, 1,93 inch; shaku, 11,931 inches; ken, 5,950 feet; ri, 2,44 miles; square ri, 5,955s square miles; cho (land) 2,45 acres; koku (liquid), 39,7033 gallons; koku (dry), 4,9629 bushels; to (liquid), 3,9703 gallons; to (dry), 1,9851 peck.

Liberia—Same as in United States.

Mexico—Metric system.

Nicaragua—Metric system.

Norway—Metric system.

Norway-Metric system.

Norway—Metric system.
Paraguay—Metric system: cuadra, 97 yards; 50 cuadras, 2% miles; square cuadra, 2 acres; square legua, 7½ square miles.
Peru—Ounce, 1.014 oz.; libra, 1.014 lb.; quintal, 101.44 lbs.; arroba (liquid), 6.70 gallons; arroba (dry), 25.36 lbs.; vara, .927 yard; square vara, .835 square yard.
Portugal—Metric system; libra, 1.012 lb.; alqueire, .36 bushel.
Roumania—Metric system and also Turkish weights and measures.

weights and measures.
Russia—Verst. 3.500 feet or .6629 mile:
square verst. 4394 square mile; dessiatine,
2.69 acres; pood, 40 lbs; vedro, 2% gallons;
chetvert, 5.77 bushels.
Santo Domingo—Metric system and also Amer-

panno pomingo—metric system and also American and Spanish weights and measures. Siam—Wah, 80 inches; rai, .39 acre; tical, .53 ounce; tamlung, 2.1 ounces. Spain—Metric system; quintal, .220.4 lbs.; libra, 1.014 lb.; arroba (wine), 3.5 gallons: arroba (oil), 2% gallons. Sweden—Metric system. Switzerland—Metric system.

sweden—Metric system. Switzerland—Metric system. Turkey—Oke, 2.8326 lbs.; kileh, .9120 bushel; cantar or kintal. 125 lbs.; cheke, 511,380 lbs.; dunam. 1.098.765 square yards. Uruguay—Metric system. Venezuela—Metric system.

# ABBREVIATIONS OF TITLES, DEGREES, ETC.

Following is a list of some of the more common abbreviations used after the names of persons to designate title, rank, degree, membership in societies, orders or public bodies, etc.:

A. R. A.—Associate of the Royal Academy.

B. A.—Bachelor of Arts.

B. D.—Bachelor of Divinity.

B. Sa.—Rabbelor of Grience.

B. D.—Bachelor of Divinity.
B. Sc.—Bachelor of Science.
C. B.—Companion of the Bath.
C. E.—Civil Engineer.
C. J. E.—Companion of Order of Indian Empire.
C. J.—Chief Justice.
C. M. G.—Companion of Order of St. Michael and St. George.
C. V. O.—Companion of Victorian Order.
D. D.—Doctor of Divinity.
D. Sc.—Doctor of Science.
D. S. O.—Distinguished Service Order.
F. R. G. S.—Fellow of the Royal Geographical Society.

Society.

F. R. S.—Fellow of the Royal Society.

J. P.—Justice of the Peace.

K. C.—King's Counsel.

K. C. B.-Knight Commander of the Bath.

K. C. M. G.—Knight Commander of Order of St. Michael and St. George. K. C. V. O.—Knight Commander of the Victorian

Michael and St. George.
K. C. V. O.—Knight Commander of the Victo Order.
K. G.—Knight of the Garter.
L. H. D.—Doctor of Humanities.
LL. B.—Bachelor of Laws.
LL. D.—Doctor of Laws.
LL. D.—Doctor of Literature,
M. A.—Master of Arts.
M. C.—Member of Congress,
M. D.—Doctor of Medicine,
M. P.—Member of Parliament.
M. V. O.—Member of Parliament.
M. V. O.—Member of the Victorian Order.
N. A.—National Academician.
O. M.—Order of Merit.
P. C.—Privy Councilor.
Ph. D.—Doctor of Philosophy.
R. A.—Royal Academician.
S. J.—Society of Jesus.
S. T. D.—Doctor of Sacred Theology.
U. S. N.—United States Army.
V. C.—Victoria Cross.

V. C.—Victoria Cross.

### NATIONAL HYMNS.

Following is a list of songs used as national hymns or anthems in various countries of the world:

"United States—"The Star Spangled Banner."\*
"America" and "Hail, Columbia," are also used as national songs.

Great Britain—'God Save the King.'' Germany—'Deutschland Uber Alles' (Germany Over All) and "Die Wacht am Rhein" (The Watch on the Rhine). France—'La Marseillaise.'

rrance—"La marsellaise," Austria (before the revolution)—"Gott Erhalte Unsern Kaiser" (God Preserve Our Emperor), Hungary—"Isten Ald Meg a Magyart" (Lord, Bless the Hungarian). Belgium—"La Brabanconne" (Song of the Bra-

bantines).

Denmark—"Kong Kristian Stod Ved Hoien
Mast" (King Christian Stood Beside the Lofty Mast)

Lofty Mast)

Norway—"Ja. Vi Elsker Dette Landet" (Yes. We Love This Land).

Poland—"Boze Cos Polske" (God Save Poland) and "Jeszcze Polska Nie Zginela" (Poland Is Not Lost Yet).

Sweden—"Fosterjorden" (Land of My Birth).

Finland—"Vaart Land" (Our Land).

Italy—"Marcia Reale Italiana" (Royal Italian March)

March). Mexicanos, al Grito de Guerra" (Mexicans, at the Cry of War).
Wales—"Land of My Fathers."

\*Official in navy.

### STATE MOTTOES.

Following are the mottoes adopted by the various states of the union and appearing on their state seals except as otherwise noted:

Alabama—Here we rest. Arizona—Ditat Deus (God enriches). Ariansas-Regnant populi (The people rule). California—Eureka (I have found it). Colorado—Nil nisi numine (Nothing without Providence) Connecticut—Qui transtulit sustinet

Connecticut—Qui transtulit sustinet (who transplanted sustains).
Delaware—Liberty and independence.
Florida—In God we trust.
Georgia—Wisdom, justice, moderation, Idaho—Esto perpetua (May it be perpetual).
Illinois—State sovereignty, national union.
Indiana—(No motto).

Iowa—Our liberties we prize and our rights we will maintain.

Kansas—Ad astra per aspera (To the stars through difficulties).
Kentucky—United we stand, divided we fall.

Rentucky—omeonic instice, confidence.
Maine—Dirigo (I direct).
Maryland—Fatti maschii, parole femine (Deeds, men: words, women).

men: words, women).

Massachusetts—Ense petit placidam sub libertate quietem (By the sword he seeks repose settled under liberty).

Michigan—Si quæris peninsulam amænam, cir-cumspice (If you seek a delightful penin-sula, look about you). Minnesota—L'etoile du nord (Star of the

north).

Mississippi—(No motto). Missouri—Salus populi suprema lex esto (Let the people's safety be the supreme law).

Montana—Oro y plata (Gold and silver). Nebraska—Equality before the law.

Nevada—All for our country. New Hampshire—(No motto)

New Jersey—Liberty and prosperity. New Mexico—Crescit eundo (It increases as it advances).

New York—Excelsior (Higher). North Carolina—Esse quam videri (To be

rather than to seem).
North Dakota-Liberty and union, now and

forever, one and inseparable. Ohio—(No motto). Oklahoma—Labor omnia vinci omnia vincit (Labor con-

Oklahoma—Jabor Omina Vinet (Labor con-quers all things). Oregon—The union. Pennsylvania—Virtue liberty and independence. Rhode Island—Hope. Carolina—Animis opibusque

(Ready in soul and resource) and Dum spiro spero (While I breathe I hope).

South Dakota—Under God the people rule.

South Dakota—Under God the people rule. Tennessee—Agriculture, commerce. Texas—Has no official motto, but "Texas—one and indivisible." adopted by the Daughters of the Republic of Texas, is sometimes used. Utah—Industry, (State seal indicates industry and independence). Vermont—Freedom and unity. Virginia—Sic semper tyrannis (Thus ever to

tyrants). Washington-(No motto).

West Virginia-Montani semper liberi (Mountainers are always free).
Wisconsin—Forward.
Wyoming—Equal rights.
United States—E pluribus unum (Out of many,

STATE NICKNAMES AND FLOWERS. State, Nickname, N. Hampshire, Granite state.

Washington... Evergreen state, Rhododendron,
West Virginia. The Panhandle, Rhododendron,
Wisconsin... Badger state... Violet.
Note—Only nicknames that are well known
and "state flowers" officially adopted or commonly accepted are given in the foregoing list.

\*Native state tree, the native oak. †Offi state song, "On the Banks of the Wabash.

# FLOWER AND GEM SYMBOLS OF MONTHS.

Month. Flower. Gem
January. Snowdrop. Garnet.
February. Primrose. Amethyst.
March. Violet. Bloodstone.
April. Daisy. Diamond.
May. Hawthorn. Emerald.
June. Honeysuckle. Chalecdony.
July. Water lily. Ruby.
August. Poppy. Sardonyx.
September. Morning glory. Sardonyx.
October. Hops. Aquamarine.
November. Chrysanthemum Topaz.
December. Hollv. Turquoise.
The above gem symbols are those of Polish tradition. The Jewish gem symbols of the Month. Flower. Gem.

months are: January, garnet; February, amethyst: March, jasper; April, sapphire; May, chalcedony, carnelian or agate; June, emerald; July, onyx; August, carnelian; September, chrysolite; October, aquamarine or beryl; No-

vember, topaz; December, ruby,
The birth stones authorized by the American
Jewelers' association are: January, garnet;
February, amethyst; March, aquamarine, bloodstone: April, diamond; May, emerald; June, pearl, moonstone; July, ruby; August, moonstone, peridot: September, sapphire; October, opal, tourmaline; November, topaz; December, turquoise, lapis lazuli.

### SHIPPING DATA.

# [Compiled by Charles H. Hughes.]

# SHIPPING MEASURE.

One register ton=100 cubic feet. One United States shipping ton=40 cubic feet or 32.14 United States bushels or 31.16 im-perial bushels.

One British shipping ton=42 cubic feet or 32.72 imperial bushels or 33.75 United States bushels.

# MARINER'S MEASURE.

6 feet=1 fathom. 120 fathoms=1 cable length. 5.280 feet=1 statute or land mile. 6.080 feet=1 knot or nautical mile. 3 knots=1 league.

# CIRCULAR MEASURE.

60 seconds=1 minute.
60 minutes=1 degree.

90 degrees=1 quadrant.
4 quadrants or 360 degrees=1 circumference. SHIPPING WEIGHT.

16 ounces=1 pound. 112 pounds=One hundredweight. 20 hundredweight or 2,240 pounds=1 ton.

### STORAGE SPACE REQUIRED FOR DIFFER-ENT MATERIALS.

Example—A steamer has a capacity of 180,000 cubic feet for carrying coal. How many tons will she carry?

From the table, average American coal stows 43 cubic feet per ton of 2,240 pounds, so 19902=4,186 tons—the number she would

Carry.
Note—The following table is based on a ton of 2.240 pounds. If the cubic feet per ton of 2.000 pounds is required, multiply the figures given by .892:

	*Cub. ft.	*Cub. ft.

### DEFINITIONS.

Displacement is the amount of water displaced by a vessel. If a vessel is floating in equilibrium in still water, the weight of the water she displaces equals the weight of the vessel herself with everything on board.

The displacement in cubic feet when floating in salt water divided by 35 (36 if in fresh water) gives the total weight of a ship and her cargo in tons, as 35 cubic feet of salt water weighs one ton (2.240 pounds) and 36 of fresh water the same amount.

ing 100 cubic feet.

water weighs one ton (2.240 pounds) and 36 of fresh water the same amount.

The displacement of a steel vessel is calculated to the molded lines (that is, to the outside of the frames) and no allowance is made as a rule for the thickness of the shell plating. For wooden vessels (motor boats, tugs, lighters, etc.) the displacement is calculated to the outside of the planking.

Dead weight is the carrying capacity of a vessel and includes the tons of cargo and coal.

Register ton measurement is the measure.

Register ton measurement is the measurement based on a ton of 2,240 pounds occupy-

Gross tonnage is the measurement in register tons of the interior capacity of the entire ship.

Net tonnage is the measurement in register tons upon which payment is made, and is the volume of the space available for cargo and

Block coefficient is the ratio of the volume of the displacement to the volume of a block having the same length, breadth and draft as the vessel. Cargo vessels have block coeffi-cients ranging from .75 to .85, while fast pas-senger steamers have block coefficients of about .65.

If the length, width and draft of a vessel are multiplied by the block coefficient and this product divided by the weight of water per ton (36 cubic feet for fresh and 35 for salt water per ton of 2,240 pounds) the displacement of the vessel will be obtained.

### SHIPPING TERMS.

- f. o. b. steamer (free on board steamer); goods to be delivered on board steamer by seller at no extra charge to purchaser.
- f. a. s. steamer (free at side steamer); goods to be delivered at side of steamer by seller.
- f. f. a. steamer (free from alongside steamer): the seller pays lighterage charges in the port of destination from the steamer.
- i. f. (cost, insurance and freight); the goods are delivered to the purchaser with the insurance and freight paid by the seller.
- c. f. (cost and freight); the goods are de-livered to the purchaser with the freight paid by the seller, but no insurance.
- o. (free over side); the goods are delivred over the side of a vessel, that is, to a lighter or on to a pier, without any extra charge to the purchaser.

charge to the purchaser.

Bill of lading (b. l.) is a receipt for goods delivered to a carrier for transportation. The bills of lading of some steamship companies contain the following clause: "Freight is to be considered earned at time of receipt of shipment and is to be paid whether vessel or goods are lost or not." In foreign trade bills of lading are generally made out in triplicate, one for the shipper, one for the consignee and one for the captain of the vessel, "With exchange" on a draft means that the party on whom the draft is drawn is to pay the cost of collection.

the cost of collection.

Demurrage-A charge for delay in loading or unloading a vessel.

unloading a vessel.

Lay days are the days agreed upon by the shipper and captain or agent of a vessel for loading and discharging a cargo, beyond which a demurrage will be paid to the owners of the vessel. Sundays and legal holidays do not count unless the term "running days" is inserted, in which case all days are included.

Manifest—A document signed by the captain of a vessel containing a list of the goods and merchandise on board with their destination, for the use of the custom house officials. By United States Revised Statutes 2807 it is required to contain the names of the ports of loading and destination, a description of the vessel and her nort names of overess and vessel and her port, names of owners and master, names of consignees and of passen-gers and lists of the passengers' baggage and of the sea stores.

papers-When ready Clearance for Clearance papers—when ready for sea the customs officials must be provided with a detail manifest of the ship's cargo. If the port charges have been paid and her cargo is properly accounted for, then the collector of the port will furnish the captain with clearacce papers, without which the vessel must not leave port.

Drawback-A refund of duties paid on im-

ported material that is used in the manufacture of goods that are exported. The United States government allows the exporter the import duty paid, less 1 per cent.

Salvage-The reward granted by law for sav-

ing life and property at sea, Jettison—The throwing overboard of a part of the cargo or any article on board of a ship for the purpose of lightening the ship in

case of necessity.

Bill of health-A certificate stating that the bill of nearment extended stating that the vessel comes from a port where no contagious disease prevails, and that none of the passengers (if carried) nor the crew at the time of departure was infected with any disease.

# MARINE INSURANCE.

A contract of marine insurance is a contract of indemnity whereby the insurance in tract of indemnity whereby the insurer undertakes to indemnity the insured in the manner and to the extent agreed against marine losses: i. e., the losses incident to marine adventure.

Unless specially mentioned in the policy, goods are not insured until they are on board of the vessel which is to carry them. Below are brief outlines of clauses and terms occurring in policies:

General average-Suppose a vessel springs a leak and to save her from sinking the captain throws overboard a portion of her cargo. The last shipment loaded on board is generally the first to come out.

If the shipment is fully insured the underwriters will pay the amount assessed against the goods, but whether the goods are insured the goods, but whether the goods are insured or not the general average will make good to the owner the value of the goods which were iettisoned less the assessment which the owner is called upon to pay. It is safe to figure that all policies of insurance on goods cover and protect the merchant against assessments in general average.

Thus a merchant can suffer considerable loss by reason of assessment levied against his goods in general average, although the goods arrive at their destination in a perfectly sound condition—but such losses can be fully covered by insurance.

Free of particular average (f. p. a.)—Under American conditions it is understood that no claim for partial loss or damage will be allowed by the underwriters unless the loss or damage is caused by the vessel's having been burned, stranded, sunk or in collision.

With average (w. a.)—This means that no claim will be made on the underwriters for partial loss caused by sea perils unless the damage amounts to 5 per cent or more of the value of the shipment.

Free of all average (f. a. a.)—This, as the clause signifies, means free of all average.

Collision or ruling or running down clause (r. d. c.)—This is a clause in which the underwriters take a burden of a proportion. derwriters take a burden of a proportion, usually three-quarters, of the damage inflicted on other vessels by collision for which the insured vessel is held to blame. Sometimes this clause is extended to cover the whole of the assured's liabilities arising out of the damage done to property by the collision of the insured vessel with another and the clause is then known as the "four-fourths running down clause."

Incharmee clause—This clause covers loss of or damage to hull and machinery through the negligence of master, mariners, engineers and pilots, or through explosions, bursting of boilers, breakage of shafts or through any latent defect in the machinery or hull, provided such loss or damage has not resulted from want of due diligence by the owners of the ship or by the manager

# POPULATION OF THE UNITED STATES BY COLOR OR RACE.

[From federal census, taken as of Jan. 1, 1920.]

The rate of increase of the principal races |

the Tate of increase of the principal races during the decade 1910-1920 was:
Total population, 14.9 per cent; white, 16 per cent: negro, 6.5 per cent; Japanese, 539 per cent. The Indian population decreased by 8.6 per cent and the Chinese population by 13.8 per cent.

# WHITE POPULATION.

The rate of increase in the white population during the recent decade, 16 per cent, is conduring the recent decade, 16 per cent, is considerably less than the corresponding rate for the period 1900-1910, which was 22.3 per cent. This decline is accounted for mainly by the great reduction in the volume of immigration during the period of the world war. An estimate based on the excess of births over deaths and on the excess of immigration over emigration yields a total differing by only a small fraction of 1 per cent from the total white population enumerated white population enumerated.

# NEGRO POPULATION.

The rate of increase in the negro population, which is not perceptibly affected by immigra-tion or emigration, is by far the lowest on record. This element of the population has record. This element of the population has been growing at a rapidly diminishing rate during the last thirty years, its percentage of increase having declined from 18 per cent between 1890 and 1900 to 11.2 per cent during the following decade and to 6.5 per cent during the following decade and to 1.100 Such ing the ten years ended Jan. 1, 1920. Such data as are available in regard to birth and death rates among the negroes indicate that the birth rate has decreased considerably since 1900. while the death rate has not changed greatly.

northern boundaries of Delaware, Maryland, West Virginia, Kentucky, Arkansas and Oklahoma. The west is that part of the country lying west of the eastern limits of Montana. Wyoming, Colorado and New Mexico.

Total10,463,013	9.827.763	6.5	11.2

The total numerical increase in the negro population during the decade was 635.250. Of this increase 472.418, or nearly three-fourths, took place in the north and west, while only 162.832, or about one-fourth, was reported for the south, despite the fact that about 85 per cent of the total negro population is still found in the south.

Without exception the northern and western states which border on the south reported greater rates of increase in negro population than the average for the country, and in several of these states the rates were very large-for example, in Illinois, 67.1 per cent; in Ohio, 67.1 per cent; in 67.1 per cent, and in Pennsylvania, 46.7 per cent. The last mentioned state has a larger negro population than either Maryland or Kenducky. The greatest rate of growth in negro population reported by any state having mere the 10.000 perms inhabitant appears. more than 10.000 negro inhabitants appears for Michigan, 251 per cent, the negro population of this state having increased from 17,115 in 1910 to 60,082 in 1920.

### INDIAN POPULATION.

The decrease in the Indian population, as enumerated, is probably to be accounted for The following statement shows the negro enumerated, is probably to be accounted for population in 1920 and 1910, with the rates in part by the enumeration as Indians in 1910, of increase during the past two decades, for and as whites in 1920, of certain persons have the south, the north and the west. The line ing only slight traces of Indian blood. In between the north and south follows the 1910 a special effort was made to secure a complete enumeration of all persons having any perceptible amount of Indian blood, for the purpose of preparing a special report showing tribal relations, purity of Indian blood, etc.; and it is probable that for this reason a considerable number of persons who would ordinarily have been reported as whites were enumerated as Indians in 1910. This assumption is borne out by a comparison of the totals shown for the Indian population at the last four censuses—the only open at which a complete enumeration of the Indian popula
Texas. Montana, Arizona and California.

## GROWTH OF URBAN POPULATION.

The figures given in the above table for in Colorado, Montana and Wyoming was due 1920, as compared with corresponding figures for 1910, show that the trend of population from the country to the city increased steadily during the decade and that, for the first time in the country's history, more than half the entire population was living in urban territory, as defined by the ensus burgen that. the entire population was living in urban ter-ritory as defined by the census bureau, that is, residing in cities and other incorporated places of 2.500 inhabitants or more, including towns of that size in three New England states, namely, Massachusetts, New Hampshire and Rhode Island, as later explained. On this basis, therefore, it appears that of the 105,-708,711 persons in the United States in 1920, there were 54.318,032, or 51.4 per cent. living in urban territory and 51.390,739, or 48.6 per cent, living in rural territory. The correspond-ing percentages for 1910 were 45.8 and 54.2. ing percentages for 1910 were 45.8 and 54.2, respectively, showing a gain of 5.6 per cent in the proportion for the population living in urban territory. The proportion of the population living in urban territory was larger in 1920 than in 1910 for all but three states —Colorado, Montana and Wyoming—the largest changes in the proportion during the decade being for Michigan—an increase from 47.2 to 61.1 per cent—and for Maryland—an increase from 50.8 to 60 per cent. Texas, Indiana, Ohio. Florida and Oklahoma also showed considerable gains in the proportion of the population living in urban territory as compared lation living in urban territory as compared with 1910. The loss since 1910 in the proportion of the population living in urban territory

In Massachusetts, Rhode Island and New Hampshire (except in two cases) it is not the practice, as in the other states, to have the practice, as in the other states, to have municipal incorporations, such as villages, within the limits of the town, and no town becomes a city until its population is much in excess of 2,500. For this reason, it has been necessary, as above stated, to include in the urban territory of these states not only the population of cities but that or all towns having over 2,500 inhabitants. The "urban area" in each of these three states includes, therefore, some population which in other states would be classed as "rural," but it is not thought that the proportion of urban population in either state is greatly increased not thought that the proportion of urban population in either state is greatly increased thereby. At the census of 1910 this rule as to towns applied to all the New England states, but for the census of 1920 the census bureau decided to limit the "urban area" in three of the New England states—Connecticut, Maine and Vermont—to cities and other incorporated places of 2,500 inhabitants or more, the same as for other states, and so the figures for these states in 1910 were corrected accordingly. rected accordingly.

.......

Cities and Adjacent Territory.

San Francisco.

In addition to the population of the metropolitan districts themselves the census returns for 1920 show the population residing in ter-ritory adjacent to the central cities but not included in the metropolitan districts—that is, in minor divisions which lie wholly or in greater part within ten miles of the boundaries States 105.710,620 of the central cities but in which the density of the population was not sufficient to justify treating them as strictly urban.

### MEDIAN LINES.

The geographic distribution of the population is also indicated by the location of median lines. A parallel of latitude is determined which evenly divides the population so that the population north of that parallel is the same as that south. Similarly, a meridian of longitude is determined which divides the population evenly as between east and west. In calculating these median lines it is necessary in the case of the square degrees of In calculating these median lines it is necessary, in the case of the square degrees of latitude and longitude which are traversed by the lines themselves, to assume that the population is evenly distributed through these square degrees or to make an estimated adjustment where this is obviously not the case. It may be observed that while each median line exactly bisects the population as a whole it, necessarily bisect the population.

#### FOREIGN WHITE STOCK IN THE UNITED STATES.

The classification of the foreign white stock by country of origin in the following tables, place of parents so as to agree with the prepared by the United States census bureau, is based upon the prewar map of Europe, and partly in order that comparisons might be partly because of the difficulty of adjusting made with the figures of the census of 1910.

parting because of the difficulty of day devine	1000

not reported.

not reported.

Note—At the census of 1920 a woman married to a native or naturalized citizen of the United States was returned as a citizen, even though herself foreign-born; and a native-born woman married to an alien or to a foreign-born man who had taken out his first naturali-

\*Includes foreign-born whose citizenship was treported.

Note—At the census of 1920 a woman marked to a native or naturalized citizen of the discount of the constant of the c is, of course, a citizen by birth; and for an unmarried foreign-born woman the process of naturalization is the same as for a man.

#### DWELLINGS AND FAMILIES IN THE UNITED STATES (1920).

According to the census usage the term "family" signifies a group of persons, whether related by blood or not, who live together as one household, usually sharing the same table. One person living alone is counted as a family, and on the other hand, the country of the country and, on the other hand, the occupants of a hotel or institution, however numerous, are also treated as forming a single family. Thus the census family in some cases differs greatly from the natural family, but the averages afford a fairly accurate index of the extent to which the size of families has been decreasing from census to census,

The term "dwelling" as here used signifies The term quening as here used significant building or structure in which one or more persons regularly sleep. It may not necessarily be a house in the usual sense of the word. A boat, a tent, a freight oar, or a room in a warehouse, if it serves as a regular sleeping place for one or more persons, is treated as a dwelling. On the other hand, an entire as a dwelling. On the other hand, an entre apartment house, although the abiding place of many families, constitutes only one dwelling.

The average number of persons to a family in the United States has declined from 5 in

1880 to 4.9 in 1890, 4.7 in 1900, 4.5 in 1910 and 4.3 in 1920, and the average number of persons to a dwelling has decreased from 5.6 in 1880 to 5.5 in 1880, 5.3 in 1900, 5.2 in 1910 and 5.1 in 1920.

In general the average size of families is greatest in the southern states and smallest in the western states. The number of persons to a dwelling is greatest in New England and the middle Atlantic states and smallest in the western states. Among the individual states the number of persons to a family in 1920 ranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in Nevada to 1 in North Carranged from 8.5 in North Carranged fro olina and the number to a dwelling from 3.7 in Nevada to 7.8 in New York.

	,	-,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,,	,			

The total number of negroes reported as born in the south (that part of the country lying south of the southern boundaries of New Jersey, Pennsylvania, Ohio, Indiana, Illinois, Missouri and Kanasa) was 9,600,943. Of these, 7,751,361, or 80.7 per cent, were living in their native states in 1920; 1,068,788, or 11.1 per cent, were living in other southern states; and 780,794, or 8.1 per cent, were living in the north or west. The total number of negroes reported as born in the north or west was 741,791, of whom 537,131, or 72.4 per cent, were living in their native states in 1920; 157,437, or 21.2 per cent, were living in other northern or western states; and 47,-223, or 6.4 per cent, were living in the south. Thus the proportion of southern-born negroes who migrated to the north or west, 8.1 per cent, was only about one-fourth larger than the proportion of the negroes who were born in the north or west and migrated to the south. 6.4 per cent.

South, 6.4 per cent.

The number of negroes born in the south and living in the north or west less the number born in the morth or west and living in the south was 733.571. These may be termed the survivors of the net migration of negroes

from the south to the north and west. The number of southern-born negroes living in the north and west increased from 440,534 in 1910 to 780,794 in 1920, forming 40.9 per cent of the total negro population of the north and west in the earlier year and 50.3 per cent in the later,

Although migration to the north and west has not taken place among the far southern negroes to the same extent, relatively to their total numbers, as among the negroes in the northern part of the south, there was nevertheless a pronounced increase in such migration from the far south in the decade 1910-1920. For example: The negroes who were born in South Carolina and had migrated from that state to Pennsylvania increased from 2,113 in 1910 to 11,624 in 1920; those from Georgia to Pennsylvania increased from 1,578 to 16,196; those from Florida to Pennsylvania, from 393 to 5,370; those from Alabama to Ohio, from 781 to 17,588; those from Mississippi to Illinois, from 4,612 to 19,485; those from Louisiana to Illinois, from 1,609 to 8,078; and those from Texas to Misseuri, from 1,907 to 4,344.

### DANGERS IN PUBLIC BATHING PLACES.

Through a questionnaire sent out by the American Journal of Public Health to 2,000 physicians throughout the country, some interesting information was obtained as to the extent and prevalence of diseases that may be conveyed by means of public bathing titis; six others, epidemics of skin diseases; be conveyed by means of public bathing places. The following questions were submitted:

1. Do you consider public bathing places an important factor in transmitting disease?

2. If so, what diseases?
3. Describe circumstants 3. Describe circumstances of particular cases of diseases which you feel certain were con-

of diseases which stracted at a bathing place.

4 In relation to transmission of diseases, which do you consider more important, bath-ing suits, towels or quality of bathing water? 5. In swimming pools, which do you con-sider the greatest danger, transmission of diseases or accidents?

6. What is your opinion regarding importance of the following diseases in relation to sanitation of bathing beaches: Typhoid fever,

santation of bathing beaches: Typnoth lever, gronococcus infection, syphilis, ringworm, dysentery, colds, pink eye and boils?

Of the 350 replies received to question one, 70 per cent believed bathing places are important factors; 25 per cent thought they were not and 4 per cent were in doubt and expressed no opinion.

Replies to questions two and three dis-closed that the writers considered infections of eye, ear, nose, throat, skin, venereal, gas-tro-intestinal and some miscellaneous diseases as important in relation to transmission epidemics of tonsillitis and pharyngitis; one, an epidemic of nasal sinus and one member of the committee reported an epidemic of typhoid fever in a boys' camp.

It is to be noted, however, in these answers to questions two and three that very few fatal cases of any of the diseases have been attributed to bathing place infection outside of typhoid fever. One physician reported a fatal case of mastoid infection and four others reported fatal cases of meningitis following infections of ear and nose. In replying to question four, 500 physicians expressed an opinion. Of these, 38 per cent considered the quality of water most important; 31.2 per cent considered sanitation of suits and towels of the greatest importance. It is to be noted, however, in these answers

of suits and towels of the greatest importance

of suits and towers of the greatest importance and 30.8 per cent gave equal weight to each. In reply to question five, 439 opinions were given. Sixty-five per cent considered danger of infection the most important; 26 per cent drownings and accidents, and 9 per cent drownings and accidents, and 9 per held that both were equally important.

In reply to question six, considerably more than one-half the physicians answering stated that they believed bathing places were important in connection with the transmission of the diseases named in the question.

### MARITAL CONDITION OF THE POPULATION OF THE UNITED STATES. [Ascertained at the fourteenth decennial census Jan. 1, 1920.]

The total male population of the United States on the census date, 33,900,431, included 36,920,663 men and boys 15 years of age and over. Of the latter number 12, 967,565 were single, 21,849,266 were married, 1,758,308 were widowed, 235,284 were divorced, and for the remaining 110,240 the marital condition was not ascertained by the enumerators.

The total number of females in the United States, 51,810,189, included 35,177,515 women and girls 15 years of age and ever. Of the latter number, 9,616,902 were single, 21,318,933 were married, 3,917,625 were

wildowed, 270,5092 were divorced, and 300 the remaining 50,751 the marital condition was not reported. The difference of 530,333 between the numbers of married men and of between the numbers of married men and of married women was due principally to the presence in the United States of many foreignborn married men who had left their wives in the countries of their former residence.

The census figures give no indication of the total number of persons who have been divorced, but show merely the number of divorced persons who had not remarried at the time the census was taken.

### THE EUGENE V. DEBS CASE.

Eugene V. Debs, five times socialist candidate for the presidency of the United States, was arrested in Cleveland, O., June 20, 1918, the members on a federal warrant in connection with Debs' speech at the socialist state convention in Canton. O., on June 16. He was brought to trial and on Sept. 12 was found guilty by a federal jury. Of the original ten counts of the indictive of the original ten counts. ment only four remained when the jury retired to consider the evidence. He was found guilty of attempting to incite insubordination, disloyor attempting to ineute insuformation, disloyalty, etc., in the military and naval forces; attempting to obstruct recruiting and uttering language tending to incite, provoke and encourage resistance to the United States, and to promote the cause of the enemy. The count on which he was adjudged innocent charged that he opposed the cause of the United States.

charged that he opposed the cause of the United States.

On Sept. 14 Debs was sentenced to ten years in the Moundsville (W. Va.) penitentiary on each of three counts of the indictment by Federal Judge D. C. Westenhaver. The sentences were to run concurrently. Motion for a new trial was overruled and an exception on behalf of the defendant was allowed. A motion for arrest of the sentence was also overtion for arrest of the sentence was also over-ruled. The court admitted Debs to \$10.000 ruled. The court admitted Debs to \$10.000 bail, with permission to leave the northern federal district of Ohio only to go to and remain at his home.

The case was carried to the United States Supreme court, which on March 10, 1919, sustained the conviction and sentence by the

V. DEBS CASE.

lower court. The constitutionality of the espionage act itself was not passed upon, but the members of the court were unanimous in holding the enlistment section valid and in declaring that the act did not interfere with the right of free speech.

Mr. Debs asked for a rehearing by the Supreme court on March 27, but his petition was denied March 31. Debs began serving his sentence in the West Virginia penitentiary at Moundsville April 13, 1919. He was later transferred to the penitentiary at Atlanta, Ga. In 1920, while still in prison, he was again made the candidate of the socialist party for president of the United States and received nearly 900,000 votes, Early in 1921 his case was taken up by a special commission investigat-

taken up by a special commission investigating all convictions under the espionage act and ing all convictions under the espiniage act and the recommendation was made to the department of justice that Debs' sentence be commuted on Feb. 12. The recommendation was favorably indorsed by the department, but President Wilson on Jan. 31 refused to commute the sentence on the ground that Debs had sought to handicap the selective service act and that the granting of clomency in this case might induce similar contempt for law in the event of another war.

recommendation of Attorney-General Daugherty the sentence was commuted by President Harding as "a gracious act of mercy." and Debs was released from the penitentiary Dec. 25, 1921.

### DEATH OF LILLIAN RUSSELL.

Lillian Russell (Mrs. Alexander P. Moore), Lillian Russell (Mrs. Alexander P. Moore), long a star in American comic opera and internationally known for her beauty, died at her home in Pittsburgh, Pa., June 6, 1922, after an illness of several weeks, following an accident on shipboard sustained while she was returning home from Europe, where she had acted as an investigator of the immigration question for the United States. She was born in Clinton, Iowa, Dec. 4, 1861, the daughter of Charles E, and Cynthia Leonard. She moved with her parents to Chicago where She moved with her parents to Chicago, where her early years were spent in the study of music. She made her first appearance in the western metropolis as an amateur singer and later went to New York and sang at Tony

Pastor's theater and at the Casino. After that she became a member of Weber and Fields' stock company and then of the McCaull opera company. She subsequently organized a company of her own and had several successful seasons in the United States and Europe. She was a writer on beauty culture and to some extent on sociological matters, being especially interested in the welfare of

being especially interested in the weitare of working girls. Miss Russell was married four times, first to Harry Braham, then to Edward Solomon and then to Sig. Perugini (John Chatterton). She was married to Alexander P. Moore of Pittsburgh in 1912.

One Dollar, Panama-Pacific International Exposition—Authorized Jan. 16, 1915; weight, 25.8 grains; fineness, .900; total amount grains; 1, \$25,034 coined,

coined, \$25,034. One Dollar, McKinley Memorial—Authorized Feb. 23, 1916; weight, 25.8; fineness .900; total coined, \$30,040.

Silver Coins.

Dollar—Authorized to be coined, act of April 2, 1792; weight, 416 grains; fineness, 8924; weight changed, act of Jan. 18, 1837, to 412½ grains; fineness changed act of Jan. 18, 1837, to 900; coinage discontinued, act of Feb. 12, 1873. Total amount coined to Feb. 12, 1873. 1873. Total amount coined to Feb. 12, 1873. \$8,031.238. Coinage reauthorized, act of Feb. 28, 1878; coinage discontinued after July 1, 1891, except for certain purposes, act of July 14, 1890. Amount coined to June 30, 1921, \$597.346,848. Full legal tender except when otherwise provided in the contract.

Trade Dollar-Authorized to be coined, act of Feb. 12, 1873; weight, 420 grains; fineness, .900; legal tender limited to \$5, act of June 22. 1874 (rev. stat.); coinage limited to export demand and legal tender quality repealed, joint resolution, July 22, 1876; coinage discontinued, act of Feb. 19, 1887. Total amount coined, \$35,965,924.

Lafayette Souvenir Dollar-Authorized by

act of March 3, 1899; weight, 412½ grains; fineness 900. Total amount coined \$50,000. Half-Dollar—Authorized to be coined, act of April 2, 1792; weight, 208 grains; fineness .8924; weight changed, act of Jan. 18, 1837, to .906; weight changed, act of Jan. 18, 1837, to .900; weight changed, act of Feb. 21, 1853, to 192 grains; weight changed, act of Feb. 12, 1873, to 12½ grams, or 192.9 grains. Total amount coined to June 30, 1921, \$221,708,656. Legal tender, \$10. Columbian Half-Dollar—Authorized to be coined, act of Aug. 5, 1892; weight, 192.9 grains; fineness, .900. Total amount coined, \$2,500,000. Legal tender, \$10. Half-Dollar, Panama-Pacific International Exposition—Authorized 3an. 16, 1915; weight,

Ran-Donar, Panama-Pacific International Exposition—Authorized Jan. 16, 1915; weight, 192.9; fineness, .900; total amount coined, \$30.000

Half-Dollar, Illinois Centennial—Authorized to be coined, act of June 1, 1918; weight, 192.9 grains; fineness, 200; total amount coined,

\$50,029.

Half-Dollar, Maine Centennial-Authorized to

be coined May 10, 1920; weight, 1929; fineness, 900; total amount coined, \$25,014. Half-Dollar, Landing of Pilgrims Tercentennial—Authorized to be coined May 12, 1920; weight, 192,9; fineness, 900; total amount weight, 192.9; ... soined, \$100,056.

Quarter-Dollar—Authorized to be coined, act f April 2, 1792; weight, 104 grains; fineness, 1924; weight changed, act of Jan. 18, 1837. of April 2, 1792; weight, 104 grains; fineness, .8924; weight changed, act of Jan. 18, 1837, to .900; weight changed, act of Jan. 18, 1837, to .900; weight changed, act of Feb. 12, 1873, to 64 grains, weight changed, act of Feb. 12, 1873, to 64 grains, or 96.45 grains. Total amount coined to June 30, 1921, \$137,939,639.50. Legal tender, \$10. Columbian Quarter-Dollar—Authorized to be coined, act of March 3, 1893; weight, 96.45 grains; fineness, 900. Total amount coined, \$10. Twenty-Cent Piece—Authorized to be coined, act of March 3, 1875; weight, 5 grams, or 77.16 grains; fineness, .900; coinage prohibited, act of May 2, 1878. Total amount coined, \$271,000.

coined, \$271,000.

Dime—Authorized to be coined, act of April 2, 1792; weight, 41.6 grains; fineness, 8924; weight changed, act of Jan. 18, 1837, to 41½ grains; fineness changed, act of Jan. 18, 1837, to 900; weight changed, act of Feb. 21, 1853, to 38.4 grains; weight changed, act of Feb. 21, 1853, to 38.4 grains; weight changed, act of Feb. 22, 1873, to 2½ grams, or 38.58 grains. Total amount coined to June 30, 1921, \$212,010, 879.70. Legal tender, \$10.

Half-Dime—Authorized to be coined, act of April 2, 1792; weight, 20.8 grains; fineness, 8924; weight changed, act of Jan. 18, 1837, to 20% grains; fineness changed, act of Feb. 21, 1853, to 19.2 grains; coinage discontinued, act of Feb. 12, 1873. Total amount coined. \$4,880.219.40.

\$4.880.219.40

Three-Cent Piece—Authorized to be coined, act of March 3, 1851; weight, 12 % grains; fineness, 750; weight changed, act of March 3, 1853, to 11.52 grains; fineness changed, act of March 3, 1853, to 900; coinage discontinued, act of Feb. 12, 1873. Total amount coined, \$1,282,087.20.

Minor Coins.

Minor Coins,
Five-Cent (nickel)—Authorized to be coine 1, act of May 16, 1866; weight, 77,16 grains: composed of 75 per cent copper and 25 per cent nickel. Total amount coined to June 30, 1921, \$61,540,483.10. Legal tender for \$1, but reduced to 25 cents by act of Feb. 12.

1873. Three-Cent Three-Cent (nickel)—Authorized to be coined, act of March 3, 1865; weight, 30 grains; composed of 75 per cent copper and 25 per cent nickel. Total amount coined, \$941,349.48. Legal tender for 60 cents, but

reduced to 25 cents by act of Feb. 12, 1873.
Coinage discontinued, act of Sept. 26, 1890.
Two-Cent (bronze) — Authorized to be coined, act of April 22, 1864; weight, 96 grains; composed of 95 per cent copper and 5 per cent tin and zinc. Coinage discontinued, act of Feb. 12, 1873. Total amount coined, \$912.020.
Cent (copper) — Authorized to be coined, act of April 2, 1792; weight, 264 grains; weight changed, act of Jan. 14, 1793, to 208 grains; weight changed, act of Jan. 14, 1793, to 208 grains; weight changed, by proclamation of the president, Jan. 26, 1796, in conformity with act of March 3, 1795, to 168 grains; coinage discontinued, act of Feb. 21, 1857. Total amount coined, \$1,562,887.44.
Cent (nickel)—Authorized to be coined, act

coined, \$1,562,887.44.
Cent (nickel)—Authorized to be coined, act of Feb. 21, 1857; weight, 72 grains; composed of 88 per cent copper and 12 per cent nickel. Coinage discontinued, act of April 22, 1864. Total amount coined, \$2,007.720.
Cent (bronze)—Authorized, act of April 28, 1864; weight, 48 grains; composed of 95 per cent copper and 5 per cent tin and zinc. Total amount coined to June 30, 1921 \$39,926.11. amount coined to June 30, 1921, \$39,926.11. Legal tender, 25 cents.

Half-Cent (copper)—Authorized to be coined, act of April 2, 1792; weight, 132 grains; weight changed, act of Jan. 14, 1793, to 104 grains; weight changed by proclamation of the president, Jan. 26, 1796, in conformity with act of March 3, 1795, to 84 grains; coinage discontinued, act of Feb. 21, 1857. Total amount coined, \$39,926.11.

contents of foreign coins in terms of the money of account of the United States, to be followed in estimating the value of all foreign mer-chandise exported to the United States during chandise exported to the United States during the quarter, expressed in any such metallic currencies. It is not the exchange value. Coins in the foregoing table marked with an asterisk (\*) are those the value of which has been estimated by the director of the mint. The tael is a unit of weight, not a coin. The customs unit is the Haikwan tael (value \$0.7570): The values of other taels are based on their relation to the Haikwan tael. The Yuan silver dollar of 100 cents is the monetary unit of the Chinese republic; it is equivalent to 0.644 plus of the Haikwan tael.

#### FEDERAL LAND BANKS.

FEDERAL LAND BANKS.

On Oct. 31, 1921, the twelve federal land banks had assets amounting to \$464.214.472. Their mortgage loans amounted to \$408.233,-159. The total paid-in capital was \$27,086.267, of which \$6,598.770 was owned by the government, \$20,382.402 by national farm loan associations, \$105,095 by individual borrowers and subscribers. These banks had accumulated a reserve fund of \$1,-514,800. The banks' liability on account of farm loan bonds authorized was \$420,-763,315. The net earnings of these banks to Oct. 31, 1921, were \$6,288,284, from which, in addition to the reserve mentioned, dividends were paid to the amount of \$2,374,-199, and other charges made against surplus to the amount of \$2,374,-199, and other charges made against surplus to the amount of \$2,374,-199, and other charges made against surplus to the amount of \$2,374,-199, and other charges made against surplus to the amount of \$2,374,-199, and other charges made against surplus to the amount of \$2,374,-199, and other charges made against surplus to the amount of \$2,374,-199, and other charges made against surplus to the amount of \$2,374,-199, and other charges made against surplus to the amount of \$2,164,781. undivided profits on hand \$2,164,781.

#### Joint-Stock Land Banks.

While thirty-one joint-stock land banks had been chartered, only twenty-four were doing business at the close of the year ended Oct. 31, 1921, the charters of seven having been surrendered. The aggregate assets of the twenty-four banks on that date amounted to \$95,884,117, the principal items being mortagae loans, amounting, including accrued interest uncollected, to \$81,074,809; United States bonds and other securities, \$2,593,367; cash on hand and in banks, \$2,801,162.

their approximate exchange value as follows: Chilean peso, \$0.19745; Espytian pound, \$3.80; Finnish mark, \$0.0975 for 1918 and \$0.031 for 1919; French franc at 5.45 to the dollar for 1918 and 10.75 for 1919; Ger-

Note.—The foreign units were converted at the dollar for 1917 and 6.35 for 1918: Spanish peso, \$0.19745: Egyptian pound, \$1.80. Finnish mark, \$0.0975 for 1918 and 0.031 for 1919; French franc at 5.45 to the dollar for 1917 and 6.35 for New Zealand in 1919 and \$4 at end of March, 1920. Other conventions of the conven conversions at par.

#### FEDERAL RESERVE BANK DISTRICTS AND OFFICIALS.

Federal Reserve Board. Appointed by the president.

Members. Terms expire. 

Ex Officio—The secretary of treasury, chairman, and the comptroller of currency. Secretary—W. W. Hoxton.
Assistant secretary—W. L. Eddy.
Chief. Division of Examination—J. F. Herson.
Fiscal Agent—W. M. Imlay.
General counsel—Walter S. Logan.
Statistician—M. Jacobson.
Headquarters—Treasury dept., Washington, D.C.
Salaries—Of five members, \$12,000 a year;
comptroller of currency as ex officio member \$7.000 a year additional to his salary
of \$5,000 as comptroller. The executive secretary receives \$10.000 a year, the secretary
to the board \$6,000, the assistant secretary
to the board \$6,000, the assistant secretary
to operations and examination \$5,000 and
the fiscal agent \$4,000.
Duties—The federal reserve board exercises a

Duties-The federal reserve board exercises a uties—The federal reserve board exercises a general supervision over the affairs and management of the federal reserve banks. It has the power to discount paper, issue federal reserve notes and perform other banking functions prescribed by the law. It appoints its own officers and employes and derives its support from assessments levied on the reserve banks. The members of the board are appointed by the president of the United States.

#### DEATH OF SIR ERNEST SHACKLETON.

sir Ernest Snackleton, noted as an antarctic explorer, died on board his ship, the Quest. on Jan. 5, 1922, from a sudden attack of heart disease. His death did not become known to the outer world until Jan. 29, when his body was brought to Montevideo, Uruguay, on a Norwegian steamer. Sir Ernest was making his feurth voyage to the antarctic regions and at the time of his passing away his ship was anchored near the island of South Georgia. The purpose of the expedition was to chart large sections of the unknown parts of the antarctic, south Atlantic and south Pacific oceans. Soundings were to be made to discover the limits of the continental shelf. Sir Ernest Shackleton was born in Kilkee, Ireland, Feb. 15, 1874. He was educated in Dulwich college, England, and while still a youth went to sea before the mast on a sailing ship. In 1901 he left on his first antarctic voyage as third licutenant of the Scott expedition. In 1907-1909 he commanded the expedition which reached the south magnetic pole, discovered the King Edward VII. plateau and came within ninety-seven

Sir Ernest Shackleton, noted as an antarctic explorer, died on board his ship, the Quest, on Jan. 5, 1922, from a sudden attack of heart disease. His death did not become known to the outer world until Jan. 29, when his body was brought to Montevideo, Uruguay, on a Norwegian steamer. Sir Ernest was 1918-1919.

other expedition, in which he displayed great heroism and endurance in rescuing his ship-wrecked companions. He was director of the equipment and mobile forces of Great Britain in the north Russian winter campaign of 1918-1919.

He left London Sept. 17, 1921, as commander of what was officially known as the British oceanographical and subantarctic expedition. Heavy storms on the way had put the wireless outfit on the Quest out of commission. That on the Norwegian ship, which brought his remains to Montevideo, was also out of order or the news of his death would have become known to the world sooner. Capt. L. Hussey, the meteorologist of the expedition, accompanied the body to Uruguay. There he was advised from England that Lady Shackleton, in accordance with the previously expressed desire of her husband, had directly that his resting place should be near where he died. His remains were therefore taken back to South Georgia and buried there.

SECOND PAGEANT OF I	PROGRESS IN CHICAGO
The second annual exposition known as "The	

The second annual exposition known as "The \$227,000 was taken in at the gate. Pageant of Progress" was held on the Municipal pier. Chicago, July 29-Aug. 20, 1922. It was originally planned to last only to Aug. 14, but the street-ear strike in Chicago and other labor troubles cut down the attendance and the show was continued six days longer. A profit of approximately \$50,000, as compared with \$300,000 in 1921, was made. About The Secretary—Edgar A. Jonas. Treasurer—D. F. Kelly. Business Manager—Henry J. Kramer.

The

President—Dr. John D. Robertson, First Vice-President—Thomas E. Wilson, Second Vice-President—Eugene R. Pike. Secretary—Edgar A. Jonas, Treasurer—D. F. Kelly. Business Managor—Henry J. Kramer.

#### THE PANAMA CANAL.

THE PANA	MA CANAL,
CANAL STATISTICS (OFFICIAL). Length from deep water to deep water—50.5 miles.	Lorin C. Collins appointed Supreme court judge for Canal Zone June 17, 1905. New commission with Theodore P. Shonts as chairman named April 3, 1905; Shonts resigned March 4, 1907.  John F. Stevens appointed chief engineer June 29, 1905; resigned Feo, 26, 1907. Lieut. Col. George W. Goethals appointed chief engineer Feb, 26, 1907. Gatun dam finished June 14, 1913. Dry excavation completed Sept. 10, 1913. First vessel litted through Gatun locks Sept. 26, 1913. Gamboa dike blown up Oct. 10, 1913.
Length on land—40.5 miles. Length at summit level—31.7 miles. Potts at summit level—31.7 miles.	chairman named April 3, 1905; Shonts resigned March 4, 1907.
Length on land—40.5 miles. Length at summit level—31.7 miles. Bottom width of channel—Maximum, 1,000 feet; minimum (in Gaillard cut), 300 feet. Depth—Minimum, 41 feet; maximum 45 feet. Summit level—85 feet above mean tide. Locks in pairs—12. Locks upshle length—1,000 feet.	29, 1905; resigned Feo. 26, 1907. Lieut,-Col. George W. Goethals appointed chief
Summit level—85 feet above mean tide. Locks in pairs—12.	engineer Feb. 26, 1907. Gatun dam finished June 14, 1913.
Locks, usable length—1.000 feet, Locks, usable width—110 feet, Gatun lake area—164 square miles	First vessel lifted through Gatun locks Sept. 26, 1913.
Gatun lake channel, depth—85 to 45 feet. Concrete required—5,000,000 cubic yards.	Gamboa dike blown up Oct. 10, 1913. First vessels pass through Miraflores locks
Locks, usable length—1,000 leet. Locks, usable width—110 feet. Gatun lake, area—164 square miles. Gatun lake channel, depth—85 to 45 feet, Concrete required—5,000,000 cubic yards, Time of transit through canal—10 to 12 hours. Length of relocated Panama railroad—46,2 miles.	Gamboa dike blown up Oct. 10. 1913. First vessels pass through Miraflores locks Oct. 14, 1913. Permanent organization of canal administration in effect April 1, 1914; Col. George W. Goethals first governor; existence of isth-
Canal Zone area—About 448 square miles. Canal Zone area owned by United States— About 322 square miles. French buildings acquired—2.150. French buildings used—1.537. Value of ntilized French equipment—\$1 000 a	First freight barges go through canal from
French buildings acquired—2.150.	First steamship (the Cristobal) passes through canal Aug. 13, 1914.
Value of utilized French equipment—\$1,000,000. Cubic yards excavated by French—108,046,-	tion in elect April 1, 1914; Col. George W. Goethals first governor; existence of isthmian canal commission ended. First freight barges go through canal from ocean to ocean May 14, 1914. First steamship (the Cristobal) passes through canal Aug. 13, 1914. Canal opened for general traffic Aug. 15, 1914. Canal blocked by slides. September, 1915, to April, 1916.
960. Cubic yards excavated by Americans—250	COMMODITY STATISTICS (1922).
000,000. Canal force, average employed—About 39.000. Approximate cost of construction—\$375,- 000,000.	Commodities carried westbound and east- bound through the canal whose combined shipments for the fiscal year 1922 aggregated 100,000 cargo tons or more:
CHRONOLOGY.	Commodity. Carried Westbound. Tons.
First exploration of route 1527. Advocated by Humboldt 1803. Panama railroad built 1850-1855.

#### CANAL ZONE.

The Canal Zone cortains about 436 square miles and on Jan. 1, 1920, had a total population of 21,650. It begins at a point three ma-

rine miles from mean low water mark in each ocean and extends for five miles on each side of the center line of the route of the canal. of the center line of the route of the canal, tincludes the group of islands in the Bay of Panama, named Perico, Naos, Culebra and Flamenco. The cities of Panama and Colon are excluded from the zone, but the United States has the right to enforce sanitary ordinances and maintain public order there in case the republic of Panama should not be able to do so.

#### LABOR FORCE.

June 21, 1922, the actual working force on the canal was 10,176, of whom 7,623 were silver and 2,553 gold employes, the latter be-ing almost exclusively white Americans.

#### PANAMA RAILROAD.

The Panama railroad and the steamships run in connection with it between New York and Colon are owned and operated by the United States government. The road practically parallels the canal nearly the whole distance. It is 46½ miles long and runs between the cities of Colon and Panama.

District of Columbia—Jan. 1; Feb. 22; March 4 (Inauguration day); May 30; July 4; first Monday in September; Thanksgiving day; Dec. 25.

Florida—Jan. 1; Jan. 19 (Lee's birthday); Ar-bor day (first Friday in February); Feb. 22; Maryland—Jan. 1; Feb. 22; May 30; July 4;

April 26 (Confederate Memorial day); June 3 (Jefferson Davis' birthday); July 4; first Monday in September; Thanksgiving day; general election day; Dec. 25.

Georgia—Jan. 1; Jan. 19 (Lee's birthday); Feb. 22; April 26 (Confederate Memorial day); June 3 (Jefferson Davis' birthday); July 4; first Monday in September; Thanksgiving day; Arbor day (first Friday in December); Dec. 25.

Idaho—Jan. 1; Feb. 22; Arbor day (first Friday after May 1); July 4; first Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25.

Illinois—Jan. 1; Feb. 12 (Lincoln's birthday); Feb. 22; May 30; July 4; Labor day (first Monday in September); Indian day (fourth Friday in September); Oct. 12 (Columbus day); election days when members of the legislature are chosen; Saturday afternoons; Asmisticae day Nov. Armistice day, Nov. day: Dec. 25. Arbo Thanksgiving Armistice day. Nov. 11: Thanksgiving day: Dec. 25. Arbor. Bird. Flag and Mothers' days are appointed by the governor, but are not legal holidays. Like McKinley day (Jan. 29). "Remember the Maine" day (Feb. 15). Douglas day (April 23), they are observed by special exercises, flag displays, etc.; banks are not closed. Arbor and Bird days usually come on the third Friday of April in the northern part of the state and the fourth Friday of. October in the southern part. Flag day is June 14 and Mothers' day the second Sunday in May. Legal holidays in Illinois, as in other states, are established by the legislature, usually by laws affecting negotiable instruments. New Year's day, July 4 and Christmas day and Sundays have been accepted as Nov. 11; Arbor. Bird. usually by laws auccums here were the ments. New Year's day, July 4 and Christmas day and Sundays have been accepted as legal holidays from the beginning of the state's history. Thanksgiving day has been regularly observed since 1863 and election days since 1872. (Limited later to elections the members of the legislature are at which members of the legislature are chosen.) Following are the dates on which at which members of the legislature acchosen.) Following are the dates on which Illinois legislative acts creating legal holidays since 1881 were approved: Washington's birthday, May 30, 1881; Memorial day, May 30, 1881; Labor day, June 17, 1891; Lincoln's birthday, June 17, 1891; Saturday afternoons in cities of 200 000 or more population, May 13, 1905; Columbus day, May 10, 1909; Mothers' day, May 8, 1914; Indian day, June 28, 1919; Armistice day, June 24, 1921. June 24, 1921.

Indiana—Jan. 1; Feb. 12; Feb. 22; May 30; July 4; first Monday in September: Oct. 12; general election day; Thanksgiving day; Dec. 25.

owa—Jan. 1; Feb. 22; May 30; July 4; first Monday in September; general election day; Thanksgiving day; Dec. 25. Iowa-

Kansas—The only holidays by statute are Feb. 12: Feb. 22: May 30: Labor day (first Monday in September) and Arbor day: Oct. 12; but the days commonly observed in other states are holidays by general consent.

Kentucky—Jan. 1; Feb. 22; May 30; first Monday in September; Oct. 12; Thanksgiving day; general election day; Dec. 25.

ouisiana—Jan. 1; Jan. 8 (anniversary of the battle of New Orleans): Feb. 22: Mardi Gras (day before Ash Wednesday): Good Friday (Friday before Easter); April 26 (Confederate Memorial day); July 4: Nov. 1 (All Saints' day); general election day; fourth Saturday in November (Labor day, in the parish of New Orleans only: Dec. 25: every Saturday afternoon in New Orleans. Louisiana

Maine—Jan. 1; Feb. 22: Good Friday; May 30; July 4; Labor day; Thanksgiving day; Dec. 25.

first Monday in September; Sept. 12 (Defenders' day); Oct. 12; general election day; Dec. 25; every Saturday afternoon.
Massachusetts—Jan. 1: Feb. 22; April 19 (Patriots' day); May 30; July 4; first Monday in September; Oct. 12; Thanksgiving day; Dec. 25.

Michigan—Jan. 1; Feb. 22; Oct. 12; general election day; May 30; July 4; first Monday in September; Thanksgiving day; Dec. 25.

Minnesota—Jan. 1: Feb. 12; Feb. 22; Good Friday (Friday before Easter): May 30; July 4; first Monday in September; Thanksgiving day; general election day; Dec. 25; Arbor day (as appointed by the governor).

Mississippi—First Monday in September; by common consent July 4, Thanksgiving day and Dec. 25 are observed as holidays.

Missouri—Jan. 1; Feb. 22; May 30; July 4; Labor day; Oct. 12; general election day; Thanksgiving day; Dec. 25; every Saturday afternoon in cities of 100,000 or more inhabitant. habitants

habitants.

Montana—Jan. 1; Feb. 22; Arbor day (third Tuesday in April); May 30; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25; any day appointed by the governor as £ fast day. Nebraska—Jan. 1; Feb. 22; Arbor day (April 22); May 30; July 4; first Monday in September; Thanksgiving day; Dec. 25.

Nevada—Jan. 1; Feb. 22; July 4; Thanksgiving day; Dec. 25.

Nevada—Jan. 1; Feb. 22; July 4: Thanksgiving day; Dec. 25.

New Hampshire—Feb. 22: fast day appointed by the governor; May 30; July 4: first Monday in September: Thanksgiving day; general election day; Dec. 26.

New Jersey—Jan. 1; Feb. 12; Feb. 22; May 30; July 4: first Monday in September; Oct. 12; general election day; Thanksgiving and fast days, and every Saturday afternoon.

New Mexico—Jan. 1; July 4: Thanksgiving and fast days; Dec. 25; Memorial, Labor and Arbor days appointed by the governor.

New York—Jan. 1; Feb. 12; Feb. 22; May 30; July 4: first Monday in September; Oct. 12; general election day; Thanksgiving and fast days; Dec. 25; every Saturday afternoon.

North Carolina—Jan. 1; Jan. 19 (Lee's birthday); May 10 (Confederate Memorial day); May 20 (anniversary of the signing of the Mecklenburg declaration of independence); July 4: state election day in August; first Monday in Santawhen (Tabor day); Thanksgiving and fast days; Dec. 25; every Saturday afternoon. July 4; state election day in August; first Thursday in September (Labor day); Thanks-giving day; Dec. 25; every Saturday afternoon.

North Dakota—Jan. 1; Feb. 12; Feb. 22; May 30; July 4; Arbor day (when appointed by the governor); general election day; Thanks-

giving day; Dec. 25.

Ohio—Jan. 1; Feb. 22; May 30; July 4: first
Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25; every
Saturday afternoon in cities of 50,000 or

Saturday afternoon in cities of 50.000 or more inhabitants.
Oklahoma—Jan. 1; Feb. 22; May 30; July 4; Oct. 12; general election day; Thanksgiving day; Dec. 25.
Oregon—Jan. 1; Feb. 22; May 30; first Saturday in June; July 4; first Monday in September; general election day; Thanksgiving day; public fast days; Dec. 25; Fennsylvania—Jan. 1; Feb. 12; Feb. 22; May 30; Good Friday; July 4; first Monday in September; Oct. 12; general election day; Thanksgiving day; Dec. 25; every Saturday afternoon. afternoon.

atternoon.

Philippines—Jan. 1; Feb. 22; Thursday and Friday of Holy week; July 4; Aug. 13; Thanksgiving day; Dec. 25; Dec. 30.

Porto Rico—Jan. 1; Feb. 22; Good Friday; May 30; July 4; July 25 (Landing day); Thanksgiving day; Dec. 25.

Rhode Island—Jan. 1; Feb. 22; second Friday in May (Arbor day); May 30; July 4; first Monday in September: Oct. 12; general election day; Thanksgiving day; Dec. 25.

South Carolina—Jan. 1: Jan. 19 (Lee's birth-day): Feb. 22; May 10 (Confederate Memo-rial day): June 3 (Jefferson Davis birth-day): general election day: Thanksgiving day: Dec. 25, 26, 27.

South Dakota—Same as in North Dakota. Tennessec—Jan. 1: Good Friday: May 30: July 4: first Monday in September; general elec-tion day: Thanksgiving day; Dec. 25; every Saturday afternoon.

Saturday afternoon.

Texas—Jan. 1: Feb. 22 (Arbor day); March 2 (anniversary of Texas independence); April 21 (anniversary of Texas independence); April 21 (anniversary of battle of San Jacinto); July 4; first Monday in September; Oct. 12; general election day; appointed fast days; Thanksgiving day; Dec. 25.

Utah—Jan. 1; Feb. 22; April 15 (Arbor day); May 30; July 4; July 24 (Pioneer day); first Monday in September; Thanksgiving day and appointed fast days; Dec. 25.

Vermont—Jan. 1; Feb. 22; May 30; July 4; Aug. 16 (Bennington Battle day); Labor day; Oct. 12; Thanksgiving day; Dec. 25.

Virginia—Jan. 1; Jan. 19 (Lee's birthday); Feb. 22; July 4; first Monday in September; Thanksgiving and appointed fast days; Dec. 25; every Saturday afternoon.

Thanksgiving and appointed fast days; Dec. 25; every Saturday atternoon.
Washington—Jan. 1; Feb. 12 (Lincoln's birthday); Feb. 22; May 30; July 4; first Monday in September: Oct. 12; general election day; Thanksgiving day; Dec. 25.
West Virginia—Jan. 1; Feb. 12; Feb. 22; May 30; July 4; Labor day; general election day; Thanksgiving day; Dec. 25.
Wisconsin—Jan. 1; Feb. 22; May 30; July 4; first Monday in September; general election day; Thanksgiving day; Dec. 25.

day; Thanksgiving day; Dec. 25.
Wyoming—Jan. 1; Feb. 12; Feb. 22; May 30;
July 4; first Monday in September; general
election day; Dec. 25.

The national holidays, such as July 4. New Year's, etc., are such by general custom and observance and not because of congressional legislation. Congress has passed no laws establishing holidays for the whole country. It has made Labor day a holiday in the District of Columbia, but the law is of no effect elsewhere. It has also designated the second Sunday in May as Mothers' day. President Wilson issued a proclamation May 30, 1916, requesting that June 14, the anniversary of the day on which the national emblem was the day on which the national emblem was adopted by congress, be observed as Flag day throughout the nation.

#### HOLIDAYS IN CANADA.

The following holidays are generally observed in the dominion of Canada with the dosing of banks and public offices and the cessation of business: Jan. 1; Ash Wednesday, Good Friday, Easter Monday, Whit Monday, May 24 (Empire day), June 3 (King's birthday), July 1 (Dominion day), first Monday in September (Labor day), Dec. 25 (Christnas day), The last Monday in October is usually proclaimed as Thanksgiving day.

#### FOREIGN INDEPENDENCE DAYS.

FOREIGN INDEPENDENCE DAYS.
Argentina, May 25; Armenia, May 28; Baltic states, Nov. 18; Bolivia, Aug. 6; Brazil, Sept. 7; Bulgaria, Oct. 5; China, Oct. 10 (anniversary of revolution); Colombia. July 20; Costa Rica, Sept. 15, Czecho-Slovakia, Oct. 28; Ecuador, Aus. 10; Finland, Dec. 6; France, July 14 (Bastile day); Germany, Nov. 9 (anniversary of republic); Greece, April 7; Guatemala, Sept. 15; Haiti, Jan. 1; Honduras, Sept. 15; Liberia, July 26; Mexico, Sept. 16; Nicaragua, Sept. 15; Norway, May 17; Panama, Nov. 28; Paraguay, May 14 and 15; Peru, July 28-30; Poland, May 3 (Constitutional day); Portugal, Dec. 1; Salvador, Sept. 15; Uruguay, Feb. 28; Venezuela, July 4.

#### NOTES ON NATIONAL PARKS.'

Abraham Lincoln Homestead-Farm near Hodgenville, Ky., with log cabin in which Abraham Lincoln was born.

Antietam—Battle field of the civil war in Washington county, Maryland.

Chickamauga and Chattanooga—Battle fields of the civil war in the vicinity of Chattanooga, Tenn.

Crater Lake-Park contains remarkable mountain, lake and fine scenery in the Cascade range, Klamath county, Oregon; may be reached from Klamath Falls or from Med-ford on the Southern Pacific road. General Grant-In Fresno and Tulare counties,

California: forest and mountain scenery reached from Sanger on the Southern Pacific

road.

Gettysburg-Battle field of the civil war in

southeastern Pennsylvania.
Glacier—Tract of mountainous country northern Montana with glaciers, lakes, forests and peaks.

Grand canyon—In northwestern Arizona; greatest eroded canyon within the United States, Guilford Courthouse National Military Park—Scene of battle between Gen. Greene and Gen. Cornwallis, near Greensboro, N. C., in

war of the revolution.

May of the revolution;
Hawaii-Includes celebrated volcanoes Kilauea,
Mauna Loa and Haleakala; main feature is
Lava lake at Kilauea.

Hot Springs Reservation—Tract of land in
Garland county, Arkansas, noted for its
springs of warm mineral waters. Hot

springs of warm mineral waters. Lafayette—Lands on Mount Desert island, Maine, which island was discovered by Samuel de Champlain and upon which he first landed when, acting under the authority of Sieur de Monts, he explored and described the present New England coast; the geology, fauna and flora on the island are of great scientific interest.

Passen Volcanic—On the boundary of Plumas and Shasta counties, California, contains volcanic and other peaks, hot springs, mud geysers, ice caves, lakes of volcanic glass, canyons and forests.

Mesa Verde-In the extreme southwestern part

of Colorado; contains pueblo and other ruins; reached from Mancos on the Rio Grande Southern road.

Mount McKinley-Area of 2,200 square miles in south central Alaska, containing Mount McKinley, the highest mountain in America; many large glaciers and beautiful lakes and forests

Mount Rainier—Mountain district in southern Washington; reached from Ashford on the Tacoma Eastern railroad and from Fairfax on the Northern Pacific road.

Platt-Tract of land containing sulphur springs in Murray county, Oklahoma; reached by Santa Fe and St. Louis-San Francisco railroads.

roads, Rock Creek—Park in outskirts of Washington, D. C. Rocky Mountain—Tract of mountainous land of great scenic beauty in Grand, Boulder and Larimer counties, Colorado; contains dorests, lakes and peaks; reached by Union

dorests, lakes and peaks; reached by Omon Pacific and other roads.

Sequoia—Mountain tract in Tulare county, California, containing forest of big trees; reached from Visalia.

Shiloh—Battle field of civil war in Hardin county, southern Tennessee.

Sully's Hill—On the shore of Devil's lake, North Dakota: contains elevation on which Can Aired Sully with a few men withstood Gen. Alfred Sully with a few men withstood a band of Indians for several days in 1863; reached from Devil's Lake, Narrows and Tokio stations on the Great Northern road. Vicksburg-Battle field of civil war near city of same name in Mississippi.

Wind Cave-Canyon and extensive cave in Custer county, South Dakota, twelve miles from Hot Springs, on the Northwestern and Bur-lington roads; in Black Hills region. Yellowstone—Famous park in Wyoming, Mon-

tana and Idaho, containing geysers and many other natural phenomena as well as beautiful mountain, lake and river scenery; reached from stations on the Northern Pacific, Burlington and Oregon Short Line roads.

Mariposa county, California; reached from Merced on the Santa Fe and Southern Pa-

cific roads by way of the Yosemite Valley

Zion-Canyon in southwestern Utah through which flows the north fork of the Virgin or Zion river; an extraordinary example of canyon erosion; nearest railroad Los Angeles & Salt Lake.

Zoological—Park in Washington, D. C., devoted to the zoological collection of the govern-ment; adjoins Rock Creek park.

#### PRESERVATION OF AMERICAN ANTIQUI-TIES.

By law approved June 8, 1906, entitled "An act for the preservation of American antiquities." the president of the United States is authorized, in his discretion, to declare by proc-lamation historic landmarks, historic and prehistoric structures and other objects of historic or scientific interest that are situated upon lands owned or controlled by the United States, to be national monuments. Under such authority the state of the state thority the following monuments have been created:

Acres. 22,075 
 Capulin mountain, N. M.
 1916

\*Administered by department of agriculture;
others by interior department, except the Big
Hole battle field and the Cabrillo monument,
which are under the war department.

### NOTES ON NATIONAL MONUMENTS.

Bandelier-Prehistoric aboriginal ruins in Sandoval and Santa Fe counties, New Mexico, doval and Santa Fe counties, New Mexico, with cliff dwellings, ceremonial cave and

with chiff dwellings, eeremonial cave and other relics of a vanished people.

Big Hole battle field—Scene of fight at Big Hole pass on Big Hole or Wisdom river, Aug. 9, 1877, between Nez Perce Indians under Chief Joseph and a small force of soldiers commanded by Col., John Gibbond in Silver Bow county, Montana; reached from Melrose.

Cabrillo statue—At Point Loma, Cal.: land first sighted by Juan Rodriguez Cabrillo, discoverer of California, when he approached San

Diego bay, Sept. 28, 1542; site of about 1½ acres set aside for heroic statue of Cabrillo. Capulin mountain—Striking example of recent extinct volcanoes in Union county, New Mex-

ico, near town of Des Moines.

ico, near town of Des Moines.

Casa Grande-Ruins of a large prehistoric dwelling near Florence, Arizona.

Chaco canyon—Located in San Juan and Mc-Kinley counties, New Mexico; contains extensive prehistoric communal or pueblo ruins.

Cinder cone—An elevation in Lassen county in northern California; is of importance as illustrating volcanic activity in the vicinity 200 years ago.

Colorado-Extraordinary examples of erosion in Mesa county, western Colorado; reached from Grand Junction.

Devil postpile—Natural formations, including Rainbow waterfalls, within the Sierra na-tional forest in California; area set aside is

on middle fork of San Joaquin river.

Devil's tower—A lofty and isolated rock in

Crook county. Wyoming; is an extraordinary
example of the effect of erosion in the higher

mountains.

Dinosaur—Section in eastern Utah containing an extraordinary deposit of dinosaurian and other gigantic reptilian remains of the Jura-Trias period, which are of great scientific interest and value.

tel Morro—An elevation near Wingate station on the Santa Fe railroad in New Mexico; contains prehistoric ruins and interesting

rock inscriptions.

Gila cliff dwellings-In the Mogollon mountains, New Mexico; known also as the Gila Hot Springs cliff houses; are among the best preserved remains of the cliff dwellers of the southwest.

Gran Quivira-Ruined town not far from Manzano in the central part of New Mexico: remains of large cathedral and chapel and of many houses thought to date from prehistoric times.

Jewel cave-A natural formation of scientific interest within the Black Hills national for-est in Custer county, South Dakota.

Katmai-Belt of unusual volcanic activity on the southern coast of Alaska, including Mount Katmai and the "Valley of the Ten Thousand Smokes," exhibiting remarkable natural phenomena.

Lassen peak-In natural forest of same name in Shasta county, northern California; marks the southern terminus of the long line of extinct volcanoes in the Cascade range, from

which one of the greatest volcanic fields in the world extends. Lewis and Clark cavern—An extraordinary limestone cavern near Limespur, Jefferson

county, Montana.

county, Montana.
Montezuma castle—Large prehistoric ruin or
cliff dwelling on Beaver creek, Arizona.
Mount Olympus—Mountain in the state of
Washington; has extensive glaciers and on
its slopes are the breeding grounds of the Olympic elk.

Olympic etc.
Muir woods—In Marin county, California; an extensive growth of redwood trees of great age and size; land presented to the government by William Kent, formerly of Chicago.
Natural bridges—Rock formations in south-

eastern Utah extending over streams or chasms; have loftier heights and greater spans than any other similar formations known; reserved as extraordinary examples

of stream erosion. Navajo—Within the Navajo Indian reservation in Arizona; includes a number of prehis-toric cliff dwellings and pueblo ruins new to

science.

Old Kasaan—Abandoned Indian village in Alaska in which are numerous totem poles and other objects of historical interest. Oregon caves—Within the Siskiyou national

forest in Oregon; caves are of natural for-mation and of unusual scientific interest and importance.

Palm Canyons—Three canyons in Riverside county containing only group of wild Washington palms in existence; of botanical in-

Papago Saguaro—Splendid collection of characteristic desert flora, interesting rock formations and numerous pictographs in Maricopa county, Arizona; reached by Arizona Easten prilipade Eastern railroad.

Petrified forest-Fossilized or mineralized wood

in Gila and Apache counties, Arizona.

Pinnacles—A series of natural formations of rock with a number of caves underlying them; located within Pinnacles national forest in California.

Rainbow bridge—An extraordinary which in form and appearance is much like a rainbow; is 309 feet high and 278 feet span; of scientific interest as an example of

span; of scientific interest as an example of eccentric stream erosion.

Scott's bluff—This bluff is the highest known point in Nebraska and was used as a landmark and rendezvous by immigrants and frontiersmen traveling over Mitchell pass lying to the south of the elevation and forming part of the old Oregon trail. It is on the North Platte river and is reached by the Union Pacific railroad.

Shoshone cavern—A cave in Big Horn county, Wyoming, of unknown extent, but of many windings and ramifications and containing

vaulted chambers of large size, magnifi-cently decorated with sparkling crystals and beautiful stalactites, and containing pits of

unknown depth.

Sitka-Tract of about fifty-seven acres within public park, near Sitka, Alaska; battle ground of Russian conquest of Alaska in 1804; site of fermer village of Kiki-Siti tribe, the most warlike of Alaska Indians; contains numerous totem poles constructed by the Indians, recording the genealogical history of their several clans.

Tunto—Comprises two prehistoric ruins of ancient cliff dwellings in Gila county, Arizona.
Tumacacori—Ruin of an ancient Spanish mis-

Tumacacori—Ruin of an ancient spanish mission of brick, cement and mortar in Santa Cruz county, Arizona.

Verendrye—A high and imposing butte, locally known as Crowhigh mountain, on the Missouri river, near Spanish, N. D.; used as observation point by Verendrye, an explorer, between 1738 and 1742; place of historic interest. interest.

Walnut canyon—Canyon eight miles southeast of Flagstaff, Arizona; contains ruins of cliff dwellings of great ethnograpic, scientific and educational interest.

Wheeler—Volcanic formations illustrating erratic erosion; in Rio Grande and Cochetopa national forests in southwestern Colorado.

Yucca house—An imposing pile of masonry of great archæological value, a relic of the prehistoric inhabitants of that part of the country; located on the eastern slope of Sleeping Ute mountain in Montezuma country. Colorado.

### DIMENSIONS AND AREA OF THE UNITED STATES.

The gross area of the United States is 3,026,789 square miles. The land area amounts to 2,973,774 square miles, and the water area—exclusive of the area in the Great Lakes, the Atlantic, the Pacific, and the Gulf of Mexico within the three-mile limit—amounts to 53,015 square miles. These and other data determined or compiled by the United States geological survey department of the interior, to show the limits of the continental United States, contain some interesting facts.

states geological survey department of the interior, to show the limits of the continental United States, contain some interesting facts. The southernmost point of the mainland is Cape Sable, Fla. which is in latitude 25° 7′ and longitude 81° 5′. The extreme southern point of Texas is in latitude 25° 50′, and longitude 97° 24′. Cape Sable is therefore 49 miles farther south than the most southern point in Texas.

A small detached land area of northern Miles

A small detached land area of northern Min-nesota at longitude 95° 9' extends north-ward to latitude 49° 23'. The easternmost point of the United States is West Quoddy head, near\_Eastport, Maine,

is West Quoddy head, near Eastport, Maine, in longitude 66° 57' and latitude 44° 49': the westernmost point is Cape Alva, Wash, in latitude 48° 10', which extends into the Pacific ocean to longitude 124° 45'.

cinc ocean to iongitude 124° 45'.

From the southernmost point in Texas due north to the forty-ninth parallel, the boundary between the United States and Canada, the distance is 1.598 miles. From West Quoddy head due west to the Pacific ocean the distance is 2.807 miles. The shortest distance

from the Atlantic to the Pacific across the United States is between points near Charleston, S. C., and San Diego, Cal., and is 2,152 miles.

The length of the Canadian boundary line from the Atlantic to the Pacific is 3.898 miles. The length of the Mexican boundary from the gulf to the Pacific is 1.744 miles. The Gulf of Mexico borders the United States for 3.640 miles.

Nearly all maps of the United States show the parallels of latitude as curved lines and are likely to lead the ordinary observer to are likely to lead the ordinary observer to believe that certain eastern or western states are farther north than some of the central states that are actually in the same latitude. For this reason, one who is asked which extends farther south, Florida or Texas, is very likely to say "Texas," but, as stated, the mainland of Florida is nearly 50 miles farther south than the southernmost point in Texas. For the same reason, when we consider the geographic positions of countries south of the United States we find that errors are likely to be made in estimating position or extent in longitude. Few realize that the island of Cuba, for example, if transposed directly north would extend from New York city to Indiana, or that Havana is farther west than Cleveland, O., or that the Panama canal is due south of Pittsburgh, Pa., or that Nome, Alaska, is farther west than Hawaii.

#### UNITED STATES RECLAMATION SERVICE.

Director, Arthur P. Davis, interior department building, 19th and F streets, N. W., Washington, D. C. Employes: Washington office, 75; field, 3,000 to 5,000. Expenditure per year about \$10,000,000.

The reclamation service was organized as the contract of the interior department under the

a bureau of the interior department under the reclamation act of June 17, 1902. It is engaged in the investigation, construction, and operation of irrigation works in the seventeen arid and semiarid states of the far west. Twenty-five primary projects comprising 2,-825,000 acres and three Indian projects comprising 384,000 acres are under construction or operation, and the major works aid in serving or distinct 100,000 acres are under construction.

prising 384,000 acres are under construction or operation, and the major works aid in serving an additional 1,100,000 acres under private canals that generally get stored water from the government reservoirs. The funds for this work have come chiefly from the sale of public lands, from repayments by the water users, and more recently from oil-leasing and other mineral operations, and the money expended is returned to the fund by graduated payments of settlers, usually in twenty annual installments without interest, in accordance with the reclamation extension act of Aug. 13, 1914. The service has built about 13,600 miles of canals, ditches and drains (including 117,000 canal structures) involving the excavation of 200,000,000 cubic yards of materials. Incomnection with this work there have been constructed 100 storage and diversion dams with an aggregate volume of 14,500,000 cubic yards, including Arrowrock dam (349 feet high), Idaho, on the Boise river and the Elephant Butte dam (306 feet high), New Mexico, on the Rio Grande. The service has built 101 tunnels, 1,000 miles of road, 83 miles of railroad, 3,280 miles of telephone lines, a dozen power plants and 840 miles of

transmission lines. It is mining coal, and has manufactured 1,676,000 barrels of cement and sand cement. The net construction cost to June 30, 1922, was \$135,000,000.

More than 450,000 persons are living on the 33,000 farms irrigated by the service and in the project towns and cittes. Of the 2,825,000 acres above referred to water was furnished in 1921 to 1,227,500 acres, and of this area 1,157,900 acres were harvested in 1921, producing crops worth nearly \$50,000,000, or an average of about \$43 per acre. The additional lands using stored water yielded crops worth \$45,000,000 more.

Public land farm units on the several projects are opened for settlement from time to time as canals are extended to make irrigation water available. Under present law soldiers of the world war have a preference right to enter these farms, and at recent openings such soldiers have taken all units.

Information in regard to farms available for settlement may be obtained by addressing director U. S. reclamation service, department of the interior. Washington D.

director U. S. reclamation service, department of the interior, Washington, D. C.

The service issues the Reclamation Record, an illustrated monthly publication containing articles of interest to irrigation farmers and engineers. An annual report is also issued.

An engineering library of about 5,000 manuscript and printed volumes on the subject of irrigation is maintained in the Washington office of the service. This library contains description of the construction and operation of the projects, with numerous photographs and maps, plans, specifications, cost data and results of original experimental investigations, and is available for consultation by those interested.

Utob	Cannota	3 miles north of Manti.
Utah	Sannete	2 miles north of Parkers
Vermont	Washington	3 miles east of Roxbury.
Virginia	Appomattox	11 miles east-southeast of Amherst.
Washington	Chelan	10 miles west-southwest of Wenatchee.
West Virginia	Praxton	4 miles east of Sutton.
Wisconsin	Wood	9 miles southeast of Marshfield.
Wyoming	Fremont	58 miles east-northeast of Lander.

The geographic center of Alaska is diffilislands are included in the determination it is cult to determine, for the outline of the territory is very irregular, but if the outlying Gibbons, in latitude 63°46′, longitude 152°20′.

### SWEDEN VOTES AGAINST PROHIBITION.

Sweden voted on the question of national robibition Aug. 27, 1922. More than 60 that against prohibition 930,655.

#### UNITED STATES CIVIL SERVICE.

Civil service act approved Jan. 16, 1883.

Officers—Three commissioners are appointed by the president to assist him in classifying the government offices and positions, formulating rules and enforcing the law. Their office is in Washington, D. C. The chief examiner is appointed by the commissioners to secure accuracy, uniformity and justice in the proceedings of the examining boards. The secretary to the commission is appointed by the president

tary to the commission is appointed by the president.

General Rules—The fundamental rules governing appointments to government positions are found in the civil service act itself. Based upon these are many other regulations formulated by the commission and promulgated by the president from time to time as new contingencies arise. The present rules were approved March 20, 1903, and went into effect April 15, 1903. In a general way they require that there must be free, open examinations of applicants for positions in the public tions of applicants for positions in the public service: that appointments shall be made service; that appointments shall be made from those graded highest in the examinations; that appointments to the service in Washington shall be apportioned among the states and territories according to population; that there shall be a period (six months) of probation before any absolute appointment is made; that no person in the public service is for that reason obliged to contribute to any political fund or is subject to dismissal for refusing to so contribute; that no person in the public service has any right to use his official authority or influence to coerce the political action of any person. Applicants for positions shall not be questioned as to their political or religious beliefs and no discrimination shall be exercised against or in favor of any applicant or cmploye on account of his religion or politics. The class and civil service snall include all officers and employes in the executive civil all officers and employes in the executive civil service of the United States except laborers and persons whose appointments are subject to confirmation by the senate.

Examinations—These are conducted by boards

of examiners chosen from among persons in government employ and are held twice a year government employ and are neid twice a year in all the states and territories at convenient places. In Illinois, for example, they are usually held at Cairo, Chicago and Peoria. The dates are announced through the newspapers or by other means. They can always be learned by applying to the commission or to the navest postoffice or custom house. Those who deest postonice or custom nouse. Inose who desire to take examinctions are advised to write to the commission in Washington for the 'Manual of Examinations,' which is sent free to all applicants. It is revised semiannually to Jan. 1 and July 1. The January edition contains a schedule of the spring examinations and the lubedition contains as and the July edition contains a schedule of the and the saminations. Full information is given as to the methods and rules governing examinations, manner of making application, qualinations, manner of making application, qualifications required, regulations for rating examination papers, certification for and chances of appointment, and as far as possible it outlines the scope of the different subjects of general and technical examinations. These are practical in character and are designed to test the relative capacity and fitness to discharge the duties to be performed. It is necessary to obtain an average percentage of 70. charge the duties to be performed. It is necessary to obtain an average percentage of 70 to be eligible for appointment, except that applicants entitled to preference because of honorable discharge from the military or naval service for disability, resulting from wounds or sickness incurred in the line of duty, need obtain but 65 per-cent. The period of eligibility is one year.

Qualifications of Applicants—No person will be examined who is not a citizen of the

United States: who is not within the age limitations prescribed; who is physically disqualified for the service which he seeks; who has been guilty of criminal, infamous, dishonest or disgraceful conduct; who has been dismissed from the public service for delinquency and misconduct or has failed to receive absolute appointment after probation; who is addicted to the abitual use of intoxicating liquors to appointment after probation; who is addicted to the habitual use of intoxicating liquors to excess, or who has made a false statement in his application. The age limitations in the more important branches of the public service are; Postoffice, 18 to 45 years; rural letter carriers, 17 to 55; internal revenue, 21 years and over; railway mail, 18 to 35; lighthouse, 18 to 50; life saving, 18 to 45; general departmental, 20 and over. These age limitations are subject to change by the commission. They do not apply to applicants of the preferred class. Applicants for the position of railway mail clerk must be at least 5 feet 6 inches in height, exclusive of boots or shoes, and weigh not less than 135 pounds in ordinary clothing and have no physical defects. Applicants for certain other positions have to come up to similar physical requirements.

Applicants for certain other positions have to come up to similar physical requirements. Method of Appointment—Whenever a vacancy exists the appointing officer makes requisition upon the civil service commission for a certification of names to fill the vacancy, specifying the kind of position vacant, the sex desired and the salary. The commissions seemed to the salary of the commissions of the salary of the commissions of the salary sion thereupon takes from the proper register of eligibles the names of three persons stand-ing highest of the sex called for and certifies them to the appointing officer, who is required to make the selection. He may choose any one of the three names, returning the other two to the register to await further certifica-tion. The time of examination is not consid-ered, as the highest in average percentage on the register must be certified first. If after a probationary period of six months the name of the appointee is continued on the roll of the department in which he serves the ap-

pointment is considered absolute.

Removals—No person can be removed from a competitive position except for such cause as will promote efficiency of the public service. and for reasons given in writing. No examination of witnesses nor any trial shall be required except in the discretion of the officer

making the removal.
Salaries—Entrance to the department service is usually in the lowest grades, the higher grades being generally filled by promotion. The usual entrance grade is about \$900, but the applicant may be appointed at \$840, \$760 or even \$600.

#### WOMAN SUFFRAGE IN THE UNITED STATES.

Equal suffrage with men was conferred upon the women of the United States by the ratification and formal proclamation of the nineteenth amendment to the federal constitution Aug. 26, 1920. Tennessee was the thirty-sixth and last state to ratify the amendment, which required the approval of the legislatures of three-fourths of all the states before becoming effective.

Nationwide woman suffrage in the United States was made possible in 1919 when the 66th congress at its first session adopted a joint resolution proposing an amendment, popularly known as the Susan B. Anthony amendment, to the federal constitution extending the right of suffrage to women. The

"Resolved, by the senate and house of representatives of the United States of America in congress assembled (two-thirds of each house concurring therein). That the following article is proposed as an amendment to the constitution, which shall be valid to all intents and purposes as part of the constitution when ratified by the legislatures of three-fourths of the several states,

"'Article -. The right of citizens of the United States shall not be denied or abridged by the United States or by any state on ac-

count of sex.

"'Congress shall have the power to enforce this article by appropriate legislation.'"

In the 65th congress a similar resolution was passed by the house of representatives Jan. 10, 1918, by a vote of 274 yeas to 136 nays. In the senate progress was slow and on Sept. 30 President Wilson made a personal appeal for the passage of the resolution. A vote was taken on Oct. 1, but the necessary A vote was taken on Oct. 1, but the necessary two-thirds vote was not attained and the measure failed. On the first day of the spe-cial session of the 66th congress, May 19, 1919. Representative James R. Mann of Illi-nois introduced the Susan B. Anthony resolu-tion in the house and on May 21 it was

adopted by a vote of 304 to 88, the necessary two-thirds total being 262.

In the senate efforts were made to delay the adoption of the resolution, but these were unsuccessful and a vote was taken on June

successful and a vote was taken on June 4. The resolution was adopted by a vote of 56 to 25, receiving two votes more than the recuisite two-thirds of the senators voting. The resolution was drafted, substantially in the form in which it was eventually passed, by Susan B. Anthony and Elizabeth Cady Stanton in 1875. It was first introduced by Senator A. A. Sargent of California in 1878. It was defeated in the senate in 1887, 1914. 1918 and once in 1919. In the house it was defeated in 1915 by a vote of 174 yeas to 204 nays. 204 nays

#### THE ROCKEFELLER FOUNDATION.

The Rockefeller Foundation, endowed by John D. Rockefeller with more than \$100.000.000, was given a charter by the state of New York in 1913. Its purpose is "to promote the well-being and advance the civilization of the people of the United States and its territories and possessions, and of foreign lands, in the acquisition and dissemination of knowledge in the prevention of suffering and knowledge in the prevention of suffering and knowledge in the prevention of suffering and in the promotion of any and all the elements of human progress." It has devoted much of its income to assisting medical schools in various countries, including China, to medical research and to training in public health service. It has sought particularly to combat yellow fever, malaria, tuberculosis and the

hookworm disease. The work has been largely through the International Health board, the China Medical board and other subsidiary or

China Medical board and other subsidiary or departmental organizations.
On Dec. 31, 1920, the general fund of the foundation was \$17,204,624, with a reserve of \$3,111,288 and special funds aggregating \$16,800, making a total of \$174,432,712. Its medical school lands, buildings and equipment in China were valued at \$7,528,605.
The general offices of the Rockefell'r Foundation are at 61 Broadway. New York city. The chairman of the board of trustees is John D. Rockefeller, Jr., and the president of the foundation is George E. Vincent.

#### APPLICATION FOR PATENTS.

[Condensed from "Rules of Practice in the United States Patent Office."]

Business with the patent office should be | ject and nature of the invention. transacted in writing. All office letters must be sent in the name of the "commissioner of patents." On the propriety of making an appatints." On the propriety of making an application for a patent the inventor must judge for himself. The office is open to him and its records and models may be inspected either by himself or by any attorney or expert he may call to his aid. Pending applications are preserved in secrecy, but after a patent has issued the model, specification, drawings, and all documents relating to the case are subject to general inspection, and copies, except of the model, are furnished at rates specified herein-

An applicant may prosecute his own case, but he is advised, unless familiar with such matters, to employ a competent patent attorney, as the value of patents depends largely upon the skillful preparation of the specifica-

tion and claims.

A patent may be obtained by any person who has invented or discovered any new and useful art, machine, manufacture or composition of matter, or any new and useful improvement thereof, not known or used by others in this country before his invention or discovery thereof, and not patented or described in any printed publication in this or any foreign country before his invention or discovery thereof or more than two years prior covery thereof, or more than two years prior to his application, and not patented in a courtry foreign to the United States, on an application filed by him or his legal representatives or assigns more than twelve months before his application, and not in public use or on sale in the United States for more than two years prior to his application, unless the same is proved to have been abandoned, upon payment of the fees required by law and other due proceedings had.

In case of the death of the inventor, the application will be made by and the patent issued to his executor or administrator.

Applications for patents must be made to the commissioner of patents and must be signed by the inventor or in case of his death signed by the inventor or in case of his death by his executor or administrator. A com-plete application comprises the first fee of \$15, a petition, specification and oath, all of which must be in the English language, and drawings when required. Papers for perma-nent record must be legibly written or printed in permanent ink. The application must be completed and prepared for examination with-in one year. The petition must be addressed to the compriseinors of rates of any conto the commissioner of patents and must state the name, residence and postoffice ad-dress of the petitioner, designate by title the invention sought to be patented, contain a reference to the specification for a full disclosure of such invention and must be signed by the inventor.

The specification is a written description of the invention or discovery and of the manner and process of making, constructing, com-pounding and using the same, and is required to be in such full, clear, concise and exact terms as to enable any person skilled in the art or science to which the invention or discovery appertains or with which it is most discovery appertains or with which it is most nearly connected to make, construct, compound and use the same. In case of a mere improvement the specification must particularly point out the parts to which the improvement relates, distinguishing clearly between what is old and what is claimed as new. The following order of arrangement should be observed in framing the specification: (a) Preamble stating the name and residence of the applicant and the title of the invention. (b) General statement of the ob-

(c) Brief description of the several views of the drawing (if the invention admit of such illustration). (d) Detailed description. (e) Claim or claims. (f) Signature of applicant.

Two or more independent inventions cannot be claimed in one application; but where several distinct inventions are dependent upon eral distinct inventions are dependent upon each other and mutually contribute to produce a single result they may be claimed in one application. The applicant, if the inventor, must make oath or affirmation that he does verily believe himself to be the original and first inventor or discoverer of the art, machine, manufacture, composition or improvement for which he solicits a patent; that he does not know and does not believe that he does not know and does not believe that the same was ever known or used before his invention or discovery thereof, and shall state of what country he is a citizen and where he resides and whether he is a sole or joint inventor of the invention claimed in his application. In every original application the applicant must distinctly state under oath that to the best of his knowledge and belief the invention has not been in public use or on sale in the United States for more than two years prior to his application or patented or described in any printed publication in any country before his invencation or patented or described in any printed publication in any country before his invention or more than two years prior to his application, or patented in any foreign country on an application filed by himself or his legal representatives or assigns more than twelve months prior to his application in this country. If any application for patent has been filed in any foreign country by the applicant in this country, or by his legal representatives or assigns, prior to his application in this country, he shall state the country or countries in which such application has been filed, giving the date of such applicaor countries in which such application has been filed, giving the date of such application, and shall also state that no application has been filed in any other country or countries than those mentioned, and if no application for patent has been filed in any foreign country he shall so state. This oath must be subscribed to by the affiant.

The oath or affirmation may be made be-fore any person within the United States au-thorized by law to administer oaths, or, when thorized by law to administer oaths, or, when the applicant resides in a foreign country, before any minister, charge d'affaires, consul or commercial agent of the United States, or by any official authorized to administer oaths in the country in which the applicant may be. Drawings must be made upon pure white paper of a thickness corresponding to a two-sheet or three-sheet Bristol board. The surface of the paper must be calendered and

sheet or three-sheet Bristol board. The surface of the paper must be calendered and smooth. India ink alone must be used to secure perfectly black and solid lines. The size of the sheet on which a drawing is made must be exactly ten by fifteen inches. One inch from its edges a single marginal line is to be drawn, leaving the "sight" precisely eight by thirteen inches. Within this margin all work and signatures must be included. A model will be required or admitted as a

part of the application only when on examination of the case in its regular order the primary examiner shall find it to be necessary or useful.

sary or useful.

A design patent may be obtained by any person who has invented any new, original and ornamental design for an article of manufacture, not known or used by others in this country before his invention thereof, and not patented or described in any printed publication in this or any foreign country before his invention thereof, or more than two years prior to his application, and not caused to be

5.00

patented by him in a foreign country on an
application filed more than four months be-
fore his application in this country and not
in public use or on sale in this country for
more than two years prior to his application,
unless the same is proved to have been
abandoned, upon payment of the fees required
by law and other due proceedings had, the
same as in cases of inventions or discoveries.

Patents for designs are granted for three and one-half years, seven years or fourteen years as the applicant may elect. The proceedings in applications for patents for designs are substantially the same as in applications for other patents. The design must be represented by a drawing made to conform to the rules laid

down for drawings of mechanical inventions.

A reissue is granted when the original patent is inoperative or invalid by reason of a defective or insufficient specification, or by reason of the patentee claiming as his invention or discovery more than he had a right to claim as new, provided the error has arisen through accident or mistake.

[For rules as to interferences, reconsideration cases, appeals, hearings, motions, testimony, briefs and other technical or legal data inventors are referred to the "Rules of Practice," which may be obtained free from the United

States patent office.]
Every patent shall issue within a period of three months from the date of the payment of the final fee. A patent will not be antedated. Every patent will contain a short title of the invention or discovery indicating its nature and object, and a grant to the patentee, his heirs and assigns, for the term of seventeen years, of the exclusive right to vend the invention or discovery throughout the United States and its territories.

Fees are payable in advance. Following is

On filing each original application	\$20.00
On issuing each original patent	-20.00
In design cases—For 3 years and 6 months	10.00
For 7 years	15.00
For 14 years	30,00
On every application for reissue	30.00
On filing each disclaimer	10.00
On appeal from the primary examiner	10.00
On appeal from examiners in chief to

#### COPYRIGHT LAWS OF THE UNITED STATES.

The act to amend and consolidate the acts respecting copyright, in force July 1, 1909, as amended by the acts approved Aug. 24, 1912; March 2, 1913, March 28, 1914, and Dec. 18, 1919, provides that any person entitled thereto, upon complying with the provisions of the law, shall have the exclusive right (a) to print, reprint, publish, copy and vend the copyrighted work; (b) to translate the copyrighted work or make any other version of it if it be a literary work; to dramatize it if it be at nondramatic work; to convert it into a novel or other nondramatic work if it be a drama; to arrange or adapt it if it be a musical work; to finish it if it be a model or design for work; to make it it be a model or design for a work of art; (c) to deliver or authorize the delivery of the copyrighted work if it be a lecture, sermon, address or similar production; (d) to perform the copyrighted work publicly if it be a drama or, if it be a dramatic work and not reproduced in copies for sale, to vend the manuscript or any record thereof; to make or to procure the making of any transcription or record thereof by which it may in any manner be exhibited, performed or produced, and to exhibit, perform or produce it in any manner whatsoever; (e) to perform the copy-

righted work publicly for profit if it be a musical composition and for the purpose of public performance for profit and to make any arrangement or setting of it in any system of notation or any form of record in which the thought of an author may be read or reproduced.

So far as it secures copyright controlling the parts of instruments serving to reproduce mechanically the musical work the law includes only compositions published after the act went into effect; it does not include the works of a foreign author or composer unless the country of which he is a citizen or subject grants similar rights to American citizens. Whenever the owner of a musical copyright has used or per-mitted the use of the copyrighted work upon the part of instruments serving to reproduce mechanically the musical work, any other person may make a similar use of the work upon the payment to the owner of a royalty of 2 cents on each such part manufactured. The reproduction or rendition of a musical composition by or upon coin-operated machines shall set he decred a rubble partergrange for profit not be deemed a public performance for profit unless a fee is charged for admission to the place where the reproduction occurs.

The works for which copyright may be secured include all the writings of an author.

The application for registration shall specify to which of the following classes the work in which copyright is claimed belongs:

(a) Books, including composite and cyclopedic works, directories, gazetteers and other compilations.

(b) Periodicals, including newspapers.(c) Lectures, sermons, addresses, prepared

for oral delivery.
(d) Dramatic

Dramatic or dramatic-musical compositions.

Musical compositions.

(e) (f) Maps.

(g) Works of art: models or designs for works of art.

(h) Reproductions of a work of art.
(i) Drawings or plastic works of a science or technical character. (h) tific

Photographs.

(h) Prints and pictorial illustrations.
(l) Motion picture photo plays.
(m) Motion pictures other than photo plays.

specifications do not, however, limit the subject matter of copyright as defined in the law nor does any error in classification invalidate the copyright protection secured.

Copyright extends to the work of a foreign author or proprietor only in case he is domi-ciled in the United States at the time of the first publication of his work or if the country of which he is a citizen grants similar copy-right protection to citizens of the United States.

The existence of the reciprocal conditions aforesaid shall be determined by the president of the United States, by proclamations made from time to time. Provided, however, that all works made the subject of copyright first produced or published about 25% Aug. produced or published abroad after Aug. 1, 1914, and before the date of the president's proclamation of peace, of which the authors or proprietors are citizens or subjects of any foreign state or nation granting similar protection eign state or hating granting similar protection for works by citizens of the United States, shall be entitled to the protection conferred by the copyright laws of the United States from and after the accomplishment, before the ex-piration of fifteen months after the date of the president's proclamation of peace, of the condi-tions and formalities prescribed with respect to such works by the copyright laws of the United States.

Any person entitled thereto by the law may secure copyright for his work by publication thereof with the notice of copyright required by the act, and such notice shall be affixed to each copy published or offered for sale in the United States. Such person may obtain registration of his claim to copyright by complying with the provisions of the act includregistration of his claim to copyright by com-plying with the provisions of the act, includ-ing the deposit of copies, whereupon the reg-ister of copyrights shall issue to him a cer-tificate as provided for in the law. Copyright may also be had of the works of an author of may also be had of the works of an author of which copies are not reproduced for sale by the deposit with claim of copyright of one complete copy, if it be a lecture or similar production, or a dramatic, musical or dramatico-musical composition; of a title and description with one wint toler from each core scription, with one print taken from each scene or act, if the work be a motion-picture photo or act, it he work be a monon-interprint of play; of a photograph; of a title and description, with not less than two prints taken from different sections of a complete motion picture, if the work be a motion picture other than a photo play, or of a photograph or other identifying reproduction thereof if it be a work of art or a plastic work or drawing.

After copyright has been secured there must be deposited in the copyright office in Washington, D. C., two complete copies of the best edition thereof then published, or if the work

is by a foreign author and published in a foreign country one complete copy of the best edieign country one complete copy of the best edi-tion then published, which copies or copy, if the work be a book or periodical, shall have been produced in accordance with the manu-facturing provisions of the act, or if such work be a contribution to a periodical for which con-tribution special registration is requested, one copy of the issue or issues containing such comcopy of the issue or issues containing such contribution. Failure to deposit the copies within a given time after notice from the register of copyrights makes the proprietor of the copyright liable to a fine of \$100 and twice the retail price of the work, and the copyright becomes void.

The text of all books and periodicals specified in paragraphs (a) and (b) above, except the original text of a book of foreign origin in a language other than English, must in order to secure protection be printed from type set within the limits of the United States, either by hand, machinery or other process, and the printing of the text and the binding of the books must also be done within the United States. An affidavit of such manufacture is

required.

The notice of copyright required consists either of the word "copyright" or the abbreviation "copyr." accompanied by the name of the copyright proprietor, and if the work be a printed literary, musical or dramatic work, the notice must also include the year in which the copyright was secured by publication. In the copyright was secured by publication. In the case, however, of copies of works specified in raragraphs (f) to (k) inclusive (given above the notice may consist of the letter C inclosed within a circle, accompanied by the initials, within a circle, accompanied by the initials, monogram, mark or symbol of the copyright proprietor, provided his name appears elsewhere on the copies. In the case of a book or other printed publication the notice shall be applied on the title page or on the page immediately following, or if a periodical either upon the title page or upon the first page of text of each separate number or under the title heading; or if a musical work upon its title page or the first page of music.

Where the copyright proprietor has sought to comply with the law with respect to notice, the omission of such notice by mistake from a particular copy or copies shall not invalidate the copyright or prevent recovery for infringement against any person who, after actual no-tice of the copyright, begins an undertaking to infringe it, but shall prevent the recovery of damages against an innocent infringer who has been misled by the omission of the notice. In the case of a book in English published

abroad before publication in this country, the deposit in the copyright office within thirty days of one copy of the foreign edition, with a request for the reservation of the copyright, secures for the author or owner an ad interim copyright for thirty days after such deposit is

made.

The copyright secured by the act endures for twenty-eight years from the date of the first publication. In the case of any posthumous work, periodical, encyclopedic or other composite work upon which the copyright was originally secured by the proprietor thereof, or of any work copyrighted by a corporate body, or by an employer for whom such work is made by an employer for whom such work is made for hire, the proprietor for such copyright shall be entitled to a renewal of the copyright in such work for the further term of twenty-eight years when application for such renewal shall have been made within one year prior to the expiration of the original term. In the case of any other copyrighted work, including a contribution by an individual author to a periodical or to a cyclopedic or other composite work when such contribution has been separately copyrighted, the author of such work, if living, or the heirs, executors or next of kin, if the author be dead, shall be entitled to a renewal of the copyright for a further term of twenty-eight years. In default of such application for renewal the copyright in any work shall end at the expiration of twenty-eight years.

If any person shall infringe the copyright in any work protected under the copyright laws of the United States, such person shall be liable; To an injunction restraining such in-

fringement.

To pay to the copyright proprietor such damages as the copyright proprietor may have suffered due to the infringement, as well as all the profits which the infringer shall have made from such infringement, and in proving profits the plaintiff shall be required to prove sales only and the defendant shall to prove sales only and the defendant shall be required to prove every element of cost which he claims, or in lieu of actual damages or profits such damages as to the court shall appear to be just, and in assessing such damages the court may, in its discretion, allow the amounts as hereinafter stated (in numbered paragraphs), but in the case of a newspaper reproduction of a copyrighted photograph such damages shall not exceed the sum of \$200 nor be less thau \$50, and in the case of the infringement of an undramatized or nondramatic work by means of motion picnondramatic work by means of motion pic-tures, where the infringer shall show that he was not aware that he was infringing, and that such infringement could not have been reasonably foreseen, such damages shall not exceed \$100; and in the case of an infringement of a copyrighted dramatic or dramatico-musical work by a maker of motion pictures and his agencies for the distribution thereof to exhibitors where such infringer shows that he was not aware that he was infringing a copyrighted work and that such infringements could not have been reasonably foreseen, the entire sum of such damages recoverable by the copyright proprietor from such infringing maker and his agencies shall not exceed the sum of \$5,000 nor be less than \$250, and such damages shall in no other case exceed the sum of \$250 and shall not be regarded as a penalty. The foregoing exceptions shall not be regarded as deprive the copyright proprietor of any other remedy given him under this law.

1. In the case of a painting, statue or sculpture, \$10 for every infringing copy made or sold by or found in the possession of the infringer or his agents or employes.

2. In the case of any work enumerated in the list (given above) of works for which copyright may be asked except a painting, statue or sculpture, \$1 for every infringing

3. In the case of a lecture, sermon or address, \$50 for every infringing delivery.
4. In the case of dramatic or dramatico-mu-

sical or a choral or orchestral composition, \$100 for the first and \$50 for every subsequent infringing performance; in the case of other musical compositions, \$10 for every infringing performance.

(c) To deliver up on oath all articles al-

leged to infringe a copyright.

(d) To deliver up on oath for destruction all the infringing copies or devices, as well as all plates, molds, matrices or other means for making such infringing copies, as the court

may order.

(e) Whenever the owner of a musical copyright has used or permitted the use of the copyrighted work upon the parts of musical instruments serving to reproduce mechanically the musical work, then in case of infringement by the unauthorized manufacture, use or sale of interchangeable parts, such as disks, rolls, bands or cylinders for use in mechanical music-producing machines, no criminal action

shall be brought, but in a civil action an injunction may be granted upon such terms as

Junction may be granted upon such terms as the court may impose and the plaintiff shall be entitled to recover in lieu of profits and damages a royalty as provided in the act.

Any person who shall willfully and for profit infringe any copyright, or willfully aid or abet such infringement, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by imprisonment for not exceeding one year or by a fine of not less than \$1.00 or more than \$1.000, or both, in the discretion of the court. It is provided, however, that nothing in the act shall prevent the performance of religious or secular works. ever, that nothing in the act shall prevent the performance of religious or secular works, such as oratorios, cantatas, masses or octavo choruses by public schools, church choirs or vocal societies, provided the performance is for charitable or educational purposes and not for

Any person who shall fraudulently place a copyright notice upon any uncopyrighted article, or shall fraudulently remove or alter the notice upon any copyrighted article, shall be deemed guilty of a misdemeanor and shall be subject to a fine of not less than \$100 or more than \$1,000. Any person who shall knowingly sell or issue any article bearing a notice of United States copyright which has not been copyrighted in this country, or who shall knowingly import any article bearing such notice, shall be liable to a fine of \$100. During the existence of the American copyright in any book the importation of any piratical copies thereof or of any copies not produced in accordance with the manufacturing provisions of the copyright law, or of any person who shall fraudulently place a Anv

provisions of the copyright law, or of any plates of the same not made from type set in this country, or any copies produced by lithographic or photo-engraving process not performed within the United States, is prohibited, Except as to piratical copies this does not

apply:

To works in raised characters for the (a) blind;

To a foreign newspaper or magazine, (b) although containing matter copyrighted in the United States printed or reprinted by authority of the copyright owner, unless such newspaper or magazine contains also copyright matter printed without such authorization;

(c) To the authorized edition of a book in a foreign language of which only a translation into English has been copyrighted in this

country;
(d) To any book published abroad with the

authorization of the author or copyright proprietor under the following circumstances:

1. When imported, not more than one copy at a time, for individual use and not for sale, but such privilege of importation shall not extend to a foreign reprint of a book by an American author copyrighted in the United States:

When imported by or for the use of the

United States:

3. When imported for use and not for sale, not more than one copy of any such book in any one invoice, in good faith, by or for any society or institution incorporated for educational, literary, philosophical, scientific or religious purposes, or for the encouragement of the fine arts, or for any college, academy, school or seminary of learning, or for any state school, college, university or free public library in the United States:

4. When such books form parts of libraries

or collections purchased en bloc for the use of societies, institutions or libraries, or form parts of the library or personal baggage belonging to persons or families arriving from foreign countries and are not intended for

sale. criminal actions shall be maintained under the copyright law unless the same be

begun within three years after the cause of action arose.

Copyright may be assigned, mortgaged or be-

queathed by will.

There shall be appointed by the librarian of congress a register of copyrights at a salary of \$4,000 a year and an assistant register at \$3.000 a year.

These with their subordinate assistants shall perform all the duties relating to the registraperform an ine duties relating to the registar-tion of copyrights. The register of copyrights shall keep such record books in the copyright office as are required to carry out the pro-visions of the law, and whenever deposit has been made in the copyright office of a copy of any work under the provisions of the act he shall make entry thereof.

In the case of each entry the person re-corded as the claimant of the copyright shall be entitled to a certificate of registration un-der seal of the copyright office.

der seal of the copyright office.
The register of copyrights shall receive and the persons to whom the services designated are rendered shall pay the following fees: For the registration of any work subject to copyright, \$1, which sum is to include a certificate of registration under seal: Provided, That in the case of photographs the fee shall be 50 cents where a certificate is not demanded. For every additional certificate of registration

made, 50 cents. For recording and certifying any instrument of writing for the assignment of copyright or license, or for any copy of such certificate or license, duly certified, if not over 300 words in length, \$1; if more than 300 and less than 1,000, \$2; if more than 1,000 words in length, \$1 additional for each 1,000 words or fraction thereof over 360 words. For recording the notice of user or acquiescence specified in the act, \$2 cents for each notice of not over fifty words and an additional 25 cents for each additional 100 words. For comparing any copy of an assignment with the record of such document in the copyright office and certifying the same under seal, \$1. For recording the same under seal, \$1. For recording the extension or renewal of copyright, 50 cents. For recording the transfer of the procents. For recording the transfer of the pro-prietorship of copyrighted articles, 10 cents for each title of a book or other article in addition to the fee for recording the instru-ment of assignment. For any requested search of copyright office records, indexes or deposits, 50 cents for each full hour consumed in making such search. Only one registration at one fee shall be required in the case of several volumes of the same book deposited at the same time.

For copyright blanks and additional information as to copyright regulations address the register of copyrights, library of congress, Washington, D. C.

#### REGISTRATION OF TRADE-MARKS.

Under the act of Feb. 20, 1905, as subsequently amended, the owner of a trade-mark used in commerce with foreign nations, or among the several states, or with the Indian tribes, provided such owner shall be domiciled within the United States or resides on the local states. within the United States or resides or is located in any foreign country which affords similar privileges to the citizens of the United States, may obtain registration for such trademark by complying with the following requirements: First, by filing in the patent of fice an application therefor, addressed to the fice an application therefor, addressed to the commissioner of patents, signed by the applicant, specifying his name, domicile, location and citizenship; the class of merchandise and the particular description of the goods comprised in such class to which the trade-mark is appropriated; a statement of the mode in which the same is applied and affixed to the goods and the length of time during which the trade-mark has been used; a description of the trade-mark itself shall be included, if desired by the applicant or required by the comthe trade-mark itself shall be included, if desired by the applicant or required by the commissioner, provided such description is of a character to meet the approval of the commissioner. With this statement shall be filed a drawing of the trade-mark, signed by the applicant or his attorney, and such number of specimens of the trade-mark as actually used as many he required by the commissioner of as may be required by the commissioner of patents.

patents.

The application must be accompanied by a written declaration, verified by the applicant or by a member of the firm or an officer of the corporation or association applying, to the effect that the applicant believes himself or the firm in whose behalf he makes the application to be the owner of the trademark sought to be registered and that no other nerson or concern to the best of the application. person or concern, to the best of the appli-cant's knowledge, has the right to use such trade-mark in the United States, either in the identical form or in such near resemblance thereto as might be calculated to deceive. No mark by which the goods of the owner of the mark may be distinguished from other

goods of the same class shall be refused registration on account of the nature of such mark unless it—
(a) Consists of or comprises immoral or

scandalous matter.

(b) Consists of or comprises the flag or coat of arms or other insignia of the United States or any simulation thereof, or of any States or any simulation thereof, or of any state or municipality or of any foreign nation, or of any design or picture that has been or may hereafter be adopted by any fraternal society as its emblem, or of any name, distinguishing mark, character, emblem, colors, flag or banner adopted by any institution, organization, club or society which was incorporated in any state in the United States prior to the date of the adoption and use by the applicant: Provided, that the name, etc., was adopted and publicly used prior to the date of the adoption and use by the applicant. Trade-marks so similar to others as to cause confusion or mistakes shall not be registered. No mark which consists merely of a name not written, impressed or woven in some particular manner or in association with the portait of an individual, or merely in words or devices which are descriptive of the goods with which they are used or marky a consistence. trate of an individual, or merely in words or devices which are descriptive of the goods with which they are used or merely a geographical name or term, shall be registered. No portrait of a living individual may be registered as a trade-mark except with his centent in writing consent in writing.

Certificates of registration remain in force twenty years and may be renewed from time to time for like periods on payment of the required fees. Following are the rates for trade-mark fees:

Further information may be had by applying to commissioner of patents, Washington, D. C.

### GEOGRAPHIC CENTER OF THE UNITED STATES.

According to the United States geological survey the geographic center of the continental United States (exclusive of Alaska) is in the eastern part of Smith county, Kansas, latitude 39 degrees 50 minutes, longitude 98 degrees 35 minutes. Smith county is one of the northern tier of Kansas counties bordering on Nebraska and is about midway between the eastern and western boundaries of tween the eastern and western boundaries of the state. The point indicated as the geo-graphic center is not far from the town of Lebanon, a station on the Rock Island railroad.

THE UNITED STATES.

The geographic center of the United States and its island possessions has not been officially determined, but taking the Virgin islands as the easternmost limit, the Aleutian islands as the westernmost, Alaska as the northernmost and the Samoan islands belonging to the United States as the southernmost extremity it is evident that the central point in latitude and longitude must be in the Pacific ocean west of San Francisco, Cal. Including the Philippines it would be in about the same longitude as Hawaii.

#### UNITED STATES COAST GUARD.

ADMINISTRATION, 1922.
Captain Commandant—William E. Reynolds.
Aid to Commandant—Lieut.-Com. Frederick C. Billard. Inspector—Commander A. J. Henderson, Chief of Division of Operations—Oliver M. Maxam. Maxam.
Chief of Division of Personnel—Commander
Harry G. Hamlet.
Chief of Division of Material—Kendall J. Chief of Division of Communications—Lieut,-Com, Edward D. Jones. Chief of Division of Construction and Repair— Commander J. M. Moore. Chief of Division of Engineering—Chief Engineer Quincy B. Newman, OPERATIONS IN 1921.\* Persons rescued from peril .... 1,621 Persons on board vessels as-14.013 sisted Persons in distress cared for .. 650 Vessels boarded and papers examined
Vessels seized or reported for violation of law..... amined 18.348 340 Fines and penalties incurred by vessels reported ......

Derelicts and obstructions navigation removed or \$86,610.00 or destroyed ..... Instances of lives saved and 8 vessels assisted .. 1.933 Instances of miscellaneous as-855 cluding cargoes) ......\$66,260,445.00 Net expenditure for maintenance\$10,137,633,44 \*Fiscal year ended June 30. FUNCTIONS AND DUTIES.

Under an act of congress approved Jan. 28, 1915, it was provided that in lieu of the then existing revenue cutter service and life then existing revenue cutter service and life saving service there should be established an organization to be known as the coast guard, which was to constitute a part of the military forces of the United States, operating under the secretary of the navy in time of war and under the treasury department in time of peace. The coast guard was transferred to the navy department April 6, 1917, and was returned to the treasury department by executive order Aug. 28, 1919. The revenue cutter service had existed since 1790, while the life saving service had its beginning in 1848, although it was not made into a separate establishment until June 18, 1878. The consolidation of the two services was completed in 1915. The coast guard being a part of the military forces of the government, the military system of the former revenue cutter service was utilized as a basis for the organization of the coast guard. The transfer of the personnel of the former life saving service to the coast guard was accomplished by issuing appointments as commissioned officers, warrant officers and petty officers to the district superintendents, keepers and No. 1 surfmen, respectively, and regularly enlisting the surfmen. On June 30, 1991 there were saving service there should be established an district superintendents, keepers and No. 1 surfmen, respectively, and regularly enlisting the surfmen. On June 30, 1921, there were 414 warrant officers and 3,545 petty officers and other enlisted men. The pay of the commissioned personnel, except for the grade of district superintendent, corresponds with the pay and allowances of like rank in the army. The district superintendent, corresponds with the pay and allowan so of like rank in the army. The pay of warrant officers and enlisted men remains the same as before the consolidation of the service. Warrant officers are appointed by the secretary of the treasury and hold their appointments during good behavior. Petty officers and other men are enlisted for periods of one year. Warrant and petty officers receive 10 per cent increase for every five years superintendent, corresponds with the pay shipping from ice.

14. Patrol of western rivers during floods and for other purposes.

In addition to the foregoing the services of the coast guard include many other things, such as warning vessels running into danger, medical and surgical aid to the sick and infection of one year. Warrant and petty officers receive 10 per cent increase for every five years

of service, not to exceed 40 per cent in all, Enlisted men receive an increase for each three years of continuous service up to and including fifteen years.

ing fifteen years. The authorized commissioned personnel of the coast guard is 270, divided into the following grades: One captain commandant, 6 senior captains, 31 captains, 37 first lieutenants, 94 second and third lieutenants, 1 engineer in chief, 6 captains of engineers, 28 first lieutenants and 51 second and third lieutenants of engineers, 2 constructors with rank of first lieutenant, 1 district superintendent with relative rank of captain, 3 district superintendent relative rank of captain, 3 district superintendents with relative rank of first lieutenant, of second lieutenant, and 5 district superintendents with relative rank of third lieutenant. A coast guard academy is maintained in New London, Conn. June 30, 1921, there were fourteen cadets of the line at the academy. The school course extends over three years and embraces instruction in professional and academic subjects. Admission is by competitive examination and candidates must be not less than 18 years nor more than 24 years of age, Candidates for the engineer corps must be not less than 20 nor more than 25 years of age.

By law the officers of the coast guard rank as follows:

as follows: Captain commandant, with colonel in army and

captain in navy.

Senior captain and engineer in chief, with lieutenant-colonel in army and commander in navv

Captain and captain of engineers, with major in army and lieutenant-commander in navy. First lieutenant and first lieutenant of en-gineers, with captain in army and senior lieutenant in navy

Second lieutenant and second lieutenant of en-gineers, with first lieutenant in army and gineers, with first lieutenant in army and junior lieutenant in navy. Third lieutenant and third lieutenant of en-gineers, with second lieutenant in army and ensign in navy.

DUTIES OF COAST GUARD. In general the duties of the coast guard may be classified as follows:

1. Rendering assistance to vessels in distress and saving life and property.

2. Destruction or removal of wrecks, derelicts and other floating dangers to navigation. 3. Extending medical aid to United States vessels engaged in deep sea fisheries.

Protection of the customs revenue. 5. Operating as a part of the navy in time of war or when the president shall direct.

6. Enforcement of law and regulations governing anchorage of vessels in navigable waters.
7. Enforcement of law relative to quaranand neutrality. tine

8. Suppressing mutinies on merchant vessels. 9. Enforcement of navigation and other laws governing merchant vessels and motor boats.

10. Enforcement of law to provide for

aut. Enforcement of law to provide for safety of life on navigable waters during regattas and marine parades.

11. Protection of game and the seal and other fisheries in Alaska, etc.

12. Enforcement of sponge fishing law.

13. Patrol of Grand Banks for protection of shipping from ice.

April 91

emergencies and furnishing transportation to other branches of the public service.

COAST GUARD STATIONS.

23; third district (Woods Hole, Mass., to Thames river, Conn., including Nantucket, Martha's Vineyard and Fishers island), 16; fourth district (Long island), 29; fifth district (New Jersey), 33; sixth district (coast between Delaware and Chesapeake bays), 19; seventh district (Cape Henry, Va., to New River inlet, N. C.), 31; eighth district (North Carolina, Georgia and Florida), 12; ninth district (Gulf coast of United States event Florida) lina, Georgia and Florida). 12: ninth district (Gulf coast of United States except Florida). 8: tenth district (Lakes Ontario, Erie and Huron to Hammond bay). 20: eleventh district (Lakes Huron, west of Hammond bay, and Michigan. east coast; Beaver and Mackland islands, and Louisville, Ky.). 21: twelfth district (Lake Michigan). 22: thirteenth district (California, Oregon, Washington and Nome, Alaeka). 21.

(	The earliest date on	which Easter Sunday

has fallen in recent times was March 22, 1818. As will be seen from the above table, it fell on March 23 in 1856 and 1913. The time of the celebration of the principal church days which depend upon Easter is as follows:

Before Easter, Palm Sunday.....8 days

After Easter. Trinity Sunday...... 8 weeks

#### ASSASSINATION OF FIELD MARSHAL WILSON.

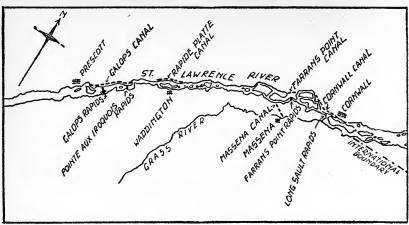

ASSASSINATION OF FIELD Field Marshal Sir Henry Wilson, former chief of staff of the British army and head of the Ulster defensive arrangements against the Sinn Fein, was shot and killed as he was in the act of entering his home in London, England, June 22, 1922. He had just returned in full uniform after having unveiled a monument to the railway war dead at the Liverpool street railway station and was walking toward the door of his residence when two men armed with big army revolvers approached. He drew his dress sword to defend himself but the men fired several times at him and he fell with bullets in his forehead and calle, He died in ten minutes without regaining consciousness. out regaining consciousness.

The murderers attempted to escape by commandeering a taxicab but were chased by several men who had seen the shooting and

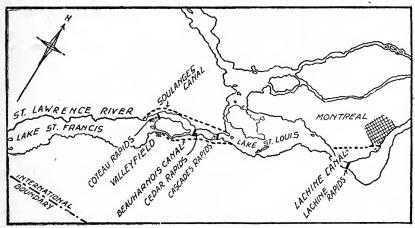

were captured by policemen who had joined in the pursuit. The gummen gave their names as James Connelly and James O'Brien.

The funeral of the field marshal took place in St. Paul's cathedral on June 26. The cortege from the house to the church was witnessed by great crowds. About 6,000 troops were in line and military, diplomatic and political celebrities marched through the rain. Marshal Foch and Gen, Weygand of France walked with the Duke of Connaught in the procession and attended the services. Field Marshals French, Haig, Robertson and Admiral Beatty were among the pallbearers. Connelly and O'Brien were hanged Aug. 10. Field Marshal Sir Henry Hughes Wilson was born May 5, 184. He took en active part in the Burma and South African campaigus and in the world war.

#### THE ST. LAWRENCE WATERWAY.

RAPIDS AND CANALS ON ST. LAWRENCE BETWEEN PRESCOTT AND CORNWALL.

RAPIDS AND CANALS ON ST. LAWRENCE BETWEEN CORNWALL AND MONTREAL.

Interest in the improvement of the St. Lawrence river so as to permit its navigation by ocean steamships between the ports on the great lakes and those of foreign countries was increased in 1922 by the publication of the report made by the international joint com-mission. This was submitted to the senate and the house of representatives by President Harding on Jan. 26. It was signed by William H. Smith and Lawrence J. Burpee, joint secretaries of the commission.

On Jan. 21, 1920, the governments of the United States and Canada referred to the commission for investigation and report, under the terms of article 9 of the treaty of Jan. 11, 1909, certain questions relating to the im-provement of the St. Lawrence river between Lake Ontario and Montreal for navigation and proven Briefly these cuestions refers to power. Briefly these questions were:

#### QUESTIONS PROPOUNDED.

1. What further improvement in the St. Lawrence river, between Montreal and Lake Ontario, is necessary to make the same navigable for deep-draft vessels of either the lake or ocean-going type? What draft of water is or ocean-going type? What draft of water is recommended and what is the estimated cost? In answering this question the commission is asked to consider: (a) Navigation interests alone, whether by the construction of locks and dams in the river, by side canals with the necessary locks or by a combination of the two; (b) the combination of navigation and power to obtain the greatest beneficial use of the waters of the river.

2. Which of the schemes submitted by the government or other engineers is preferred.

government or other engineers is preferred and why?
3. What general method of procedure and in

what general order shall the various physical and administrative features of the improvement be carried out?

4. Upon what basis shall the capital cost of the completed improvement be apportioned to each country?

5. Upon what basis shall the costs of operation and maintenance be apportioned to each country?

6. What method of control is recommended for the operation of the improved waterway to secure its most beneficial use?

7. Will regulating Lake Ontario increase the low-water flow in the St. Lawrence ship channel below Montreal? And if so to what ex-

8. To what extent will the improvement develop the resources, commerce and industry of

9. What traffic, both incoming and outgoing, in kind and quantity is likely to be carried upon the proposed route both at its inception and in the future, consideration to be given not only to present conditions but to probable changes resulting from the development of industrial activities due to the availability of large quantities of hydraulic power?

large quantities of hydraulic power?

The report summarizes the instructions to the board of engineers created by the two governments. This board consisted of Lieut. Col. W. P. Wooten of the corps of engineers. U. S. army, and W. A. Bowden, chief engineer of the department of railways and canals, Canada. Before giving the replies of the commission to the foregoing questions the report furnishes some interesting details of report furnishes some interesting details of report furnishes some interesting details of the physical characteristics of the great lakes-Gulf of St. Lawrence system of water-ways and the progressive efforts of Canada and the United States to improve navigation, together with a brief history of the develop-ment of commerce in the region under consideration.

PHYSICAL CHARACTERISTICS.

PHYSICAL CHARACTERISTICS.

The ultimate source of the St. Lawrence river is at the head of the St. Louis river, at the extreme western end of Lake Superior, 1870 miles from the Gulf of St. Lawrence. The basin of the St. Lawrence is a great transverse valley, 309,500 square miles in area. It extends into the heart of the continent, but much the larger part of the basin lies north of the international boundary. The St. Lawrence is remarkable for the number of expansions in its course. Starting with Lake Superior, which empties through St. Mary's river, the next great expansion is Lake Huron and Lake Michigan, which both discharge through St. Clair river into Lake St. Clair, thence by the Detroit river into Lake Erie and by the Niagara into Lake Ontario. The St. Lawrence proper has in its course three minor expansions—Lake & St. Fran-

Lake Erie and by the Nagara into Lake Ontario. The St. Lawrence proper has in its course three minor expansions—Lake St. Francis, Lake St. Louis and Lake St. Peter—the first and second above and the third below Montreal. The total fall between Lake Superior and the gulf is 603 feet. As a whole the waterway is deep, the shoalest places being in St. Mary's river, Lake St. Clair, Lake St. Louis and Lake St. Peter.

Lake Superior is 383 miles long, with an average width of eighty miles, and its area is 31,800 square miles. Lake Huron has an area of 23,200 square miles, is 223 miles long and its average breadth is 100 miles. Lake Michigan is 321 miles long, with an average width of fifty-eight miles, its area is 22,450 square miles, Lake St. Clair is twenty-six miles long, with an average width of twenty miles and an area of 445 square miles. Lake Erie is 236 miles long, with an average width of thirty-eight miles and an area of 9,940 square miles. Lake Ontario is 190 miles long, with an average width of

forty miles and an area of 7,260 square miles. forty miles and an area of 7,200 square miles. The mean and maximum depths of these lakes are: Lake Superior, 475 and 1,012: Huron, 250 and 750; Michigan, 325 and 870; Erie, 70 and 210: Ontario, 300 and 738. The St. Lawrence proper flows from one to three miles wide from Luke Ontario to Quebec

and with a much greater width from Quebec to the gulf. The river is navigable for all classes of vessels down to Prescott, where the Gallops rapids begin. Below these are the Rapide Plat and the Long Sault, the latter immediately above Cornwall. Lake St. Francis follows and between that lake and Lake St. Louis are the Coteau, Cedars and Cascades rapids. The last rapids are the Lachine and a minor fall at Montreal known as St. Mary current. No rapids obstruct the river below

#### EXISTING IMPROVEMENTS.

As shown in the report of the joint com-As snown in the report of the joint commission the work of improving the navigation facilities of the great lakes and St. Lawrence waterway system by means of canals and channel dredging has been going on for about a century. Up to 1920 the total expenditure on rivers, harbors and canais and channel dredging has been going on for about a century. Up to 1920 the total expenditure on rivers, harbors and canals in the water system from Lake Superior to the Gulf of St. Lawrence by the United States had been \$146,000,000 and by Canada about \$194,000,000, or altogether \$340,000,000. This does not include expenditures by the states of New York. Ohio and Illinois or the Chicago sanitary district. The United States had spent in round numbers on ship channels connecting the waters of on ship channels connecting the waters of the great lakes the following sums: In St. Mary's river, \$9.400.000; St. Clair river, \$769,000; Lake St. Clair, \$2,900,000; Detroit river, \$12.500,000; Niagara river, \$98.000; St. Lawrence river, \$68,000.

By means of these improvements by the American Condition agreements are conditional conditions.

ican and Canadian governments vessels loaded down to 14 feet can pass between Lake Su-perior and Montreal. Between Montreal and Quebec the channel is 30 feet deep; below Quebec the river is navigable by ocean craft

of all sizes.

From Montreal to Prescott is 119.10 miles 40 per cent of which is through canals, but as the level of Lake Ontario is reached above Galops rapids, 11.35 miles from Montreal, a little more than 40 per cent of the distance to the Lake Ontario level is through canals. This distance of 119 miles is covered by steamers in 8 hours coming down stream and in 19 hours going up the stream toward the west

stream and in 19 hours going up the stream toward the west.

The following statement, condensed from a report by Col. J. G. Warren, U. S. corps of engineers, gives a general survey of the channel improvements in the connecting rivers of the great lakes and in the St.

Lawrence:

Beginning at Duluth, at the western end of Lake Superior, there is ample depth and sea room until after passing Point Iroquois at the head of St. Mary's river. This river sea room duff ater passing Folin Induous at the head of St. Mary's river. This river and the shoals above it are about 64 miles long and have been improved at various places. Disregarding for the present the canals and locks at the falls of the river, the limiting channel depth and width in the river are: From Point Iroquois to the canals, a distance of 14 miles, there are six vessel courses and the channel has a least width of 800 feet, with a least depth of 23 feet at low water except at Vidal shoals, where the clear depth is 20.8 feet. Through the main channel of the Hay lake route the depth is 21 feet. Between Hay lake and Mud lake two channels have been provided, passing on either side of Neebish island. The west channel is for down-bound traffic and the other for up-bound traffic. Both can

be navigated at night.

After entering Lake Huron the traffic divides, one portion going toward Lake Michigan and the other southward toward Lake Erie. Width and depth are restricted at the entrance to the St. Clair river. The channel in Lake Huron has been made 2,400 feet wide and 19½ feet draft at low water. Thence the natural width and depth are sufficient for vessels of 24 feet draft at low water for 36½ miles to the mouth of this river in Lake St. Clair, where there are two canals about 3½ miles long, one for upbound traffic, each 300 feet wide and 20 feet deep at low water. Thence the other to down-bound traffic, each 300 feet wide and 20 feet and adepth of 20 feet at low water. Thence through the Detroit river the natural depth and width are ample to the head of the Fighting Island channel, which is 800 feet wide and 23 feet deep at low water. Thence through the Detroit river the natural depth and width are ample to the head of the Fighting Island channel, which is 800 feet wide and 23 feet deep at low water. The channel then divides, one branch, the Livingstone channel, with a limiting width of 300 feet and a depth of 21 feet at low water, for down-bound traffic, and the Amherstburg fehamel, with a width of 800 feet and a depth of 21 feet at low water, for up-bound traffic, After entering Lake Erie there is ample depth and sea room. be navigated at night.
After entering Lake Huron the traffic ample depth and sea room,

From the lower end of Lake Erie the Welland canal connects with Lake Ontario and there is ample depth and sea room in that lake down to its discharge into the St. Lawland canal connects with Lake Ontario and there is ample depth and sea room in that lake down to its discharge into the St. Lawrence river proper. For a distance of 68 miles from Lake Ontario to Galops rapids the river has a fall of only 1 foot and the channel is more than 30 feet deep, with a minimum width of about 500 feet. At the Galops rapids the river has a fall of about 10 feet in 3 miles, with two channels, the morthern one being nunavigable. From the foot of Galops rapids at Lotus (Sheldon) island to the head of Ogden island, 8 miles, fall of about 9½ feet, the river is confined to a single tortuous channel, consisting of three pools, 30 feet or more deep, separated at Sparrowhawk point and Rockway point by narrow channels, controlling depths 20 to 25 feet, having maximum current velocities of 7 miles an hour on curves of 2,000 feet radius. The international boundary bisects this channel. The Galops rapids and swift-current channel to Rockway point are overcome by navigation through the Galops canal in Canada. From the head of Ogen island to the foot of Crysler island (Bradford's point). 11 miles, fall about 18 feet, the river is again divided by islands into two channels. The Canadian channel is much the larger; the upper four miles comprise the Rapide du Plat, which is overcome by the Rapide Plat or Morrisburg canal. The American channel is narrow, tortuous and not navigable except by small steam or motor boats.

From Bradford's point to Richards bay, 7 miles, fall about 3 feet, the river consists practically of a single wide pool or channel, nearly all on the United States side of the boundary line. 30 to 50 feet deep, except at the head of Cat island, where it is 20 to 23 feet deep. On the Canadian side within this reach is found the Farrans point canal. Descending vessels run the rapids.

Just below Richards bay, at Tallcotts point, the Long Sault rapids begin and extend, including the rapid-current channel below the rapids, for 11½ miles down to Massena point (mouth of Grass river), with a fall of

special passenger steamers and small craft which run the rapids. The rapids are overcome by the Cornwall canal, used by vessels both ascending and descending. From Massena point to St. Regis, where the international boundary leaves the river, 6½ miles, fall about 2½ feet, the United States channel is of ample width and 30 to 50 feet deep, except opposite the mouth of the Raquette river, where the controlling depth is 22 feet. This stretch of the river is practically an arm of the Lake St. Francis pool, which lake is wholly in Canada.

From St. Regis to the sea the St. Lawrence navigable waterway is as follows: Channel through Lake St. Francis, 30 miles, available for vessels of 14 feet draft to the head of the Soulanges canal. The canal is on the north bank of the river and extends from Coteau landing to Cascade point and overcomes the Coteau, Cedars and Cascade rapids. It is used by vessels both descending and ascending. From the Soulanges canal to Lachine canal there is 16 feet of navigable water through Lake St. Louis. The Lachine canal extends from Lachine to Montreal and vessels lock down from it into the St. Lawrence river below the Lachine rapids, the first rapids barring the ascent of the river.

Montreal is at the head of ocean navigation on the St. Lawrence, 1,003 miles from the Strair of Belle Isle. The St. Lawrence river ship channel, 330 miles, between Montreal and Gubec, 160 miles, and a width of 1,000 feet everywhere below Quebec. The remaining distance of 673 miles is in the broad mouth of the river and in the Gulf of St. Lawrence

The remaining distance of 673 miles is in the broad mouth of the river and in the Gulf of St. Lawrence.

The following detailed statement of the St. Lawrence river canals is credited by the joint commission to a blue book issued by the department of rivers and canals in Ottawa:

Lachine Canal.

Lacanne Canat.

Length—8½ miles.

Number of locks—5.

Dimensions of locks—275x45 feet.

Total rise of locksqc—45 feet.

Depth of water, on sills, new lock—14 feet.

At 3 locks—14 feet.

Average width of new canal—130 feet.

The canal overcomes the Lachine rapids.

Soulanges Canal.

Length—14 miles. Number of locks to lift—4. Guard—1.

Dimensions of locks—280x45 feet.
Total rise of lockage—84 feet.
Depth of water on sills—15 feet.
Breadth of canal at bottom—100 feet.
At the water surface—154 feet.
The canal overcomes the Cascades rapids.
Cedar rapids and Coteau rapids.

Cornwall Canal.

Length-11 miles. Number of locks-6. Number of locks—0.
Guard locks—1.
Dimensions of locks—270x45 feet.
Total rise of lockage—48 feet.
Depth of water on sills—14 feet.
Breadth of canal at bottom—90 feet.
At the water surface—154 feet.
The canal overcomes the Long Sault rapids.

Farrans Point Canal.

Length—1½ miles, Number of locks—1. New lock, dimensions—800x50 feet. Old lock, dimensions—200x45 feet. Total rise of lockage—3½ feet. Depth of water on sills new lock—14 feet. On sills, old lock-9 feet.

Breadth of canal at bottom—90 feet. At water surface—154 feet. The canal overcomes Farrans Point rapids. Rapide Plat Canal.

Length-3% miles. Number of locks-2. Number of locks—2. Dimensions of locks—270x45 feet. Total rise of lockage—11½ feet. Depth of water on sills—14 feet. Breadth of canal at bottom—80 feet. At water surface—152 feet. The canal overcomes the Rapide Plat rapids.

Galops Canal.

Length—7½ miles. Number of locks—3. Lift lock at foot—800x50 feet. Lift lock at toot—800x50 teet.
Guard lock at head—270x45 feet.
Lift lock at Galops rapids—303x45 feet.
Total rise of lockage—15½ feet.
Depth of water on sills—14 feet.
Breadth of canal at bottom—80 feet.
At water surface—144 feet.
The canal overcomes the rapids at Pointe aux Iroquois, Point Cardinal and the Galops.

#### CONNECTING GREAT LAKES.

The principal canals connecting the The principal canais connecting the given lakes are the Welland between Lake Erie and Lake Ontario, passing Niagara falls and rapids, and the Sault Ste. Marie, overcoming the rapids in St. Mary's river between Lake Superior and Lakes Huron and Michigan.

New Welland Canal.

The new Welland canal, which connects Port Colborne on Lake Erie with Port Weller on Lake Ontario, is well under way. It was designed to accommodate the largest vessels likely to be built on the great lakes. It is 25 feet deep and has seven locks each with a lift of 46½ feet. Each lock is 800 feet long by 80 feet wide with a deeth at extreme long Bit of 46% feet. Each lock is 800 feet long by 80 feet wide, with a depth at extreme low water of 30 feet. Provision has been made for a channel with a depth of 35 feet when conditions make it desirable. The Welland canal now in use runs from Port Colborne to Port Dalhousle on Lake Ontario. It has a depth of 14 feet and is provided with twenty-five masonry locks,

Sault Ste. Marie Canals,
There are two canals through St. Mary's
river, which flows into Lake Huron from Lake
Superior. One is Canadian and the other
American 1.6 miles and 1.11 miles in length
respectively. The American canal is 22 feet
deep and the Canadian 20. There are four
locks in the former and one in the latter.

#### SUMMARY OF CONCLUSIONS.

The commission finds that there is nothing The commission mass that there is nothing to warrant the belief that ocean-going vessels of suitable draft could not safely navigate the waters between Lake Ontario and Montreal as well as the entire waterway from the Gulf of St. Lawrence to the head of the great lakes or that such vessels would hesitate to do so if cargoes are available.

As to the economical practicability of the aterway the commission finds that there waterway waterway the commission inds that there exists to-day between the region economically tributary to the great lakes and overseas points, as well as between the same region and the Atlantic and Pacific seaboards, a volume of outbound and inbound trade that might reasonably be expected to seek this might reasonably be expected to seek this route sufficient to justify the expense involved its improvement.

It finds that the existing means of transportation between the tributary area in the United States and the seaboard are altogether inadequate. The remedy in the opinion of the commission, lies in the utilization of every practicable means of communication and particularly of the wonderful natural water-way extending from the heart of the con-

tinent to the Atlantic, together with such a system of co-operation between the railways and waterways as would at one and the same time bring the loads the railways have to carry within practicable limits and give the west an additional route for its foreign and coastwise trade. The experience of Great Britain, Germany, Belgium and other countries demonstrates the tremendous importance of water communication and the manifest ed. of water communication and the manifest advantage of linking up rail and water routes. Valuates of many up fair and water fouces. An example of effective co-ordination of railway and water routes is found in the Canadian Pacific railway, which, in conjunction with its rail system extending from ocean to ocean. maintains lines of steamers not only on the Atlantic and Pacific but also on the inland waters of British Columbia and on the great lakes.

With regard to the division of expenses between the United States and Canada the commission finds that each country should be debited with its share of the entire cost of all works necessary for navigation, including the cost of the Welland ship canal, based on the proportion the cargo tonnage carried to and from its own ports by way of the St. Lawrence bears to the entire tonnage by the same route. The ratio to be charged to each obviously would require to be readjusted

periodically.

In regard to the water-power side of the question the commission finds that this must be regarded as subsidiary to navigation. In apportioning between the two countries the water power capable of development in the international section of the St. Lawrence each country should be charged with such quantities of power as are set apart to meet the requirements of existing plants. In regard to the distribution between the two countries. In regard to the water-power side of the to the distribution between the two countries of the cost of "power works," the commission of the cost of "power works," the commission is of the opinion that each country will be entitled to half the aveilable power in the international section of the river, and the cost of the works necessary solely for the development of that power should be borne equally by each country. It is further of the opinion that the cost of "navigation works" required for the combined use of navigation and power over and above the cost of works necessary for navigation alone should be apportioned equally between the two countries.

In regard to the method of control the commission believes that all "navigation works" lying wholly within one country should be maintained and operated by the country in which they are located; that "navigation works" not lying wholly within country in which they are located; that "navigation works," not lying wholly within one country and not capable of economic and officient administration. efficient administration as complete and in-dependent units should be maintained and operated by an international board on which each country should have equal representa-tion. All "power works" should be built, maintained and operated by the country in which they are located.

The commission makes recommendations in harmony with the foregoing conclusions.

#### REPLIES TO QUESTIONS.

In reply to the specific questions put to it the commission says:

The commission believes (a) that the greatest beneficial use of the waters of the St. Lawrence river between Montreal and Lake Ontario may be obtained by a combination of navigation and power development in the international section and of navigation alone in the national section, with power de-velopment therein at some future date.

(b) The commission approves of a combination of dams and side canals with locks in the international section and side canals

with locks in the national section.

(c) The draft recommended is 25 feet in the canals and 30 feet on the sills of the locks.

(d) The estimated cost of the completed work between Montreal and Lake Ontario as recommended by the engineering board is about \$252,000,000. To this must be added the cost of the New Welland ship canal to ascertain the total expenditure involved.

2. The scheme submitted by the engineering board is preferred. The commission recommends further examination and study of the engineering board's plans in connection with various reports submitted to the commission.

3. The commission believes that the works at or near the Long Sault rapids, whose completion may be expected to require the longest time, should be begun as soon as funds are available; all other works both in the international and national sections of the river should be begun in time to insure their completion at approximately the same time as the Long Sault works. The admin-istrative features of the improvement have been set forth in the foregoing summary of conclusions.

4. (a) The capital cost of "navigation works" and of the new Welland canal to be apportioned between the two countries on the basis of the benefits to be derived by each country from the use of the waterway.

(b) The capital cost of "power works" to be borne by the country in which they are

located.

(c) The capital cost of "navigation works" for the combined use of navigation and power over and above the cost of works necessary

over and above the cost of works necessary for navigation alone to be apportioned equally between the two countries.

5. The apportionment of costs of operation and maintenance of all works both for the purposes of navigation and of power to be on the same basis as the costs of the construction of such works respectively.

6. IThe reply to the question as to method of control is the same as that given above in the summary of conclusions.

7. The commission is of the opinion that regulating Lake Ontario will increase the low water flow in the St. Lawrence ship channel

regulating Lake Ontario will increase the low water flow in the St. Lawrence ship channel below Montreal. This increase in low water flow will be secured by works- provided in connection with the improvement of the upper St. Lawrence and consequently at no additional cost.

8. The commission has brought together a very considerable volume of data relating to the resources commerce and industry of the area that it is believed would be economically tributary to the proposed deep waterway and has based certain conclusions upon those data. has based certain conclusions upon those data. [The main conclusion is there exists in the region tributary to the great lakes abundant material, raw and manufactured, to furnish cargoes for ocean ships from lake ports to overseas and coastwise ports; that these commodities already form a large part of the foreign and domestic trade of the United States and Canada; that in many instances, with the existing transportation facilities, the quantity of foreign exports is restricted because of the difficulty in guaranteeing delivery in a reasonable time and because of the excessive transportation charges; that the large and growing demands of the same region for foreign products and the products of the Atlantic and Pacific seaboards will insure ample cargoes, and that the banking and or the Amartic and Facine seaboards will insure ample cargoes, and that the banking and other facilities of this region are adequate to take care of its foreign trade.] It is impossible to state in specific terms the extent to which the improvement would develop the resources, commerce and industry of each country.

9. It is also impossible to give a specific answer to the question as to what traffic, incoming and outgoing, in kind and quantity, is likely to be carried upon the proposed route. The commission has reached the general conduction that sufficient traffic will seek eral conclusion that sufficient traffic will seek eral conclusion that sufficient traffic will seek the new water route, irrespective of new traffic created as the result of opening that route, to justify its construction. It is convinced that the traffic available for the new waterway will rapidly increase with the further development of the area tributary thereto and that the creation of new hydraulic power in connection with the waterway will stimulate industrial growth both in manufactures and transportation. factures and transportation.

In the course of its report the commission replies to some of the objections raised to the St. Lawrence river route. It points out that, though the ship channel below Montreal that, though the ship channel below Montreal is long, restricted and tortuous, though the lower St. Lawrence and the gulf are subject to fog and ice conditions, and though the waterway is open to trade only about seven and a half months a year as against the twelve months' period of the Atlantic coast, the port of Montreal actually has a greater volume of foreign trade than any other port on the American continent with the single exception of New York. It is also pointed out that more than 80 per cent of the vessels listed in Lloyd's Register for 1918-1919 had draits of 25 feet or less and that more than 99 per cent drew 30 feet or less. It never was intended that great modern liners should use the proposed waterway.

It is estimated that the total undeveloped

It is estimated that the total undeveloped power in the St. Lawrence between Prescott and Montreal is 4,000,000 horsepower, of which five-twelfths, or 1,665,000 horsepower, is in the upper reach. The total already developed is 300,000 horsepower, of which 200,000 horsepower is on the Canadian side. It is calculated that the total power of the St. Lawrence in the international reach would save 80,000,000 tons of coal in 60 years if used as secondary power to steam control stations in the United States and would save 34,000,000 tons as primary power, or a total saving of 35,500,000 per annum.

#### APPROVED BY PRESIDENT.

In a speech at an agricultural conference in Washington, D. C., Jan. 23, 1922, President Harding said:

"I have spoken of the advantage which Europe enjoys because of its access to the sea, the cheapest and surest transportation Europe enjoys because of its access to the sea, the cheapest and surest transportation facility. In our own country is presented one of the world's most attractive opportunities for extension of the seaways many hundred miles inland. The heart of the continent, with its vast resources in both agriculture and industry, would be brought in communication with all the ocean routes by the execution of the St. Lawrence waterway

execution of the St. Lawrence waterway project.

"To enable ocean-going vessels to have access to all the ports of the great lakes would have a most stimulating effect upon the industrial life of the continent's interior. The feasibility of the project is unquestioned, and its cost, compared with some other great engineering works, would be small. Disorganized and prostrate, the nations of central Europe are even now setting their hands to the development of a great continental waterway which, connecting the Rhine and Danube, will bring water transportation from the Black to the North sea, from Mediterranean to Baltic.
"If nationalist prejudices and economic dif-

"If nationalist prejudices and economic dif-ficulties can be overcome by Europe they certainly should not be formidable obstacles to an achievement less expensive and giving

promise of greater advantages to the people of North America. Not only would the cost of transportation be greatly reduced but a vast population would be brought overnight in immediate touch with the markets of the entire world."

#### SECRETARY HUGHES ACTS.

The American state department on May 25,

"The secretary of state, on May 17, 1922, sent to the British ambassador a note stating that the United States government would be glad to take up with the Canadian government the negotiation of a treaty looking to the deepening of the waterways which would enable ocean-going ships to reach the great lakes.

"The note to the British ambassador referred to the fact that on Jan. 21, 1920, the gov-ernments of the United States and Canada ernments of referred to the international joint commission referred to the international joint commission for investigation and report, under the terms of article IX of the treaty of Jan. 11, 1909, relating to boundary waters, questions with respect to the improvement of the St. Lawrence river between Lake Ontario and Montreal, both for navigation and the development of water power. This commission reported on Dec. 19, 1921, said that he was

"The secretary of state said that he was authorized to state that the president favors the negotiation of a treaty on the basis of this report of the international joint commission, or such modifications as might be agreed on and requested to be informed as the on, and requested to be informed as to whether the appropriate British and Canadian

authorities are disposed to undertake the negotiation of a treaty.

"The department understands that this note has been forwarded to the Canadian government. No answer has as yet been received.

CANADA DELAYS ACTION.

CANADA DELAYS ACTION.
Before the end of the month Canada, through Premier W. L. Mackenzie King, replied as follows to Secretary Hughes:
"The government of Canada has not thus far had opportunity to give to the report of the international joint commission and the accompanying report of the board of engineers appointed to examine the subject that careful consideration which their importance merits. Moreover, having regard to the magnitude of the project and the very large outlay of public money involved, the government is of the opinion that it would not appear to be expedient to deal with this matter at the present time,"
Prime Minister King made an announcement to the same effect in the house of commons in Ottawa on May 29.

PERSONNEL OF COMMISSION,

### PERSONNEL OF COMMISSION.

The international joint commission in 1922 consisted of the following: United States section—Obadiah Gardner, Rockland, Me., chairman; Clarence D. Clark, Evanston, Wyo., and Marcus A. Smith, Tucson, Ariz. The and Marcus A. Smith, Tucson, Ariz. The secretary was William H. Smith, Washington, D. C. Canadian section—Charles A. Magrath, Ottawa, Ont. chairman: Henry A. Powell, K. C., St. John, N. B., and Sir William Hearst, K. C. M. G., Toronto, Ont. Lawrence J. Burpee, Ottawa, Ont., was the secretary.

#### ASSASSINATION OF WALTER RATHENAU.

Walter Rathenau, German minister of for-Watter Rathenau, German minister of lor-eign affairs and a leader in the reconstruction of his country, was assassinated on the morn-ing of June 24, 1922, as he was on his way to his office. The murderers, who were waiting for him at his door, followed his automobile in another motor car and at a crossing fired eight revolver shots at him and

stage of siege was declared in Berlin and precautions, military and other, were taken. Socialists and radicals held great demonstrations in Berlin and elsewhere against the conservatives and monarchists.

It was discovered by the police that the men who committed the crime were Hermann Fisher and Edwin Kern, former officers in the Comment approach of the comment of the comment of the comments of

crossing fired eight revolver shots at him and burled a hand grenade, killing him instantly. The assassins escaped in their machine. The excitement caused by this assassination was so great that for a time it was feared that the government might lose control of the situation. The theory of the social democrats was that the parties of the right or monarchists were attempting to overthrow the republic. What amounted almost to a third the control of the control of the seasasins committed suicide by shoot-crats was that the parties of the right or monarchists were attempting to overthrow the republic. What amounted almost to a the other, "Long live Capt. Ehrhardt!"

#### EARTHQUAKES AND ERUPTIONS IN RECENT TIMES.

ST. PIERRE, MARTINIQUE.

(Eruption of Mont Pelee.) Date—May 8, 1902. Lives lost—30,000. Property destroyed—Not estimated.

MOUNT VESUVIUS.

Date—April 8-11, 1906.
Lives lost—About 200.
Towns suffering damage—Torre del Greco, Torre
Annuziata, Boscotrecase, Ottalano, San Giuseppe, Portici, Caserta, Nola and San Giorgio.

SAN FRANCISCO, CAL. (Earthquake and fire.)
Date—April 18, 1906.

Lives lost—452. Persons injured—1.500.

Persons made homeless—265,000. Property loss—\$350,000,000 (estimated).

Buildings destroyed—6,000 testimated?
Blocks burned—453,
Area of burned district—3.96 square miles.
Relief by congress—\$2,500,000,
Relief subscription—\$11,000,000.

VALPARAISO, CHILE, (Earthquake.)

Date—Aug. 16, 1906. Lives lost—1,500. Property loss—\$100,000,000.

KINGSTON, JAMAICA. (Earthquake and fire.)

(Earthquake and fire.)
Date—Jan. 14, 1907.
Lives lost—1,100.
Persons injured—2,000.
Property loss—\$25,000,000.
Buildings destroyed—6,000.
Area of ruined district—50 acres.
Area affected—300 acres.
Duration of first shock—38 seconds.
Duration of fire—40 hours.

SICILY AND CALABRIA. (Earthquake.)

Date—Dec. 28, 1908. Day of week—Monday. Hour—5:23 a. m. Duration—35 seconds. Lives lost—76,483. Persons injured—95,470.
Persons homeless—1,100,000.
Perperty destroyed—Not estimated.
Region affected—Northeastern Sicily and south-western Calabria.

Chief cities and towns destroyed or damaged
—In Sicily: Messina, Faro, Santa Teresa, Scalleta. In Calabria: Reggio, Gallico, San Gioyanni, San Eufemia, Pellaro, Palmi, Cannitello.

CARTAGO, COSTA RICA. (Earthquake.)

Date—May 5, 1910. Hour—7 p. m. Lives lost—1,500.

TURKEY. (Earthquake.)

Date—Aug. 9, 1912. Lives lost—3.000. Persons injured—6.000.

Persons homeless—40,000.

CAPITAL PUNISHMENT IN THE UNITED STATES.

Capital punishment prevails in all of the states of the union except Arizona, Kansas, Maine, Minnesota, North Dakota, Rhode Island and Wisconsin. In Michigan the only crime punishable by death is treason. The death punishable by death is treason. The death punishable by death is treason. The death ington in 1913 and restored in 1919. It was abolished in Iowa in 1872 and restored in method. In Nevada an act passed in 1921 alors. It was abolished in Colorado in 1897, but was restored in 1901. It was abolished in Colorado in 1897, but was restored in 1901. It was abolished in Colorado in 1897. but was restored in 1901. It was abolished

SAKURA, JAPAN. (Eruption and earthquakes.) Date—Jan. 12, 1914. Lives lost—43. Houses destroyed-855. Persons made destitute-20,000. Property loss-Not estimated.

SICILY.

(Earthquake.)

Date-May 8-9, 1914. Lives lost-200. Persons injured-1,000.

CENTRAL ITALY. (Earthquake.)

Date—Jan. 13, 1915. Hour—7:55 a. m. Duration—30 seconds. Lives lost—29,978.

Provinces affected—Aquila, Caserta and Rome. Communes damaged—372.

Largest city destroyed-Avezzano. GUATEMALA CITY. (Earthquake.)

Date—Dec. 24-31, 1917. Began—11 p. m., Dec. 24. Duration—One week. Lives lost—2,500. Property loss—Not estimated.

JAVA.

(Eruption volcano Kalut.)

Date—May 20, 1919.
Place—Brengat and Blitar districts.
Villages destroyed—31. Lives lost-5.100.

> MUGELLO VALLEY, ITALY. (Earthquake.)

Date—June 29, 1919. Lives lost—100.

Towns damaged—Vicchio, Dorgo San Lorenzo, Tiril, Firenzaloa, Rapezzo, Casannova, Ri-fredo, Moscheta, Marradi, San Piero, Seve, Vaglia, Mcntorsoli, Dioomano, Covelia and Lubiana,

PORTO RICO. (Earthquake.)

Date-Oct. 11, Lives lost-116 1919. Persons injured -241.
Property loss-\$3,472,159.
Places damaged—Mayaguez, Aguadilla, Anasco and Aguada

MEXICO. (Earthquake.)

Date—Jan. 3, 1920.
Place—Orizaba (volcano) district.
Lives lost—3,000.
Property loss—Not estimated.

Troperty 1058—Not estimated.
Towns affected—Coutzlan, Teocelo, San Juan,
Coscomatepec, Orizaba, Barranca Grande,
Calcahualco, Jalapa, La Fragua and Chilchotla.

CHINA (Earthquake.) Date-Dec. 16, 1920.

Place—Kansu province. Lives lost—200,000. Area affected—300 square miles. Cities destroyed—Ten.

### HISTORICAL DATA AS TO STATES AND TERRITORIES.

UNITED STATES ARSENALS.

The largest of the United States arsenals are Mo.; Sandy Hook, N. Y.; San Antonio, Tex.: located at Rock Island, Ill., and Springfield, Dover, N. J.; Watertown, Mass., and Water-Mass. Others are at Pittsburgh, Pa.; Augusta, vliet, N. Y. Some of the above are merely Ga.: Benicia, Cal.; Columbia, Tenn.: Fort Monroe, Va.; Philadelphia, Pa.; Indianapolis, Ind.; Owder depots, the principal manufacturing plants being at Rock Island, Springfield and Governor's island, N. Y.; Jefferson barracks, Watervhet. The navy yards are also arsenals.

In five states in 1892 the electoral vote was divided: California gave 8 electoral votes for Cleveland and 1 for Harrison and Ohio gave 1 for Cleveland and 22 for Harrison; in Michigan, by act of the legislature, each congressional district voted separately for an elector; in Oregon 1 of the 4 candidates for electors on the people's party ticket was also on the democratic ticket; in North Dakota 1 of the 2 people's party electors cast his vote for Cleveland, this causing the electoral vote of

the state to be equally divided among Cleveland, Harrison and Weaver. In 1896 California gave 8 electoral votes to McKinley and 1 to Bryan; Kentucky gave 12 to McKinley and 1 to Bryan. In Maryland in 1904 7 of the presidential electors chosen were democrats and 1 republican. In 1908 Maryland elected 6 democratic and 2 republican electors. In 1912 California elected 11 progressive and 2 democratic electors. In 1916 West Virginia elected 1 democratic and 7 republican electors.

# DESTRUCTIVE TYPHOON AT SWATOW, CHINA.

Some 72,000 lives and property valued at \$100.000,000 were lost in a typhoon which visited the Swatow district in China, Aug. 2, 1922. The city of Swatow suffered the heaviest loss in merchandise destroyed and also had a death list of 3,000, but most of those who perished lived in smaller places on the coast or near it. Some villages of 500 inhabitants were utterly wiped out. Warnings of the approaching typhoon came Aug. 1, in the form of a steady wind. The next day it attained a velocity of ninety miles an hour at 9 p. m., unroofing buildings and demolishing stone walls. The center of the typhoon came at 11 and there was a dead calm. Water gradually rose in the streets and soon the lower leased it was needed.

floors of the houses were submerged. An hour later a wind blowing with hurricane force from the opposite direction completed the havoc. It was accompanied by two tidal waves twenty-five feet high.

The full force of the typhoon covered an area of sixty miles along the coast and fifteen miles inland. Thousands of sampans and entire fleets of fishing boats containing families were engulfed by the waves.

The measures taken by foreign relief agencies and by the Chinese themselves were prompt and effective, and before a month had elapsed it was announced that no further help was needed.

Notes—The word "citizen" as used in above table means citizen of the United States in

all cases.

The residence requirement is continuous residence immediately prior to election day.

CITIZENSHIP IN THE UNITED STATES. All persons born or naturalized in the United States and subject to the jurisdiction thereof are citizens of the United States and of the state wherein they reside. (Fourteenth amendment to the constitution.)

All persons born in the United States and not subject to any foreign power, excluding Indians not taxed, are declared to be citizens of the United States. (Sec. 1992, U. S. Revised Statutes.)

All children heretofore born or hereafter born

All children heretofore born or hereafter born out of the limits and jurisdiction of the United States, whose fathers were or may be at the time of their birth citizens thereof, are declared to be citizens of the United States; but the rights of citizenship shall not descend to children whose fathers never resided in the United States. (Sec. 1993, U. S. Revised Statutes.)

Children born in the United States of alien parents are citizens of the United States.

If the widow of an alien files an application

for citizenship the children who are under the age of 21 at the time she is naturalized will be citizens through her naturalization, but if the children are past the age of 21 and were born in a foreign country, it will be necessary for them to file petitions for naturalization in

their own right.
Children of Chinese parents who are themselves aliens and incapable of becoming naturalized are citizens of the United States. becoming Excluded from voting.

Felons, paupers, idiots and lunatics.

Idiots, insane, convicted felons, Chinese, United States soldiers and sailors.

Persons convicted of some offense forfeiting right of suffrage, nontaxpayers.

Paupers, lunatics, idiots, convicted of bribery or infamous crime until restored

Paupers, insane, idiots, convicted of treason, dueling or other infamous crime.

Persons under guardian, idiots, insane, convicted of treason or felony, unless pardoned. Convicted of bribery or other infamous crime, fail-

ure to pay poll tax. Idiots, lunatics, paupers, convicts, United States soldiers and sailors.

Idiots, insane, convicted of treason or violation of election laws. Unpardoned convicts, deserters from United States

service during the war, ex-confederates.
Idiots, lunatics, convicts, unless pardoned by the legislature.

Indians not taxed.

Paupers, idiots, lunatics, convicts, bribers, United States soldiers and sailors. Insane, under guardian, convicts, unless pardoned.

Idiots, insane, felons, unable to read the state constitution.

Children born in the United States of persons engaged in the diplomatic service of foreign governments are not citizens United States.

Children born of alien parents on a vessel of a foreign country while within the waters of the United States are not citizens of the United States, but of the country to which

the vessel belongs.

Children born of alien parents in the United States have the right to make an election of nationality when they reach their majority.

Minors and children are citizens within the meaning of the term as used in the constitu-

tion. Deserters from the military or naval service

of the United States are liable to loss of citizenship.

Any alien being a free white person, an alien of African nativity or of African descent

may become an American citizen by complying with the naturalization laws.

"Hereafter no state court or court of the United States shall admit Chinese to citizenship; and all laws in conflict with this act are repealed." (Sec. 14, act of May 6, 1882.) The courts have held that neither Chinese, Japanese, Hawaiians, Burmese nor Indians can

be naturalized.

The naturalization laws apply to women as well as men. The right of any woman to be-come a naturalized citizen of the United States is not abridged because of her sex. A woman does not become a citizen of the United States by reason of her marriage to a citizen or be-cause her husband is naturalized; but if eligible to citizenship she may be naturalized by full compliance with all the requirements except that she is not required to declare her intention or to reside more than one year continuously in the United States, Hawaii, Alaska or Porto Rico. A woman citizen of the United States does not cease to be a citizen of the United States does not of the United States of the United States by reason of her marginal than the state of the United States by reason of her marginal than the state of the United States by reason of her marginal than the state of the United States by reason of her marginal than the state of t riage unless she makes formal renunciation of her citizenship before a court having jurisher diction over the naturalization of aliens. A woman citizen who marries an alien in-

eligible to citizenship ceases to be a citizen of the United States. If at the termination of the marital status she is a citizen of the United States she retains her citizenship regardless of her residence. No woman whose husband is not eligible to citizenship can be naturalized during the continuance of the marital status. (Act of Sept. 22, 1922.)

Aliens may become citizen of the United

Aliens may become citizens of the United States by treaties with foreign powers, by conquest or by special acts of congress.

In an act approved March 2, 1907, it is provided that any American citizen shall have expatriated himself when he has been naturalized in any foreign state in conformity with its laws, or when he has taken an oath of allegiance to any foreign state. allegiance to any foreign state.

When any naturalized citizen shall have resided for two years in the foreign state from which he came, or five years in any other foreign state, it shall be presumed that he has ceased to be an American citizen, and the place of his general abode shall be deemed his place of residence during place of his general abode snail be deemed insplace of residence during said years: Provided, however, that such presumption may be overcome on the presentation of satisfactory evidence to a diplomatic or consular officer of the United States, under such rules and regulations as the department of state may present the control of the c scribe; and provided, also, that no American citizen shall be allowed to expatriate himself when this country is at war.

A child born without the United States of alien parents shall be deemed a citizen of the united States by virtue of the naturalization of or resumption of American citizenship of the parent: Provided, that such naturalization or resumption takes place during the minority of such child: and provided, further, that the citizenship of such minor child begins to reside permanently in the United States.

All children born outside the limits of the United States, who are citizens thereof in accordance with the provisions of section 1993 of the Revised Statutes of the United States (see above), and who continue to reside outside of the United States, shall, in order to receive the protection of the government, be receive the protection of the government, be required, upon reaching the age of 18 years, to record at an American consulate their intention to become residents and remain citizens of the United States and shall further be required to take the oath of allegrance to the United States upon attaining their majority. majority.

#### NATURALIZATION LAWS.

Act of June 29, 1906, as amended March 4, 1909, June 25, 1910, March 4, 1913, and May 9, 1918.

act creating the department of labor The provided for a bureau of naturalization with a commissioner of naturalization and deputy commissioner. The commissioner is the administrative officer in charge of the bureau of naturalization.

or naturalization.

The act of June 29, 1906, as subsequently amended, provides that the bureau of naturalization, under the direction of the secretary of labor, shall have charge of all matters concerning the naturalization of aliens. It is the duty of the bureau to provide, for use at the various immigration stations throughout the United States, books of record in which the commissioners of immigration shall cause a prejistry to be made in the case of each alien commissioners of immigration shall cause a registry to be made in the case of each alien arriving in the United States, the name, age, occupation, personal description, place of birth, last residence, intended place of residence in the United States, the date of arrival of said alien and, if entered through a port, the name of the vessel on which he comes. Such alien

shall be granted a certificate of such registry. Exclusive jurisdiction to naturalize aliens is conferred upon the United States District courts and all courts of record having a seal, a clerk and jurisdiction in actions at law or equity in which the amount in controversy is unlimited. The naturalization jurisdiction of the courts shall extend only to aliens resident within the respective judicial districts of such courts.

An alien may be admitted to citizenship in

An alien may be admitted to citizenship in the following manner and not otherwise:

1. He shall declare on oath before the clerk of the proper court at least two years before his admission, and after he has reached the age of 18 years, that it is bona fide his intention to become a citizen of the United States and to renounce allegiance to any foreign state or sovereignty. Such declaration shall set forth the same facts as are registered at the time of his arrival. No alien who, in conformity with the law in force at the date of conformity with the law in force at the date of his declaration, has declared his intention to become a citizen of the United States shall be required to renew such declaration.

become a citizen of the United States snail be required to renew such declaration.

2. Not less than two years nor more than seven after he has made such declaration he shall file a petition, signed by himself and verified, in which he shall state his name, place of residence, occupation, date and place of birth, place from which he emigrated, name of the vessel on which he arrived, the time when and the place and name of the court where he declared his intention of becoming a citizen; if he is married, he shall state the name of his wife, the country of her nativity and her place of residence at the time the petition is filed, and if he has children, the name, date and place of birth and place of residence of each child living. The petition shall also set forth that he is not a disbeliever in or opposed to organized government or a member of any body of persons opposed to organized government or a member of any body of persons opposed to organized government or a member of any body of persons opposed to organized government or a member of any body of persons opposed to organized government and that he is not a polygamist or a believer in polygamy; that he intends to become a citizen of and to live permanently in the United States, and whether or not he has been denied admission as a citizen of the United States, and, if denied, the ground or grounds of such denial, the court or courts in which such decision was rendered and that the cause for such denial has since been cured or removed, and every fact material to his naturalization and required to be proved upon the final hearing of his application.

The petition shall also be verified by the

The petition shall also be verified by the affidavits of at least two credible witnesses, who are citizens of the United States, and who shall state in their affidavits that they have personally kown the applicant to be a resident of the United States for a period of at least five years continuously and of the state, territory or Bistrict of Columbia in which there tory or District of Columbia in which the application is made for a period of at least one year immediately preceding the date of the filing of his petition, and that they each have personal knowledge that the petitioner is a person of good moral character, in every way qualified, in their opinion, to be admitted as a citizen of the United States.

At the time of the filing of the petition, there shall be filed with the clerk of the court a certificate from the department of labor, if the petitioner arrives in the United States after the passage of this act, stating the date, place and manner of his arrival in the United States, and the declaration of intention of such petitioner, which certificate and declaration shall be attached to and made a part of the petition.

3. He shall before he is admitted to citizenship declare on oath in open court that he will support the constitution of the United States, that he absolutely and entirely re-

nounces and abjures all allegiance and fidelity nounces and abjures all allegiance and fidelity to any foreign prince, potentate or sovereignty, and particularly by name to the prince, potentate, state or sovereignty of which he was before a citizen or subject, and that he will support and defend the constitution and laws of the United States against all enemies, foreign and domestic, and bear true faith and allegiance to the same.

allegiance to the same.

4. It shall be made apparent to the satisfaction of the court admitting any alien to citizenship that immediately preceding the date of his amplication he has resided continuously within the United States five years at least, and within the state or territory where such court is at the time held one year at least, and that during that time he has behaved as a man of good moral character, attached to the principles of the constitution. In addition to the oath of the applicant, the testimony of at least two witnesses, citizens of the United States, as to the facts of residence, moral character and attachment to the principles of the constitution shall be required. 5. He must renounce any hereditary title or

5. He must renounce any hereditary title or order of nobility which he may possess.

6. When any alien who has declared his intention dies before he is actually naturalized the widow and minor children may, by complying with the other provisions of the act, be naturalized without making any declaration.

tion of intention.

7. Any native-born Filipino of the age of 21 years and upwards who has declared his intention to become a citizen of the United States, and who has served in the United States, and who has served in the United States navy, marine corps or the naval auxiliary service not less than three years; or any alien, or any Porto Rican not a citizen of the United States, of the age of 21 or upwards, who has enlisted or may enlist hereafter in the armies of the United States, either the regular forces, the volunteer forces, the national army, the national guard or naval milita of any state, or the United States navy or marine corps, or coast guard, or who has served for three years on any vessel of the United States, merchant, naval or fishing, of more than twenty tons burden, may on presentation of the required declaration of intention petition for naturalization without proof 7. Any native-born Filipino of the age of 21 tion petition for naturalization without proof of the required five years' residence in the United States if it is shown that such residence United States if it is shown that such residence cannot be established; any alien in the military or naval service of the United States during the time this country is engaged in the present (world) war may file his petition for naturalization without making the preliminary declaration of intention and without proof of five years' residence within the United States; any alien declarant who has liminary declaration of intention and without proof of five years' residence within the United States; any alien declarant who has served in the amy or navy of the United States or the Philippine constabulary, and has been honorably discharged and has been accepted for service in either the military or naval service of the United States on condition that he become a citizen of the United States, may file his petition for naturalization upon proof of continuous residence in the United States for the three years immediately preceding his petition, by two witnesses, citizens of the United States, and in these cases only residence in the Philippine islands and the Panama Canal Zone by aliens may be considered residence within the United States, and the place of such military service shall be considered residence within the United States, and the place of such military service shall be construed as the place of residence and the petition for naturalization may be filed in the most convenient court without proof of residence within its jurisdiction. Any alien who is in the military service at the time of the passage of this act may file his petition without appearing in person in the office of the clerk of court and without taking the oath of allegiance in open court. Service by aliens

upon vessels not of American registry shall not be considered as residence for naturalization purposes.

8. Every seaman alien shall after his declara-tion of intention to become a citizen of the United States, and after he shall have served three years upon such merchant or fishing vessel of the United States, be deemed a citi-zen for the purpose of serving on board any such vessel.

9. Provision is made for promoting the instruction and training in citizenship responsibilities of applicants for naturalization through a citizenship textbook and monthly naturalization bulletin.

10. Any person not an alien enemy, who resided uninterruptedly within the United States for five years next preceding July 1, 1914, and was on that date otherwise qualified to become a citizen except that he had not made the declaration of intention required by law and who had because of misinformation regarding his citizenship status erroneously exercised the rights and performed the duties of a citizen of the United States in good faith, may file the petition for naturalization faith, may file the petition for naturalization without making the preliminary declaration required of other aliens and may be admitted as a citizen of the United States upon complying in all respects with the other requirements of the naturalization law.

11. No alien who is a citizen, subject or denizen of any country with which the United States is at war shall be admitted to become a citizen of the United States unless he made has declaration of intention not less than two

his declaration of intention not less than two nor more than seven years prior to the existnor more man seven years prior to the exist-ence of war, or was at that time entitled to become a citizen without making a declara-tion of intention, or unless his petition for naturalization shall then be pending and is otherwise entitled to admission.

12. Any person who, while a citizen of the United States and during the war in Europe, entered the military or naval service of any country at war with a country with which the United States is now at war, who shall be deemed to have lost his citizenship by reason deemed to have lost in citizenship by reason of any oath or obligation taken by him for the purpose of entering such service, may resume his citizenship by taking the oath of allegiance prescribed by the naturalization law and regulations, and such oath may be taken before any court authorized to naturalize aliens or before any consul of the United States.

States.

13. Any person who served in the military or naval forces of the United States at the termination of the world war or who may have been honorably discharged from such service on account of disability incurred in the line of duty shall be relieved from the necessity of proving that he resided continuously in the United States the time required by law of aliens, but his petition must be supported by two credible witnesses. Immediately after the filing of the petition the clerk of the court shall give notice thereof by posting in a public place the name, nativity and residence of the alien, the date and place of his arrival in the United States and the date for the final hearing of his petition and the names of the witnesses whom the applicant expects to summon in his behalf.

tion and the names of the witnesses whom the applicant expects to summon in his behalf. Petitions for naturalization may be filed at any time, but final action thereon shall be had only on stated days and in no case until at least ninety days have elapsed after the filing of the petition. No person shall be naturalized within thirty days preceding a general election within the territorial jurisdiction of the court. It shall be lawful for the court, upon the petition of an alien, to change his name.

No person who disbelieves in or who is op-

posed to organized government, or who is a member of or affiliated with any organization entertaining and teaching such disbelief in or entertaining and teaching such disbener in or opposition to organized government, or who advocates or teaches the duty, necessity or propriety of the unlawful assaulting or killing of any officer or officers of the government of the United States, or of any other organized government, because of his or their official character, or who is a polygamist, chall be naturalized. shall be naturalized.

No alien shall hereafter be naturalized or admitted as a citizen of the United States who cannot speak the English language. This requirement does not apply to those physically unable to comply with it, or to those making homestead entries upon the public lands of the United States.

The fees charged by clerks of court in natur-

alization cases are: For receiving and filing a declaration of in-

For receiving and filing a declaration of intention and issuing a duplicate thereof, \$1.

For making, filing and docketing the petition of an alien for admission as a citizen of the United States and the final hearing thereon, \$2; and for entering the final order and the issuance of the certificate of citizenship thereunder, \$2.

The petitioner shall also denosit with the clerk a sum of money sufficient to cover the expenses of submenaging and paying the legal

expenses of subpornaing and paying the legal fees of any witnesses for whom he may request

a subpœna.

The naturalization of deserters or persons who go abroad to avoid draft is prohibited.

# IMMIGRATION LAW.

Effective since May 1, 1917.

The word "alien" as used in the act includes any person not a native born or naturalized citizen of the United States, but it does not include Indians of the United States not taxed or clude Indians of the United States not taxed or citizens of the islands under the jurisdiction of the United States. The term "United States" means the United States and any waters, ter-ritory or other place subject to the jurisdiction fnereof except the Isthmian Canal Zone; but if any alien shall leave the Canal Zone or any insular possession and attempt to enter any other place under the jurisdiction of the United States he is not to be permitted to enter under States he is not to be permitted to enter under any other conditions than those applicable to

all aliens.

There shall be collected a tax of \$8 for every alien, including alien seamen regularly admit-ted, entering the United States. Children under 16 accompanying father or mother are not subject to the tax. The tax shall not be levied on aliens who enter after an uninterrupted residence of at least one year preceding such entrance in Canada, Newfoundland, Cuba or Mexleo for a temporary stay, nor upon aliens in transit, nor upon aliens who, having been lawfully admitted, shall go from one part of the United States to another, although through contiguous foreign territory.

### Excluded Aliens.

The following classes of aliens are excluded from the United States: Idiots, imbeciles, from the United States; Indios. Indioches, feeble minded, epileptics, insane persons; persons who have had one or more attacks of insanity previously; persons of constitutional psychopathic inferiority; persons with chronic alcoholism; paupers; professional beggars; va-grants; persons afflicted with tuberculosis in any form of with a loathsome or dangerous any form or with a loathsome or dangerous contagious disease; persons not comprehended within any of the foregoing excluded classes who are found to be and are certified by the examining surgeon as being mentally or physically defective, such physical defect being of a nature which may affect the ability of such alien to earn a living; persons who have been convicted of or admit having committed

a felony or other crime or misdemeanor involving moral turpitude; polygamists, or persons who practice polygamy or believe in or advocate the practice of polygamy; anarchists, or persons who believe in or advocate the overthrow by force or violence of the government of the United States or of all forms of law, or who disbelieve in or are opposed to organized government, or who advocate the assassination of public officials, or who advocate or teach or burne of chears, or who advocate or teach unlawful destruction of property; persons who are members of or affiliated with any organization entertaining and teaching disbelief in or opposition to organized government, or who or opposition to organized government, or who advocate or teach the duty, necessity, or propriety of the unlawful assaulting or killing of any officer or officers, either of specific individuals or of officers generally, of the government of the United States or of any other organized government, because of his or their official character, or who advocate or teach the unlawful destruction of property; prostitutes or persons coming into the United States for the purpose of prostitution or any other inimoral nurpose; persons who directly or inimoral nurpose; persons who directly or inimmoral purpose; persons who directly or indirectly procure or attempt to procure or import prostitutes or persons for the purpose of prostitution or any other immoral purpose; persons who are supported by or receive in whole or in part the proceeds of prostitution; contract laborers who have been induced or assisted to migrate to this country by offers or promises of employment, whether such offers or promises are true or false, or in consequence of agreements, oral, written or printed express or implied, to perform labor in this country of any kind, skilled or un-skilled; persons who have come in consequence samet, persons who have come in consequence of advertisements for laborers printed, pub-lished or distributed in a foreign country; per-sons likely to become a public charge; persons who have been deported under any of the pro-visions of this act, and who may again seek admission within one year from the date of such deportation, unless prior to their re-embarka-tion at a foreign port or their attempt to be admitted from foreign contiguous territory the secretary of labor shall have consented to their reapplying for admission; persons whose ticket or passage is paid for with the money of another, or who are assisted by others to come, other, or who are assisted by others to come, unless it is satisfactorily shown that such persons do not belong to one of the foregoing excluded classes; persons whose ticket or passexcluded classes; persons whose ticket or passage is paid for by any corporation, association, society, municipality or foreign government either directly or indirectly; stowaways, except that any such stowaway, if otherwise admissible, may be admitted at the discretion of the secretary of labor; all children under 16 years of age unaccompanied by or not coming to one or both of their parents, except that any such children may in the discretion that any such children may, in the discretion of the secretary of labor, be admitted if, in his opinion, they are not likely to become a public charge and are otherwise eligible; unless otherwise provided for by existing treaties, persons who are natives of islands not possessed by the United States adjacent to the continent of Asia, situate south of the 20th parallel of latitude north, west of the 160th meridian of longitude east of Greenwich, and north of the 10th parallel of latitude south, or who are natives of any country, province or dependency situate of any country, province or dependency situate on the continent of Asia west of the 110th meridian of longitude east from Greenwich and the 24th and 38th parallels of latitude north, and no alien now in any way excluded from, or prevented from entering, the United States shall be admitted to the United States. The provision next foregoing, however, shall not apply to persons of the following status or occupation: Government officers, ministers or religious teachers missiongries lawyers physic.

religious teachers, missionaries, lawyers, physicians, chemists, civil engineers, teachers, stu-

dents, authors, artists, merchants and travelers for curiosity or pleasure, nor to their legal wives or their children under 16 years of age wives or their children under 16 years of age who shall accompany them or who may subsequently apply for admission to the United States, but such persons or their legal wives or foreign born children who fail to maintain in the United States a status or occupation placing them within the excepted classes shall be deemed to be in the United States contrary to leave and shall be applied; the deportation law and shall be subject to deportation.

#### Literacy Test.

After three months from the passage of this After three months from the passage of this act, in addition to the aliens who are by law now excluded from admission into the United States, the following persons shall also be excluded from admission thereto, to wit:

All aliens over 16 years of age, physically capable of reading, who cannot read the Engcapable of reading, who cannot read the Engish language, or some other language or dialect, including Hebrew or Yiddish; Provided, that any admissible alien, or any alien heretofore or hereafter legally admitted, or any citizen of the United States, may bring in or send for his father or grandfather over 55 years of age, his wife, his mother, his grandmother or his tunmarried or widowed daughter, if otherwise admissible whether such relative can read or and summarries or whole were daughter, it otherwise admissible, whether such relative can read or not; and such relative shall be permitted to enter. That, for the purpose of ascertaining whether aliens can read, the immigrant inspectors shall be furnished with slips of uniform size, prepared under the direction of the secretary of labor seads containing not less than tary of labor, each containing not less than thirty nor more than forty words in ordinary use, printed in plainly legible type in some one of the various languages or dialects of muni-grants. Each alien may designate the particul-lar language or dialect in which he desires the examination to be made, and shall be required to read the words printed on the slip in such language or dialect. That the following classes of persons shall be exempt from the operation or persons shall be exempt from the operation of the literacy test, to wit: All aliens who shall prove to the satisfaction of the proper immigration officer or to the secretary of labor that they are seeking admission to the United States to avoid religious persecution in the country of their last personnel. country of their last permanent residence, whether such persecution be evidenced by overt acts or by laws or governmental regulations that discriminate against the alien or the race to which he belongs because of his religious faith; all aliens who have been lawfully admitted to the United States and who have resided therein continuously for five years and who return to the United States within six months from the date of their departure there-from; all aliens in transit through the United States; all aliens who have been lawfully admitted to the United States and who later shall go in transit from one part of the United States to another through foreign contiguous territory; to another through foreign contiguous territory; Provided, that nothing in this act shall exclude, if otherwise admissible, persons convicted, or who admit the commission, or who teach or advocate the commission, of an offense purely political: Provided further, that the provisions of this act relating to the payments for tickets or passage by any corporation, association, society, municipality or foreign government shall not apply to the tickets or passage of aliens in immediate and continuous transit through the immediate and continuous transit through the United States to foreign contiguous territory; Provided further, that skilled labor, if otherwise admissible, may be imported if labor of like kind unemployed cannot be found in this country, and the question of the necessity of importing such skilled labor in any particular instance may be determined by the secretary of labor upon the application of any person inter-ested, such application to be made before such importation, and such determination by the secretary of labor to be reached after a full hear-

ing and an investigation into the facts of the case: Provided further, that the provisions of this law applicable to contract labor shall not be held to exclude professional actors, artists, lecturers, singers, nurses, ministers of any religious denomination, professors for colleges or seminaries, persons belonging to any recognized learned profession, or persons employed as do-mestic servants: Provided further, that when-ever the president shall be satisfied that passports issued by any foreign government to its citizens or subjects to go to any country other than the United States, or to any of its insular possessions or the Canal Zone, are being used for the purpose of enabling the holder to come to the continental territory of the United States to the detriment of labor conditions therein, the president shall refuse to permit such persons to enter the United States or its possessions: Provided further, that aliens returning after a temporary absence to an unrelinguished United States domicile of seven consecutive years may be admitted at the discretion of the secretary of labor and under such conditions as he may prescribe: Provided further, that nothing in the contract-labor or reading-test provisions of this act shall be construed to prevent any alien exhibitor or holder of any concession for any fair or exposition authorized by congress from bringing into the United States, under contract, such otherwise inadmissible alien mechanics, artisans, agents or other employes, natives of his country, as may be necessary for installing or conducting his exhibit or business, under such rules as the commissioner-general of immigration with the approval of the secretary of labor may pre-scribe, both as to the admission and return of such persons: Provided further, that the commissioner-general of immigration with the approval of the secretary of labor shall issue rules and prescribe conditions, including exaction of such bonds as may be necessary, to control and regulate the admission and return of otherwise inadmissible aliens applying for temporary admission: Provided further, that nothing in this act shall be construed to apply to accredited officials of foreign governments, nor to their suites, families or guests.

The importation of any alien into the United

States for any immoral purpose is punishable by imprisonment for not more than ten years and by a fine of not more than \$5,000. Violations of the contract-labor section of the are punishable by fines of \$1,000 or by imprisonment for not less than six months nor more than two years. The act provides for the fining or imprisonment of persons engaged in the transportation of aliens into the United States who encourage or help persons excluded under

who encourage of help persons are the country. I see also "Work of 67th Congress, Second Session," this volume, for joint resolution extending operation of act of May, 1921, limiting immigration for a certain period.]

#### THE PUBLIC DOMAIN.

Acreage of unreserved and unappropriated lands remaining in the public domain of the United States in 1921. Of the total 68,495,153 acres are unsurveyed:

#### COAL MINING AND RAILROAD STRIKES IN 1922.

Two strikes, nationwide in extent, occurred in the United States in 1922. One by coal miners began April 1 and involved 600,000 men; the other by railroad shop workers began July 1 and involved directly 400,000 men. The bituminous coal strike virtually men. The bituminus coal strike virtually came to an end Aug. 15 and the anthractic strike Sept. 2. The railroad strike on many important lines ended Sept. 13. Thus 1,000.000 men were idle from two and a half to five months. No accurate estimate of the total loss to the country in business and to the strikers in wages can be made; it certainly amounted to many millions of dollars.

ISSUES IN COAL STRIKE. The coal strike was caused by the refusal of the mine operators to agree to demands which they declared were unreasonable. The bituminous coal miners insisted upon these points:

1. No wage cuts; maintain the present basic

schedules. wage

Adjustment of differentials.

3. The six-hour day and five-day week.
4. Time and a half for overtime; double me for Sundays and holidays.

time for Sundays and holidays.
5. Weekly pay.
6. Elimination of the automatic penalty clause

7. Next wage scale to run two years, to March 31, 1924.

8. Joint interstate conference with operators in central competitive field, (Illinois, Indiana, Ohio, western Pennsylvania); a four-state basic wage agreement as now to be used as the basis for settlement in outlying districts. 9. Maintain the check-off,

The demands of the anthracite miners were:

1. A 20 per cent increase in contract wage scale; increase of \$1 a day for day men.
2. A uniform wage schedule so that occupations of like character at the several collieries

shall command the same wage.

3. Eight-hour day to be extended to wage earners working around the collieries.

4. Time and a half for overtime and double time for Sundays and holidays.

5. A check-off provision to be put into the

next contract.
6. All dead work to be paid for on a uniform consideration basis.
7. More liberal treatment of miners who encounter abnormal conditions in their work-

ing places. 8. Carpenters and other tradesmen to be paid standard rates in the region, not less

than 90 cents an hour.
9. In laying off men seniority to apply. 10. Full eight hour opportunity to be given employes at collieries which have been working on a six or seven-hour day; where eighthour opportunity is denied wages shall adjusted

MINE OPERATORS' TERMS.

The mine operators, on the other hand, wanted:

1. Wage deflation; reduction of wage schedules to, say, the levels of 1919 or 1917, or to a point where union fields can compete with nonunion.

2. Abolition of the check-off, under which union dues and assessments are collected by

the companies out of the pay envelopes.

3. Scrapping of the present central competitive field basic wage agreement; separate state wage agreement to supplant it.

Both sides remained firm and balked all ef-

forts by the government and other agencies to decide the matters in dispute by arbitration or otherwise. The more important steps taken in the controversy are described in detail in the message to congress delivered by President Harding on Aug. 18. This

document is appended and its points need document is appended and its points need not be summarized here. As already noted the strike came to an end in August in the bituminous coal industry and in the early part of September in the anthracite fields. The bituminous coal mine operators and miners agreed:

1. Upon the continuance of the old wage cales and working conditions until March scales

31, 1923.

31, 1923.

2. The creation of machinery to avert strikes. Under it the old "four state" idea was supplanted by a national joint conference plan. This conference was set for Jan. 3, 1923, and delegates of miners and operators from all the producing regions are to attend 1923, and delegates or miners and operators from all the producing regions are to attend. After receiving the reports of the committees it is to determine the method to be followed in negotiating the wage scales effective April 1. In order to get quick action and avert further strikes the machinery to develop the new wage agreements shall start working not later than Jan. 8.

# ISSUES IN RAILROAD STRIKE.

The chief cause of the railway shop crafts The cure cause of the railway snop crafts strike was the order issued by the United States labor board June 6 and effective July 1. 1922, reducing the wages of 400,000 railroad shop workers. The wages of shopcraft workers were cut 7 cents an hour, those of freight-car "knockers" 9 cents an hour, etc., making the total cut amount to \$60,000,000 a year. The railroad men had other grievances also and their demands included:

1. The abolition of the system by which some of the railroads let out work to contractors not within the jurisdiction of the railroad labor board and therefore not bound by its decisions on wages and working con-

2. The revision of certain rules cutting pay for overtime work.

3. A rehearing of the wage decision by the labor board.

4. The establishment of adjustment boards

or one national board of adjustment with equal representation of employes and carriers. 5. The reinstatement of strikers with all peir seniority rights. (This demand was their seniority rights. (The made after the strike began.)

The railroad strike as well as the coal strike

was accompanied by many acts of lawlessness, resulting in the loss of life and damage to property. While the railroads continued to operate the service on some of the lines was curtailed by the canceling of a certain number of passenger and freight trains. Serious disturbances occurred in Elgin, Ill.; Needles, Cal.; Roodhouse, Ill.; Trenton, N. J.; Logansport, Ind.; Memphis. Tenn., and Des Moines. Iowa. Troops in many instances had to called out to restore order and protect life. The Santa Fe lines in southern California were tied up for several days by an unauthorized strike of trainmen. The Chicago & Alton road had a similar experience at Roodhouse, Ill. Its troubles with coal strikers and its own employes contributed largely to the line being placed in the hands of receivers on Aug. 30.

PRESIDENTIAL PROCLAMATION.

President Harding was active in trying to make the shopmen and the railroad execu-tives come to an agreement and in the mean-time to preserve order. On July 11 he issued the following proclamation:
"Whereas, The United States railroad labor

board is an agency of the government, created

by law- and charged with the duty of adjusting disputes between railroad operators and employes engaged in interstate commerce;

"Whereas, the United States railroad labor board has recently handed down decisions. one affecting the wage of the shopcraft em-ployes, the other declaring the contract sys-tem of shopcraft work with outside agencies to be contrary to the intent of the transporta-tion act, and, therefore, that such practice must be discontinued; and,

"Whereas, the shoperaft employes have elected to discontinue their work rather than abide by the decision rendered, and certain operators have ignored the decision ordering the abandonment of the contract shop prac-

tice: and,
"Whereas, the maintained operation of the railways in interstate commerce and the transportation of United States mails have necessitated the employment of men who choose to accept employment under the terms of the decision and who have the same inof the decision and who have the same in-disputable right to work that others have to

decline work; and,
"Whereas, the peaceful settlement of controversies in accordance with law and due respect for the established agencies of such settlement are essential to the security and

well being of our people:
"Now; therefore, I. Warren G. Harding, president of the United States, do hereby make proclamation directing all persons to refrain from all interference with the lawful efforts to maintain interside transportation.

retrain from all interference with the lawful efforts to maintain interstate transportation and the carrying of the United States mails. "These activities and the maintained supremacy of the law are the first obligation of the government and all the citizenship of our country. Therefore I invite the co-operaof the government and an action our country. Therefore I invite the co-operation of all public authorities, state and municipal, and the aid of all good citizens to uphold the laws and to preserve the public peace, and to facilitate those operations in safety which are essential to life and liberty and the security of property and our common

and the security of property and our common public welfare,
"In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.
"Done at the city of Washington, this eleventh day of July, in the year of our Lord one thousand nine hundred and twenty-two, and of the independence of the United States the one hundred and forty-seyenth. the one hundred and forty-seventh.

"WARREN G. HARDING."

#### SETTLEMENT REJECTED.

On July 31 President Harding submitted the following terms of agreement to the railway

"1. Railway managers and workmen are to agree to recognize the validity of all decisions of the railroad labor board and to faithfully carry out such decisions as contemplated by the law.

"2. The carriers will withdraw all lawsuits growing out of the strike and railroad labor board decisions which have been involved in the strike may be taken, in the exercise of recognized rights, by either party to a railroad

labor board for rehearing.
"3. All employes now "3. All employes now on strike to be returned to work and to their former positions with seniority and other rights unimpaired.

to be expected on the part of all railroads. It is wholly unthinkable that the railroad labor board can be made a useful ascacy of the government in maintaining industrial peace in the railway service unless employers and workers are both prompt and unques-

or inductions and other legal measures necessary to protect such persons and property from the violence and intimidation of the character resorted to in many localities since the strike was called.

"3. That it is impossible to agree to the first sentence of the third proposal of the president."

president.

# DRASTIC INJUNCTIONS.

Injunctions were issued by the federal courts in Chicago and elsewhere as early as July 8 restraining the shop strikers from interfering with the operations of the railroads at various points.

points. On Sept. 1 the attorney-general of the United States, H. M. Daugnetty, appeared before Judge James H. Wilkerson of the United States District court in Chicago and obtained a temporary injunction, applicable throughout the country, against the strikers and officials of the unions to which the men belonged, restraining them from interfering in any manner whatever with the operations of the railroads. On Sept. 11 the life of the injunction was extended for ten days. On this occasion the attorney-general presented a long list of acts of violence and sabotage, which he attributed to the strikers. On Sept. 23 the injunction was made permanent. Counsel for the strikers asked that the order be vaccated on the following grounds: be vacated on the following grounds:

oe vacated on the following grounds:

1. The government erroneously assigned the strikers violated law when they declined to abide by decisions of the United States railroad labor board.

2. The open shop issue cited as an important reason for seeking an injunction, is not one to be dealt with by the department of justice.

3. Federal courts have held that strikers have a right to attempt to recruit their ranks

from among nonunion workers.

4. The government failed to establish an unlawful conspiracy on the part of the strikers, as alleged in the injunction bill.

#### STRIKE IS ENDED.

Before this however, the strike virtually add when the officials of many railroad ompanies and their striking employes en-

ended when the companies and their striking employes entered into the following agreement:
"I. In order to bring to an end the existing strike of employes upon the undersigned railroads and relieve the country from the affects thereof and to expedite the with seniority and other rights unimpaired. Tallroads and relieve the country from the The representatives of the carriers and the representatives of the organizations especially agree that there will be no discrimination by either party against the employes who did or did not strike. \*\*

"I have not specifically stated it in the terms of settlement, but, of course, the rabandonment of the contract system, in accordance with the decision of the board, is genuine settlement of the matters in contro-

versy referred to below. This paragraph does not apply to or include strikes in effect prior to July 1, 1922.

"2. All men to return to work in positions of the class they originally held on June 30, 1922, and at the same point. As many of such men as possible are to be immediately put to work at present rates of pay and all such employes who have been on strike be put to work or under pay not later than thirty days after the signing of this agreement except such men as have been proved guilty of acts of violence which, in the opinion of the commission hereinafter provided for, shall be sufficient cause for dismissal from service.

"3. The relative standing as between themselves of men returning to work and men laid off. furloughed, or on leave of absence, inon, influence, or on leave of absence, including general chairmen and others who were as of June 30, 1922, properly on leave of absence, will be restored as of June 30, 1922, and they will be called back to work in that

order.

"4. If a dispute arises as to the relative standing of an employe or if any other controversy arises growing out of the strike that cannot be otherwise adjusted by the carrier and said employe or the duly authorized representatives thereof, the matter shall be referred by the organizations parties to this agreement, the employes or the carrier in the interest of any employe who may be aggrieved, to a commission to be established and constituted as hereinafter provided, for final decision by a majority vata final decision by a majority vote.

"5. The commission referred to in paragraph

4 hereof shall be composed of six representa-tives to be named by the chief officers of the organizations parties hereto and six railroad officers or representatives selected from and by the railroads agreeing hereto. This com-

mission shall be constituted within fifteen days from the signing of this agreement and shall have jurisdiction to decide all cases that

shall have jurisdiction to decide all cases that may properly be referred to it on or before May 31, 1923, but not thereafter, "6. Inasmuch as this agreement is reached for the purpose of composing in a spirit of compromise this controversy, all parties hereto agree that neither this settlement nor any agree that neither this settlement nor any decision of the commission above provided for shall be used or cited in any controversy between these parties or between the railroads signing the same or any other class or classes of their employes in any other controversy that may hereafter arise.

Both parties pledge themselves that intimidation or oppression shall be practiced or permitted against any of the employes who have remained at work or have taken service or as against those who resume work under

"8. All suits at law now pending as the result of the strike to be withdrawn and canceled by both parties."

PRESIDENT HARDING'S STRIKE MESSAGE. On Aug. 18 President Harding appeared before a joint session of congress and delivered the following message:

"Gentlemen of the congress:

"It is manifestly my duty to bring to your attention the industrial situation which con-

fronts the country.

The situation growing out of the prevail-railway and coal mining strikes is so "The ing railway and coal mining strikes is so serious, so menacing to the nation's welfare, that I should be remiss if I failed frankly to lay the matter before you and, at the same time, acquaint you and the whole people with such efforts as the executive branch of the government has made by the voluntary exercise of its good offices to effect a settlement.
"The suspension of the coal industry dates

back to last April 1, when the working agreement between mine operators and the agreement between mine operators and the United Mine Workers came to an end. Anticipating that expiration of contract, which was negotiated with the converse. spating that expiration of contract, which was negotiated with the government's sanction in 1920, the present administration sought, as early as last October, conferences between the operators and miners in order to facilitate either a new or extended agreement in order to avoid any suspension of production when

April 1 arrived.
"At that time the mine workers declined to confer, though the operators were agreeable, the mine workers excusing their declination on the ground that the union officials could have no authority to negotiate until after

their annual convention.

"A short time prior to the expiration of the working agreement the mine workers inthe working agreement the mine workers invited a conference with the operators in the central competitive field, covering the states of Pennsylvania, Ohio, Indiana and Illinois. "In spite of the union declination of the government's informal suggestion for the conference of the months before the government."

government's informal suggestion for the conference, five months before the government informally but sincerely, commended the conference, but it was declined by certain groups of operators, and the coal mining controversy ended in the strike of April 1.

"It was instantly made nationwide so far as the organized mine workers could control, and included many districts in the hituminous

and included many districts in the bituminous field where there was neither grievance nor dispute, and effected a complete tieup of the

production in the anthracite field.

"It is to be noted that when the suspension began large stocks of coal were on hand, and at wages higher than those paid during the war; there was only the buying impelled by necessity, and there was a belief that coal must yield to the postwar readjustment. When the stocks on hand began to reach the manage industry and such diminution as to menace industry and hinder transportation, approximately June 1, overtures were initiated by the government in the hope of expediting settlement.

#### Overtures in Vain.

"None of these availed. Individual and district tenders of settlement on the part of operators—in some instances appeals for settlement—were wholly unavailing. The dominant groups among the operators were insistent on having among the operators were insistent on having district agreements; the dominant mine workers were demanding a nationwide settlement. The government, being without authority to enforce a strike settlement in the coal industry, could only volunteer its good offices in finding a way of adjustment.

"Accordingly, a conference of the coal operators' associations and the general and district officials of the United Mine Workers was called to meet in Washington on July 1. The designation of representation was left to the officials of the various orranizations, and there

cials of the various organizations, and there was nationwide representation, except from

"Before the joint meeting I expressed the deep concern of the country and invited them to meet at a conference table and end the disputes between them.

"The conference did not develop even a hope.

"The conference did not develop even a hope. The operators were asking for their district or territorial conferences—the workers demanded national settlement on the old basis. "Appraising correctly the hopelessness of the situation, I again invited both operators and workers to meet with me, and tendered a means of settlement so justly inspired that it was difficult to see how any one believing in industrial neace and instice to all continuous control of the control in industrial peace and justice to all con-cerned could decline it.

"In substance it called on the operators to open their mines, on the mine workers to resume work at the same pay and under the same working conditions as prevailed at the

time the strike began. In turn, the government was to create at once a coal commission, or two of them, if preferred by all parties to the dispute, so that one could deal with the bituminous situation, the other with the problems in the anthracite field.

"Among the commissioners were to be representatives of the operators, representatives of the mine workers, and outstanding, disinterested, and able representatives of the

American public.

"The commission was to be instructed to direct its first inquiry to the rate of wage to be paid for the period ending next April 1, and then to enter upon a fact-finding inquiry into every phase of the industry and point the way to avoid future suspensions in production.

"The disputants all indorsed the suggestion a fact-finding commission. The anthracite of a fact-finding commission. The anthracite operators promptly accepted the entire proposal. The mine workers refused to resume work under the arbitration plan. The majority of the bituminous operators filed an acceptance, but a considerable minority declined

the proposal.

"Under these circumstances, having no authority to demand compilance, the government had no other course than to invite a resumption of production under the rights of all parties to the controversy, with assurance of government protection of each and every one in his lawful pursuits.

"This fact was communicated to and governors of all coal producing states, and with two exceptions assurances of maintained

law and order were promptly given.

"In some instances concrete proof of effective readiness to protect all men, strikers and nonstriking workmen alike, was promptly But little or no new production folgiven. lowed.

The simple but significant truth was revealed that, except for such coal as comes from the districts worked by nonorganized miners, the country is at the mercy of the United Mine Workers.

'Governors in various states reported that "Governors in various states reported that their operators and miners had no dispute and were eager to resume production. District leaders informed me that their workmen were anxious to return to their jobs, but that they were not permitted to do so. "Hundreds of wives of workmen have addressed the white house, beseehing a settlement, alleging that they knew no grievance, and there is an unending story of appeals for relief where necessity or suffering were im-

and there is an unending story of appeals for relief where necessity or suffering were im-pelling, where a mere expression of need ought to find ready compliance. "At every stage the government has been a just neutral regarding wage scales and work-ing contracts. There are fundamental evils ing contracts. There are fundamental in our present system of production and distribution which make the wage problem

Coal Industry Overmanned.

"In the bituminous coal fields are vastly more mines than are requisite to the country's needs, and there are 200,000 more mine workers than are needed to produce in continuous employment the country's normal requirements. By continuous employment I mean approximately 280 working days in the year.

"In many instances last year men were em-ployed less than 150 days, in some cases much fewer than that. In the overmanned sections men divide the working time, and high wages are necessary to meet the cost of the barest living. Interrupted transpor-tation, sorely broken employment, the failure to develop storage against colored domands. to develop storage against enlarged demands, and inadequate carrying—all these present

problems bear on righteous wage adjustment

problems bear on righteous wage adjustment and demand constructive solution.

"Because of these things, because of the impressions of many cases of unjustifiable profits in the industry, and because public interest demands investigation and demands the finding of facts be given to the public. I am asking at your hands the authority to create a commission to make a searching investigation into the whole coal industry, with provision for its lawful activities and the bestowal of authority to reveal every phase of coal production, sale and distribution.

"I am speaking now on behalf of mine workers, mine operators and the American public. It will bring protection to all and point the way to continuity of production and the better economic functioning of the industry in the future.

"The necessity for such a searching national investigation."

"The necessity for such a searching national investigation with constructive recommendainvestigation with constructive recommenda-tions is imperative. At the moment the coal skies are clearing, but unless we find a cure for the economic ills which affect the in-dustry and therein find a basis for righteous relationship, we shall be faced with a like menacing situation on next April 1, on the expiration of the wage contracts which are now being made.

"The need for such investigation and in-dependent consideration is revealed by both operators and mine workers in the provision

operators and mine workers in the provision in the Cleveland agreement so recently made. The government will gladly co-operate with the industry in this program so far as it is the public increst so to do, but I have an unalterable conviction that no lasting satisfaction or worth-while results will ensue unless we may

able conviction that no lasting satisfaction or worth-while results will ensue unless we may have a government commission, independent of the industry, clothed with authority by the congress to search deeply, so that it may advise as to fair wages and as to conditions of laws to protect the public in the future. "The almost total exhaustion of stocks of coal, the crippled condition of the railways, the distressed situation that has arisen and might grow worse in our great cities due to the shortage of anthracite, the suffering which might arise in the northwest through failure to meet winter needs by lake transportation, all these, added to the possibility of outrageous price demands, in spite of the most zealous voluntary efforts of the government to restrain them, make it necessary to ask you to consider at once some form of temporary control of distribution and prices. "The administration earnestly has sought to restrain profiteering and to secure the rightful distribution of such coal as has been available in this emergency. There were no legal powers for price control. There has been cordial co-operation in many fields, a fine

cordial co-operation in many fields, a revelation of business conscience stronger than the temptation to profit by a people's mis-

fortune.
"There have been instances of flat refusal.
"There have been instances of flat refusal. "I rejoice to make grateful acknowledg-ment to those who preferred to contribute to national welfare rather than profit by a na-

tion's distress.

National Coal Agency.

"If it may have your approval, I recommend immediate provision for a temporary national coal agency with needed capital, to purchase, sell, and distribute coal which is carried in interstate equipment, I do not mean that all interstate coal shall be handled by such a federal organization; perhaps none will be necessary; but it will restore its capital to the public treasury and will be the instrumentality of guarding the public interest where private conscience is insensible to a public need.

"This proposal does not relate to any pos-

sible employment in interstate shipments. Price restraint and equitable distribution in intrastate shipments is a responsibility of state's own government. In such your state's own government. In such voluntary activities as have been carried on thus ar activities as have been carried on thus far the federal government has endeavored to reestablish the authority and responsibility in the states which was undermined in the necessary centralization of authority during the world war.

Railroad Shopmen's Strike.

"The public menace in the coal situation the puone menace in the coal stutation was made more acute and more serious at the beginning of July by the strike of the federated shops crafts in the railroad service—a strike against a wage decision made by the railroad labor board, directly affecting approximately 400,000 men. The justice of the decision is not for discussion here. The decision has been lost sight of in subsequent developments.

"In any event, it was always possible to appeal for rehearing and the submission of new evidence, and it is always a safe assumption that a government agency of adjustment, deciding unjustly will be quick to

make right any wrong.
"The railroad labor board was created by congress for the express purpose of hearing and deciding disputes between the carriers and deciding disputes between the carriers and their employes, so that no controversy need lead to an interruption in interstate transportation.

"It was inevitable that many wage disputes should arise. Wages had mounted upwird, necessarily and justly, during the war upheaval, likewise the cost of transportation, so that the higher wages might be paid. It was inevitable that some readjustments should follow.

follow.
"Naturally these readjustments were resisted. The administrative government neither advocated nor opposed. It only held that the labor beard was the lawful agency of the government to hear and decide disputes and its authority must be sustained, as the law contemplates. This must be so, whether the carriers or the employes ignore its decisions. "Unhappily a number of decisions of this board had been ignored by the carriers. In only one instance, however, had a decision

only one instance, however, had a decision challenged by a carrier been brought to the attention of the department of justice, and this decision was promptly carried courts and has recently been sustained in the federal court of appeals. The public or the executive had no knowledge of the ignored decisions in other cases, because they did not hinder transportation.

"When these failures of many of the carriers to abide by decisions of the board were brought to my attention, I could more fairly appraise the feeling of the strikers, though they had a remedy without seeking to paralyze interstate commerce.

Law Is Inadequate.

"The law creating the railroad labor board is inadequate. Contrary to popular impression, it has little or no power to enforce its decisions. It can impose no penalties on either party disregarding its decisions. It can not halt a strike and manifestly congress de-liberately omitted the enactment of compul-sory arbitration. The decisions of the board sory arouration. The decisions of the board must be made enforceable and effective against carriers and employes alike. But the law is new and no perfection of it by congress at this moment could be helpful in the present threatened paralysis of transportation. "Happily it is always lawful and offttimes

possible to settle disputes outside of court, so in a desire to serve public welfare I ventured upon an attempt at mediation. Those who had preceded me in attempted settle-

ments had made some progress. I submitted to the officials of the striking employes and the chairman of the Association of Railway Executives, in writing, on the same day, a tentative proposal for settlement.

tentative proposal for settlement.

"Knowing that some of the carriers had offended by ignoring the decisions of the board, and that the employes had struck when they had a remedy without the strike. I felt it was best to start all over again, resume work, and all to agree to abide fathfully by the board's decisions, thus making it a real tribunal of peace in transportation.

Question of Seniority.

"The barrier to be surmounted was the question of seniority. By the workmen these rights are held to be sacred and unsurrendered by a strike. By the carriers the preservation of seniority is the weapon of discipline on the one hand and the reward of faithful employes on the other. It has been an almost invariable rule that when strikes have been lost, seniority and its advantage have been surrendered; when strikes have been settled seniority has been restored.

"In the tentative proposals which I sponsored it was provided that everybody should go to work, with seniority rights unimpaired, that there should be no discrimination by either workmen or carriers against workmen who did or did not strike,

"I realized that the proposal must carry a

disappointment to employes who had inherited asappointment to employes who had inherited promotion by staying loyally on the job and to such new men as had sought jobs looking to permanent employment, but I wanted the fresh start and maintained transportation service, and I appraised the disappointment of the few to be less important than the immending misfortune of the parties.

impending misfortune to the nation.

"It was not what I would ask ordinarily to be considered or conceded, but at that but at that to be considered or conceded, but at that moment of deep anxiety, with the coal shortage gravely menacing. I was thinking of the pressing demands to the welfare of the whole people. I believed the sacrifice brought to the men involved could be amply compensated for by the carriers in practical ways.

by the carriers in practical ways.
"I believed that the matter of transcendent importance was the acceptance of the proposal to respect the labor board's decisions on the questions which formed the issue at the time of the strike. The public compensation would be complete in guarding by law

against recurrence.

against recurrence.
"The proposal was rejected by the carriers,
Though the rejection did not end all negotiation, it left the government only one course—
to call the striking workmen to return to
work, to call the carriers to assign them to
work and leave the dispute about seniority
to the labor board for decision. When negowork, and leave the dispute about seniorly to the labor board for decision. When negotiation or mediation fails this is the course contemplated by the law and the government can have no chart for its course except the

"To this call a majority of the carriers "To this call a majority of the carriers responded favorably, proposing to re-employ all strikers except those guilty of violence against workmen or property, to restore the striking workmen to their old positions where vacant, or to like positions where vacancies had been filled; questions of seniority which cannot be settled between the employer and the employes to go to the labor board for decisions. decision.

"The minority of the carriers proposed to assign jobs to workmen on strike only where positions were vacant. Neither proposal has

been accepted.
"Thus the narrative brings us to the present moment, but it has not included the developments which have heightened the government's concern. Sympathetic strikes have

developed here and there, seriously impairing

interstate commerce.

"Deserted transcontinental trains in desert regions of the southwest have revealed of some railway employes, who have conspired to paralyze transportation; and lawlessness and violence in a hundred places have revealed the failure of the striking unions to hold their forces to law observance.

"Men who have refused to strike and who have braved insult and assault and risked their lives to serve a public need have been cruelly attacked and wounded or killed. Men seeking work and guards attempting to pro-tect lives and property, even officers of the federal government, have been assaulted,

humiliated and hindered in their duties.
"Strikers have armed themselves and gathered in mobs about railroad shops to offer armed violence to any man attempting to go to work. There is a state of lawlessness shocking to every conception of American law and order and violating the cherished guaranties of American freedom.

"At no time has the federal government been unready or unwilling to give its support to maintain law and order and restrain vio-lence, but in no case has state authority coulence, but in no case has state authority con-fessed its inability to cope with the situation and asked for federal assistance.

"Under these conditions of hindrance intimidation there has been such a lack of care of motive power that the deterioration of locomotives and the noncompliance with the safety requirements of the law are threatening the breakdown of transportation. This very serious menace is magnified by the millions of losses to fruit growers and other producers of perishable foodstuffs, and losses to farmers who depend on transportation to market their grains at harvest time.

Warning to Congress.

"Even worse, it is hindering the transport of available coal when industry is on the verse of paralysis because of coal shortage, and life and health are menaced by coal famine in the great centers of population.

"Surely the threatening conditions must impress the congress and the country that no body of men, whether limited in numbers and responsibility for railway management, of

responsibility for railway management, of powerful in numbers and the necessary forces in railroad operation, shall be permitted to choose a course which imperils public welfare. "Neither organization of employers nor workingmen's unions may escape responsibility. When related to a public service the mere fact of organization magnifies that responsibility, and public interest transcends that of either grouped capital or organized labor.

labor.
"Another development is so significant that the hardships of the moment may well be endured to rivet popular attention to neces-

"It is fundamental to all freedom that all men have unquestioned rights to lawful pur-suits to work and to live and choose their

suits to work and to live and choose their own lawful ways to happiness.
"In these strikes these rights have been denied by assault and violence, by armed lawlessness. In many communities the municipal authorities have winked at these violations, until liberty is a mockery and the law a matter of community contempt. It is fair to say that the great mass of organized workmen do not approve but they seem helpless men do not approve, but they seem helpless to hinder.

"These conditions cannot remain in free America. If free men cannot toil according to their own lawful choosing, all our constitutional guaranties born of democracy are surrendered to mobocracy and the freedon

of a hundred millions is surrendered to the small minority which would have no law.

small minority which would have no law.
"It is not my thought to ask congress to deal with these fundamental problems at this time. No hasty action would contribute to the solution of the present critical situation. There is existing law by which to settle the prevailing disputes. There are statutes forbidding conspiracy to hinder interstate commerce. There are laws to assure the highest possible safety in railway service. It is my purpose to invoke these laws, civil and criminal, against all offenders alike.
"The legal safeguarding against like menaces

The legal safeguarding against like menaces

"The legal safeguarding against like menaces in the future must be worked out when no passion sways, when no prejudice influences, when the whole problem may be appraised, and the public welfare may be asserted against any and every interest which assumes authority beyond that of the government itself. "One specific thing I must ask at your hands at the earliest possible moment. There is pending a bill to provide for the better protection of aliens and for the enforcement of their treaty rights. It is a measure, in short, to create a jurisdiction for the federal courts through which the national government will have appropriate power to protect aliens in the rights secured to them under treaties and to deal with crimes which affect our foreign relations. our foreign relations.

The Herrin Atrocities.

"The Herrin Atroctites.

"The matter has been before congress on many previous occasions. President Tyler, in his first annual message, advised congress that inasmuch as 'the government is charged with the maintenance of peace and the preservation of amicable relations with the nations of the earth, it ought to possess without question all the reasonable and proper means of maintaining the one and preserving the other." other.

other.
"President Harrison asked for the same bestowal of jurisdiction, having encountered deep embarrassment which grew out of the lynching of eleven aliens in New Orleans in

1891.
"President McKinley, dealing with a like problem in 1899, asked the conferring upon the invision in that class of

"President McKinley, dealing with a like problem in 1899, asked the conferring upon federal courts jurisdiction in that class of international cases where the ultimate responsibility of the federal government may be involved.

"President Roosevelt uttered a like request to congress in 1906, and President Taft pointed out the defect in the present federal jurisdiction when he made his inaugural address in 1909. He declared that "it puts our government in a pusillanimous position to make definite engagement to protect alieus and then to excuse the failure to perform the engagements by an explanation that the duty to keep them is in states or cities not within our control. If we would promise, we must put ourselves in a position to perform our promise. We cannot permit the possible failure of justice, due to local prejudice in any state or municipal government, to expose us to the risk of war which might be avoided if federal jurisdiction were asserted by suitable legislation by congress."

"My renewal of this oft-made recommendation is impelled by a pitiable sense of federal impotence to deal with the shocking crime at Herrin. III., which so recently shamed and horrified the country. In that butchery of human beings, wrought in madness, it is alleged that two aliens were murdered.

"This act adds to the outraged sense of American justice the humiliation which lies in the federal government's lack of authority to punish that unutterable crime.

"Had it happened in any other land than our own, and the wrath of righteous justice were not effectively expressed, we should have

pitied the civilization that would tolerate it and sorrowed for the government unwilling or unable to mete out just punishment.
"I have felt the deep current of popular resentment that the federal government has not sought to efface this blot from our national shield, that the federal government has been tolerant of the mockery of local inquiry and the failure of justice in Illinois.
"It is the regrettable truth that the federal

"It is the regrettable truth that the federal government cannot act under the law. government cannot act under the law. But the bestowal of the jurisdiction necessary to enable federal courts to act appropriately will open the way to punish barbarity and butch-ery at Herrin or elsewhere, no matter in whose name or for what purpose the insuffer-able outrage is committed.

"It is deplorable that there are or can be American communities where even there are citizens, not to speak of public officials, who believe mob warfare is admissible to cure beneve mob warrare is admissible to cure any situation. It is terrorizing to know that such madness may be directed against men merely for choosing to accept lawful employment. I wish the federal government to be able to put an end to such crimes against civilization and punish those who sanction

Warfare on Union Labor.

"In the weeks of patient conference and attempts at settlement I have come to appraise another element in the engrossing industrial dispute, of which it is only fair to take cognizance. It is in some degree responfor the strikes and has hindered at-

tempts at adjustment.

"I refer to the warfare on the unions of labor. The government has no sympathy or approval for this element of discord in the ranks of industry. Any legislation in approval for this element of discord in the ranks of industry. Any legislation in the future must be as free from this element of trouble making as it is from labor extremists who strive for class domination. We recognize these organizations in the law, and we must accredit them with incalculable contribution to labor's uplift.

"It is of public interest to preserve them and profit by the good that is in them but

"It is of public interest to preserve them and profit by the good that is in them, but we must check the abuses and the excesses which conflict with public interest, precisely as we have been progressively legislating to prevent capitalistic, corporate or managerial domination which is contrary to public

welfare.

"We also recognize the right of employers and employes alike within the law, to establish their methods of conducting business.

tablish their methods of conducting business, to choose their employment, and to determine their relations with each other.

"We must reassert the doctrine that in this republic the first obligation and the first allegiance of every citizen, high or low, is to his government, and to hold that government to be the just and unchallenged sponsor for public welfare, and the liberty, security and rights of all its citizens.

"No matter what clouds may gather, no matter what storms may ensue no matter what hardships may attend, or what sacrifice may be necessary, government by law must and will be sustained.

"Wherefore I am resolved to use all the

"Wherefore I am resolved to use all the power of the government to maintain transportation and sustain the right of men to work.

# MASSACRE OF COAL MINERS AT HERRIN, ILL.

Nineteen nonunion and three union coal miners were killed at or near the Lester mine near and in Herrin, Williamson county, Illinois, June 21-22, 1922, as the result of the general strike in the coal mining industry in progress at the time. Though it was known that serious trouble was impending the re-

sponsible local and state authorities made no attempt to avert it. On June 25 a coroner's jury at Herrin found that the nineteen non-union men "came to their deaths by gunshot wounds at the hands of parties to this jury unknown as the result of the activities of the officials of the mine."

officials of the mine."

Immediately after the massacre troops were mobilized in Chicago for service in Williamson county, but their presence was not required. The inaction of the local authorities was severely criticized and the massacre was described by press and public generally as a blot not only on Williamson county but on the whole state of Illinois. President Harding in his strike message to congress called attention to the crime, declaring it to be regrettable that there were citizens not to say table that there were citizens, not to say public officials, who believed that mob warfare was admissible to cure any situation.

was admissible to cure any situation.

The people of Illinois, however, were determined that the crime should not go unpunished. Funds were raised by the Illinois Chamber of Commerce and the attorney-general of the state, Edward J. Brundage, interested himself personally in the case. On Aug. 17 a special grand jury composed mainly of farmers was summoned by Circuit Judge DeWitt T. Hartwell to meet on Aug. 28, at Marion, the capital of Williamson county, to investigate the Herrin massacre and take such Marion, the capital of Williamson county, to investigate the Herrin massacre and take such action as the facts warranted. On the date named the grand jurors met and began the taking of testimony with the effective assistance of Attorney-General Brundage and State's Attorney Delos Duty. The first indictment that of Otic Clark president of a boal purion of of Attorney-General Brundage and State's Attorney Delos Duty. The first indictment, that of Otis Clark, president of a local union of miners, for the slaying of C. K. McDowell, mining superintendent, was returned on Aug. 30. The grand jury continued its work until Sept. 23, when it filed its report with Judge Hartwell and took a recess until Oct. 23. The total results of its labors were forty-four murder indictments, fifty-eight for conspiracy to murder, fifty-eight for rioting and fifty-four for assault to murder. Many of the men for assault to murder. Many of the men indicted had been arrested and jailed. Among mucreu nad been arrested and jailed. Among the more important men indicted were Hugh Willis of Herrin, a member of the state execu-tive board of the Illinois Mine Workers' union, and Will Davis, secretary-treasurer of Herrin district union, both of whom were named in murder bills. Most of the men indicted were

union miners.

The text of the grand jury's report is given herewith in full:

herewith in full!

"We, the special grand jury of Williamson county impaneled to make an investigation of the crimes committed in and about the strip mine near and in Herrin on Wednesday and Thursday, June 21 and 22, 1922, and heedful of the instructions given by your honor to make a thorough investigation of the facts and circumstances, with a view of fixing the responsibility for the killing of some twenty-four persons and the wounding of many others, beg to report that we have examined approximately 300 witnesses and from their testimony learned these conditions: ditions:

About the middle of June of this year. after suspension of the coal industry as the result of a strike of the United Mine Workers of America, the Southern Illinois Coal company

of America, the Southern Illinois Coal company decided to operate a strip mine owned by it and located about midway between Marion and Herrin.

"The miners' union apparently raised no objections to the uncovering of the coal by the use of steam shovels, but when the company began to ship coal there was bitter resentment on the part of the union miners.

"The coal company aggravated this resentment by employing armed guards and closing for the public use certain established high-

ways traversing the mine property and treating as trespassers citizens attempting to use the accustomed highway.

"The flaunting of arms in a community devoted almost exclusively to mining was conducive to strife; it was a challenge certain to be accepted, and for four or five days preceding the tragedy it was known by the authorities that a conflict was inevitable.

State Officials Warned,

"The state administration undoubtedly realized the acute situation by sending to Williamson county Col. Hunter of the adjutant-general's staff. This representative of the state government testified that he recognized upon his arrival in Marion the imminence of a conflict and immediately, asked the adjutant-general to send etate troops to protect the general to send state troops to protect the property and conserve the peace.

"This request Col. Hunter renewed several times before the actual conflict, and was in-variably asked by the adjutant-general of Illinois if the sheriff of Williamson county had asked for troops. The adjutant-general denied his authority to order them into Williamson county except upon the sheriff's request, which, as your honor knows, is not the law.

"Melvin Thaxton, the sheriff of Williamson county, is the holder of a card in the miners' union and a candidate for county treasurer at

the forthcoming election.

"Either because of loyalty to the union or from fear of injuring his candidacy the sheriff would make no demand for troops nor did he take adequate measures to preserve the

peace. "From the evidence heard, the attack June 21 upon the men employed at the strip mine was the result of a conspiracy which had several days in the perfecting, the object

of which was the closing of the strip mine.

"Sheriff Thaxton could not have been unaware of the development of this plan.

Lewis Letter Quoted.

"On Monday, June 19, State Senator W. Workers of this district, received from John L. Lewis, president of the United Mine Work-

L. Lewis, president of the United Mine workers of America, a telegram, as follows:

"William Sneed, President, Sub-District 10, District 13, United Mine Workers of America, Herrin, Ill.: Your wire 18th. Steam Shovel Men's union was suspended from affiliation with American Federation of Labor some with American received in 1 Lator some years ago. It was ordered suspended from the mining department of the A. F. of L. at the Atlantic City convention.

"'We now find that this outlaw organization.

is permitting its members to act as strike breakers at numerous pits in Ohio. This organization is furnishing steam shovel en-gineers to work under armed guards under no agreement which exists by and between this organization and the mining department or any branch of the A. F. of L. permitting them to work under such circumstances.

"We have through representatives officially taken this question up with the officers of the Steam Shovel Men's union and have failed

"Representatives of our organization are justified in treating this crowd as an outlaw organization and in viewing its members in the same light as they do any other common strike breakers.

JOHN L. LEWIS.'

"A copy of this telegram was posted and read in various places. Following the publication of the telegram from President Lewis preparations for an attack upon the mine were made. The hardware stores in all the cities of Williamson county were searched for firearms. The weapons were either taken by

force or upon a verbal assurance that the local would pay for them.

"The men working at the strip mine were evidently ignorant of being strike breakers. The men operating the steam shovels were affiliated with a union, even though unrecognized by the A. F. of L.

"The guards were told they were to protect the valuable machinery and did not awake to

"The guards were told they were to protect the valuable machinery and did not awake to the real danger until noon time of June 21, when bullets began to fly into the mine in such volume as to compel them to take refuge in the office, and later to seek safety under the steel railroad cars on the strip mine property

mine property.

"Superintendent McDowell telephoned a number of times to Col. Hunter for protection and was invariably informed by the latter that the sheriff could not be found. Finally Col. Hunter suggested a flag of truce, which, while displayed by the mine defenders, caused no abatement of the fire.

"In the evening of June 21, upon the return to Marion of Sheriff Thaxton, a conference was held between the sheriff, Col. Hunter and officers of the miners' union, at which it was stated that the officials of the coal company were willing to discontinue the operation of the strip mine and the union officials were willing that the workmen employed therein should be permitted to depart in safety. The substance of this agreement was transmitted over the telephone to Superintendent McDowell at the strip mine.

was transmitted over the telephone to Super-intendent McDowell at the strip mine.

"Nevertheless, at the break of day the fol-lowing morning firing began in a heavy vol-ume from close proximity. The attacking party having crept up under cover of dark-ness, they were sufficiently close to permit of a parley, and after a time a spokesman for the strip mine workers asked to speak to the

leader.

leader.
"A long range conversation was held and it was agreed by a spokesman from the attacking party that safe conduct would be accorded the men if they laid down their arms and would march out with hands up. "This was done and from behind the earth embankments created by the steam shovel operators came a great number of armed men and more from the surrounding hills until the forty-seven strrendering men were surrounded.

forty-seven surrendering men were surrounded by many hundreds of men, mostly armed,

Crippled Superintendent Killed.

"The captive men were marched down the road toward Herrin in double file. After they road toward Herrin in Goude file. After they had marched about one mile, Superintendent McDowell, being crippled and unable to keep up with the procession, was taken aside by members of the mob and shot to death.

"The remainder of the captives were marched on the public road and were stopped at the power house of the Interurban railroad, about these miles from Herrin Herri, a charge in

three miles from Herrin. Here a change in leadership took place and the man who had guaranteed the safety of the men who had surrendered was deposed and another leader installed.

"The new commander ordered the captive men to march into the woods adjacent to and

men to march into the woods adjacent to and around the power house. Here the new leader directed that only those in the crowd who had guns should follow into the woods and those who were unarmed should remain without. "The surrendered men were then marched some 200 yards back of the power house, to the vicinity of a barbed wire fence, where they were told they would be given a chance to run for their lives, under fire. "The firing began immediately, and thirteen of the forty-seven nonunion men were killed

of the forty-seven nonunion men were killed and most of the others severely wounded. "The mob pursued those who had escaped, and two were hanged to trees, six were tied together with a rope about their necks and

marched through the streets of Herrin to an adjacent farm, where they were shot by the mob and the throats of three were cut. One of the six survived.

Relentless Brutality Shown.

"The atroctties and cruelties of the murderers are beyond the power of words to describe. A mob is always cowardly, but the savagery of this mob in its relentless brutality is almost unbelievable. The indignities heaped upon the dead did not end until their bodies were intered in release. were interred in unknown graves.

"On the first day of the attack on the mine two union miners were killed by the answer-ing fire from the men in the strip mine, and another so seriously injured as to die subse-

quently from his wounds.

"It has been difficult for this grand jury to determine who fired the shots from the strip determine who tired the snots from the strip mine which caused the deaths of the union miners. When asked to present evidence to the grand jury which would tend to fix re-sponsibility, counsel for the miners' union an-nounced that they would lend no aid to the grand jury.

"The grand jury has made no attempt to determine the equities between the operators quetermine the equities between the operators and the miners in the strike controversy. It has had but the sole thought of bringing to the bar of justice the persons who committed the crimes which have brought such universal criticism upon the people of Williamson centric.

county.

"Without discrimination, we feel keenly the horror of the tragedy. We protest, however, against the intimation that all the people of Williamson county are lawless and un-American. The development of the mining industry in Williamson county and the surrounding counties has tremendously increased the population within the last decade. ulation within the last decade.

"All of the adjoining counties contributed their quota of marauders, and the entire shame of the inhuman murders should not rest upon Williamson county alone.

to grow from desultory rioting into a hideous massacre. These evils can be corrected by the great majority of the population who believe in law and order asserting themselves and longer refusing to be intimidated by a dis-

orderly minority.

"The grand jury, while not denying the right of private property and its lawful uses, cannot help but feel that the Southern Illinois Coal company, of which L. J. Lester is president while perhaps within its level with the restrict was dent, while perhaps within its legal rights, was either woefully ignorant of the danger of its operations or blindly determined to risk strife and conflict if profits could be made.

"It was foolhardy to attempt to operate a nonunion mine in the very heart of the miners' union, in view of the existing conditions.

Responsibility Evaded.

"The adjutant-general's office and the sheriff's office alternated in passing responsi-bility, with neither taking decisive action to

sheriff's office alternated in passing responsibility, with neither taking decisive action to prevent disorders and protect property.

"The ease with which firearms were obtained causes the grand jury to believe that legislation should be enacted to regulate or prohibit the manufacture or indiscriminate sale of firearms.

"We condemn the laxity of the local police in the various cities wherein stores were looted for firearms without interference by them. "We commend the state's attorney of Williamson county, Delos Duty, for his courage and fidelity to his oath of office, and we express our gratitude to the attorney-general of Illinois and his efficient assistants whose aid has greatly facilitated the tremendous tasks confronting the grand jury begs leave to state that it has indicted some forty-four persons for murder, fifty-eight for conspiracy to commit murder, fifty-eight for rioting, and fifty-four for assault to murder, and your jury asks leave for a recess of thirty days for the nurses of completing its labors. and your jury asks leave for a recess of thirty days for the purpose of completing its labors. shame of the inhuman murders should not rest upon Williamson county alone.

"It is true the electorate of the county is responsible for those of its supine. weak and cowardly officials who permitted the disorders

# DISASTROUS EXPLOSION IN MONASTIR.

Four hundred carboads of ammunition stored Most of the victims were soldiers and chilnear the railroad station at Monastir, southern Serbia, exploded on Tuesday. April 18, 1922, having lunch, was destroyed and a church, killing several hundred persons, wounding thousands and destroying part of the city. Some 30,000 people were made homeless, ported, were killed.

# UNITED STATES SUPREME COURT DECISIONS ON PICKETING. AMERICAN STEEL FOUNDRIES CASE.

Chief Justice Taft of the United States Supreme court, in a decision announced Dec. 5, 1921, held that peaceful picketing in labor disputes is lawful, but where such picketing involves methods inevitably leading to intimidation and obstruction, no matter how lawful the announced purpose, it becomes illegal and may be restrained by court injunction. This decision involved a construction of the Clayton antituust law which restricts the use of ton antitrust law which restricts the use of the injunction against organized labor.

the injunction against organized labor.

The case came before the Supreme court on an appeal brought by the American Steel Foundries of Granite City, Ill., against a decision of the federal Circuit Court of Appeals of Illinois, which set aside an injunction granted by the federal District court against the Tricity Trades council, then conducting a ways of the conducting a council.

wage strike.

wage strike.

The decision was sweeping. It enjoined the council in any way "or manner whatsoever" by use of persuasion, threat or personal injury, from interfering with, hindering, obstructing or stopping any person engaged in structing or stopping any person engaged in the employ of the American Steel Foundries in connection with its business or any person desiring to be employed by the foundries, from assembling, loitering or congregating in the neighborhood of the steel foundries for the purpose of aiding or encouraging others in these things, and from picketing or maintaining at or near the womens of the maintaining at or near the premises of the foundries, or on the streets leading to the premises of the foundries, any picket or pickets to obstruct or interfere with the foundries in the free and unrestricted control and operation of the plant is plant.

in of its plant.

"This is a picketing case," said Chief Justice Taft. "Only two men in the employ of the foundries had responded to the calling of the strike by the Tricity council. They were picketers, were defendants and were enjoined. Only one of them was a member of a union of that council. The case involves, as to them, the application of section 20 of the Clayton act, of which the provisions material here are those which forbid an injunction in behalf those which forbid an injunction in behalf of an employer against, first, persuading others by peaceful means to cease employment and labor; second, attending at any place where such person or persons may lawfully be for the purpose of peacefully obtaining or communicating information; third, peaceably assembling in a lawful manner and for lawful purposes. lawful purposes.

for lawful purposes.
"The act emphasizes the words 'peaceable' and 'lawful' throughout the phrases which and 'lawful' throughout the phrases which the phras and 'lawful' throughout the phrases which were used. We do not think that these declarations introduced any new principle into the equity jurisprudence of the federal courts. They are merely declaratory of what was the best practice always.

"Congress thought it wise to stabilize this rule of action and to render it uniform. Its object was to resorble the rights of the error.

rule of action and to render it uniform. Its object was to reconcile the rights of the employer in his business and in the access of his employes to his place of business without intimidation or obstruction, on the one hand, and the right of the employes, recent or expectant, to use peaceable and lawful means to induce prudent principals and would be employes to join their ranks on the other. "If, in their attempts at persuasion or communication, those of the labor side adopt methods which, however lawful in their announced purpose, inevitably lead to intimidation and obstruction, then it is the court's duty—and the terms of section 20 do not modify this—so to limit what the propagandists

tity this—so to limit what the propagandists do as to time, manner and place as to prevent infractions of the law and violations of the right of the employes and of the employers for whom they wish to work.

Workers Must Not Be Molested.

"In going to and from work men have a right to as free passage without obstruction as the streets afford, consistent with the right of others to enjoy the same privilege. We are a social people and the accosting by one of another in an inoffensive way and offer by the one to communicate and discuss information with a view to influencing the other's action are not regarded as aggression. or a violation are not regarded as aggression, or a violation of that other's right.

"If, however, the offer is declined, as it may rightfully be, then persistence, importunity and following do become unjustifiable tunity and following do become unjustifiable annoyance and obstruction which is likely soon to savor of intimidation. The nearer this is to the place of business the greater the interference with the business and especially with the property right of access of the employer. Such an attempted discussion attracts the curious, or, it may be, interested bystanders. They increase the obstruction as well as the aspect of intimidation which the situation quickly assumes.

well as the aspect of infimitation which the situation quickly assumes.

"In the present case, under the conditions which the evidence discloses, all information tendered, all arguments advanced and all persuasion used were intimidation—they could

sussion used were intimidation—they could not be otherwise.

"It is idle to talk of peaceful communication in such a place and under such conditions. The numbers of the pickets in the groups constituted intimidation. The name groups constituted intimidation. The name picket indicated a militant purpose, inconsistent with peaceful persuasion. The employes were made to tun the gantlet. When one or more assaults or disturbances ensued they characterized the whole campaign, which became effective because of its intimidating characterized the admonitions given by the acter, in spite of the admonitions given by the leaders to their followers as to lawful meth-

leaders to their followers as to lawful methods to be pursued, however sincere.

"Our conclusion is that picketing thus instituted is unlawful and cannot be peaceable, and may be properly enjoined by the specific term of 'picketing' because its meaning is clearly understood in the subset of the conterm of 'picketing' because its meaning is clearly understood in the sphere of the controversy by those who are parties to it. We are supported in that view by many well-reasoned authorities, although there has been contrariety of view. A restraining order against picketing by that name will advise earnest advocates of labor's cause that the law does not look with favor on an enforced discussion of the merits of the issue between individuals who wigh to work and groups of discussion of the merits of the issue setwern individuals who wish to work and groups of those who do not, under conditions which subject the individuals who wish to work to a severe test of their nerves and physical strength and courage.
"But while this is so we must have every

"But while this is so we must have every regard for the congressional intention manifested in the act to the principle of existing law which it declared that ex-employes and others properly acting with them shall have an opportunity, so far as is consistent with peace and law, to observe who are still working for the employer, to communicate with them and to persuade them to join the ranks of his opponents in a lawful, economic

struggle.

Right to Work Is Primary.

the rights "Regarding as primary the rights of the employes to work for whom they will, and to go freely to and from their place of labor, and keeping in mind the right of the employer incident to his property and business to free access of such employes, what can be done to reconcile the conflicting interests? terests?

"Each case must turn on its own circumstances. It is a case for the flexible, remedial

power of a count of equity which may try one mode of restraint, and if it fails or proves to be too drastic may thange it."

TRUAX RESTAURANT CASE.

TRUAX RESTAURANT CASE.

Arizona Anti-Injunction Law Construed.
By a vote of five to four the United States
Supreme court decided on Dec. 19, 1921, that
a state has no authority to make laws prohibiting the granting of injunctions to restrain labor unions from peaceful picketing.
Chief Justice Taft delivered the majority opinion, with Justices Day, Van Devanter, Mckenna and McReynolds concurring. Justices
Brandeis, Pitney, Holmes and Clarke dissented.
The case came before the Supreme court on
the appeal of William Truax, a restaurant
keeper in Bisbee, Ariz., against the Cooks'
and Waiters' union, which called a strike
against him because he refused to put In
operation an eight-hour day for his employes.
The union established pickets outside the
restaurant displaying banners describing it as
"unfair to union labor" and asking patrons
to boycott the place. When the case reached
the Arizona Supreme court attention was
called to a statute enacted in 1913 forbidding
the courts to issue injunctions against peaceful picketing and boycotting. The Arizona
court held that, under the statute, loss might
be inflicted upon the plaintiff's property and ful picketing and boycotting. The Arizona court held that, under the statute, loss might be inflicted upon the plaintiff's property and business by picketing in any form if violence was used, and that because no violence was shown or claimed, the campaign of picketing, as described, did not unlawfully invade the complainant's rights.

After reciting the history of the case and quoting the anti-injunction law, Chief Justice Taft said the Arizona Supreme court had refused an injunction applied for by Truax, and

fused an injunction applied for by Truax, and

"The ruling of the Supreme court proceeded, "The ruling of the Supreme court proceeded, first, on the assumption that the gravamen of the complaint was that the defendants were merely inducing patrons to cease their patronage by making public the fact of the dispute and the attitude of plaintiffs in it, and, secondly, on the proposition that while good will is a valuable factor in business success, 'no man has a vested right in the esteem of the public,' that while the plaintiffs had a clear right to refuse the demand of the union, the union had a right to advertise the cause of the strike.

"The court held that the purpose of paragraph 1464 of the state law was to recognize the right of workmen on a strike to graph 1464 of the state law was to recognize the right of workmen on a strike to use peaceable means to accomplish the lawful ends for which the strike was called; that picketing, if peaceably carried on for a lawful purpose, was no violation of the rights of the person whose place of business was picketed; that, prior to the enactment of paragraph 1464, picketing was unlawful in Arizona because it was presumed to induce breaches of the peace, but that plaintiffs had no vested right to have such a rule of law continue in that state; that under paragraph 1464 picketing was no longer conclusively presumed to be unlawful; that the paragraph simply dealt with a rule of evidence requiring the courts to substitute evidence of the nature of the act for the 'presumption otherwise arising; that the plaintiffs' property rights were not invaded by picketing unless the picketing interfered with the free conduct of the business; that plaintiffs did not claim that defendants had by violent means invaded their rights, and that if that kind of picketing were charged and established by proof plaintiffs would be entitled to relief to the extent of prohibiting violence in any form.

"The effect of this ruling is that under the statute, loss may be inflicted upon the

plaintiffs' property and business by 'picket-ing' in any form if violence be not used, and that because no violence was shown or claimed, the campaign carried on, as described in the complaint and exhibits, did not un-lawfully invade complainants' rights.

Means Used Were Illegal.

Means Used Were Illegal.

"The real question here is, Were the means used illegal? The recital of what the defendants did can leave no doubt of that. The libelous attacks upon the plaintiffs, their business, their employes and their customers, and the abusive epithets applied to them were palpable wrongs. They were uttered in aid of the plan to induce the plaintiffs customers and would-be customers to refrain from patronizing the plaintiffs. The patrolling of defendants immediately in front of the restaurant on the main street and within five feet of plaintiffs' premises continuously during business hours, with the banners announcing plaintiffs' premises continuously during business hours, with the banners announcing plaintiffs' unfairness; the attendance by the picketers at the entrance to the restaurant and their insistent and loud appeals all day long; the constant circulation by them of the libels and epithets applied to employes, plaintiffs and customers, and the threats of injurious consequences to future customers, all linked together in a campaign were an unlawful annoyance and a hurtful nuisance in respect of the free access to the plaintiffs' place of business.
"It was not lawful persuasion or inducing." place of business.

"It was not lawful persuasion or inducing.

"It was not lawful persuasion or inducing.
It was not a mere appeal to the sympathetic aid of would-be customers by a simple statement of the fact of the strike and a request to withhold patronage. It was compelling every customer or would-be enstomer to run the gantlet of most uncomfortable publicity. aggressive and annoying importunity, libelous and fear of injurious consequences illegally inflicted to their reputation and standing in the community. No wonder that a business of \$50,000 was reduced to only one; fourth of its former extent. Violence could not have been more effective. It was moral not have been more elective. It was moral coercion by illegal annoyance and obstruction and it was thus plainly a conspiracy.

"A law which operates to make lawful such

a wrong as is described in plaintiffs' complaint deprives the owner of the business and the premises of his property without due process, and cannot be held valid under the fourteenth

amendment.

"With these views of the meaning of the equality clause it does not seem possible to escape the conclusion that by the clauses of paragraph 1464 of the revised statutes of Ariscons home relief around by the defendants Arizona, here relied upon by the defendants as construed by its Supreme court, the plaintiffs have been deprived of the equal protec-

tion of the law.
"It is argued that, while the right to conduct a lawful business is property, the condi-tions surrounding that business, such as regu-tions of the state for maintaining peace, good order and protection against disorder, are matorder and protection against disorder, are matters in which no person has a vested right. The conclusion to which this inevitably leads in this case is that the state may withdraw all protection to a property right by civil or criminal action for its wrongful injury if the interval was to expend by violence.

injury is not caused by violence.
"It is true that no one has a vested right in any particular rule of the common law, but it is also true that the legislative power of a state can only be exerted in subordination to the fundamental principles of right and justice which the guaranty of due process in the fourteenth amendment is intended to preserve. and that a purely arbitrary or capricious exercise of that power, whereby a wrongful and highly injurious invasion of property rights, as here, is practically sanctioned and

the owner stripped of all real remedy, is wholly at variance with these principles. "It is to be observed that this is not the mere case of a peaceful secondary boycott, as to the illegality of which courts have differed and states have adopted different statutory provisions. A secondary boycott of this kind is where many combine to injure one in his business by coercing persons against their will to cease patronizing him by threats or similar injury. In such a case the many have a legal

to cease patronizing him by threats or similar injury. In such a case the many have a legal right to withdraw their trade from the one, they have the legal right to withdraw their trade from there one, they have the legal right to withdraw their trade from third persons and they have the right to advise third persons of their intention to do so when each act is considered singly. "The question in such cases is whether the moral coercion exercised over a stranger to the original controversy by steps in themselves legal becomes a legal wrong. But here the illegality of the means used is without doubt and fundamental. The means used are the libelous and abusive attacks on the plaintiffs' reputation, like attacks on their employes and customers. Threats of such attacks on would-be customers, picketing and proyes and customers. Threats of such attacks on would be customers, picketing and patrolling of the entrance to their place of business and the consequent obstruction of tree access thereto—all with the purpose of depriving the plaintiffs of their business.

"To give operation to a statute whereby serious losses inflicted by such unlawful means

serious losses inflicted by such unlawful means are in effect made remediless is, we think, to disregard fundamental rights of liberty and property and to deprive the person suffering the loss of due process of law.

"If, however, contrary to the construction which we put on the opinion of the Supreme court of Arizona, it does not withhold from the plaintiffs all remedy for the wrongs they suffered but only the equitable relief of insuffered but only the equitable relief of insuffered, but only the equitable relief of injunction, there still remains the question junction, there still remains the question whether they are thus denied the equal pro-

whether they are thus defined the equal pro-tection of the laws.
"Under the Arizona constitution the plain-tiffs in error would have had the right to an tiffs in error would have had the right to an injunction against such a campaign as that conducted by the defendants in error, if it had been directed against the plaintiffs' business and property in any kind of conspiracy which was not a dispute between employer and former employes. If the competing restaurant keepers in Bisbee had inaugurated such a campaign against the plaintiffs in error and conducted it with banners and handbills of a similar character, an injunction would necessarily have issued to protect the plaintiffs in the enjoyment of their property and business. and business.

# Entitled to Protection.

"This brings us to consider the effect in this case of that provision of the fourteenth amendment which forbids any state to deny to any person the equal protection of the laws. The clause is associated in the amendment with the discussion of the laws. laws. The clause is associated in the ancient ment with the due process clause, and it is ment with the due process clause, and it is customary to consider them together. It may be that they overlap, that a violation of one may involve at times the violation of the other, but the spheres of protection they offer

other, but the spheres of protection they offer are not coterminous.

"The due process clause brought down from magna charta was found in the early state constitutions and later in the fifth amendment to the federal constitution as a limitation upon the executive, legislative and judicial powers of the federal government, while the equality clause does not appear in the fifth amendment and so does not apply to congressional legislation.

gressional legislation.

"The due process clause requires that every man shall have the protection of his day in court and the benefit of the general law. a law which hears before it condemns, which

proceeds not arbitrarily or capriciously, but upon inquiry, and renders judgment only after trial, so that every citizen shall hold his life, liberty, property and immunities under the protection of the general rules which govern society. It, of course, aims to secure equality of law in the sense that it makes a required minimum of protection for every one's right of life, liberty and property, which the congress or the legislature may not withhold.

All Equal Before the Law.

"Our whole system of law is predicated on the general fundamental principle of equality of application of the law, 'All men are equal before the law,' 'This is a government of laws and not of men,' 'No man is above the law,' are all maxims showing the spirit in which legislatures, executives and courts are expected. to make, rule and apply laws. But the framers and adopters of this amendment were not content to depend on a mere minimum secured

content to depend on a mere minimum secured by the due process clause, or upon the spirit of equality which might not be insisted on by local public opinion. They, therefore, em-bodied that spirit in a specific guaranty. "The guaranty was aimed at undue favor and individual or class privilege, on the one hand, and at hostile discrimination, or the oppression of inequality, on the other. It sought an equality of treatment of all per-sons, even though all enjoyed the protection of due process.

sons, even though all enjoyed the protection of due process.
"If, as claimed, the legislature has full discretion to grant or withhold equitable raise in the control of th any classes of cases—indeed, to take away from its courts all equity and leave those who are wronged to suits at law or to protection by the criminal law—the legislature has the same power in respect to the declaration of crimes. Suppose the legislature of the state were to provide that such acts as were here committed by defendants—to wit, the picketing or patrolling of the sidewalk and street in front of the store or business house of any person, and the use of handbills of an abusive and libelous character against the owner and present future customers, with inent to inture the business of the owner same power in respect to the declaration of tent to injure the business of the owner—should be a public nuisance and be punishable by fine and imprisonment, and were to except ex-employes from its provisions. Is it not clear that any defendant could escape punishment under it on the ground that the statute violated the equality clause of the fourteenth amendment?

"It is urged that in holding paragraph 1464 invalid we are in effect holding invalid section 20 of the Clayton act. Of course, we are not doing so. In the first place, the equality clause of the fourteenth amendment does not apply to congressional, but only to state, action. In the second place, section 20 of the Clayton act never has been construed or applied as the Supreme court of Arizona has construed and applied paragraph 1464 in

this case.

"We conclude that the demurrer in this case should have been overruled, the defendants required to answer, and that if the evidence sustain the averments of the complaint an

sustain the averments of the complaint an injunction should issue as prayed.

"Objection is made to this conclusion on the ground that as we hold certain clauses of paragraph 1464 of the Arizona code, as construed, invalid, they cannot be separated from paragraph 1456, which must also be held invalid, and then there is no law in Arizona authorizing an injunction in this or any case. Paragraph 1456 has been the statute law of Arizona, state and territory, since 1901. It was first adopted in the code of the territory of 1901. It was continued in force by virtue of the new constitution of Arizona adopted by the people in 1902, which merely

changed the name of the court upon which general equity jurisdiction was conferred from the District court to the Superior court, and which provided that the authority, jurisdiction, practice and procedure of the District courts should continue in force and apply and govern Superior courts until altered or repealed.

"Arizona came into the upica and apply and govern superior courts until altered or repealed.

"Arizona came into the union with this constitution Feb. 14, 1912. At the session of 1912 provision was made for revision and codification of the laws. The present code was adopted by the legislature at its third special session of 1913.

"Section 1464 was passed, as the code itself states, at the second session of 1913. Thus paragraph 1464 was an amendment to paragraph 1456, and was included with the original transfer of the second session of 1913. section in the code revision of 1913. invalidate paragraph 1456 we must assume that had the legislature known that the that had the legislature known that the clauses of paragraph 1464 here involved, construed as the Arizona Supreme court has construed them, were unconstitutional, it would have repealed all the existing law conferring the equitable power of injunction in its first instance on courts of general jurisdiction. We cannot make this assumption. The exception introduced by amendment to paragraph 1456 proving invalid, the original law stands with-

out the amendatory exception.

"The judgment of the Supreme court of Arizona is reversed and the case remanded for further proceedings ont inconsistent with this opinion."

BUCK'S STOVE COMPANY BOYCOTT CASE.

Proceedings were brought in the Supreme court of the District of Columbia in August, 1907, against the officers of the American Federation of Labor to enjoin them from conducting a boycott against the Buck's Stove

and Range Company of St. Louis, Mo., by advertising that the concern was on the "unfair" and "we don't patronize" lists of the federation's official organ. The injunction was issued by Judge Gould Dec. 23, 1907. On the plea that the injunction was being violated proceedings for contempt of court were brought proceedings for contempt of court were brought against Samuel Gompers, president; John Mitchell, vice-president, and Frank Morrison, secretary of the federation. They were declared guilty by Justice Wright of the Supreme court of the District of Columbia Dec. 23, 1908. Mr. Gompers was sentenced to one year's imprisonment, Mr. Mitchell to nine months' and Mr. Morrison to six months' imprisonment. They were admitted to bail and the case was taken to the Court of Appeals of the District of Columbia, which tribunal decided Nov. 2, 1909, that the decree against them was valid. them was valid.

An appeal was taken to the United States Supreme court, which on May 15, 1911, reversed the judgments of the lower courts and remanded the case. May 5, 1913, the Court of Appeals of the District of Columbia again of Appears of the District of columbia again affirmed the original findings in the contempt case, but reduced Mr. Gompers' sentence to thirty days in jail and held that Mitchell and Morrison should be exempt from prison sentences, but should each pay a fine of \$500. June 19, 1913, Chief Justice White of the United States Supreme court granted an appeal by the defendants that the case he heard peal by the defendants that the case be heard again by the highest tribunal.

again by the highest tribunal.
May 11, 1914, the United States Supreme court set aside the sentences imposed upon Gompers, Mitchell and Morrison on the ground that they were barred by the statute of limitations. Justice Holmes, who read the opinion, held that the contempt proceedings should have been begun within three years from the date of the offense.

# UNINCORPORATED LABOR UNIONS SUABLE.

CORONADO COAL CASE DECISION.

In a decision announced June 5, 1922, the United States Supreme court held that unin-United States Supreme court held that unincorporated labor unions are suable in the federal courts for their acts and that funds accumulated to be expended in conducting strikes are subject to execution in suits for torts committed by such unions in striker. The case was an appeal by the United Mine Workers of America and sixty-five individuals, from a decision by the United States District court for the western district of Arkansas, approved by the United States Circuit Court of Appeals for the 8th district, holding them suilty of violating the Sherman autitrust act in the course of the coal mine strikes in Arkansas in 1914, and imposing damages in Arkansas in 1914, and imposing damages of \$200,000, which were trebled under the antitrust law.

History of Case.

The title of the case before the court was "The United Mine Workers of America, et al., plaintiffs in error, vs. The Coronado Coal company, et al. In error to the United States Circuit Court of Appeals of the 8th circuit." The plaintiffs in the District court were the receivers of the Bache-Denman Coal company and eight other corporations in each of which the first mamed company owned a controlling amount of stock. Their mines were in Prairie Creek valley, Sebastian county, Arkansas. Arkansas.

The defendants in the court below were The defendants in the court below were the United Mine Workers of America and its officers, district 21 of the United Mine Workers of America and its officers, twenty-seven local unions in district No. 21 and their officers, and sixty-five individuals, mostly members of one union or another, but includ-

ing some persons not members, all of whom were charged in the complaint with having entered into a conspiracy to restrain and monopolize interstate commerce, in violation of the first and second sections of the antitrust act and with having, in the course of that conspiracy, and for the purpose of consummating it, destroyed the plaintiff's properties. Treble damages for this and an attorney's fee were asked under the seventh section of the act.

The original complaint was filed in Septem-

The original complaint was filed in September, 1914, about six weeks after the destruction of the property. It was demurred to, and the District court sustained the demurrer. This was carried to the Court of Appeals on error, and the ruling of the District court was reversed, Dowd vs. United Mine Wokers, 235 Fed. 1. The case then came to trial on the third amended complaint and answers of the defendants. The trial resulted in a verdict of \$200,000 for the plaintiffs, which was trebled by the court, and to which was added a counsel fee of \$25,000 and interest to the amount of \$120,600 from July 17, 1914, the amount of \$120,600 from July 17, 1914, the date of the destruction of the property, to Nov. 22, 1917, the date upon which judgment was entered.

The verdict did not separate the amount

between the companies. On a writ of error from the Court of Appeals the case was reversed as to the interest, but in other respects the judgment was affirmed. 258 Fed. 829. The defendants, the international union and district No. 21, have given a supersedeas bond to meet the judgment if it is affirmed against both or

either of them.

The third amended complaint avers that of the nine companies, of which the plaintiff was the receiver and for which he was bringing suit, five were operating companies engaged in mining coal and shipping it in interstate commerce, employing in all about 870 men and mining an annual product when working to their capacity valued at \$465,000, of which 75 per cent was sold and shipped to customers To per cent was sold and shipped to customers outside of the state. Of the five operating companies one was under contract to operate the properties of two of the others and four nononcerating companies were each financially interested in one or more of the operating companies, either by lease, by contract or by the ownership of all or a majority of their cited.

The defendant, the United Mine Workers of America, is alleged to be an unincorporated association of mine workers, governed by a constitution, with a membership exceeding 400,000, subdivided into thirty districts and numerous local unions. These subordinate districts and an experience of the control of th numerous local unions. These subordinate districts and unions are subject to the constitution and by-laws not only of the international union but also to constitutions of their

The complaint avers that the United Mine Workers divide all coal mines into two classes, union or organized mines operating under a contract with the union to employ only union miners, and open shop or nonunion mines, which refuse to make such a contract; that which refuse to make such a contract; that, owing to the unreasonable restrictions and regulations imposed by the union on organized mines, the cost of production of union coal is unnecessarily enhanced so as to prevent its successful competition in the markets of the country with nonunion coal; that the object of the conspiracy of the United Mine Workers and the union operators, acting with them, is the protection of the union mined coal by the prevention and restraint of all interstate trade and competition in the products of nonunion and competition in the products of nonunion

The complaint enumerates twenty-three states in which coal mining is conducted and alleges that the coal mined in each comes into competition in interstate commerce directly or indirectly with that mined in Illinois, Kentucky, Alabama, New Mexico, Colorado, Kansas, Oklahoma and Arkansas, in the markets of Louisiana, Texas, Oklahoma, Nebraska, Kansas, Missouri, Iowa and Minnesota, where, but for the defendants' unlawful interference, but for the defendants' unlawful interference, claintiffs would have been engaged in trade in plaintiffs would have been engaged in trade in 1914; that the bituminous mines of the greater part of the above territory are union mines, the principal exception being Alabama, West Virginia, parts of Pennsylvania and Colorado, which the defendant has thus far been unable

The complaint further avers that early in 1914 the plaintiff companies decided that the operating companies should go on a nonunion or open shop basis. Two of them, the Prairie Creek Coal Mining company and the Mammoth Vein Coal company, closed down and discontinued as union mines, preparatory to reopening as open shop mines in April. They were ing as open shop mines in April. They were to be operated under a new contract by the Mammoth Vein Coal Mining company.

Another of the companies, the Hartford cal company, which had not been in opera-Another of the compames, the narmora Coal company, which had not been in operation, planned to start an open shop mine as soon as convenient in the summer of 1914. The fifth, the Coronado Coal Mining company, continued operating with the union until April 18, 1914, when its employes struck because of its unity of interest with the other mines of the plaintiffs.

The plaintiff says that in April, 1914, the

other mines of the plantiffs.

The plaintiff says that in April, 1914, the defendants and those acting in conjunction with them, in furtherance of the general conspiracy, already described, to drive nonunion coal out of interstate commerce, and thus to protect union operators from nonunion competition, drove and frightened away the

plaintiff's employes, including those directly engaged in shipping coal to other states, prevented the plaintiffs from employing other men, destroyed the structures and facilities for mining, loading and shipping coal, the cars of interstate carriers waiting to be loaded, as well as those already loaded with coal in and for interstate shipment, and prevented plain-tiffs from engaging in or continuing to engage in interstate commerce.

in interstate commerce,

The complaint alleges that the destruction
to the property in business amounted to the
sum of \$740,000, and asks judgment for three
times that amount, or \$2,220,000. Certain of
the funds of the mine workers in Arkansas
were attached. The defendants, the United
Mine Workers of America, district No. 21,
and each local union and each individual defendant filed a senarate answer.

fendant filed a separate answer.

The answers deny the averments of the complaint. The trial began on Oct. 24, 1917, and a verdict and judgment were entered on Nov. 22 following.

Opinion by Chief Justice.

Mr. Chief Justice Tatt, after stating the case, delivered the opinion of the court.

case, delivered the opinion of the court.
There are five principal questions pressed by the plaintiffs in error here, the defendants below. The first is that there was a misjoinder of parties plaintiff. The second is that the United Mine Workers of America, district No. 21 United Mine Workers of America, and the local unions made defendants, are unincorporated associations and not subject to suit and therefore should have been dismissed from the case on motions

been dismissed from the case on motions seasonably made.

The third is that there is no evidence to show any agency by the United Mine Workers of America in the conspiracy charged or in the actual destruction of the property, and no liability therefor. The fourth is that there is no evidence to show that the conspiracy alleged against district No. 21 and the other defendants was a conspiracy to restrain or monopolize interstate commerce. The fifth is that the court erred in a supplementary charge

defendants was a conspiracy to restrain or monopolize interstate commerce. The fifth is that the court erred in a supplementary charge to the jury, which so stated the court's view of the evidence as to amount to a mandatory direction coercing the jury into finding the verdict which was recorded.

In regard to the first point the court held that there had been no misjoinder of parties, As to the second point the opinion of the court, in view of its importance, is given herewith in full.

Were the unincorporated associations, the international union, district No. 21, and the local unions suable in their names?

The United Mine Workers of America is a national organization, Indeed, because it embraces Canada it is called the international union, Under its constitution, it is intended to be the union of all workmen employed in and around coal mines, coal washers and coke ovens on the American continent. Its declared purpose is to increase wages and improve conditions of employment of its members by legislation, conclination, joint agreements and strikes. It demands not more than eight hours a day of labor. ments and strikes. It demands not more than eight hours a day of labor. The union is composed of workmen eligible

The union is composed of workmen eligible to membership and is divided into districts, subdistricts and local unions. The ultimate authority is a general convention to which delegates selected by the members in their local organizations are elected.

The body governing the union in the interval between conventions is the international board, consisting of the principal officers, the president, vice-president, and secretary-treasurer, together with a member from each district. district.

The president has much power. He can remove or suspend international officers, ap-

points the national organizers and subordi-nates and is to interpret authoritatively the constitution, subject to reversal by the inter-national board. When the board is not in session the individual members are to do what he directs them to do. He may dispense with initiation fees for admission of new locals and members.

members.

The machinery of the organization is directed largely toward propaganda, conciliation of labor disputes, the making of scale agreements with operators, the discipline of officers, members, districts and locals, and toward strikes and the maintenance of funds for that purpose. It is admirably framed for unit action under the direction of the national officers.

officers.

It has a weekly journal, whose editor is appointed by the president, which publishes all official orders and circulars, and all the union news. Each local union is required to be a subscriber, and its official notices are to be brought by the secretary to the attention of the members. The initiation fees and dues collected from each member are divided becollected from each member are divided be-tween the national treasury, the district treas-ury and that of the local. Should a local dissolve, the money is to be transmitted to the national treasury.

Rules as to Strikes.

The rules as to strikes are important here. Section 27 of the constitution is as follows: "The board shall have power between coventions, by a two-thirds vote, to recommend the calling of a general strike, but under no circumstances shall it call such strike until approved by a referendum vote of the members.

bers."

Under article 16 no district is permitted to engage in a strike involving all or a major portion of its members without sanction of the international convention or board.

Section 2 of that article provides that districts may order local strikes within their respective districts "on their own responsibility, but where local strikes are to be financed by the international union they must be sanctioned by the international board."

Section 3 provides that in unorganized fields the convention or board must sanction strikes and no financial aid is to be given until after

the convention or board must sanction strikes and no financial aid is to be given until after the strike has lasted four weeks, unless otherwise decided by the board. The board is to prescribe conditions in which strikes are to be financed by the international union and the amount of strike relief to be furnished the striking members. In such cases the president appoints a financial agent to assume responsibility for money to be expended from the international funds, and the only can make binding contracts. There is a uniform system of accounting as to the disbursements for strikes. strikes.

Membership and Dues.

The membership of the union has reached The membership of the union has reached 450,000. The dues received from them for the national and district organizations make a very large annual total, and the obligations assumed in traveling expenses, holding of conventions, and the general overhead cost, but most of all in strikes, are so heavy that an extensive financial business is carried on, noney is horrowed notes are given to banks. an exemisive inflancial dusiness is carried on, money is borrowed, notes are given to banks, and in every way the union acts as a business entity, distinct from its members. No organized corporation has greater unity of action, and in none is more power centered in the governing executive bodies.

Undoubtedly at common law an unincor-porated association of persons was not recognized association of persons was not recog-nized as having any other character than a partnership in whatever was done, and it could only sue or be sued in the names of its members, and their liability had to be enforced against each member. Pickett vs. Walsh, 192 Mass., 572: Karges Furniture company vs. Amalgamated Wood Workers, local union, 165 Ind., 421; Baskins vs. United Mine Workers (Ark.), decided Nov. 7, 1921 (234 S. W. 464).

Rut the growth and necessities of these great labor organizations have brought affirmative legal recognition of their existence and usefulness and provisions for their protection, which their members have found necessary. Their right to maintain strikes, when they do not violate law or the rights of others, has been declared. The embezzlement of funds by their officers has been especially denounced as a crime, the so-called union label, which is a quasi trademark to indicate the origin of manufactured products in union labor, has been protected against pirating and deceptive use by the statutes of most of the states, and in many states authority to sue to enjoin its use has been conferred on unions. ferred on unions.

They have been given distinct and separate representation and the right to appear to represent union interests in statutory arbitrations, and before official labor boards. We insert in the margin an extended reference, "Furnished by the industry of counsel," to legislation of this kind, [Omitted.]

legislation of this kind. [Omitted.]

More than this, equitable procedure adapting itself to modern needs has grown to recognize the need of representation by one person of many, too numerous to sue or to be sued (Story equity pleadings, 8th ed. sec. 77; 94 and 97; St. Germain vs. Bakery union, 97 Wash., 282; Branson vs. Industrial Workers of the World, 30 Nevada 270; Barnes vs. Chicago Typographical union, 232 Ill., 402); and this has had its influence upon the law side of litigation, so that out of the very necessities of existing conditions and the utter impossibility of doing justice otherwise, the necessities of existing conditions and the utter impossibility of doing justice otherwise, the suable character of such an organization as this has come to be recognized in some juris-dictions and many suits for and against labor unions are reported in which no question has been raised as to the right to treat them in their closely united action and functions as artificial persons capable of suing and being sued.

sued.

It would be unfortunate if an organization with as great power as this international union has in the raising of large funds and in directing the conduct of 400,000 members in carrying on, in a wide territory, industrial controversies and strikes, out of which so much unlawful injury to private rights is possible, could assemble its assets to be used therein free from liability for injuries by torts committed in course of such strikes. To remand persons injured to a suit against each of the 400,000 members to recover damages and to levy on his share of the strike fund would be to leave them remediless.

would be to leave them remediless.

In the case of Taff Vale company vs. Amalgamated Society of Railway Servants, 1901,

A. C., 426, an English statute provided for the A. C., 420, an Engiss ssatute provided for the registration of trade unions, authorizing them to hold property through trustees, to have agents, and provided for a winding up and a rendering of accounts. A union was sued for damages growing out of a strike. Mr. Justice Farwell, meeting the objection that

the union was not a corporation and could not be sued as an artificial person, said: "If the contention of the defendant society were well founded the legislature has authorized the creation of numerous bodies of men capable of owning great wealth and of action capacie of owning great weath and of action by agents with absolutely no responsibility for the wrongs that they may do to other persons by the use of that wealth and the employment of those agents."

He therefore gave judgment against the union. This was affirmed by the house of

lords. The legislation in question in that case did not create trade unions but simply recognized their existence and regulated them in certain ways, but neither conferred on them general power to sue, nor impose liability to be sued. See also Hillenbrand vs. Building Trade Council, 14 Ohio D. C. N. P. 628. Holland jurisprudence, 12th ed. 341; Pollock's first book on jurisprudence. 2d ed. 125.

#### Suability of Trade Unions.

Suability of Trade Unions.

Though such a conclusion as to the suability of trade unions is of primary importance in the working out of justice and in protecting individuals and society from possibility of oppression and injury in their lawful rights from the existence of such powerful eatities as trade unions, it is after all in essence and principle merely a procedural matter. As a matter of substantive law, all the members of the union engaged in a combination doing unlawful injury are liable to suit and recovery, and the only question is whether when they have voluntarily, and for the purpose of acquiring concentrated strength and the faculty of quick unit action and elasticity, created a self-acting body with great funds to accomplish their purpose, they may not be sued as this body, and the funds they have accumulated may not be made to satisfy claims for injuries unlawfully caused in carrying out their united purpose. ing out their united purpose.

Trade unions have been recognized as lawtrade umons have been recognized as lawful by the Clayton act; they have been tendered formal incorporation as national unions by the act of congress approved June 29, 1886 [24 stat. 86], in the act of June 29, 1886 [24 stat. 86], 1912 [37 stat. 415], a commission on industrial relations was created providing that three of the commissioners should represent organized labor.

The transportation act of 1920, sections 302-307 [41 stat. 469], recognizes labor unions in creation of railroad boards of adjustment, and provides for action by the railroad labor board upon their application. The act of congress approved Aug. 5, 1909, Chap. 6, Sec. 38, 36, stat. 112, and the act approved Oct. 3, 1913, Chap. 16, Subd. G. A. [33 stat. 172], expressly exempt labor unions from excise taxes.

Periodical publications issued by or under the auspices of trade unions are admitted into the mails as second-class mail matter. Acts of 1911, 1912, Chap. 389 [37 stat, 550]. The legality of labor unions of postal employes is expressly recognized by act of congress, approved Aug. 24, 1912, Chap. 389, Sec. 6 [37 stat. 539, 555]. By act of congress, passed Aug. 1, 1914, no money was to be used from funds therein appropriated to prosecute unions under the antitrust, act prosecute unions under the antitrust act [38 stat. 609, 652].

In this state of federal legislation we think that such organizations are suable in the federal courts for their acts, and that funds accumulated to be expended in conducting strikes are subject to execution in suits for strikes are subject to execution in suits for torts committed by such unions in strikes. The fact that the Supreme court of Arkansas has since taken a different view in Baskins vs. the United Mine Workers of America, supra, cannot under the conformity act operate as a limitation on the federal procedure in this regard.

Our conclusion as to the suability of the defendants is confirmed in the case at bar by the words of sections 7 and 8 of the anti-trust law. The persons who may be sued under section 7 include "corporations and associations axisting under or outhorized by the sociations existing under or authorized by the laws of either the United States, or the laws of any of the territories, the laws of any state, the laws of any foreign country." Come Under Sherman Act.

The language is very broad and the words given their natural signification certainly in-clude labor unions like these. They are, as has been abundantly shown, associations ex-isting under the laws of the United States, of the territories thereof and of the states of the union. Congress was passing drastic legisla-tion to remedy a threatening danger to the public welfare and did not intend that any persons or combinations of persons should escape its application Their thought was espe-cially directed against business associations and combinations that were unincorporated to do the things forbidden by the act, but they used language broad enough to include all associations which might violate its provisions organized by the statutes of the United States or the states or the territories, or foreign countries as lawfully existing; and this of course, includes labor unions, as the legisla-

course, includes labor unions, as the legislation referred to shows.

Thus it was that in the cases of United States vs. Trans-Missouri Freight association, 166 U. S. 29; United States vs. Joint Traffic association, 171 U. S. 505; Montague & Co. Vs. Lowry, 193 U. S. 38, and Eastern States Lumber association vs. United States, 234 U. S. 600, unincorporated associations were made parties to suits in the federal courts under the antitrust act without question by any one as to the correctness of the procedure.

cedure.

For these reasons we conclude that the international union, the district No. 21 and the twenty-seven local unions were properly made parties defendant here and properly served by

process on their principal officers.

process on their principal officers.

In regard to the third point the court held that the evidence did not sustain the contention that the United Mine Workers of America interfered with the coal company's business and that the strike was a local one declared and conducted by a district organization. The decision also sustained the fourth contention of the mine workers that obstruction to coal mining was not obstruction to interstate commining was not obstruction to interstate com-merce. The Supreme court held that "coal merce. The Supreme court new that commining is not interstate commerce and the power of congress does not extend to its reg-ulation as such." The conclusions as to the first four questions made it unnecessary, in the opinion of the court, to examine the objection to the supplemental charge of the court below.

In conclusion the Supreme court said:
"The case has been prepared by counsel for the plaintiffs with rare assiduity and ability. the plaintiffs with rare assiduity and ability. The circumstances are such as to awaken regret that in our view of federal jurisdiction we cannot affirm the judgment. But it is of far higher importance that we should preserve inviolate the fundamental limitations in respect to the federal jurisdiction.

"The judgment is reversed and the case remanded to the district court for further proceedings in conformity to this opinion."

### INJUNCTION USED BY LABOR.

Ordinarily injunctions have been asked for and obtained by employers of labor in strikes, but in a case decided by Justice Robert F. Wagner of the New York State Supreme court, Wagner of the New York State Supreme court, on Jan, 11, 1922, the situation was reversed, and labor was the beneficiary of the legal procedure. The Cloak, Suit and Skirt Manufacturers' Protective association in New York city had a three-year agreement with the International Ladies' Garment Workers' union, the contract ending June 1, 1922. It covered wages and working conditions. In October, 1921, the employers, to meet competition in other cities, tried to introduce longer hours and wages on the piece-price plan. This was considered a violation of the contract by the employes and a strike ensued. An injunction was applied for by the garment workers and was granted temporarily by a lower court. This injunction was made permanent by Justice Wagner on the date named. In his decision he called upon the employers to cease "taking or continuing in any concerted action involving the violation or repudiation" of the existing agreement with the union. The justice remarked:

"It is elementary and yet sometimes requires emphasis that the door of a court of equity is open to employer and employe alike. It is no respecter of persons; it is keen to protect the legal rights of all. Heretofore the

employer alone has prayed the protection of a court of equity against threatened irrepara-ble illegal acts of the employe. "But mutuality of obligation compels a mutuality of remedy. The fact that the em-ployes have entered equity's threshold by a

hitherto untraveled path does not lessen their rights to the law's decree.
"Precedent is not our only guide in deciding these disputes, for many are worn out by time and made useless by the more enlightened and humans constitute of social. lightened and humane conception of social

justice. That progressive sentiment of advanced civilization which has compelled legislative action to correct and improve conditions which a proper regard for humanity would no longer tolerate cannot be ignored by the courts. Our decisions should be in harmony with that modern conception and not in defigure of the fiance of it.

"It can not be seriously contended that the plaintiffs have an adequate remedy at law. That the damages resulting from the alleged violation of the agreement would be irremediable at law is too patent for discussion. There are over 40,000 workers whose with the content of the rights are involved and over 300 detendant organizations. The contract expires within six months, and a trial of the issues can hardly be held within that time. It is unthinkable that the court should force litigants into a court of law. A court of equity looks to the substance and essence of things, and are involved and over 300 defenddisregards matters of form and technical niceties."

The issuance of the injunction resulted in the calling off of the strike and the reinstatement by the employers of the week-work system and the forty-four-hour week as provided in the original agreement.

#### SUMMIT OF MOUNT EVEREST NOT ATTAINED.

The members of the expedition organized in 1921 by the Royal Geographical society and the Alpine club of London to explore and if possible ascend Mount Everest. the highest peak in the world, made three heroic efforts to complete their mission in 1922, but failed to reach the summit by about 1,700 feet. On May 21 three members of the party, Somervell, Mallory and Norton, reached a point 26,800 feet up without the use of oxygen. On May 27 Cart. George Finch and Capt. Geoffrey Bruce reached a point about halfway between the northeast shoulder and the sumbetween the northeast shoulder and the summit of Everest, at an altitude of 27,300 feet. This they were enabled to do by means of the oxygen apparatus they carried with them. They had only about 1,700 feet to go, them. They had only about 1.700 feet to go, but they were completely fagged out and had to turn back. Both the records made on the 21st and 27th of May exceeded the highest altitude ever reached previously by any mountain climber. The old record was held by the duke of the Abruzzi, who in 1909 reached a height of 24,583 feet on Mt. Godwith Averta his Ludio. win-Austen in India.

The expedition made still another attempt to reach the summit on June 7, when Mallory, Somervell and Crawford and three parties of coolies started up the north col or shoulder. The members of each party were roped to-

gether. At first all went well, but when they were about halfway up the shoulder the snow field on which they were climbing save way and all the parties were carried down by an avalanche. Mallory, Somervell and Crawford with one porter slid 150 feet, but escaped unburt The second narty consisting of coolies. hurt. The second party, consisting of coolies, also escaped just as the slide reached the edge of a cliff. The other two parties were swent over the precipice. Seven of the porters fell over the precipice. Seven of the porters fell into a deep crevase and were buried by the avalanche. Six of the bodies were recovered. Four of the other porters were rescued with difficulty. This disaster put an end to the expedition's efforts to conquer Mount Everest. Many of the members suffered severely from frost bites and all were more or less disabled as the result of their extraordinary exertions. Gen. C. G. Bruce, leader of the expedition, expressed the opinion that from the experience gained in 1922 there was no reason to believe that a future effort to reach the tom

to believe that a future effort to reach the top would not be successful, though Everest had two powerful allies—the shortness of the sea-son in which climbing could be done at all and the terrible winds from the west sweeping its heights. The organization of another expedition to continue the effort to scale the mighty peak was under way toward the close of 1922.

#### DEATH OF EX-EMPEROR CHARLES I. OF AUSTRIA-HUNGARY.

Charles I., former emperor of Austria and king of Hungary, died in exile at Funchal, Madeira, April I, 1922, after an illness of about a week from pneumonia. Charles was born Aug 17, 1887, his father being Archduke Otto of Saxony and his mother Princess Marie-Josephe of Saxony. He was reared by his mother, as his father was a profligate and such a wreck mentally and physically as to make his confinement necessary. Charles attended the public schools in Vienna. Both here and later in the army he was democratic in his ways and was popular. When Archduke in his ways and was popular, when Archauge Francis Ferdinand was assassinated at Sarajevo on June 28, 1914, Charles became heir to the Austro-Hungarian throne, which he ascended on the death of the aged Francis Joseph Nov, 21, 1916. The defeat of Austria-Hungary and Germany in the great war and revolutionary movements both in Hungary and Austria commelled him to flee to Switzer. and Austria compelled him to flee to Switzer-land late in 1918.

Charles made two futile attempts to regain the throne of Hungary, the first in March and the second in October, 1921. On the first oc-casion he crossed the border in an automobile casion he crossed the border in an automouse and went to Budapest. There Admiral Horthy, the regent, refused to recognize him as king and he was compelled to return to Switzerland. On the second occasion he entered Hungary by airplane and attempted to regain power by force but was defeated and arrested. The force, but was defeated and arrested. The allies and the little entente (Czecho-Slovakia, Roumania and Jugo Slavia) demanded that he be exiled and in November he was sent to Madeira.

Princess married to Charles was married to Princess Zita, daughter of Duke Robert of Parma, of Bourbon descent, Oct. 21, 1911. Seven children were born to them, the oldest being Francis Joseph Otto, whose natal day was Nov. 20, 1912. The Hungarian royalists proclaimed him their candidate for the throne. Charles was

#### LIQUOR FOR MEDICINAL PURPOSES.

Act supplemental to the national prohibition act passed at the first session of the 67th congress and approved Nov. 23, 1921.

Be it enacted, etc., that the words "person," "commissioner," "application," "permit," regulation" and "liquor," and the phrase "intoxicating liquor," when used in this act, shall have the same meaning as they have in title 2

of the national prohibition act.

Section 2. That only spirituous and vinous liquor may be prescribed for medicinal purposes and all permits to prescribe and prescriptions for any other liquor shall be void. No physician shall prescribe nor shall any person sell or funishes any prescription any. son sell or furnish on any prescription any vinous liquor that contains more than 24 per centum of alcohol by volume, nor shall any one prescribe or sell or furnish on any prescription more than one-fourth of one gallon of vinous liquor, or any such vinous or spirit-uous liquor that contains separately or in the aggregate more than one-half pint of alcohol, for use by any person within any period of ten days. No physician shall be furnished with more than 100 prescription blanks for use in any period of ninety days, nor shall any physician issue more than that number of prescriptions within any such period unless on application therefor he shall make it clearly apparent to the commissioner that for some extraordinary reason a larger amount is necessary whereupon the necessary additional blanks may be furnished him. But this pro-vision shall not be construed to limit the sale of any article the manufacture of which is authorized under section 4, title 2, of the national prohibition act.

If the commissioner shall find after hearing, upon notice as required in section 5 of title 2 of the national prohibition act, that any article or the national prohibition act, that any article enumerated in subdivisions b, c, d or e of section 4 of title 2 of said national prohibition act is being used as a beverage, or for intoxicating beverage purposes, he may require a change of formula of such article, and in the event that such change is not made within a time to be named by the commissioner he may cancel the permit for the manufacture of such article unless it is made clearly to appear to the commissioner that such use can only occur in rare or exceptional instances, but such action of the commissioner may by appropriate proceedings in a court of equity be reviewed, as provided for in section 5, title 2, of said national prohibition act: Provided, That no hange of formula shall be required and no permit to manufacture any article under subdivision (E) controlled the country of the controlled t division (E), section 4, title 2 of the national prohibition act shall be revoked unless the sale or use of such article is substantially increased in the community by reason of its use as a beverage or for intoxicating beverage pur-

No spirituous liquor shall be imported into the United States, nor shall any permit be granted authorizing the manufacture of any spirituous liquor, save alcohol, until the amount of such liquor now in distilleries or other bonded warehouses shall have been reduced to a quantity that in the opinion of the commissioner will, with liquor that may thereafter be manufactured and imported, be sufficient to supply the current need thereafter for all nonbeverage uses: Provided, That no vinous liquor shall be imported into the United Vinous liquor shall be imported into the different states unless it is made to appear to the commissioner that vinous liquor for such nonbeverage use produced in the United States is not sufficient to meet such nonbeverage needs: Provided further. That this provision against importation shall not apply to shipments en route to the United States at the time of the provided further of the content of this local that provided further

passage of this act: And provided further.

That the commissioner may authorize the return to the United States under such regulations and conditions as he may prescribe any distilled spirits of American production exported free of tax and reimported in original packages in which exported and consigned for redeposit in the distillery bonded warehouse

redeposit in the distillery bonded warehouse from which originally removed.

Sec. 3. That this act and the national prohibition act shall apply not only to the United States but to all territory subject to its jurisdiction, including the territory of Hawaii and the Wisitial Market and the control of the state of the the Virgin islands; and jurisdiction is con-ferred on the courts of the territory of Hawaii and the Virgin islands to enforce this act and the national prohibition act in such territory and islands.

and islands.
Sec. 4. That regulations may be made by the commissioner to carry into effect the provisions of this act. Any person who violates any of the provisions of this act shall be subject to the penalties provided for in the national mobilition at

tional prohibition act.

Sec. 5. That all laws in regard to the manufacture and taxation of and traffic in intoxicating liquor, and all penalties for violations of such laws that were in force when the native transfer of the control of the c or such laws that were in force when the na-tional prohibition act was enacted, shall be and continue in force as to both beverage and nonbeverage liquor, except such provisions of such laws as are directly in conflict with any provision of the national prohibition act or of this act; but if any act is a violation of any of such laws and also of the national pro-hibition act or of this act, a conviction for such act or offense under one shall be a bar to prosecution therefor under the other. All taxes and tax penalties provided for in section 35 of title 2 of the national prohibition act shall be assessed and collected in the same manner and by the same procedure as other taxes on the manufacture of or traffic in

Induor.

If distilled spirits upon which the internalrevenue tax has not been paid are lost by
theft, accidental fire or other casualty while
in possession of a common carrier subject to
the transportation act of 1920 or the merchant marine act, 1920, or if lost by theft
from a distillery or other bonded warehouse,
and it shall be made to appear to the commissinger that such losses did not occur as the and it shall be made to appear to the commissioner that such losses did not occur as the result of negligence, connivance, collusion or fraud on the part of the owner or person legally accountable for such distilled spirits, no tax shall be assessed or collected upon the distilled spirits so lost, nor shall any tax penalty be imposed or collected by reason of such loss, but the exemption from the tax and penalty shall only be allowed to the extent that the claimant is not indemnified against or recompensed for such loss, This provision shall apply to any claim for taxes or tax penalties that may have accrued since the passage of the national prohibition act or that may accrue hereafter. Nothing in this section shall accrue hereafter. Nothing in this section shall be construed as in any manner limiting or restricting the provisions of title 3 of the national prohibition act.

Sec. 6. That any officer, agent or employe of the United States engaged in the enforcement of this act, or the national prohibition act, or any other law of the United States, who shall any other law of the United States, who shall search any private dwelling as defined in the national prohibition act, and occupied as such dwelling, without a warrant directing such search, or who while so engaged shall without a search warrant maliciously and without reasonable cause search any other building or property, shall be guilty of a misdemeanor, and upon conviction thereof shall be fined for a first effense not more than \$1,000 and for a subsequent offense not more than \$1,000 or imprisoned not more than one year, or both such fine and imprisonment.

Whoever not being an officer, agent or employe of the United States shall falsely represent himself to be such officer, agent or employed the such officer, agent or employed the such officer. ploye and in such assumed character shall arrest or detain any person, or shall in any

manner search the person, buildings or other property of any person, shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than \$1.000 or imprisoned for not more than opear, or by both such fine and imprisonment. (Approved Nov. 23, 1921.)

# DEATH OF POPE BENEDICT XV.

Pope Benedict XV., the 260th in the line of heads of the Roman Catholic church, died in Peter the Vatican, Rome, at 6 o'clock on Sunday morning, Jan. 22, 1922, after a brief illness sacr from pneumonia resulting from an attack of

from pneumonia resulting from an attack of influenza. He had occupied the papal throne less than eight years, having been elected pontiff Sept. 3, 1914, and crowned three days later. He was born in Genoa, Italy, Nov. 21, 1854, and consequently was in his 67th year at the time he passed away.

The body of the dead pope was removed from the room in which he died to the sacrament chapel of St. Peter's. There it was placed on a catafalque and surrounded by candles behind the massive gilded gates of the inclosure. The body was attired in regal robes with a gold miter on the head and a rosary in the hand. It lay in state for three days and was viewed by thousands of Italians and oth-

ers. At noon on Jan. 26 the doors of St. Peter's church were closed. At 3 o'clock the body was carried from the catafalque in the sacrament chapel to the choir chapel across the nave, where the funeral ceremonies took one nave, where the funeral ceremonies took place. Only the cardinals and the papal nobility, members of the late pope's family and the diplomatic corps attached to the Vatican were admitted. The body was placed in a white casket which in turn was inclosed in a lead coffin bearing in Latin the following inscription:

"The body of Benedict XV., pontifex maximus, who lived sixty-seven years, reigned over the universal church seven years and died Jan. 22, 1922."

The coffin was lowered into the old basilica under the papal altar, where it was placed beginning the papal altar, where it was placed beginning the papal altar.

side the caskets containing the bodies of Pius

#### POPE PIUS XI, SUCCEEDS BENEDICT XV.

Cardinal Achille Ratti of Milan, Italy, was cardinal Achille Rath of Mian, Italy, was elected and proclaimed pope in succession to Benedict XV. on the forenoon of Feb. 6, 1922. He took the name of Pius XI. Soon after assuming the papal vestments he appeared on the balcony of St. Peter's and bestowed his benediction on the assembled multitude. He pleaded for universal pacification and blessed all nations and all peoples. The secretary of state, through Prince Chigi-Albani, marshal of the conclave, gave out the following statement concerning the benediction and the significance attached to the place from which it was bestowed:

His holiness Pope Pius XI., while making every reservation in favor of the inviolable rights of the church and the holy see, which rights he has sworn to defend has given his first blessing from the exterior balcony overlooking the square of St. Peter's in the special intention that his blessing should be special intention that his blessing should be addressed not only to those present in the square, and not only to those in Rome and Italy, but to all nations and all peoples, and should bring to the whole world the wish and announcement of that universal pacification we all so ardently desire."

The conclave for the election of a new pope began in the Sistine chapel of the Vatican on the morning of Friday, Feb. 3. Two ballots

the morning of Friday, Feb. 3. Two ballots were taken on that day, two on Saturday and two on Sunday, or six in all, without any candidate's receiving the two-thirds vote necessary. It was on the seventh ballot, taken on Monday morning, that Cardinal Ratti was chosen head of the Roman Catholic church. No American cardinal was present, William H.

O'Connell, archbishop of Boston, arriving in Rome an hour after the election took place. One of the first acts of Pope Pins XI, was to reappoint Cardinal Pietro Gasparri as papal secretary of state. The new pontiff was crowned with the usual ceremonies on Sunday. Feb. 14.

Achille Ratti, who became the 261st head of the Roman Catholic church, was born in Desio, Italy, March 31, 1857. For many years he was librarian of the Ambrosian library and archives at Milan, Later he became libraria at the at Milan. Later he became librarian at the Vatican. In this position he remained until the new republic of Poland established official diplomatic relations with the Vatican, at which time Ratti was appointed archbishop and was assigned to Poland as the representative of the holy see. His discharge of important ecclesiastical functions when the Polish queseccessastical functions when the Polish ques-tion became acute earned for him the esteem of Benedict XV. and the gratitude of Vatican authorities. It was because of his service that the red hat was conferred upon him on June 16, 1921, when a similar honor was be-stowed on Cardinal Laurenti. Poland was torpoles.

June 16, 1921, when a similar honor was bestowed on Cardinal Laurenti. Poland was torn with the estrangements from church brought about by the communistic propaganda from soviet Russia. Archbishop Ratti counteracted the spread of radicalism. He also won the esteem of Polish Catholics by his efforts in behalf of destitute children orphaned by the war. Cardinal Ratti as the archbishop of Milan presided over one of the most important archicosen in the cardinal state of the most important archicosen in taly. The city being a great industrial center, one of its main requirements that the cardinal shall possess a thorough knowledge of political and social problems.
